# H\_CLA STRIKE 13 IMPORTANT ONE

Lower Tunnel Breaks Into Rich Ore Five Hundred Feet Below Old Workings.

1) OCCURS IN A BEDDED VEIN

Mine Has Been a Shipper-Sample Placed in Hands of Local Assayer.

wat the Hecla mine in Beaver county bids fair to become an important Beaver county producer, is the belief of a good many who have watched the progress of development in that property recently. They had occasion to impress this fact more indellibly in their impress this fact more indefibly in their minds today when Manager J. M. Reynolds landed in town today from a trip to camp. Mr. Reynolds brought with him a sack filled with samples of high grade silver-lead carbonate ore encountered recently in the lower tunnel, which has tapped the ore body about 500 feet below the old workings.

Mr. Reynolds went to the mine several days ago in response to a teleeral days ago in response to a tele-gram from Supt. George Weston, in which it was indicated that something of unusual importance had happened and when Mr. Reynolds arrived on the and when Mr. Reynolds arrived on the scene ascertained that the tunnel had out through about three feet of the reddish material identical to that which has constituted a bulk of the shipments made from the mine heretofore. This ore, so Mr. Reynolds says, assays about \$70 to the ton, while the general average of the 12 cars shipped ran about \$40 to the ton. But what pleased him most was the disclosure of one and a half feet of ore that will assay very much higher—possibly \$200 assay very much higher-possibly \$200

assay very much higher—possibly \$200 to the ton.

A sample of the rich rack was placed in the hands of a local assayer this morning and returns are expected from it late this afternoon. The stock of the Hecla company is closely held, H. P. Clark of the Commercial National bank and Mr. Reynolds being the prin-; clapl local share holders.

The Hecla ore is found in a bedded vein in line dipping with the contour of the mountain.

of the mountain.

### ON MINING EXCHANGE.

Iron Blossom Some Higher-Closing Quotations and Sales.

Quotations and Sales.

Outside of Mason Valley and Columbus Consolidated, the trading in listed stocks during the forenoon session of the mining exchange, was confined to the Tintic issues. Iron Blossom closed at a slight advance over the quotations of yesterday afternoon; Sloux Consolidated held its own; while Uncie Sain Consolidated and Black Jack were a shade lower.

Anong the unlisted sales were Silver King Coalition, at \$3.90; Uintah Treasure Hill, at 17 and 17½ and Bingham Central Standard at 28 cents. The closing quotations and sales were: ing quotations and sales were:

Guggenheims Exerting Every Ef-

THREATEN TO SEEK COURTS

Is Phillips a Trouble Breeder? Walker

Comments on Situation-Splen-

did Record of Mine.

That the Guggenheims are putting

forth every effort within their power

to prevent the building of a new smel-

ter in Tooele county by the Utah Con-

solidated Mining company is indicated

in late dispatches from the east. It

is plain that they do not want any

more competition for the Ganfield

smelter, if it can be helped and now

that they have found out that they

have gone to the end of the string in dillatory tactics with President Broughton of the Utah Consolidated,

Broughton of the Utah Consolidated, other moves are being made to block the program of the latter.

When President Broughton wired Manager Risque to exercise the Toocle land options a certain Guggenhelm official is reported as having remarked that the mere fact of Uhat Consolidated paying out approximately \$100,000 to the farmers of Toocle county did not make it a certainty that a smell-

did not make it a certainty that a smel-ter would materialize. The expendi-ture of his money he said, was a small matter for the Utah Consolidat-

NEW OGDEN COMPANY.

(Special to the "News.")

Ogden, Oct. 14.—Articles of incorporation for the Utah Mining & Quarrying company have been filed with the county clerk. The company is capitalized for \$10,000, with shares of the

par value of \$10 each. The incorpora-tors are M. L. Robinson of Salt Lake City: F. D. Hawkins, M. O. Bittner, and J. E. Johnson of Denver and C. A. Packman of Pleasant View. The com-

pany will do a general mining, quarrying and line burning business in Weber and Boxelder counties.

ECCLES A DIRECTOR.

A dispatch from Boston brings the formation that Silas W. Eccles, vice

information that Silas W. Eccles, vice president of the American Smelting & Refining company, has been elected a director of the Utah Copper company,

filling the place made vacant by the resignation of Col. Enos A. Wall, of this city, who has disposed of practically all his holdings in the big Bingham

ileve that the Guggenheims have uch whip hand over Utah Con-ated, or that they can block the ing of the smelter, unless they by agreeing to a contract ex-ely favorable to the Utah Con-ated company. tremely favorable to the Utah Consolidated company.

