Range of Prices Inclined  
Downward.

## NEW YORK LESS ASSURING.

This Stock Shows a Decided Shrink-  
age—May Day Unsteady—Closing  
Quotations and Sales.

This was another dull day for the brokers operating on the Salt Lake Stock and Mining Exchange. During the forenoon calls, 5,700 shares changed hands for which was paid out \$2,768.62. Uncle Sam Consolidated led out in the trading and displayed considerable stiffness. The stock is held in favor just now, and a good many cannot figure out what will prevent it from reaching a higher level. New York sank rapidly on the strength of less assuring reports coming from Park City. Beginning with a sale at 70 cents, the stock dropped to 67 1/2 cents on the open board. May Day also proved unsteady and was inclined to weaken. The closing quotations and sales were:

## SINKING AT THE ODIN.

Work on New Hoist at Nelson Property  
Has Been Delayed.

The work of sinking at the Odin in the Thayne canyon goes steadily on, and for such little depth the showing made is a most encouraging one. The management is confident that some startling and interesting disclosures, concerning the Thayne canyon district, will be made there soon.

The erection of the plant at the Nelson boys property in the Elkhorn district has been again delayed by the recent storms, though work will begin as soon as possible. The Brown Eagle, Hot Air and other properties of that section will also be scenes of activity as soon as the weather will permit.

Work at the Wabash goes steadily on and notwithstanding the fact that very little information is coming from there the appearance of the conditions in general is most gratifying and the showing in the mine at present is more encouraging than it has been for a long time past. Good news is expected at any time.

The Ontario Silver Mining company of this city has filed suit against Edwin D. Miller and Henry F. Quint, formerly residents here, to recover damages in the sum of \$2,087.25, alleged to be due them for two dynamo and other electrical apparatus furnished the plaintiff by the defendants. The machinery was used by Messrs. Miller and Quint in making experiments on zinc ores in this canyon, and the defendants failed to return same to the Ontario company after they had finished with them.

Superintendent F. W. Sherman of the Daily-West mill has just closed contracts with the Hanna Mining & Milling Co. of Colorado, for the construction of a 150-ton mill to be erected at that place. The machinery to be placed in the mill will all be of Mr. Sherman's design and will be manufactured in Salt Lake. It is to be ready in 90 days, and the contract calls for the completion of the mill by July 1st. Those acquainted with Mr. Sherman and his work, know that his new plant will be a model one in every respect.

## ANNIE LAURIE ADIT.

New One Will Go Into Service About  
May 1 Next.

Treasurer A. A. Ball of the Annie Laurie Mining company of the Gold Mountain district is up from Kimberley and reports that the mine has not been in as good condition in a long time as it is at the present time. The new No. 5 tunnel will go into commission about May 1, Mr. Ball states, which will enable a great saving in the handling of ore. Manager Levy has a force of men engaged in timbering the raise connecting with the tunnel above. As soon as the timbering is finished the new adit will be ready for use. Mr. Ball says there is a tremendous lot of snow piled up in the mountains about Kimberley and that the farmers of the Sevier valley are counting on an abundance of water for this year's crops.

## American Flag Reorganization.

At a meeting of the board of directors of the American Flag mine of Park City held yesterday afternoon George H. Rathman, president of the Live Stock National bank of Sioux City, Ia., was elected a director in the place of John G. Rhodin, deceased. R. G. Brooks of Sacramento, Pa., was made vice president. A gratifying report was submitted by Supt. William Curtis.

The mine will soon be equipped with a larger hoisting plant, an order for which was placed some time ago.

UTAH-APEX  
LONG TUNNEL.Manager Orem Has Placed an  
Order for Large Compressor  
Plant.

## INTENDS TO RUSH THINGS.

Adit Will be 3,000 Feet in Length and  
Is to be Main Exit For All  
Ores From Mine.

The Utah-Apex Mining company of Bingham is preparing to push work on its long tunnel.

