JUDGE BREWER ON GRAFTING EVIL

So Much Going on Today Among Public Officials as to Startle The Country.

ILLUSTRATES WITH EQUITABLE

Pays Fine Tribute to Mr. Cleveland And Also to President Roosevelt.

Milwaukee, July 19.—Justice David Brewer of the United States supreme court delivered a short address before a large assemblage of life insurance agents in the Masonic building in this city tonight. He devoted most of his talk to modern graft, and praised President Roosevelt for his efforts to make public affairs pure and honest.

"This has been a year which may be characterized as one of great insurance upheaval," he said. "The result has been prejudicial to the interest of a certain company and also to the interests and business of others. I believe this will result in great benefit to insurance throughout the world. The moment private pecuniary gain is sought through the advantage of a trust some one is guilty of grafting. For instance these funds are the funds of this insurance company, and this and that bank and this and that trust company. We will take these trust funds, put our assets in their place and let the insurance company carry them until we can sell them with a profit. The company takes a risk of carrying them until such time as they can sell the assets, the insurance company may be able to pay its interest in full as it has been doing theretofore, but the men who have done this have not fulfilled their trust with an eye single to the company's benefit. They have sought to make these funds inure to their private gain and cast upon the company the risk great or small of that speculation. Why, do you suppose for a moment, that Mr. Ryan paid two and a half millions for property which, under no legal circumstance could pay him more than 3 per cent or 4 per cent interest with the idea that all he could get would be this interest? There may be such philantropists, but they are not connected with insurance companies.

"There was never a truer saying than that by Grover Cleveland, that a public office is a public trust. There is today so much grafting going on among public officials as to startle us. I am not speaking now about the coarser kind of grafting, such as buying votes, paying money, etc., which we all conedmn, I have reference to the more insidious ways that the one holding public office is not carrying on the duties of that office with an eye single to his trust, in prostituting in one way or another that office for his own gain or the gain of his ends.

"Take the president of the United States. Along in the winter Santo Domingo put herself on a financial footing. Suppose the president had acted secretly and advised his friends to buy up Santo Domingo bonds. Wouldn't that shock the people of the country? Yet the government would lose nothing and some would be private gainers. Suppose the United States supreme court justices would give out information in advance of certain decisions. Would not you revolt at such a transaction? It would be unworthy—this would be grafting.

"A month ago today I was in Tennessee. I went to the Hermitage, where lie the remains of Andrew Jackson, and I thank God today that there is another equally honest president, and it seemed as if I could hear falling from the lips of Theodore Roosevelt the words, 'Public affairs must and shall be pure and honest.' No president can do all the work. No president or Congress can do all this. It requires not merely action of officials of the government, but action of everyone that the administration of public affairs be kept pure and honest."

SURVIVORS OF IROQUOIS.

Devising Plans to Distribute Millions Among Them.

Albany, N. Y., July 19.—To devise the best means of distributing $2,500,000, which the nation owes the survivors of the Iroquois Indian tribes in the state and to study other local and Indian problems, Speaker Nixon today appointed a special committee. The committee will visit the various reservations during the summer and fall, and report to the next legislature.

The large sum due the New York Indians was derived from the sale of land in Kansas, which was given them in exchange for the old St. Regis reservation in this state. After the exchange was made the Indians refused to go to Kansas, and the land there was sold for their benefit.

It is probable that after ascertaining the views of the chief men among the Iroquois and their attorneys, the committee will go to Washington and consult with the commission on Indian affairs.

Another subject to be investigated is the question of Indian citizenship. Many of the Iroquois are prosperous and well educated, and there is a growing sentiment in favor of making them citizens and no longer the wards of the government.

A Wart or Pimple

MAY BE CANCEROUS.

When a wart, mole or pimple shows any sign of tenderness it is a warning that bad blood is behind it. Often these places are on the face, hands, legs or other part of the body for years, and give no sign to cause uneasiness, and then with a little rough handling, a slight cut or bruise will develop into a sore that refuses to heal, and the sufferer finds himself afflicted with a cancerous ulcer.

About three years ago a blister came on the right side of my nose. It grew speedily in spite of all efforts to heal it up; the pain was not very severe at first, but increased when the sore began to slough and discharge matter. At times the place would scab over and appear to be getting well, but the scab would drop off, leaving a red, angry looking ulcer. I had almost despaired of ever curing it, when my attention was called to S. S. S., and after taking a few bottles the sore began to gradually grow smaller, the discharge stopped and I was cured.
Owensboro, Ky. JNO. MASSIE.

If the blood is pure and healthy these sores cannot exist. S. S. S. is the ideal blood purifier. It cleanses the blood of all poisons and impurities, making it strong and vigorous and able to supply the body with the strength and nourishment it needs. There is nothing that acts so promptly as S. S. S., toning up the entire system, helping the general health and curing sores permanently. Do not let a wart or pimple develop into a cancerous ulcer, but purify your blood with S. S. S. It is nature's remedy, purely vegetable, and while driving all poisons from the blood, will build up every part of the system. Book on the blood and any medical advice desired will be given without charge, to all who write.

