

BURBIDGE WINS BY ELEVEN VOTES.

Council Refuses to Go Behind the Returns of District 15 as Submitted.

DEAN MAY FILE A CONTEST.

Democratic Committeemen File a Protest Against a Canvass of Anything But Official Returns.

The city council last night refused to go behind the returns of District 15, as submitted to the council for canvass on Tuesday evening, it being held by President Cottrell that the council had no right to do other than canvass the returns as submitted by the judges of that district. The judges of that district were present, but they were not allowed to be interrogated as to what their other tally sheets showed the vote of George E. Burbidge to be. So that the election of Burbidge is now assured by a plurality of 11 votes.

A. J. Davis moved that the tally sheet of the district be reconsidered and that the judges be permitted to state whether Burbidge received 32 votes or 72. Fernstrom raised the point that the council had no right to consider any evidence other than that contained in the official returns as submitted to the council. He said that the defeated candidate could file a contest and bring the matter in the courts. President Cottrell sustained Fernstrom's point. A. J. Davis then appealed from the decision of the chair, but the council by a vote of 8 to 4, sustained the decision. Hewlett, Sharp, Spencer, Bardeley, Fernstrom, Arnold, H. D. Dille and Tuddenham voted in the affirmative and A. J. Davis, Robinson, Black and Vigus, voted in the negative.

CONTEST EXPECTED.

It is believed that Mr. Dean will contest the election of Burbidge, but the latter declares that if the ballots are ever recounted it will only increase his majority over Dean. For his knowledge of 20 or 30 votes for him which were thrown out and which he feels satisfied would be counted in his favor should the matter ever be brought into court.

PROTEST SUBMITTED.

Before the vote on the question of reconsideration was taken, the following protest was submitted and read:

To the honorable city council of Salt Lake City, Utah, sitting as the board of canvassers of the returns of a municipal election held in said city Nov. 3, 1903.—Gentlemen:

The undersigned protest against your honorable body canvassing any alleged or pretended returns, save and except the official returns forwarded to the city recorder in sealed package by the judges of election and by said recorder placed before your body in the course of his official business.

The undersigned further protest against your honorable body hearing any evidence or admitting any documents to modify or alter said official returns, or any of them.

The undersigned further protest against your honorable body in any way or manner changing the vote as shown upon the face of said official returns, or in any way or manner substituting or adopting any document in lieu of said official returns, or any of them, or any part of them.

This protest is made with particular reference to the election matters pending before your body as between George E. Burbidge and George D. Dean in the second precinct of said city, and applies with particular reference to the election of your proceedings touching district 15 of said precinct. Very respectfully yours,

GEORGE E. BURBIDGE,

WILLIAM H. BRAMEL,

BENJAMIN D. LUCE,

Chairman Democratic Committee Second Precinct.

J. C. LEARY,

Chairman Democratic Central Committee.

ERRORS IN THE THIRD.

The canvass of the returns in the Third precinct showed a number of errors, but none of them affected the final results. In district 27, Fisher Harris gained 10 votes. He should have been credited with 212 instead of 202 votes.

One vote for M. E. Jones for councilman was dropped in district 28. Mr. Davis, Socialist candidate for councilman, gained 5 votes in the district.

In the twenty-ninth district the poll-book contained 465 names, but there were only 414 checked on the register.

BISHOP PRESTON FOR MAYOR.

In the Thirtieth district W. B. Preston received one vote for mayor. There were 369 votes cast in the district. F. B. Stephens was honored with one vote for city attorney in the Thirtieth district.

Mrs. Johnson, Socialist candidate for auditor, gained 3 votes in the district. In district 32, Haslam, Republican candidate for councilman, lost 10 votes. There was 1 challenge in the district which was sustained.

There were two errors in district 33. Critchlow lost 1 vote and T. A. Callister, Republican candidate for councilman, gained 5 votes. The poll book and register were not properly certified to. In district 34, Judge Day gained 2 votes. The poll book contained 396 names while there were only 386 checked on the register.

The register. The official returns were not certified to in district 35 and the tally sheet in district 36 was not signed by any of the judges.

Among the interested spectators present last night were Mayor-elect Morris, Councilmen-elect Hobbay and Burbidge and Dist. Atty. Elchorn.

HE WANTS TO DEBATE.

W. B. Marry, a "holiness evangelist," of Kilton, Boxelder county, proposes to debate publicly with Elder B. H. Roberts, or any member of the Church, who may care to meet him, on the authenticity of the Book of Mormon, and says he is coming to this city to preach in the streets.

