THE GREAT DISASTER.

More Shocks at Charleston—Startling Developments in North Carolina.

CHARLESTON, S. C., 4.—At 9:30 to-night another earthquake shock of about five seconds duration, the first of the day, startled and shook up the people. It was not nearly so severe as the shock of last night.

A reporter made a detour of the city to-day and was surprised to find so much wrecked property which had before escaped the eyes of the press representatives. At least four out of five of all the buildings are damaged more or less. City Assessor Kelley says the loss will reach $10,000,000.

Columbia, S. C., 4.—Another very distinct earthquake shock was felt in this city to-night at 9:25 o'clock, the vibrations continuing about 15 seconds. The shock succeeded as usual in clearing all the larger houses of their occupants.

About $30,000 in cash has been received for the sufferers and the indications are that several times that amount will be forwarded.

Augusta, 4.—Two slight shocks were felt to-day, one at 6:30 and one at 9 a. m.

Another slight shock was felt here at 9 to-night.

Raleigh, N. C., 4.—A special dispatch to the *News and Observer* to-night says that news has been received at Asheville to-night from Mitchell County to the effect that the earthquake phenomena were very startling in the mountains in the vicinity of the pinnacle of the Black Mountain. The subterranean rumblings were tremendous and continued 15 minutes. Immense rocks were moved from their beds and hurled down the mountain sides into the valleys. People fled from their houses into the woods.

Large Fires.

JERSEY CITY, 4.—A disastrous fire broke out at 5.10 this evening in the Pullman Palace Car Company's shed at the New York, Lake Erie and Western Railroad yard, at the Provost street crossing. It spread in all directions with frightful rapidity, and in less than an hour had destroyed a large amount of property. There were eight Pullman sleeping cars in the shed. Two of them were hauled out, and the third was partially burned. The other five were totally destroyed. They were valued at $16,000 each. By this time the car shed was a mass of flames which next enveloped the two story brick building at the easterly end. This was used by the Pullman Company for offices and storeroom purposes. It was destroyed. The two buildings at the western end of the car shed were also burned. The flames next attacked the freight depot of the Northern Railroad of New Jersey and the New Jersey and New York railroad. Both companies occupied a two-story frame building with one long freight shed attached. These buildings, with 13 freight cars and two empty coal oil cars were loaded with ice and the other seven were loaded with miscellaneous freight, of which there was also a large assortment on the platform under the shed. The total loss as yet cannot be ascertained, but it is believed it will amount to $200,000, most of which is covered by insurance.

New York, 4, midnight.—A big fire is raging at Long Island City. Demais's sash and blind factory and Donohue & Quinn's planing mill are burned to the ground.

A large three-story hotel, owned by Jos. McGee is now in flames. One of the largest blocks in the city is threatened.

The President.

LAKE PLACID, N. Y., 4.—President Cleveland's party drove across the country from Saranac Inn to-day and are quartered here for the Sabbath. Neither Mrs. Cleveland nor Mrs. Folsom have ever seen the beauties of this portion of the Andirondacks, and the trip was taken chiefly on that account.

Geronimo,

NOGALES, Arizona, 4.—Information has reached here that General Clark arrived at Calabasas last night with the intelligence from General Miles that while the latter was marching side by side with Captain Lawton, Geronimo came up saying the Indians were out of provisions and ammunition, that they were faint and hungry and would give up their arms and surrender unconditionally.

Tombstone, Arizona, 4. — John Slaughter, owner of the San Bernardino ranch, came here to-day. He states Geronimo and his band of forty bucks, squaws and papooses were captives of Captain Lawton, and were on their way to Fort Bowie.

Germans Slaughtering the Natives.