Rather Different Flour.

Any old kind of flour may suit some folks, but we're after people who know FLOUR from FLOUR. We want them to try.

SMITH'S FLOUR.

STANLEY DOLLAR.

Case Against Him for Selling Tickets Still Unsettled.

Honolulu, July 19.—The case against Stanley Dollar, president of the Dollar Steamship company, on the charge of grossly cheating by selling tickets for passage to Victoria on the steamer Stanley Dollar, which had no passenger accommodations, is still unsettled. The steamer left for Victoria Saturday night last with several hundred Japanese, having been given a passenger license by Inspector Birmingham, upon the latter's arrival here.

Mr. Dollar said he will fight those who are trying to prevent him from taking laborers from here. He had not intended to make any other trips, he declared, but things had been made so unpleasant here for the company that he will put a steamer regularly into the business of carrying Japanese from Honolulu to Victoria.

The Dollar Steamship company has six steamers on American registry, he said, one of which would be used if convenient, or another steamer purchased.

The ultimate destination of the Japanese is California.

TRAGEDY OF THE DESERT.

One Prospector Returns to Tell Tale of Others' Death.

Goldfield, Nev., July 19.—John Mullin, C. M. Titus and Earl Weller of Telluride, Colo., left Rhyolite on June 20 on a prospecting trip to Death valley. Today Mullin was brought to Rhyolite half crazed from the terrible suffering he had undergone. He told how Titus and Weller wandered over the desert and in 15 days failed to return. It is believed that they perished. Two horses and 19 burros belonging to the party also met their death from thirst.

MUNICIPAL BAKESHOPS.

Appeal to Unions in America in Favor of Them.

New York, July 20.—An appeal to the bakers' unions in America, calling upon them to assist in the establishment of municipal bakeshops in all cities of the United States, Canada and Mexico, has been prepared by the Journeymen Bakers and Confectioners' International union. It calls attention to the possible good that may result from state or municipal control of various public utilities and declares that the food product industry is among the most important on the list.

Atty. Collins' Case.

San Francisco, July 19.—The demands of the Victoria authorities for the witnesses and all original records in the case against George D. Collins, wanted here for bigamy and perjury, will be complied with by Dist.-Atty. Byington. The witnesses from this city who will leave for Victoria on Friday night, are Atty. Curran, Notary Public Henry, Asst. Dist.-Atty. Whiting and possibly William Newman.

To surround the records with every safeguard, one of the witnesses will be sworn in as a deputy county clerk and the county papers and books placed in his charge.

Tin Plate Makers.

Pittsburg, July 19.—Plans are under consideration by the independent sheet and tin-plate manufacturers of the country for the formation of an organization which it is said will include practically every independent manufacturer outside the American Sheet and Tin-plate company in the United States.

T. J. Shaffer, whose term as president of the Amalgamated Association of Iron, Steel and Tin Workers expires next October, has been tendered the position of secretary of the new concern.

Morton Dismisses Jordan.

New York, July 19.—Chairman Paul Morton of the Equitable Live Assurance society today summarily removed as comptroller T. D. Jordan, and appointed in his stead William A. Day, assistant attorney-general of the United States.

Chairman Morton gave out a statement in which he said: "The reason for Mr. Jordan's removal was his refusal to furnish me information regarding important transactions of the society which I am investigating."

Suicided or Lynched.

Lancaster, Mo., July 19.—The dead body of Alonzo Jackson, one of the best known of Schuyler county farmers, who yesterday killed his 17-year-old wife in a fit of jealousy, was found hanging to a tree early today with a bullet hole in his brain.

It is conjectural whether he was lynched to avenge the death of his wife or was overcome by remorse and committed suicide.

Logan Historical Collection.

Springfield, Ill., July 19.—In a letter received today by Gov. Deneen, Mrs. John A. Logan formally tendered the valuable historical collection owned by Mrs. Logan to the state of Illinois. The collection which is closely connected with the life of Gen. John A. Logan and the history of the country and the state, is now in memorial hall at Mrs. Logan's house in Washington.

D. T. Terry Arrested.

Los Angeles, Cal., July 19.—Sheriff White of this county today arrested D. T. Terry, 40 years of age, former president of the Howard county bank at Nashville, Ark., on a charge of embezzlement in receiving money in an insolvent bank. A reward of $500 was offered for Terry's capture by the state of Arkansas. He has been a fugitive since 1903. Sheriff White received a tip from the Arkansas authorities a few hours previous to the arrest that they might be in this city and after a short search succeeded in locating him. Terry submitted to arrest without objection, and was locked up. He had been living here with his family for some time.

J. B. GREGORY, COUNTERFEITER.

Successfully Eluded United States Secret Service Men for Twelve Years.