GROWING IN POPULARITY.

The More People Know Newbro's Herpicide the Better They Like It.

The more it becomes known the better it is liked. One bottle sells two, and those two sell four. Newbro's Herpicide is what we are talking about. It cleans the scalp of all dandruff, and destroying the cause, a little germ or parasite, prevents the return of dandruff. As a hair dressing it is delightful, it ought to be found on every toilet table. It stops falling hair, and prevents baldness. It should be used occasionally, as a preventive to protect the scalp from a new invasion of the dandruff microbes. Sold by leading druggists. Send for a sample to The Herpicide Co., Detroit, Mich. For sale by Z. C. M. I. Drug Dept.

LAW STUDENTS DEFEND WILLIE.

His Candidacy for President of Graduating Class, Columbian University, Clearly Stated.

DID NOT SEEK THE POSITION.

Was Nominated by the Best Men in The Class as the Most Suitable Person to Represent Them.

The following from Washington, D. C., under date of Nov. 6, 1903, is self-explanatory:

Among the candidates for president of the graduating class of the law department of the Columbian university of this city, at its first meeting for the purpose of electing class officers, was Mr. Israel Emerson Willey, of your city. In view of the attention which has been given this affair by the press and the apparent misapprehension which seems to prevail upon the subject, we deem it our duty as friends and supporters of Mr. Willey, to state the facts as they are, and this for two reasons: First, to correct any false reports which may have reached the ears of Mr. Willey's friends; second, to state the true position and feeling of the class in the matter.

The political history of the class in the previous two years of its existence may be stated briefly to be this: All the officers for both years were nominated and elected practically without opposition by a faction composed chiefly of members of a certain fraternity. As to the personnel of this faction nothing need be said save the fact that a certain element, through no ulterior motives nor hope of personal aggrandizement, came to the conclusion that this "frat" element was not exactly representative of the whole class and inasmuch as they had held full sway for two years it was time for a change in administration. In casting about for a suitable candidate the available material was discussed and Mr. Willey, who was settled upon as being the man who would make the strongest candidate against the "frat." Accordingly, his name was proposed at the meeting held for that purpose, where upon the excitement became intense. Insults and epithets verging close on to personalities were indulged in by the opposites of the whole class, which was, though not openly stated, that Mr. Willey was a "Mormon," and had spent a portion of his life expounding that doctrine in a foreign clime, and for that reason was ineligible for class president.

At that meeting nine ballots were taken, at the close of which Mr. Willey's forces were fully as strong as at first. An adjournment was taken, no president having been elected. The next meeting was held today, with the result that after the third ballot Mr. Willey closed with an increased vote over any previous ballot, with no sufficient, however, to elect him. As it was apparent that no election could be had, the three candidates withdrew, new men were put in nomination, and Mr. Scott of Missouri was elected president of the class of 1904.

These are the facts in the case. Now we wish to say this in regard to Mr. Willey. He did not seek the position, nor did he personally solicit votes. He was approached by the subject, he frankly stated that he did not desire the office, and further stated that he did not consider himself a suitable candidate for the position for the reason that he was a "Mormon," and as he had no inclination or desire to conceal that fact, it would be capital for the opposition and thereby the cause would be lost. This matter was thoroughly considered beforehand and Mr. Willey was told that so far as his religious principles were concerned, that was a matter for him and his God, but for the sake of the cause he must run.

How faithfully he was supported is now a matter of class history, and had there been no compromise it may be said with all truthfulness that every man would have stayed with him during the rest of the year, had it been necessary. It can furthermore be truthfully said, with no idea of including ourselves in the equation, that his followers were the best, most substantial men, and were without doubt the flower of the class. Again, in view of the fact that Mr. Willey retired with great strength than when he began, we deem it a most substantial testimony of his character and personal worth, and also of the thorough cosmopolitan spirit of Columbian university.

Yours respectfully,
AMASA JAMES WARD, Iowa,
JAMES RAYMOND MOORE,
Alabama, Class of 1904.

TROPHY FOR IOWA FARMERS.

Herewith is shown the Iowa state corn trophy, a prize to be presented for the best specimen of corn grown in the state during the present year. The ear of the trophy is of gold, the husks are of sterling silver and the base is of ebony.

The trophy is a hollow, the top being detachable so that the trophy will serve as a vase to hold the prize ear. The donor of this trophy is Will C. Whiting, and it is intended that the trophy shall be contested for annually. The winning ear of corn for the present year is to be exhibited at the St. Louis world's fair. The value of Mr. Whiting's gift is \$400.

Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor similar to maple syrup, making it quite pleasant to take. Mr. W. L. Roderick of Potosi, Mo., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious effect. For sale by Z. C. M. I. Drug Dept."

NOT A DROP TO DRINK.

A break in the watermain occurred early last evening on Twelfth East street, near First South street, and the water was shut off. None of the households affected were notified of the trouble, and none were given an opportunity to stock up with water before it was cut off. No force was sent up there until this morning, to repair the break, and a great deal of inconvenience was occasioned in consequence. Citizens in that quarter are indignant because the waterworks people did not give notice that the water was to be shut off. Repeated telephoning only elicited the cheerful information that the broken pipe would be repaired some time during the day.

MODERN WOODMEN

Excursion to Ogden.

Tuesday, Nov. 17, via Oregon Short Line. Round trip \$1.00. Special train 7:15 p. m., returning leave Ogden 12:30 a. m. Everybody invited.

THINKING IT OVER.

They had been talking as they walked. She had remarked, pathetically, "Oh, it must be terrible to a man to be rejected by a woman." "Indeed it must," was his response. "Then after a little while, with sympathetic disingenuousness," he exclaimed, "it doesn't seem that I could ever have the heart to do it." And there came a silence between them as he thought it over.—Browning's Monthly.

MILLIONAIRE'S POOR STOMACH.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evil attendant on the possession of great wealth. But millions are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia, and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your condition. Trial bottles, 25c; regular size, 50c, at all druggists. G. G. GREEN, Woodbury, N. J.

PRECAUTIONS ARE BEING TAKEN.

Utah Fuel Company is Preparing To Protect Its Property If Necessary.

TWENTY-FIVE ARMED MEN.

Officers Leave for Sunnyside on No 4 Last Night so as to Offset Any Possible Trouble.

The Colorado labor agitators have been industriously attempting to get in their work at the Sunnyside mines of the Utah Fuel company, and there were rumors current last night, in this city, that there was trouble ahead. The reports were made more emphatic by the departure on No. 4 Rio Grande train of 25 armed special officers for the mines to protect the property of the company against all possible trouble. The posse is in charge of former Deputy Sheriff Jos. Raleigh and their pay is \$5 per day and "found." The officers will stand off all strangers who may approach the properties of the fuel company, and make it interesting for labor agitators who may be there to urge a strike.

A special dispatch received in this city last night from Helper states: At a late hour tonight the trouble at the Sunnyside mines promised by the agitators had not yet been materialized. The concessions made by the Utah Fuel company had not been interpreted correctly into the Italian language until today, and there was a feeling of uneasiness among the miners, who comprise about 75 per cent of the miners there. General Superintendent Frank Cameron, Manager Williams and Assistant Engineer of the Utah Fuel company are on the ground, and it looks now as if the output of the mines would not be interfered with in any way by the strike, which would only impoverish satisfied miners with a company which has always given them reasonable concessions.

Officers of the company when seen afterwards stated that no trouble is really anticipated, but they do not propose to be caught napping.

THE ELKS' CIRCUS.

Steps Taken to Put On a Burlesque Purple Show Here.

At last night's meeting of the Elks' lodge active steps were taken towards working up the burlesque circus scheme. The lodge also appointed these committees:

Entertainment—E. D. R. Thompson, F. C. Richmond, F. D. Halm, John S. Critchlow and John Gibson.

Excursion—G. E. Cleveland, L. P. Marx and J. Myers.

Program—F. C. Richmond.

Parade—B. B. Heywood, B. F. Redman and B. M. Keim.

Publicity—David Keith, Herman Bamberger, J. S. Bransford and Samuel C. Park.

Reception—Judge O. W. Powers, David S. Murray, Fisher Harris and W. H. Dale.

Excursion—D. E. Burley, C. F. Warren, B. F. Nevins and R. S. Neslen.

WESTERN MARKET LETTER.

Special Correspondence.

Kansas City, Mo., Monday, Nov. 9.—Receipts last week included 57,008 cattle and 6,597 calves, against 50,693 cattle and 5,622 calves the same week last year. Fat steers of all grades declined all week, total loss being 30 to 40 cents.

Top natives brought \$5.45 early in the week, but were much depressed later. Many short fed corn cattle appeared. Range cattle were less plentiful, especially stockers and feeders. Fat grass steers sold from \$4.00 to \$4.60 mostly.

