WILL BORE FOR OIL.

It now appears that Wayne county will become a great oil field, as oil of good quality, crops out in numer-ous place. Machinery will be put in at once to bore for oil at Fruita, this county, 14 miles east of Torrey. Some oil bearing rock is found near Torrey. Copper and other valuable minerals also exist in this section. John J. Holt and family of Tucson,

LINCOLN. MR. AND MRS. STEEL HONORED. Farewell Social Tendered Aged Couple And Their Families.

Lincoln, Tooele Co., Aug. 24.—Last Saturday, Aug. 24, the people of the ward gathered at the home of Mr. and Mrs. James I. Steel in honor of the old gentleman's eighty-eighth birthday with their son's and daughters' fami-lies into Idaho. Of the several families whe sold out to the smelter com-pany, they are the first to leave, and the entire town turned out to show their esteem and love for this ideal

Shields prior to his presen-tation of a handsome present the ward had subscribed as a token of their good feeling for, and apprecia-tion of, the ones who are about to sever their connecton with the ward in which they have lived and taken active part for nearly fifty years. Mrs. Steel, better known as Aunt Ann, responded with a very appro-priate speech of acceptance. The scene was really pathetic, and while the tears of mingléd joy and sad-ness ran down the old lady's cheeks, many another eye was dimmed with the meisture of sympathy for the old people, and regret at the loss of them. The old gentleman also respond-ed with a brief history of his life and a hearty thanks and a God bless you for all present. The balance of the evening was

The regular chass exercises were carried out for one hour, followed by remarks from the visiting elders, interspersed with excellent singing in English, by the children of the kindergarten and pri-mary classes. It is gratifying to note that there are several families having five to eight children, bright and intelligent to a marked degree. To the elders who have labored in Hawaii and not-ed the absence of children in the na-tive homes and the consequent dwin-dling away of the race on the islands, the thought must inevitably come that here is certainly the place for the re-generation of the Hawaiian people, and an ardent wish naturally comes that these benefits may be fully ap-preciated and enjoyed by the saints in Hawaii.

The afternoon services were attend-ed by practically the whole native population, besides a number of white people from adjacent ranches, confort-ably filling the assembly room of the new meetinghouse and suggesting a time not far in the future when the adjoining room will have to be thrown energy or other provision made to see commodate the saints. The new meetinghouse is now fully

completed and ready for dedication, and by the express desire of the peo-ple, only waits for the convenience of President Smith to go out and dedi-cate it, a time which is looked for-ward to with eager anticipation by them. ward them.

There are few, indeed, of the Hawaiians there who cannot understand English and most of them speak it, the children especially speaking it very fluently. A pleasing feature of the service was the singing, all in English, under the direction of Chorister James Hale-manu, with Liwal Hanakaeg at the

is nevertheless true. In the evening all enjoyed a pleasant sevenade from a dozen or more young men and boys, consisting of the Hawaiian Troubadour association and others, who sang and played as only Hawaiian can.

PIONEER DAY FESTIVAL

PIONEER DAY FESTIVAL On Monday occurred the pioneer ex-frcises, in the forenoon sports and young. At noon all assembled in the howery adjoining the meetinghouse and partook of a royal Hawaiian fsasi, the feature of which to the visiting elders was poi and meat prepared af-ter the inimitable Hawaiian style. Two young pigs, weighing 100 pounds each, cooked whole in a steam pit, gallons of poi besides daintles of the "Haole" (white man's) food prepared by the mothers and girls of Hawaii, and which were much the native food), will give an idea of the menu.