SAN FRANCISCO, 4.—The steamer *Maroa* arrived to-day from Sydney, Australia. She brought the news of the arrival there of the German war ship *Albatross* from among the Hebrides Islands, where she had been for the purpose of punishing the natives for the murder of German subjects at the Island of Leneure. A crowd of armed natives who had gathered on the beach were fired into and a hundred or more killed. The village of Tambolouga on the island of Pentecost was then bombarded and many more natives killed. When a landing was effected at the latter place, portions of the human bodies were found, but most of the bodies had been carried away, on both Islands. All the native villages that were found were burned. On Leneure a man named Klelu and one Pentacost of the German schooner *Upolu* had been murdered by the natives. Before the *Albatross* returned to Sydney she is reported to have proceeded to the Caroline Islands and hauled down the German flags flying there.

Can Mormons be Detained.

NEW YORK, 4.—Judge Churchill of the Supreme Court, to-day granted a writ of *habeas corpus* ordering the Emigration Commissioner to produce 13 Mormon emigrants who are waiting on Ward's Island, to be sent back to Europe. The writ was obtained to test the legality of the power of the Commissioners to send back Mormons as unfit to enter the country.

Canoe Race.

The first heat of the International Canoe Cup Race here to-day was won by the English canoe *Nautilus*, *Lassie* being second. The second race was won by *Lassie*, she beating the *Nautilus*. There were four entries. The deciding heat will be sailed Monday.

Base Ball.

DETROIT, 4.—New York 1, Detroit 7.
St. Louis, 4.—St. Louis 12, Boston 2
Kansas City, 4.—Kansas City 0, Philadelphia 8.

SUNDAY'S DISPATCHES.

The Mayor of Charleston on the Situation.

NEW YORK, 5.—William A. Courtenay, Mayor of Charleston, arrived this morning in the steamer *Etruria* from Liverpool and proceeded by first train for Charleston. He authorized the statement that he will receipt and be responsible for all tents that may be forwarded by the national guard to Charleston where they are imperatively needed by many suffering and homeless people. To secure this end he has appointed the following named gentlemen to act as a committee of arrangements: William S. Hastie of Charleston, W. H. Rhett and J. B. Lanneau. The headquarters of the committee are 317 Broadway, New York. The tents will be forwarded by steamer *Delaware* (pier 27, North River) of the Charleston line, free of charge, on Wednesday, Sept. 8th, or by express if they can be procured sooner. In an interview Mayor Courtney said: "Knowing the endurance of our people as I do, their coolness and bravery under all circumstances, I am satisfied from the news I found here on my arrival on Saturday afternoon, that the sufferers require immediate and substantial relief. Many thousands of people must be provided with shelter from the weather at once. Hundreds of houses will have to be rebuilt and a very much larger number cannot be inhabited until extensive repairs are made. It is a case of urgency, and if fully understood will, I am sure, be fully met."

SUNDAY IN CHARLESTON.

Fear of the Shattered Churches Leads to Services in the Open Air.

The Damages Underestimated—Plans for Rebuilding.

CHARLESTON, 5.—Charleston is quiet to-day and the Sabbath silence is only broken by the singing at different religious meetings which are being held in the open air. Hardly a Church in Charleston is considered fit for occupation, and the ministry of the different denominations have for this reason held their services in the public parks and in the ground adjoining the churches.

Sad to say, there is no doubt that the estimates of loss by the earthquakes are below the mark. The city appraiser, who has gone over the whole city and is familiar with the value of property, estimates that it

WILL COST AT LEAST FIVE MILLION DOLLARS

to put Charleston in a position as good as that which it occupied only a week ago. Buildings which were considered entirely safe, are now discovered to be in a dangerous condition, and persons who thought that they had escaped without injury, find themselves confronted by damages which are entirely beyond their means to repair. It is for this reason that there is so much anxiety. Two of the government engineers are expected to-morrow and in addition to these the Secretary of the Treasury has been requested to-day to detail a number of competent civil engineers from the office of the supervising architect of the treasury to assist in the work of examining thoroughly every building, so that the extent of injury and whether the building is habitable and can be allowed to stand, may be definitely ascertained. The relief committees, with the assistance given and promised, will be able very shortly to provide adequate shelter for the homeless refugees, and can furnish them also with such food as they require. There are to-day in Charleston

