

Dubei and Sheppard of Last Season' Team Already Encouraging For Next Season.

8

Salt Lake baseball fans and magnates are already making elaborate plans for the season of 1907. While it is goveral months before the game will again be aroused in Salt Lake and Utah, yet base. ball is being daily talked of in certain quar-Never have the prospects been brighter than at the present time.

PROFESSIONAL BALL.

PROFESSIONAL BALL. The prospecies are that professional ball will be puryed in Sait Lake this coming scason. A split is anticipated in the Pa-cina Coast league. The Northwest league will then be formed to compose Portiand, Spokane, Scattle, Tacoma, Butte and Sait Lake. This will give Sait Lake better ball than she has over experienced before. While the jumps from one city to another would be rather long yet the quality of hall which will be disaded out will well re-play the spectators who attend the games requarity. reguarly

SALT LAKE'S PROSPECTS. SALT LAKE'S PROSPECTS. Manager John Dubel of last season's Salt Laker's, and Harrison O. Sheppard, president of last season's league, are anxious to see Salt Lake take hold of the matter. Both Lubel and Sheppard are heartly in accord and have been the backthone in the past. They are willing b back the team provided the situation will warrant it. Torey believe Salt Lake meeds and would patronize first class ball. It is their intendons to give them a challee to do so. John Dubel when approached needs and would patronize first class ball, it is their intentions to give them a chance to do so. John Dubei when approached on the subject today had little to say. He admitted that an eight city league and thus give Salt Lakers their money's worth. While the plans have not fully natured yet the sticcess of the venture is practically assured.
 Ber Margstis, and Salt Lake player, who has had considerable experience on the diamond and at the head of a team, will probably have charge of the local position and feels sure that he will be able to hand fast, local stars.
 Huesser, of last secon's champion Euro-ka team, has received flattering offers nines. Should this Northwest league prova success he will remain here and play for Salt Lake. Other snappy players of ast year's interstate league, will also be retained if possible. Salt Lake can well afford a winning team and one will be brought together.

SCHEDULS OF GAMES.

SCHEDULS OF GAMES, Manager McGraw ef the New York Glants will take his team to the Pacific coast for their early spring training. They will take the southern route out early in April an dreturn by way of Sait Lake and Denver. They will play practise games with New Orleans, Galveston, Mobile and other southern teams, thence in Califor-nia they will meet such teams as Los Angeles, San Francisco, Oakhand, San Jose, estabound, Sait Lake and Denver. Two or three larger games with the fast eastern teams, who are to come west or their preliminary training, will prove a great advertiser and a success financial by

look for Next Football Season. Boulder, Colo., Dec. 2.—From the looks of things the University of Colorado foot-ball team should stand the best chance to win the Colorado and Rocky Mountain championship in 196, as only one man will be lost from the team that this year lost only to Colorado College. Roller, alone, of the line, will complete his four years, and his place is already as good as filled by Wetner, who has this year been available at either center or fullback, and so can easily be used at guard next year. This will give the Colorado coach the advan-tage of starting the season with the en-tite eleven of this year, and with the re-cruits received from the freshman class and the experience gained by the backs this year he should be able to develop a back field second to none in the state, while the line this year was undoubtedly the strongest in the state. So the pros-pert of the University of Colorado wrest-ing the three-year championship from the School of Mines next year are exceeding-by bright.

Road.

A BOLD STEP.

To overcome the well-grounded and reasonable objections of the more'intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has absolutely and completely removed his medicines from among secret nostrums of doubtful merits, and made them Remedies of Known Composition.

They are now in a class all by themselves-being absolutely and in every sense Non-secret.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

atatements concerning his medicines gredients used in these medicines, as had been published through the connad been published through the con-nivance of jealous competitors and dis-gruntled doctors, that Dr. Pierce deter-mined to completely disarm his assail-withheld from publicity that Dr. Pierce's ants by a full and frank statement of their exact composition, verifying the same under oath as complete and cor-imitators and those who may be pirati-This he has done and to the cally inclined.

complete discomfiture of those who had Dr. John Fyle, of Saugatuck, Conn., assailed his good name as well as the Editor of the Department of Therapeuwell-earned famed medicines.