Range cows were not so much in demand, and the week fully as good as the beginning, at from \$2.25 to \$2.85 for cows better than canners. Calves gained 25 cents, parting with a good stock of calves. Stockers and feeders, while in shorter supply, also lacked demand, and changed but little during the week, all weights and kinds closing steady, except heavy feeders, which lost in sympathy with lower beef steers. It was a big week, though, 900 cars being taken to the country. Today's run is 16,000 head, but light runs elsewhere put a tone to the market to work to.

Speculators got cleaned up much better last week than at close of previous week, and were active competitors for sheep. Cows were in demand, and generally, the market is strong to 10 cents higher.

Sheep receipts at Kansas City last week were 30,170, largely feeding lambs. Fat stock was short, but packers forced down prices 10 cents, on lower markets at other points. Feeding wethers were steady, fat lambs strong, and feeding lambs off 15 to 25 cents. Today the run is 24,000 head, breaking the record here, but includes 10,000 feeding sheep and lambs consigned to Missouri points. The market is strong to 10 cents higher today; fat pound lambs from Roswell, Colorado, brought \$5.00 today. Western wethers sold at \$3.40. Feeding wethers are worth \$3.00 to \$3.10, fat over \$2.80, stock ewes \$2.25 to \$2.75, feeding lambs \$2.50 to \$2.80.

WORLD'S FAIR PRIZE LIST FOR HORSES.

In its review of the World's Fair prize-list for horses the Horse Show Monthly, one of the most critical and conservative publications pertaining to live stock, has this to say:

"A fair and equitable division of \$260,000 among the many classes coming under each division of stock has been no sinecure, but that Chief Coburn has achieved admirable balance in his direction today; that pound lambs for prize purposes will be recognized by an intelligent perusal of the prize-list. Classes, especially in the breeding division, are very comprehensive, showing a considerable enlargement over any classification previously offered, the idea in all cases being to secure advantageous results to live stock interests and to intent to give representation to all ages of exhibitors, but only those of best quality. The classes have been thoroughly and painstakingly formulated on the most accepted lines conducive to the highest standards of the breeder's skill."

END OF HIS NAP.

"Oh, my!" murmured the fair overcoat, sitting under the clothes-chest. "I certainly did have a good nap."

"Which you ain't got now," snickered the fat moth sitting on a camphor-ball near by. "Cause I ate most of it."—Philadelphia Press.

NEW COAL RATE INTO COLORADO.

Representatives of Every Railroad Entering Denver Agree on Shipping in Eastern Fuel.

OFFSET THE MINERS' STRIKE.

Just as Soon as Price Goes High Enough to Warrant Shipments \$3 Rate Goes Into Effect.

Denver, Nov. 12.—Representatives of every railroad entering Denver from the east have agreed to make a rate of \$3 a ton for coal from the mines of Iowa, Missouri, Kansas Indian Territory and adjacent fields.

When the price of coal goes high enough to make it profitable to import coal at such a rate, it will go into effect.

In the meantime the independent mines of the northern Colorado fields are resuming. Nine mines are now working there with a total of 230 men, and a daily output of 800 tons. Negotiations are under way for the resumption of every independent producer in district by next Monday. The settlement is on an eight-hour basis with some concessions as to wages.

MEXICAN CENTRAL.

Rockefeller Property is Laying Track at Rate of a Mile a Day.

San Francisco, Nov. 12.—Herbert F. Johnson, a rich planter from Mexico, just arrived here, says that the Mexican Central road, a Rockefeller property, now running from El Paso, Texas, to the City of Mexico, is building an extension south to the Guatemalan frontier, there to connect with the northern end of the Guatemalan Central line. The latter road is owned by the Pacific Improvement company of this city. Track laying south from the city of Mexico, Mr. Johnson says, is progressing at the rate of one-half mile a day, and the route selected follows closely the survey made by the Pan-American railway completion a number of years ago.

MEN LAID OFF.

R. G. W. Car Repair Force Reduced for The Winter.

The local Rio Grande management has reduced the out-door car repair force on account of the arrival of winter; but will restore the men laid off on the return of pleasant and settled weather. The round house force at Ogden has also been cut down. About 30 men will be thus affected.

GERMAN LOCOMOTIVES.

Boston, Nov. 12.—The first German locomotives to be imported to this country have arrived here. They are eight in number and weigh 40 tons each. Most of the engines will be shipped by rail to Montreal.

SPIKE AND RAIL.

The Robt. Edison company left for the east over the D. & R. G. this morning.

The "Old Kentucky" company came in this afternoon over the D. & R. G. from the west.