MANY PERSONS WHO ARE SUFFERING FOR WANT OF BREAD

and meat and who are unable to keep themselves. Their wants, however, begin to be known and will be quietly met. Government tents have been erected in the encampments in different parts of this city, where full attention will be given to sanitary requirements. It is calculated that at least 5,000 persons will need shelter for weeks to come, and it is proposed to erect huts on public grounds for the accommodation of those for whom tents will not suffice. Ample accommodation will be provided for colored refugees as well as for whites. It can be seen at a glance that even the generous assistance given by warmhearted people throughout the United States will be entirely inadequate to meet this emergency. If Charleston is to be rebuilt,

IF THE SHATTERED HOUSES ARE TO BE RESTORED,

If those that are in a dangerous condition are to be made safe, Charleston must have, at an early day, command of at least four million dollars, to be lent at a low rate of interest upon security of the property to be rebuilt or restored. No especial plan in this regard is especially advocated. Indeed, there is a disposition to wait in this matter the arrival of Mayor Courtenay, who reached New York from Europe to-day, and will be here Tuesday. In his courage and ability, in his comprehensiveness as well as masterly detail, the people have full confidence. His presence here will be worth a thousand men to Charleston. There has been no shock of earthquake since about 11 o'clock last night and this helps to make people hopeful, but they are confronted by terrible injury to their homes and this tends to depress them.

There was

ANOTHER SHOCK AT 11:05

to-night. It was not severe, and its duration was about two seconds. The prevailing belief is that the worst is over and the inhabitants are reasonably secure from further visitations of the earthquake. This belief is based mainly upon the assurances of scientists, who say there is only the slightest probability of the recurrence of more powerful shocks after the lapse of so much time. With the feeling of comparative security thus engendered, citizens who left the city in hot haste to elude danger have begun to return in small numbers, and visitors and sight seers are putting in an appearance. Four times as many people were registered for dinner at the hotels to-day as at any time since the visitation of the earthquake, and all available rooms at the various hotels are engaged for to-night. Few if any of these rooms would be occupied in case of another shock, and that may come with the pressure of the tide at midnight. Very few of the regular inhabitants will return to their homes during the week. In fact it is

ONLY THE MOST DARING.

of strangers, who yet venture inside of a building, and these do so because they have no true appreciation of the effect a severe shock would have at this time, when the houses hang together by slender threads.

The tents from the War Department and from Wilmington, were mostly put up in the park facing the battery, and overlooking the confluence of the Cooper and Ashley rivers leading out to the bay. As the sun peered through the scrub oaks and into the tents this morning and the inhabitants turned out to greet their

FIRST SUNDAY SINCE THE DISASTER.

A thrilling scene was presented. Scores of little children were seen gamboling on the green, mothers were making the toilets of their infants, servants were preparing breakfast over oil stoves, and men were standing in groups like soldiers after a battle, discussing the past, present and future. Within a pace of 300 feet wide by 1,500 in length, probably 1,000 persons were camped. This is one of the aristocratic portions of the city, and the campers were the best families. A number of births have occurred, twins in two cases. This has been an exceedingly warm day in Charleston. The streets were dusty and hot, but a breeze made the atmosphere tolerable in the shade. With the full blush of morning arose the voices of the negroes in public places.

THEY GOT UP SINGING AND SHOUTING.

By 10.30 o'clock services were in progress at a dozen points. In Washington Square hundreds of splendid voices blended together in perfect harmony. The singing could be heard at a distance of a mile. A greater revival was probably never witnessed than the one on Washington Square, and the same may be said of half a dozen or more others. All of the sermons treated of the calamity which had visited the city. It is now quite plain that there will be no suffering after a day or two, and although some instances of hunger and want in poor families are reported, enough money will probably be received to meet immediate wants. The relief committee will open a general supply store and issue rations to the helpless and needy.