CAPTURED IN LOS ANGELES.

Is an Escaped Convict and Will Have To Serve Out Unexpired Term—Was a Bold Operator.

Los Angeles, Cal., July 19.—After successfully eluding the United States secret service men for over 12 years, J. B. Gregory, alias Harry Leonard, expert counterfeiter and escaped convict, was captured here today and turned over to the United States authorities to serve out an unexpired term of seven years in the federal prison at Detroit, Mich. For eight months past he has been living with his wife in this city.

He had been bold in his operations and had put out a flood of spurious $1 coins. He deposited cash bail in good money for his appearance in court and then jumped his bail. At that time he was living under the name of Harry Leonard. Oct. 15, 1892, Deputy United States Marshal Mudgett arrested Gregory in Seattle and he was tried and convicted of counterfeiting and sentenced to a term of seven years in the penitentiary on Dec. 31 of the same year and he was sent to McNeill's island.

NEGRO BOY LYNCHED.

Had Attempted an Assault on a Four-year-old Girl.

New Braunfels, Tex., July 20, 1 a. m.—A mob tonight battered down the doors of the county jail and lynched Sam Green, a 16-year-old negro boy, who attempted a criminal assault at this place Tuesday night on the 4-year-old daughter of William Karbach, a German farmer, who lives on the outskirts of the town. The mob could not break into the cell where the prisoner was kept, so the leaders thrust their guns through the opening of the steel walls and fired three shots. The negro sank to the floor dead and the mob quietly dispersed. The negro protested his innocense, but during the day had confessed his guilt to the sheriff. He had been employed by Karbach to work on the farm and went out to drive home some cattle, the little child following. It was while on this errand that the negro attempted the crime. Newbraunfels is a little German town 30 miles from San Antonio, in which the negroes even speak German and which has a state reputation as a law abiding community. It is also noted for the fact that during his trip through Texas President Roosevelt made a brief speech in German to the inhabitants, commending them on their reputation as law abiding citizens.

TEA

The modestest thing in the world is tea. It is only tea!

EQUITABLE OFFICIALS.

Ex-Comptroller Jordan and Mr. Alexander Very Ill.

New York, July 20.—Thomas D. Jordan, who has just been removed from the controllership of the Equitable Life Assurance society, which office he had filled for a decade, is reported to be seriously ill at his home in Englewood, N. J. He went home late yesterday suffering much from the heat and in the evening a physician was called. It was stated later that Mr. Jordan was on the verge of nervous prostration.

No change is reported in the condition of James W. Alexander, who is a patient in a private sanitarium near Babylon, L. I. Attended by a nurse, he is now able to spend some time daily in the open air.

It is understood that the first official action on the part of the state against former officials of the Equitable society will come up in the form of suits to be filed this week by Atty. Gen. Mayer. Actions of various kinds are in the course of preparation, and will be led by a suit for an accounting directed against the old board of directors.

There will be 40 of these men cited in the complaint as having been responsible for the funds of the society, and it is said they will be asked to give an account of their official acts on that score. Under the contemplated procedure, the old directors can be placed on the witness stand and questioned about their transactions. Under the laws of this state, it is possible to bring these actions in the broadest way imaginable, so as to leave the field of inquiry for the prosecuting officials absolutely without restriction. It is not believed that the attorney general will experience difficulty in getting service of in accomplishing the other formalities, for many of these who are to be defendants already have signified their willingness to meet him half way.

UNITED MINE WORKERS.

Spent a Million and a Half to Win a Strike.

New York, July 20.—Testimony has been given at a hearing before Commissioner of Licenses Keating in this city to the effect that the United Mine Workers of America had spent more than $1,500,000 in an effort to win a strike which began in the bituminous coal mines of Alabama and Tennessee a year ago. The statements were made by General Labor Agent Hugh Dewitt of the Tennessee Coal, Iron & Railroad company.

Dewitt asserted that the union contributed an average of $1,000 a day for the maintenance of the members of local unions in those two states, and that in addition to the $365,000 spent by the organization, the union had expended $26,000 within the last three months for railroad tickets to enable strike breakers to return to their homes.

The statement by Dewitt was brought out in hearings on complaints against two large employment agencies, which have been engaged in obtaining men for the mines. The charges against the agencies are to the effect that they engaged men and sent them to the south under false pretense, restraining them on the trains en route against their will. One witness was the wife of a machinist. She told of going with her husband and a carload of other men who broke the windows of the coach at Birmingham and made their escape.

Croup.

Is a violent inflammation of the mucous membrane of the wind pipe, which sometimes extends to the larynx and bronchial tubes; and is one of the most dangerous diseases of children. It almost always comes on in the night. Give frequent small doses of Ballard's Horehound Syrup and apply Ballard's Snow Liniment externally to the throat. 25c, 50c, $1.00. Sold by Z. C. M. I. Drug Dept. 19