In some of the stories printed in eastern papers within the past week it has been stated that not all of the directors of the Utah Consolidated are in favor of the smelter proposition. That is perfectly natural, it is argued, for in one instance, James Philitps Jr., an out and out Guggenheim adherent; is president of the Nevada Consolidated, as well as a director of the American Smelting & Refining comapny. It is to be expected that he would oppose anything that does not just suit the Guggenheims and it is recalled that while in the city recently Mr. Phillips did not hesitate to spread the report that little stock of record stands in the names of a majority of the present directors.

WHAT WALKER SAYS. WHAT WALKER SAYS.

George L. Walker, in the current issue of the Boston Commercial, com-ments on the Utah Consolidated smelter situation and among other things

says:
"Of course it is not expected that all of the stockholders of any company would be in perfect accord on a mat-ter of as much importance as that of ter of as much importance as that of building a new smelter; nor is it rea-sonable to believe that all the direc-tors of any corporation would likely be present at a meeting held at this tors of any corporation would interly be present at a meeting held at this time of the year. It should be sufficient that a majority of the directors reached the decision, if any decision really has been reached; and President Broughton, under whose management Utah Consolidated has distributed millions of dollars in dividends, should certainly be trusted to direct its affairs at this time, especially when his plans have the approval of those of the board of directors who are available to attend metings.

"I know that the plans for the erection of a new smelting plant have received the most careful and painstaking attention from both a business and metallurgical standpoint, and that the

ing attention from both a business and metallurgical standpoint, and that the action of the management is neither hasty nor ill-advised. It is a most interesting fact that the same people who are criticising the Utah Consolidated management's action now, condemned it a year ago for making a custom smelting contract, and declared the company had lost its ore body through a fault.

"For two years past the Utah Consolidated's management has been pushing development work laterally and at depth in the mine, and prospecting extensively underground with a diamond

tensively underground with a diamond drill. Stockholders may rest assured that unless there is more than twice a that unless there is more than twice a four year's ore supply in the mine the company will not spend \$2,000,000 on a new smelter. I wish to go on record as predicting that the smelter, land and all, will cost less than \$2,000,000, and, that before it is finished Utali Consolidated will have secured some of the most profitable custom smelting contracts in the Salt Lake district." ontracts in the Salt Lake district.' A well known firm of Boston brokers.

A well known firm of Boston brokers.

Hayden, Stone & Co., who have handled much of the Guggenheim business in the past, and which holds a large block of Utah Consolidated stock in its name, has gone on record as oppos-ing the smelter plans of President Broughton and other members of the board favorable to it. After reciting the many vicisitudes experienced at the Garfield smelter, the firm says in a

recent market letter:
"We do not know that any great harm has been done in the exercising of the land options recently, but we do feel very strongly that this should not be followed by the expenditure of from one to two millions of dollars in the erection of a smelter, until it is recent market letter:

### PRAISE FOR YERINGTON.

Grant Snyder Visits Big Nevada Douglas and Other Mines.

Grans Snyder, who has been in the Yerington copper district for the past week, has returned overflowing with enthusiasm about this western Nevada region. Mr. Snyder is manager of the Malachite mine, where an energetic converting of the Malachite mine, where an energetic campaign of development is in progress. This company has not been employing as many men as some of its neighbors, nevertheless, as far as work

neighbors, nevertheless, as far as work has progressed, very gratifying results have been obtained.

While in camp, Mr. Snyder took advantage of the opportunity to visit the Nevada Douglas properties and declares that in the Ludwig end of the property alone has been developed 500,000 tons of 6 per cent copper ore. "The Ludwig," said he, "is certainly a great mine; but for all that I personally believe the original Douglas group, which formed the basis for the organization formed the basis for the organization of the Nevada Douglas Copper company is a mountain of undeveloped ore.
"I was allowed to inspect the Mason Valley mine, and while I do not feel at valley mine, and while I do not feel at liberty, to discuss the company's developments in any detail, it will not be wrong, I think, for me to say that a great, big, rich mine is being made. When you see an ore body that is continuous for 500 feet in length and proven for a width of 75 to 200 feet, and all without reaching its limits any all without reaching its limits any-where, almost, there is nothing to do but concede its splendid magnitude and tremendous intrinsic value. Well, that only gives a slight idea of what is being accomplished in the way of mak-ing a mine in the Mason valley ground."

