ANNUAL MEETING OF SMELTER TRUST.

In part the report says: "Not carnings for the year amounted to \$1.348.311.08 in excess of the pre-

a si,as,ailus in excess of the pre-eding year. Expenditures on account of ordinary repairs, betterments, im-novements and new construction monstel to \$2.631,530.97, which has seen entirely deducted from the profits.

the year. There has been added to the surplus

of the company during the year \$2,914.-55.24. The surplus now amounts to \$1.335.028.12. Attention is called to the fact that the metal stocks of the com-

fort that the michal stocks of the com-pany in process of smelting and refla-ing were valued at the beginning of the facal year at low figures. The disce-tors have not deemed it advisable to increage valuations, although high prices have prevailed during the year." At the missing yesterday the old of-forces of the constitut were re-elected

At the missing yesterday the old of-facars of the coherrin were re-elsected. Two resignations from the directorate were announced in the faces of Guy C. Barton and Henry L. Higginson. The vacancies were filled by the slee-tion of William Sproule and Judd Srey-art. Regular quarterly dividends were minimumed of 1% per sent on the pre-ferred and 2 per cent on the common stock.

Berged and 2 per cent on the common stock. Breaking of investments, the report manys no material change has been idade in the valuation of the invest-minus of the company. A reduction in the total value has been due to the sale of a portion of the stock of the United Least company, owned by this company and refetred to in the last au-placed as yet upon the common stock of the American Smellors' Securities company, owned by the company, at a par value of \$17,51,609.

Daniel Guggenheim, president of the American Smelting and Refining com-pany, at the eighth annual meeting of the corporation, held yesterday, sub-mitted the aneual report to the share-holders, says the New York Herald. The report calls particular attention to the standy increase in the company's income account, which is set forth as follows, for the various years, end-ing April 30: PARK CITY SHIPMENTS. The ore shipments from Park City last week amounted to 2,366,940 pounds, the contributing mines and amounts be-ing: Silver King, 1.329,940; Daly Judge, 686,000; other properties, 41,000.

Editor of Well Known Mining Journal Comments on Situation.

One of the best articles on the sub-One of the best articles on the sub-ject of existing copper conditions yet seen in print is an expression from Walter Renton Ingalls editor of the Engineering and Mining Journal and which appeared in the current issue of that publication. He says: "Although the hysteria over the price of copper is undenlably serious never-theless it has an annusing side. Just two years ago the price was about 15 cents and everyone thought that was good. We have before us the prostheiess it has an amusing side. Just two years ago the price was about 15 cents and everyone thought that was good. We have before us the pros-pectus of one of the best of the new enterprises that figured prominently at that time, in which one set of esti-mates was based on 13 cents, and abowing that a bandsome profit would be realized at R-as, indeed, we be-lieve would be the case. A few months later, when the price tase to 18 cents, there was jubilation and skepticism as to the long continuance of the good thing, because it was feared that con-sumption would be restricted. But even before the price reseded to 18 cents, as it did has month, there were tone faces and bewallment over the deplorable condition into which copper production had fallen. It was only about 18 months ago that the great rise above 13 cents degan. Conditions have not changed in the meanwhile, so that the producers whe could make a great profit them case still do so now, or even at 15 cents. The market has simply returned to a more normal and more healthy position. The censump-tion of copper is not going to cents, oven though the atitude and actions

more healthy position. The consump-tion of copper is not going to cease, oven though the attitude and actions of the manufacturers for several months have tent some color to that belief. The trouble has been uncer-tainty and lack of confidence, but when knowledge as to the real sta-tistical position is available-absence of which is one of the greatest unset-ting factors-confidence will be restor-ed and business will be resumed on acroad lines. We believe that this will not be delayed much longer. When this consummation is reached it is to be hoped that the market will no longer have the sky-rocket features that have characterized it during the last two years. It is to be hoped, moreover, that investores in copper shares will make up their minds to dis-compare the indication are not be available. moreover. that investors in copper shares will make up their minds to dis-regard the make up their minds to dis-ous public advisors of computing carn-ing market wisers of computing carn-ing market wise and percentage on go-ing market wise an the basis of tem-perary high quotations for the metal, which is a constant temptation to the unwary and inexpirienced. The shares