Shocks at Macon and Savannah.

MACON, Ga., 5.—A distinct shock was felt here to-night at 10:08; although not severe, it created considerable anxiety.

Savannah, 5.—At 10:04 to-night another shock was felt here. The shocks are severe on the buildings, which are greatly strained.

A Strange Fatality in Pittsburg—Two Struggling Men Fall Fifty Feet.

PITTSBURG, 5.—A sensational and probably fatal accident occurred about 10 o'clock last night. Officer Wood and a man named Henning, whom he was arresting, fell over the cliff to Locust Street, and both are not expected to survive the injuries received. Henning had engaged in a street quarrel, and when the officers arrived took to his heels. Woods gave chase and finally drew his revolver and shot at the fugitive, the ball taking effect in his left forearm. They were then not far apart, Henning feeling the ball enter his flesh, stopped and stood at bay, just on the brink of the precipice, 50 feet high. It was the work of an instant. They clinched, had a short hard tussle and suddenly both men disappeared. When the other officers arrived no one was in sight, but a faint cry from over the cliff attracted their attention. Looking down the two men were seen stretched motionless at the bottom of the cut. Woods was unconscious and both men were terribly injured. They were carried to the police station and afterwards removed to the hospital, where they are now lying. Henning is resting easier to-night, but Woods is suffering intensely and may die before morning.

A BATTLE NEAR NEW LAREDO.

Sending for Reinforcements.

SAN FRANCISCO, 5.—The *Morning Call's* New Laredo, Mexico, special says: A battle occurred at 8 o'clock this morning between detachments sent out from here on Friday and Coyote's bandits. They met about 20 miles southwest from here, in Saidonia Gulch. During the fight the bandits were largely reinforced and completely routed? One policeman was killed and two wounded. Two bandits were killed and several wounded. The wounded police have just now been brought in upon litters, Col. Martinez, commanding the Federal troops guarding this city, has ordered cavalry from Monterey and Lampazos. The fight lasted about an hour. The police and guard fought desperately against large odds. It is known that Coyote is being reinforced by desperadoes from Texas. This city is being put in a state of defense by the soldiers, police and citizens. The excitement is intense.

Meeting of the Brotherhood of Locomotive Engineers.

SCRANTON, Pa., 5.—A reunion of the Brotherhood of Locomotive Engineers was held in the Academy of Music today. At a secret meeting held in the morning, a resolution was adopted expressing strong approval of the action of Grand Chief Arthur, during the recent labor troubles in the west and southwest. About 1,500 engineers were in attendance.

MURDERING INFANTS IN MILWAUKEE.

The Regular Business at a Hospital in that City.

MILWAUKEE, 5.—The finding of a dead infant, with a darning needle through its heart, has led to the disclosure that a regular business of putting babies to death, at so much per head, has been carried on in this city. Mrs. Pauline Millestaedt, proprietress of a private lying-in house, fled a few weeks ago, upon ascertaining that the authorities had accumulated evidence criminating her. She traveled under an assumed name in Michigan, but was overhauled at Reed City and brought back to-night. She confessed the murder of the child, and claims to have been promised $300 by its mother for putting it out of the way. The authorities are investigating the deaths of numerous infants born out of wedlock, supposed to have been put to death by her.

THE CROPS.

The Corn will soon be Free from Danger.