Yesterday afternoon Manager Walter C. Orem placed an order with a local machinery company for a four-drill air compressor and by the time it is installed Mr. Orem will have every detail arranged for a vigorous campaign.

The adit, when completed, will be about 3,000 feet in length and will tap the ore bodies on the dip at a depth of about 2,500 feet from the surface and will open reserves at least 500 feet below the present lowest workings, vertical depth. In dimensions the tunnel will be 7 feet high and 8 feet wide in the clear and will allow the laying of a double track.

Eventually, this new tunnel will be the main avenue for the exit of all ores from the mine. The upper levels will be connected with it and ore from them will be dropped into chutes, from which it will be loaded automatically into mine cars and thence taken out to the mouth of the tunnel where it will be taken up and conveyed to the smelters over the Copper Belt tracks.

Word comes from Bingham that the company has begun forwarding ore to market after a cessation of several months. About a day, it has been learned, will be brought down every 24 hours.

The Utah-Apex is favorably located and there seems little doubt that in a little time it will become one of Bingham's important producers.

## DAMAGE SUIT SETTLED.

Cripple Creek Concerns Fix Up Differences  
Out of Court.

Cripple Creek, Colo., April 18.—The million dollar damage suit brought by the Morning Glory Mining and Leasing company against the Mary McKinney company has been settled by the payment of a little over \$100,000 by the defendant to the plaintiff in full settlement for all claims. The plaintiff was recently awarded judgment for \$154,000 and an appeal taken by the defendant. The decision of the court was based upon ore taken from the property of the plaintiff.

## BOSTON CONSOLIDATED.

Plans to Build Concentrating Mill Have  
Been Definitely Settled.

A Boston publication says of Boston Consolidated:

"Plans have been definitely decided upon by the management of the Boston Consolidated Mining company to build a concentrating mill for its Bingham mine, of a minimum capacity of 1,500 tons and maximum capacity of 2,000 tons.

"To meet the expense of this undertaking \$1,250,000 of bonds will be issued. The company has about \$250,000 cash and copper on hand, so that, with the sale of the bonds the company will have \$1,500,000 to equip its property. The deal for the sale of the bonds was negotiated by Samuel Newhouse in London.

## EIGHT HOUR LAW.

In Nevada Miners Are Not Permitted to  
Work Overtime.

The Nevada supreme court has upheld the act of 1903 making it a misdemeanor for employers to work a longer period than eight hours in one day in underground mines, smelters and in all institutions for the reduction or refining of ores or metals, says the Reno Gazette. The opinion was handed down in the case of the state of Nevada

against Peter Kahr, coming up from the county of Lyon, on a petition for a writ of habeas corpus. Kahr was employed at Dayton in a wet crushing quartz mill and was fined \$100 in the township court for working a longer period than eight hours in one day. Upon failure to pay the fine imposed, he was committed to the custody of the sheriff of Lyon county, and by a writ of habeas corpus demands of this court his release, asserting that statute mentioned is unconstitutional, and cannot be enforced to limit his liberty to contract or to work more than eight hours a day under section 1 of article 1 of the organic act of this state, which guarantees the right to acquire and possess property, and that it is also in conflict with the eighth amendment of the federal constitution, which directs that excessive fines and cruel and unusual punishment shall not be imposed.

## TONOPAH SHIPMENTS.

A Total of 2,100 Tons Sent Out From  
Mines Last Week.

