CATTLEMEN ARE SEEKING RELIEF

Shippers of the Country Taking Advantage of the New Rate Bill.

PETITION THE COMMISSION.

Interstate Commerce Commission is Asked to Look Into the Alleged Unjust Discrimination.

Washington, Aug. 31 .- Shippers of the country are taking advantage of the new railroad freight rate law to seek relief from the interstate commerce commission for wrat they regard as unreasonable or unjust conditions imposed upon them by the railroad companies. Petitions are being received by the commission from shippers involving not only questions that are raised directly by the recently enacted law, but including some old questions into which an endeavor is being made to breathe a new life.

A series of petitions was filed with the cimmittee today presenting a queson on which had at various times been before the committee many years, and in which the committee had rendered at least four decisions. The Texas Cattle Raisers' association of Texas, entered a complaint against the Missouri, Kansas & Texas railway and many ther rallway corporations because of a charge of two dollars a car on live stock made by the terminal railroad at Chicago. The complaint maintains at Chicago. The complaint maintains that the charge is excessive and unreasonable and that it ought to be in-cluded in the through rate on carloads of livestock from Texas to Chicago. Intervening in this petition as complainants are the American National Live Stock association, and the Corn Belt Meat association.

The interstate commerce commission decided several years ago that the charge of \$2 a car as a transfer or terminal rate in Chicago, was exces-It fixed \$1 a car as the proper tariff. The case was taken to the supreme court of the United States and the order of the commission fixing \$1 a car as the rate of terminal charges in Chicago was overthrown on the ground, of lack of authority.

Now under the new law, the complainants again appear before the inrstate commission and ask that the case be reopened and that the commission decide it in the light of the new act. Dovetailing into this case is an other complaint filed today with the mmission. It is that of the American Live Stock association and the Cattle Raisers' association of Texas against the Texas & Pacific Railway company and practicaly all the other railroad lines west of the Mississippi river. It urged by the complainants that the defendant company refuses to make a joint through rate on live stock, in carload lots, shipped from points in Texas to the market centers, such as hicago, St. Louis, Omaha and Kansas City. In 1904, the defendant company cancelled its joint rates on live stock and now will accept such traffic only on the understanding that the stock is to be trans-shipped at junction points of the Texas & Pacific Railroad company with other lines. This it is urged by the complainants, is unjust and uprea and subjects them to great inconvenience and damage. They ask therefore that the commission compel the railroads defendant in the action to quote to them a joint rate on live stock as formerly.

Roseville will be the junction of the northern line to Portland, the eastern line to Ogden, the southern line to Los Angeles and the western line to San Francisco, by way of Carquinez strait. Most San Francisco freight will here-after come from Roseville by way of Stockton, saving the delays at Carquinez ferry. The new round house at Roseville

will be among the largest in the Southern Pacific system. NEW JOB FOR SPROULE.

Is Slated to Become Big Traffic Man On Gould System.

San Francisco, Sept. 1.-The Call says today: Wm. Sproule is slated to become gen-

eral freight and passenger director the Gould lines west of Chicago. This is the report received at the local raiload offices yesterday. He has been selected by the Goulds to organize the freight and passenger departments the newly born Western Pacific. His offices will probably be in San Francisco until Gould's western affairs are put in working shape.

Sproule left the service of the Southera Pacific last night. He will begin his duties as traffic director of the

smelter trust on October I. He will rest until that date. His work for the Gugenheims will serve only to hold him pear the Goulds until the freight and passenger affairs of the Western Pacific are ready to be launched. As soon the construction of the Western Pacific nears completion he will step out of the smelter trust and into the railroad harness again, h this time for Gould and not Harritoan.

SPIKE AND RAIL.

That Number Transported to Local Coney Island in Three Months.

SEASON A VERY GOOD ONE.

So Says Manager Langford Who Will Leave for New York on Wednesday Next With Joseph Nelson.

When Manager Langford was asked today as to how the business of his resort had been this year as compare i with previous seasons, he replied that considering the extremely late spring and the unusually early fall, for a touch of autumn weather hit the intermountain country 10 days ago, it had been very good with bathing figures far ahead of anything in the history of the beach records.

Altogether the number of pessengers carried to and from Saltair during the months of June, July and August will approximate 251,000. This number, says Langford, would have been materially swelled but for the San Francisco disaster which he thinks would have casily added another 25,000 at least, for few toursits cared to cross the continent without making the trip to the lake, and this year the tourist traffic has been frightfully cut into by the Pacific coast horror which diverted a very great amount of trans-continental travel. The month of July of this year witnessed the transporting of transporting \$2,000 passengers to and from the beach, as against \$2,000 for the same month

in 1905 and 64,000 in 1904. LABOR DAY MONDAY.

The regular season will close with Labor Day festivities on Monday, after which there will only be two trains a day to the resort for the remainder of the autumit

A BIG COON DAY. On Thursday the sixth, the colored population of the city is going out to the resort in a body. They have char-tered a special train and will leave for the lake at 2:15 p. m. The afternoon will be spent in the rendition of negro melodies and in dancing and singing the songs of the southland. A large party of "white trash" is being or-

ganized to make the trip on the reguar two o'clock train and spend two or three hours in looking upon the big-gest "coon" gathering ever witnessed in the state of Utah. GOING EAST ON WEDNESDAY.

On Wednesday Manager Langford and Cashier Joseph Nelson of the Utah National Bank, who is secretary and reasurer of the Beach company, going east to visit the large watering places before the gay season is to gather ideas to be applied at Saltair next year, when the company will present a much improved front to its patrons. DRIVEN OUT OF BUSINESS.

That is the Charge D. J. Sharp Makes Against the Union Pacific.

The J. D. Sharp Coal company has concluded to discontinue business, and is disposing of the coal it had accumulated at the yards. The reason for this move is the refusal, Mr. Sharp says, of the Union Pacific to sell him any more Sharp has been hoping to Mr. settle his difficulty with the company, but finding this impossible, he conclud-

ed this morning that he would have to give up, and has done so, being literalforced out of business, he says. Mr. Sharp declares that on being no

tifled by the coal company on July 15 last, that he might sell his coal in stock at \$4.75, he told them he pro posed to advertise the same, to which no objection was at the time made, and Mr. Sharp so advertised. However, a day or two afterward, he was notified that he would have to take his advertisement out of the papers, which he declined to do, as he considered what he was doing a straightforward busi-ness. But Mr. Sharp learned that the other coul dealers had been after the

inton Pacific Coal company, and for that reason the latter had requested the withdrawal of the advertisement. Aft-

erwards, he was served with notice that his orders had been cancelled and he could have no more coal.