CHICAGO, Ills., 5.—The *Farmer's Review*, in this week's issue will print the following crop summary:

The frost which prevailed throughout a portion of the corn belt during nights of the past week, caused very little damage to growing corn. Reports indicate that while the crop in the south and continued not weather seriously injured the general prospects of corn, it also accelerated the ripening of grain, and, in sections of Missouri, Kansas, Iowa and Minnesota, a portion of the crop has sufficiently matured to be beyond danger from frost. Reports indicate that as a whole the corn crop will be out of the way of frost within 15 days if not attacked prior to then, and a large proportion of the crop cannot be seriously menaced even now. The general prospects for the output of corn show no marked improvement. The tenor of reports from all the States except Ohio, Indiana, Michigan and Minnesota continue to predict a short crop. In the four states named prospects continue favorable for a full average yield, while a majority of counties estimate the yield at from 45 to 65 per cent. Twenty-six Ohio counties estimate an average of 61 per cent. Kansas, Missouri and Wisconsin give promise of about one-half the usual yield. Reports indicate that pastures are rapidly drying up, though in portions of Illinois and Iowa, the late rains have served to renew the grass somewhat.

FOREIGN.

Prince Alexander Proposes to Abdicate.

PARIS, 4.—It is reported here that within the past few days 50 Russian officers of Mufti have arrived separately at Sofia, and placed themselves in communication with the Zankoff faction of the revolutionists.

Sofia, 4.—Prince Alexander has announced publicly his intention of abdicating. He says he cannot remain in Bulgaria on account of the objections of the Czar. Before leaving he will establish a regency.

Prince Alexander made an address at a reception given by him to the officers of the army in which he made the following statement: "The independence of Bulgaria requires that I leave the country. If I did not Russia would occupy it. I will, however, consult with the superior officers and constitute a regency which will endeavor to protect the interests of my officers. In any case, I rely on the army."

Prince Alexander imparted his intention of abdicating to the German and Russian Consuls. A grand council, among the members of which are M. Stambuloff and Karaveloff, is being held to arrange for the regency. The Prince will probably leave within two days. The officers of the army are greatly excited and talk of detaining the Prince. They have resolved, in any case, to refuse to receive the Russian envoy. They will hold a meeting to decide what course to adopt. The city is tranquil.

Seeking to Consolidate Bulgaria, Servia and Roumania.

VIENNA, 4.—The *Neue Freie Presse* publishes a dispatch from Sofia stating that M. Kartuleoff, head of the revolutionary party which deposed Prince Alexander, has been released from police supervision. The Russian party in Sofia say that Major Greuff, who took a leading part in the *coup d' etat*, had resolved at the time upon killing Prince Alexander, and was prevented from carrying out his resolve by the intervention of the Russian consul. It is not now believed that Prince Alexander will abdicate, but that he will summon the Bulgarian assembly and submit the question of abdicating, or continuing on the throne, to that body for decision. Powerful influences are being exerted from several different quarters to bring about a union of Bulgaria, Servia and Roumania.

SUNDAY'S DISPATCHES.

ALEXANDER'S BAD BREAK IN BULGARIA.

Russia will give the Throne to the Duke of Oldenburg.

PHILIPPOPOLIS, 5.—Prince Alexander has issued a decree summoning the National Assembly to meet on the 11th inst.

Athens, 5.—The *Ephemerius* states that Prince Alexander has notified the Czar of his abdication of the throne of Bulgaria.

London, 5.—The *Post's* Berlin correspondent says: Emperor William proposed Alexander's telegram to the Czar as the best means of effecting a reconciliation and that the Czar's reply was therefore a direct blow at the Emperor. The correspondent further says the news of Alexander's abdication caused the utmost anger against Russia among German officers. Advices from Vienna say, the news of Alexander's abdication was received with consternation there. The Prince's action being looked upon as the beginning of a serious stage of the Bulgarian question. It is believed in Vienna that his abdication will not deter Russia from attempting to occupy Bulgaria, a proceeding which Austria cannot allow. Dispatches from Sofia say that the Russian party there headed by the Russian consulate, shows signs of great activity, and they are preparing an address to the Czar. It is expected that Prince Alexander will go to Servia thence to Darmstadt and then to England. M. Popioff and numerous Bulgarian officers have decided to accompany him.