The new town of Mason is growing rapidly, Mr. Snyder says, and may be-come the metropolis of the Yerington district, yet the town of Yerington is in a very flourishing condition.

### BINGHAM MARY SUED.

Holders of Mortgage on Bingham Property Want Their Money.

Property Want Their Money.

The property of the Bingham Mary Mining company may be sold at sheriff's sale, that is unless a certain mortgage is cancelled. In a suit brought in the district court the Bingham Mary Copper company, Simon Bamberger and Ida Bamberger are named as defendants and Peter Olson, Selina Williams, Mary Olson, and G. H. Backman, as plaintiffs.

It is set forth in the complaint that the defendants give a note for the sum named, and that neither the principal nor interest has been pald. The mortgage is on the Mary patented mining claim, in the West Mountain district. The property described in the mortgage was conveyed to the Bingham Mary Copper Mining company on Sept. 2, 1905.

The plaintiff's sale to satisfy the judgement which they expect to get.

## judgement which they expect to get.

OLD BOARD RETAINED. At an annual meeting of share-holders of the Bingham-New Haven Mining Co., the retiring officials were retained for another year. These are L. E. Stoddard, president; E. B. Critchlow, vice-president; T. W. Farnam, secretary and treasurer; with E. G. Stoddard and F. F. Brewster complete the board of directors. The Bingham-New Haven company owns a splendid group of properties in the Bingham district adjoining the Utah Consolidated possessions, and during the past year all effort was bent on developing tonnages of typical Bingham ore. During the year the management had doubled the available tonnage, and at present is shipping in to the American Smelting and Refining company 100 tons of ore daily. The company is a close corporation, and from one year's end to another little is said by those interested relative to operations. It is a big company, however, and the company owns a big mine which will be heard from in a more positive manner as present complete the board of directors. The in a more positive manner as present

## VETERANS IN MINING.

Thomas Rockhill and Jacob-Schallenberger in Emery County.

Thomas Rockhill, the Ely, Nev., miner, \$1 years old, who made a good clean-up a couple of years ago at Ely, is again in Emery county, making his third visit here, to resume work on some copper claims near Muddy creek, which he and the Nelson brothers and Chris Madsen of Cleveland, located some two years ago, and which are about 15 miles south of Emery, says the Emery County Progress. The annual Emery County Progress. The annual assessment work and some further exploitation willi now be done. There are a dozen claims in all.

Mr. Rockhill is accompanied by Jacob

Schallenberger, aged 75, who is another of Ely's fortunate pioneer claim own-ers, and who has also made a "killing" in that camp of copper, and who has bought into the Emery county propo-sition with Mr. Rockhill, the two hav-ing purchased the Nelson and Madsen interests.

"We are going south at this time," said Mr. Rockhill yesterday, "for the purpose of looking over the property and putting men on to do the annual assessment work. We have some splendid ground down there and one of these days we believe the country will attract a great deal of attention. I ex pect to be down there several weeks." Mr. Rockhill is one of the best pre-I exserved men of four score and more years in the country. Were it not for his white hair he would pass for a man in the sixties. As he sat in the Anderson house parlor last evening and discussed plans for the development of his Emery county property, one would have thought him a man of 40 years, inspired by all the hope and confidence of a younger prospector filled with his first mining enthusiasm.

## SAN FRANCISCO MARKET.

James A. Pollock & Co., bankers and brokers, furnish the following from San Francisco on Neveda mining stocks to-day:

### CONCENTRATES.

Manager Brace was in from Bristol yesterday, and reports that both the May Day and Gypsy mines are proving greater propositions in ore producers than ever before. Teams are now hauling ore, but it is impossible to move all ore that is being mined, consequently there is an accumulation of six hundred tors on the dumps and in the dred tons on the dumps and in the bins.-Pioche Record.