The ore shipments over the Tonopah railroad this week aggregated 2,100 tons, of which 208 tons came from Goldfield. The shipments are as follows: From Tonopah-Tonopah company, 1,126 tons; Tonopah Extension, 210 tons; Montana Tonopah, 314 tons; Midway, 116 tons; Belmont, 100 tons; Jim Butler, 10 tons; Tonopah-Jackson-Bacon & Price, 12 tons. From Goldfield-Goldfield Ore Sampling company, 145 tons. Combination, 30 tons; January, 33 tons. F. M. Smith, the box car king, who arrived in Tonopah yesterday, en route to Bullfrog, authorized the announcement that the Tonopah and Tidewater railroad will be constructed at once from Ivanpah, on the Santa Fe, to the Lila C mine, 58 miles south of Bullfrog, and that the object of his visit to the Bullfrog district is to determine whether or not a feasible extension of the road to Bullfrog. If he finds the developments in the Bullfrog district as represented, Mr. Smith states positively that the road will be extended to Bullfrog, and possibly to Goldfield-Tonopah Miner.

## AMERICAN COPPER PLANT.

Location Somewhere Near Garfield  
Beach Considered an Ideal One.

Chief Constructing Engineer August Raht of the American Smelting & Refining company came in from Murray early in the forenoon to confer with Charles W. Whistler, presumably on matters pertaining to the construction of the new copper smelter to be put up in this valley by the American during the present year.

The location of the plant out near Garfield Beach is viewed by mining men as being an ideal one. While no difficulty with the fume problem is anticipated, the general belief prevails that gases should prove obnoxious, a remedy could be readily found by the building of a long flue up the side of the mountain.

Indeed, it is a mistake that the copper smelters of the valley were located where they are. Had they been placed somewhere out in the direction of the general belief prevails that there would never have been any crossing of swords with the citizens of the rural districts.

## LUCY L. GOLD ORE.

Assays Show Values of From \$120 to  
\$125 to the Ton.

Assays taken on ore brought in from the Lucy L. mine in the Deep Creek country by Superintendent Clyde H. Wilson have revealed some big gold values. The samples assayed, said Supt. Wilson today, represent an average of the vein as it is opened on the lower level, and are about 100 feet or about 14 feet. One sample went \$120 and the other \$170 to the ton in gold. The silver values are small. The ore also contains considerable bismuth, but no tests were made for that metal.

## THE BOSTON &amp; TERRACE.

Company is Preparing to Patent Its  
Mining Property.

Herman W. Horne, the surveyor, will leave for the properties of the Boston & Terrace Mining company tonight. The company is preparing to patent its claims, and Mr. Horne will make the preliminary survey.

The Boston-Terrace mine is located on the west side of the Great Salt Lake along the line of the Lucin cut-off.

## Ruling in Timber Cases.

Helena, Mont., April 18.—Judge Hunt, in his court in a ruling yesterday in the case of the United States vs. the Butte & Boston Mining company in an action to recover for timber cut upon public lands, is miles away from that as the timber had all been cut from the mountains near Butte, the mining company had a right to go further away than that contemplated in the law which says "adjacent to mines." He accordingly granted the company's motion to dismiss.

## Utahna-Goldfield Development.

Superintendent Gray of the Utahna-Goldfield Mining company, writing from the Bullfrog district, says recent developments at that property are of a very assuring nature and that he expects to be able to report and importunate strike within a very short time. He adds in his letter that the country is very active, and that the Bullfrog district is going to prove up all right.