C. F. Warren of the Santa Fe left this morning for a two weeks' vacation in the east.

District Passenger Agent Drake, of the Rock Island is back today from a trip to northern Utah.

J. Walders, Trevelyan, traveling freight agent of the Chicago, Rock Island, has just returned from a trip through Nevada, where he has been soliciting "dead" freight. He reports a successful trip.

The Supt. Valley railroad has completed its shipment of saws, and has out of the valley. There will be but little coal shipped out from the Sterling mines this winter as most of the product is being used at home.

WANTED TO BREED GIANTS.

Some time ago Count Alfred de Pierrefort left a legacy of \$200,000 to his nephew, a student of the University of Chicago, for experiments for the propagation of giants. He heirs raised a row about it and appealed successfully to the courts, which have recently given them three-fourths of the estate and retained one-fourth for the nephew, who is expected to be a giant.

Under the supervision of the municipality an institute for breeding giants is to be established with the income of \$50,000. The trustees are to search the world for men and women of giant stature, and place them in homes upon a farm near Rome and allow them to breed like human cattle, expecting that the next generation will surpass them in stature and physical strength. It would be a good idea to feed them on the stuff which the Chicago professor has been wasting on white rats. If he can double the size of a white rat in a given time by feeding it that food he ought to do wonders with a lot of Frenchmen.—Chicago Record-Herald.

DO YOU BELIEVE IN SIGNS?

A mark, note, token or symptom, indicates that by which anything may be known, that is, we are forewarned if evil is to befall us, or we have the pleasure of anticipation if the signs betoken a fortunate occurrence. Accidental occurrences all have their signs, every disease has its symptoms. The points is to heed the former, and counteract the effect of the latter. Spells of sick headache following indigestion and stomach distress, biliousness, biliousness and dyspepsia are signs of sickness. People that believe in these signs and know that they are true from experience, can get immediate relief and a speedy cure by the use of Dr. Gunn's Improved Liver Pills. Sold by druggists for 25c. per box. Only one for a dose. For sale by Z. C. M. I. Drug Department.

Worm Destroyer.

White's Cream Vermifuge, not only kills worms, but removes the mucus and slime, in which they build their nests; it brings, and quickly, a healthy condition of the body, where worms cannot exist. 25c at Z. C. M. I. Drug Dept.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.

ELY BROTHERS, 60 Warren Street, New York.

Nasal CATARRH
In all its stages.
Ely's Cream Balm
cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.

CONSUMPTION WAS FEARED.

(Two Beautiful Women Restored to Health by Pe-ru-na.)

A Beautiful Girl's Experience.

MISS AMELIA WEYMER, Appleton, writes:

"Early last summer I contracted a cold which seemed to hang on to me and could not be shaken off. From the head it went to the throat, and then affected my lungs. My mother felt very anxious and as we had used Pe-ru-na in the family before, she advised me to try it. I was somehow very opposed but was persuaded to try Pe-ru-na. Using it one day convinced me that it was no ordinary medicine, within a week I was much better and in two weeks I was well, and I felt much stronger and in much better health generally. I was perfectly satisfied with the results from the use of Pe-ru-na."—Miss Amelia Weymer.

A person catches a cold. The cold is not properly cured, and they quickly catch another one. This cold is difficult to cure by no treatment, or some treatment that is ineffectual, and the cold continues.

Then they catch another cold and begin to cough. Then they take cough syrups, but they do no good.

By and by they get tired of taking medicine, and give up in despair.

Their cold continues, and their cough grows worse. Then they apply to a doctor, only to discover that they are in the first stages of consumption.

At any time during the progress of the catarrh, from the first onset of the cold to its final settlement in the lungs, Pe-ru-na can be relied upon to check the progress of the catarrh. Sometimes after a diagnosis of consumption has been made by competent physicians Pe-ru-na has permanently cured. We have testimonials from many people who have been given up to die of consumption, who claim to have been cured by Pe-ru-na. We do not recommend Pe-ru-na as a consumption cure, but we do claim that it will prevent consumption if taken before the disease is thoroughly established. It is only the cases of insipient consumption that we feel confident that Pe-ru-na will cure.

Congressman George Henry White, of Tarboro, North Carolina, writes the following letter to Dr. Hartman, in regard to the merits of the great catarrh cure, Pe-ru-na:

"I am more than satisfied with Pe-ru-na and find it to be an excellent remedy for the grip and catarrh. I have used it in my family, and they all join me in recommending it as an excellent remedy."—George H. White.

If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of