### MAY ADMIT MARBLE FREE.

Collector Greenewald of the Salt Lake custom house received today, advices of the shipment from San Francisco to this city, \$1 cases of marble and statuary for St. Mary's cathedral, for the great altars to be erected in the new edifice. The marble is from the Carrera quarries in Italy and came by ship around the Horn, at much less cost than by rail shipment across the American continent. The duty on the marble is \$4,220.91; but the collector is in correspondence with the treasury department to have this duty remitted allowing the marble and statuary entrance to this country free. The collector says this has been done in the case of churches before, and he has no doubt but that the custom of remittance of duties will be observed in this case also. The altar is the gift of Miss Frances O'Meara of this city. Collector Greenewald of the Salt Lake

### GOVERNOR CUTLER RETURNS.

He Says "Dry" Wave of Two Sorts Prevails in California.

The beneficial results of the recently held Transmississippi congress will be farreaching, in the opinion of Governor John C. Cutler, who returned from the Pacific coast yesterday afternoon. Perhaps the action of the congress relative to protection of the sugar beet industry will most directly benefit Utah, thinks the governor. At the second day's session there were from 1,000 to 1,500 delegates in attendance, On that day Governor Cutler addressed the gathering on "The Conservation of Natural Resources," a subject that claimed the undivided attention of the congress.

claimed the undivided attention of the congress.

San Francisco is fast coming again its own, the amount of building, rebuilding and general improvements being stupenduous, says Governor Cutler. From the Golden Gate city he went down to Los Angeles. All the way he found the country much in need of moisture. The wave of prohibition and local option that is sweeping the country has affected the vineyard products of California. Grapes are now sold at \$7 a ton, instead of \$15, as formerly, and much of the yield is being converted into grape juice rather than wine. Basing judgement upon the sentiment prevailing for the most part among men he met, Governor Cutler is of the opinion that Taft will carry California.

## WEATHER REPORT

WEATHER CHANGE COMING.

Barometer Indicates Storms to Come Will be General.

There is a change coming in the weather with three-quarters of the country covered by low barometric areas, so that when the storms come they are likely to be general. The mercury keeps in the upper section of the thermometric tube, registering 71 degrees yester.ay, cutting down coal consumption and giving the coal operators an opportunity of stock up against the advent of steady cold weather. The barometric pressure has fallen in all districts since last report, with lowest pressure over the south plateau, north Pacific and British Columbia. Over the Atlantic and Gulf states the pressure is high. The north Pacific storm has caused pecipitation ovr portions of Orgon, Wasnington, Idaho and Montana, with heavy rainfall as follows: Portland, 2.33 inches, and Roseburg, 1.50 inch. No precipitation has fallen elsewhere. Moderat temperature prevails in all districts with lowest at time of report at Moderat temperature prevails in all districts with lowest at time of report at Modera, Utah, and Northfield. Vermont, 36 degres.

The north Pacific low pressure will cause partly cloudy weather in this locality with showers tonight or Thursday.

Meteorological Report—Record at, the local office, United States weather bureau, for 24 hours ending at 6 a.m., today:

Temperature at 6 a.m., 69; maximum, 71; minimum, 59; mean, 55; which is 12 degrees above normal. Total excess since Jan. 1, 412 degrees, Total precipitation since first of the month, 36 inches, Relative humidity, 31 per cent.

# MARKET DUEL LOW AND IRREGULAR

New York, Oct. 14.—Demand for stocks at the opening today was very dull but fractional gains were effected in almost all cases.

Obscure stocks were brought into activity but their strength was not regarded favorably and holders of other stocks sold, causing a general decline to below yesterday's final figures. Westinghouse Electric advanced 5¼. American Let 1½ and American Beet Sugar 1% and prefered 2½.

Some of the minor stocks which were made active at the advances yesterday were found unsupported. General selling followed and the resulting declines ran to a point or more in numerous stocks. Some recovery followed but this put a stop to the activity.

Bonds were steady.

The market held firm after the recovery had reached about ½ in the important stocks. Western Union fell 1%. The market closed irregular and dull. Union Pacific and National Lead sold 1% lower than last night. There were but feeble rallies form this low level. Virginia Carolina Chemical prefered rose 1½ and Pacific Coast 2

### LIVESTOCK.

CHICAGO.

Chicago, Oct. 14.—Cattle — Receipts about 2,000; market steady. Beeves, 3.40 lower. Lights, 5.25@5.80; mixed, 5.40@6.05; @5.70; stockers and feeders, 2.60@4.50; cows and helfers, 1.80@5.30; calves, 6.00 @8.50.

BOSTON.

