have had some interesting races on the far away side. On account of the accident above noted Lawson was suspended for two months.

On an 18, McFarland won from Taylor in a one-mile open. In a five-mile handicap, McFarland, towing Lawson, forced Taylor off the track so that he had to ride for 40 yards on the grass. He got back in time, however, to beat McFarland for second place. Lawson winning. McFarland was suspended for 30 days, but this sentence was changed to a fine of \$2. On an 20, another international test was held, and Lawson did not have the aid of McFarland in the final heat and Taylor beat him nearly a length.

The Australian officials are in a predicament with their desire to insure fair play for Taylor, McFarland and Lawson are there to ride under contract and are big drawing cards. If they enforce a suspension against them the races will be crippled and the two team mates will immediately go to France. They have each been disciplined several times, but the officials always substitute a fine for suspension.

San Francisco, March 28.—By the score of six games to one, Michael J. The series to decide the championship will consist in all of 15 games, or rather of the best eight in fifteen, and to match will be concluded at the Olympic club of the championship. ## Memphis Track Fast.

Memphis, March 27.—Indications tonight are that the Montgomery handicap, the all-around event, which will be decided at the local track tomorrow, will be run over a fast track. Many of the candidates were out for light work today. Withful with Fuller in the saddle, probably will be the best favorite. The Hirschvogel filly has been in fine fettle and is expected to give a good account of herself. There is some talk tonight of an imported Martinian, one of the strongly backed entries, may not start in the big handicap.

Thomas Nolan Tries to Smuggle Drug  
Into State Prison Following Release.

After being out of the state prison only a few hours, Thomas Nolan was re-arrested at that institution on Saturday night by one of the guards while attempting to smuggle opium in to some of the prisoners. The man was released Saturday morning. He came into the city and proceeded to get drunk and then after securing a cargo of opium started for the prison. One of the guards noticed a man lurking in the shadow of the prison wall and immediately captured him. Upon being searched in the office of the prison, the opium was found. The sheriff's office was notified and Deputy Sheriff Sted went after the convict and brought him to the county jail. Nolan had just completed a term of one year for selling liquor to Indians. He will now have to answer the charge of attempting to smuggle contraband goods to the inmates of the state prison.

## RATHBONE'S APPEAL.

He Wants His Case to be Reviewed by Congress.

Washington, March 27.—Senator Platt of Connecticut, chairman of the senate committee on relations with Cuba, has received from Maj. E. G. Rathbone an appeal for a review of his case by Congress. He calls attention to the investigation of the protests against the confirmation of Gen. Leonard Wood had recently by the senate committee on military affairs.

Maj. Rathbone has on file with Senator Platt's committee a request for an investigation of the circumstances under which he was convicted of complicity in the Cuban frauds, but no action ever has been taken in the matter. Maj. Rathbone's interest in the fight made recently against Gen. Wood was because of his belief that Gen. Wood used undue influence in bringing about his (Rathbone's) conviction. It is asserted also that the late Senator Hanna's interest in the case was due to the belief that Maj. Rathbone was dealt with unjustly. Maj. Rathbone was in his appeal to Congress all of the comment concerning his case which was made by Senator Hanna in his brief regarding the Wood case which was offered in executive session and is now a confidential document of the senate. Maj. Rathbone bases his claim for an investigation upon his "right to be heard as an American citizen."

## BRYAN IN THE PULPIT.

He Depreciated Training of Boys in Art of Warfare.

New Haven, Conn., March 27.—William J. Bryan delivered an address this afternoon before the People's church, in the Hyperion theater, on "The Price of Peace." Mr. Bryan eventually took up the question of war and inveighed against the present war between Japan and Russia, saying that he hoped there would be a general demand made to find out the cause of that warfare. Knowing the exact cause the world would then be enabled to form a judgment as to which side has justice in its contention. He deprecated the prevalence in this country of training boys and young men in the art of warfare. The only warfare that man ought to wage, said he, is the warfare against evil in all its forms.

"Society is in danger," continued Mr. Bryan, "because of the terrible conflict that threatens between the rich and poor. Shall we say that the outcome will be a warfare between class and class?"

this has been one of the fiercest battles with snowdrifts they have ever experienced, and that even the immense rotary plows which were sent against the drifts pushed by three heavy engines were almost powerless to cope with the huge mountain of ice and snow, and that in many instances blasting had to be resorted to.