## CONCENTRATES.

Tonopah shippers are in with six cars  
of ore today.A shipment of Yampa matte is at the  
samplers today.Ten men are working in the upper  
levels of the Ontario mine.The Boston & Montana has declared  
a dividend of \$10 a share.The Mammoth mine of Tintic has  
some ore in today's market.Samuel Newhouse has left New York  
and is en route to this city.Captain Duncan McVie of the  
Bingham Consolidated is in Bingham  
today.The U. S. Smelting company has an-  
other furnace about ready to go into  
commission.Work has been resumed for the sum-  
mer at the Western Monitor mine near  
Park City.J. M. Callow, the mechanical engi-  
neer, is expected to return from Mon-  
tana early next week.Four feet of ore has been opened in  
the Carrie Mack property, on the west  
side of the lake in Tooele county.C. E. Loose, John R. Twelves and  
William Hatfield departed yesterday  
for Bodie, Cal., on mining business.The Boston correspondents of James  
A. Pollock & Company report quoti-  
ations on Majestic Copper today at  
\$2.62 1/2 bid and \$2.75 asked.Harry Northey of Houghton, Mich.,  
is in the city, the guest of Lewis A.  
Jeffs. Mr. Northey is extensively in-  
terested in Tonopah mining enterprises.The late assessment on Wabash was  
all paid in and no stock was put up for  
sale yesterday, which was the last day  
of grace.The ore and bullion settlements re-  
ported last yesterday by McCormick &  
Co. were as follows: Crude ore and  
concentrates, \$43,750; base bullion, \$72,-  
500.Another consignment of gold bullion,  
value, \$24,000, passed through the city  
yesterday en route to the subtreasury  
at New York from the Bamberger-De  
Lamar mines.There is a vague rumor, lacking con-  
firmation, about the effect that the  
Comstock, California and Odlin prop-  
erties in Thayne canyon, are soon to  
be consolidated.—Park Record.Seymour W. Tulloch, president of the  
Sevier Consolidated Mining company,  
returned from a trip to camp yester-  
day where he has been entertaining  
William B. Turpin of Washington, D.  
C., one of the directors of the company.T. E. Edwards and Jack Lynch, the  
well known Nevada mining men, de-  
parted for Bullfrog, Nev., via the Salt  
Lake Route last night. Messrs. Ed-  
wards and Lynch have established  
lumber yard at Bullfrog.The Bullfrog Miner is the name of a  
new publication which has just made  
its appearance at Beatty, the metropoli-  
s of the new Bullfrog, Nevada, min-  
ing district. The paper is published by  
C. W. Nicklin and F. E. McClellan. It  
is neatly printed and its columns con-  
tain all the late news of that promi-  
sing mining region.

## FAVORED NATION TREATY.

German Embassy Has no News  
Of Intention to Denounce It.

Washington, April 18.—If the German government had decided to immediately denounce the most favored nation clause of its treaty with the United States as announced in Berlin by the Deutsche Tages Zeitung, it has not yet informed the German government of that fact.

This government has known for a long time of the wish of the Berlin government to negotiate a new treaty with this country, which will be mutually beneficial to German-American trade, but because of the indifference of the senate to all reciprocity treaties the efforts of both governments have been waiting the turn of events. The German emperor by his might change. It is not doubted that this whole subject will be brought to the attention of the German emperor by his ambassador at Washington when Baron Sternberg is received by his sovereign early in the summer.

## M'GOVERN IS SET.

Declares He Will Never Go Back  
To the Sanitarium.

New York, April 18.—Terry McGovern, the pugilist, who escaped from a sanitarium at Stamford, Conn., yesterday, was at his home in Brooklyn today and declared that he would not return to the sanitarium.

"I will go to Babylon, L. I., my summer place, or I will go some where with Sam Hays, but I won't go to any sanitarium again."

He was exhausted and suffering from cramps today as the result of his run yesterday to evade the searchers for him at Stamford. McGovern's friends plan to bring him into court for judicial determination of his condition.

## SERGIUS' MURDERER.

Supreme Court at Moscow Begins  
Trial of Kalleff.

Moscow, April 18.—The supreme court today began the trial of Kalleff, who killed Grand Duke Sergius.

Kalleff was sentenced to death.

## Held Meeting in Split of Police.

The Chairman, Dixon, in 377 of  
the efforts of the police to prevent it  
the late owners of Kalleff held a meeting  
here today and adopted a strongly worded  
resolution demanding the immediate  
conviction or summary execution and ex-  
tending the rest of the liberal program.

## REMOVED.

The office of the Pioneer Ore Sampli-  
ng Co. is moved to 514 Dooley Block.

## BEST SELLING BOOKS.

Record For March.

Following is a list of the six most popular new books in order of demand, computed from reports of leading book sellers of the country:

The Masquerader—Thurston . . . \$1.50
