SOME ENTHUSIASTIC OVATIONS.

Speakers Greeted With Cheers-Southers California and Utah Exchange Mutual Congratulations.

The reception last night at the Comnercial club which was tendered to the visiting state, county and city ofncials of southern California and the representatives of the various commercial organizations was one of the most successful and brilliant in the annals of the club. From 8 o'clock until a late hour the club quarters were crowded with the representative citizens of the state and this city who gathered to listen to the addresses of

Happy Response by President of Chamber of Commerce.

Maj. J. O. Koepfil, president of the Los Angeles chamber of commerce, in response to this cordial welcome, spoke in follows:

Last month when you visited us in Los Angeles, we promised soon to re-turn your visit. Thanks to Senator Clark's generosity, we hav not had to curb our impatience very long. So her we are, and might y glad of -for we had a sufficient sam Salt Lakers to make us feel as, the boy did about that he wanted it often and plenty We are about you · ple= when I find it most natural that of Salt Lake and Los Ange the people a strong affinity for each other, since it is the man who has done something himself who can best appreciate sturdy, active manhood in his successf fellow. You of Salt Lake found a desert, and on it you built a great, beautiful city, and you converted the dreary waste around it into productive farms, the homes of a prosperous and contented people. You tapped the mountains and they are yielding you their hidden wealth. Do we not held among our most valued possessions that blate whereon your skilled and artistic craftsmen fashioned from your own silver, your own gold, your own copper and your own mahogany wood that beautiful invitation with which you bid us here? SOME ACCOMPLISHMENTS.

When now you journeyed westward rou met long lines of solid orange rains, you met other trains of freight trains, you met other trains of neight carrying varied products of the soil and factory. When later you passed through our groves and our fields and entered the city of Los Argeles, saw her tail buildings, her factories, her bury streets, her quist homes set in green, you must have said to your-seless. There is a people who have done selves, "Here is a people who have do as we have done; what we did in t hash of the Gerat Salt Lake they ha hash of the Gerat Salt Lake they have done on the border of the Pacific." Such ladies and gentlemen, were the thoughts that eame to me as we tra-veled through Utan and entered this city, and I felt that the same energy the same enterprise, the same persever-ing virility must be common to both ou-cities. Today we have the start o you in size, but you are much farther along than we were when our chamber of commerce began its labors.

ALL PULL TOGETHER.

Our chamber has worked many m Years than your business men's club-here. Our Frank Wirgins was dis-covered and set in motion long before your Fisher Harris was. But now since you have this fine association, so well equipped to do your work, and this man whom men who know best speak of as the double of our own Frank Wingins het meurge your monda Frank Wiggins, let me urge you people of Salt Lake to benefit by them to the fullest extent. Put plenty of power to their elbows. Let the association to their elbows. Let the association and its secretary at all times feel that the people of Salt Lake are behind them; not at one time a part of the people for one thing, and at another time another part of the people for an-other thing; but that all the people are behind them at all times for all things, regardless of the special interest of the individual in the particular thing at hand. hand