Sofia, 5.—Thousands of copies of the Czar's reply to Prince Alexander have been printed by order of the Russian consul, and distributed among the people. It is believed that Russia will give the throne to the Duke of Oldenburg who is commander of the cavalry division at St. Petersburg and a favorite of the Czar.

TEXT BOOKS ON PHYSIOLOGY.

AN ENDORSEMENT OF A. S. BARNES & CO'S "PATHFINDER" SERIES.

At the session of the Salt Lake County Teachers' Institute, held Saturday, there were present superintendents of district schools from eight counties in the Territory. Mr. Edward J. Adams, representing A. S. Barnes & Co., of San Francisco, also attended. The question of text books on physiology and hygiene, for use in the district schools, was taken up, the result being the passage of the following preamble and resolution by a unanimous vote:

Whereas, Congress at its last session enacted a law of which the following are the first two sections:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the nature of alcoholic drinks and narcotics, and special instruction as to their effects upon the human system, in connection with the several divisions of the subject of physiology and hygiene, shall be included in the branches of study taught in the common or public schools, and in the Military and Naval Schools, and shall be studied and taught as thoroughly and in the same manner as other like required branches are in said schools, by the use of text-books in the hands of pupils where other branches are thus studied in said schools, and by all pupils in all said schools throughout the Territories, in the Military and Naval Academies of the United States, and in the District of Columbia, and in all Indian and colored schools in the Territories of the United States.

SEC. 2. That it shall be the duty of the proper officers in control of any school described in the foregoing section to enforce the provisions of this act; and any such officer, school director, committee, superintendent, or teacher, who shall refuse or neglect to comply with the requirements of this act, or shall neglect to comply with the requirements of this act, or shall neglect or fail to make proper provisions for the instruction required and in the manner specified by the first section of this act, for all pupils in each and every school under his jurisdiction, shall be removed from office, and the vacancy filled as in other cases.

Whereas, The superintendents and teachers and people of this Territory are in hearty sympathy with the purpose of said law and desire and propose that it be speedily and effectually carried into effect; and,

Whereas, No convention of county superintendents for the adoption of text books is to be held this year; and,

Whereas, Unless some concerted action is taken, it appears certain that a great multiplicity of text books on physiology will creep into the schools of the Territory, involving a change in most or many of the counties, when some one text book for the whole Territory shall be legally adopted; and,

Whereas, There are now present at this Institute, as visiting members, the superintendents of the following counties to wit: Box Elder, Cache, Davis, Juab, Salt Lake, Sanpete, Utah and Weber; said superintendents representing more than two-thirds of the school children of the Territory; and

Whereas this Institute and the above named county superintendents are agreed that the "Pathfinder" Series of Physiologies, comprising "The Child's Health Primer," "Hygiene for Young People," and "Steele's Abridged Physiology," are better suited than any other books to carry out the purpose and intent of the law, in that, from great simplicity of style they can be used in lower grades than any other books on this subject, and also in that they devote much greater space to the treatment of the effects of alcohol and narcotics; it is therefore

Resolved by this Institute (the County Superintendents of the above named counties, concurring) that the above named "Pathfinder" series of physiologies be, that they are hereby recommended to be used in all the schools of this Territory.

WM. M. STEWART,
Prest. Salt Lake Co. Teachers' Institute.
DAVID R. ALLEN,
Secretary.

County Superintendents of district Schools concurring:

John D. Peters, Box Elder County; W. H. Apperly, Cache County; H. L. Steed, Davis County; F. W. Chappell, Juab County; W. M. Stewart, Salt Lake County; Wm. K. Reid, Sanpete County; G. H. Brimhall, Utah County; E. H. Anderson, Weber County.

On motion of Sup't. Wm. K. Reid, Sup't. E. H. Anderson of Weber County was appointed a committee of one to present the action of the Institute and Superintendents to the Superintendents and teachers of Counties not represented and request their concurrence in the above action.

It is endorsed by chemists as a harmless preparation for coughs. Red Star Cough Cure.