Boston, Oct. 13.—The local wool trade continues very active, with hardening prices. Quotations:
California—Northern, 42@43; middle county, 38@40; southern, 37@38; fall free, 35@37.
Orgon—Eastern No. 1 staple, 57@58; eastern No. 1 clothing, 47@50; valley No. 1, 45@46.
Territory—Fine staple, 57@58; fine medium staple, 55@56; fine clothing, 48@50; in medium clothing, 45@46; half blood, 50@56; quarter blood, 43@40.
Pulled extra, 56@50; fine, 50@52; supers, 42@45.

LONDON.

LONDON. London, Oct. 13.—At the wool auction sales today the offerings amounted to 11,736 bales, including a large supply of medium grades. Competition was spirited and fine kinds brought firm prices Faulty stock continued irregular and in buyers, favor. New Zealand greasy crossbreds brought extreme rates when taken by Americans.

# PRODUCE.

BUTTER AND EGGS.

Chicago, Oct. 14.—Butter — Steady. Treamery, 20½ @ 27½; dairies, 18½ @ 24. Eggs—Steady. Firsts, 23. SUGAR AND COFFEE.

New York, Oct. 14.—Sugar, quiet, Fair refining, 3.45; centrifugal, 96 test, 3.95; molasses sugar, 3.20.
Refined—Quiet, Crushed, 5.70; powdered, 5.10; granulated, 5.00.
Coffee—Quiet, No. 7 Rio, 614; No. 4 Santos, 8%.

## EVAPORATED FRUITS.

New York, Oct. 13.—The market for evaporated apples is quiet, with early net crop fruit quoted at 5% @6s on spot and 1907 at 4% @6½. There was more demand for prunes, but little buying is noted for forward needs. Quotati ns range from 6% to 7½ for Oregon fruit. Apricots are not active but a fair demand for the season is in evidence and prices hold steady, with choice quoted at 8@8%; extra choice, 8% @9; fancy, 9%10%. 96:10½.

Raisins are easy on the coast. Locally loose muscatel are quoted at 5¼ @6½; choice to fancy seeded, 6½ @7½; seedless, 4% @6; London layers, 1.60@1.65.

CHICAGO.

CHICAGO.

Chicago. Oct. 14.—The wheat market opened easy with prices unchanged ¼ @ % easier than yesterday's close but soon ralled on buying by commission houses. The weakness at the start was due chiefly to a decline of ¾ at Liverpoot and subsequent rally was based chiefly on a decrease in the government report in the northwest and on continued dry weather in the southwest.

December which opened at 1.00¼ carly in the day.

Realizing by prominent longs caused weakness in corn. December opened ¼ lower at 63¼ to 63% and sold at 64.

Oats opened casy ¼ to ¾ 0½ lower. Some recovery was made owing to good demand for the May delivery. December opened at 48 to 48¼ and sold at 48% ¼ 48½.

Provisions were inclined to be weak

Provisions were inclined to be weak because of a 10c. decline in live hogs. The market, however, was irregular, opening quotations being 7½ lower to 10c. higher.

The wheat market continued firm the greater part of the day and closed firm The wheat market continued firm the greater part of the day and closed firm with December up ½ \$\pi\_5\$ at 1.01.

Corn—A decline in the price of the cash grain had a depressing effect and the market closed weak at the lowest point, December being off ½ \$\pi\_5\$ at 65\frac{1}{2}\$ (Close—Wheat—Dec., 1.01; May, 1.03\frac{1}{2}\$ (Corn—Oct., 73\frac{1}{2}\$; Dec., 63\frac{1}{2}\$ \$\pi\_5\$ (63\frac{1}{2}\$; May, 83\frac{1}{2}\$; July, \$\pi\_5\$ \frac{1}{2}\$.

634; July, 624. Oats—Dec., 484 @485; May, 514 @514; Onts—Dec., 45.2 gets 8; May, 31.3 gets 12.7 July, 46. Pork—Oct., 13.70; Dec., 13.80; Jan., 15.20; May, 15.17½. Lard—Oct. and Nov., 9.35; Jan., 9.15; May, 9.12½. Ribs—Oct., 8.82½; Jan., 8.17½; May, 8.20@8.22. .20@8.22. Rye—Cash, 76; Dec., 77<sup>1</sup>4; Hay, 81½. Barley—Cash, 56@62. Timothy—Oct., 8.59@3.55; March, 3.75@ 1.80. Clover—Oct., 8.00.
