

# THUGS ATTACK SENATOR CLARK

Montana Man Has a Thrilling Adventure in Paris.

RESCUED BY A COACHMAN.

The Two Become Fast Friends and They Do the Gay French Capital Together in a Fraternal Manner.

New York, April 19.—A cablegram from the World from Paris says: The closest chum of Senator Clark of Montana, who is in Paris, is a cabman named Marioulet, who fought for the senator two nights ago, when three toughs assaulted him as he was returning to his hotel after midnight.

The assault occurred in a little street behind the Madeleine church. The American put up a brave fight, but was alone against three, and had just been tripped when Marioulet, a dirty and disreputable looking "night hawk," but generous and honest withal, who was driving aimlessly near by, hastened to the rescue and belabored the thugs with his sulphuric. Marioulet was knocked unconscious, but his intervention gave the senator a chance to regain his feet. Then the highwaymen became scared and ran away. Clark easily settled the third thief with a blow on the mouth, which floored the fellow and made him spit out some teeth.

Sensor Clark, fearing that the unscrupulous cabman might be dead, placed Marioulet in the cab himself, picked up the reins and drove as rapidly as possible to his fashionable hotel.

Marioulet soon regained his senses and Senator Clark revealed his reason for his sudden change of heart. He told the whole of his time until further orders. Marioulet, who now has all he wants to drink and eat, is devoted, heart and soul, to his American master. Clark, for his part, is equally devoted to the "night hawk," who has become the most interesting character he ever met.

The couple are doing Paris together in the most fraternal manner imaginable.

## PROF. EVANS' HEARS CHOIR

Special Program in Honor of the Celebrated Seranton Conductor.

At the close of the services in the Tabernacle yesterday afternoon the choir remained on the invitation of Prof. Stephens. It was announced that Prof. Haydn Evans, of Seranton, the man who led the winning choir at the World's Fair, was present, and for his benefit the choir sang the "Soldiers' Chorus" from Faust. Mr. Evans sang splendidly and at his close Prof. Stephens thanked them heartily for their kindness and added that the greatest attraction in Utah to him was the Tabernacle choir.

## DEATH OF JOHN WAGSTAFF.

Aged Resident of Farmers Ward Passes Away.

John Wagstaff laid down the weary burden of life at his home in Farmers ward, Saturday afternoon, after carrying it for 85 years. At least he would have been 85 years old had he lived until the 25th of this month. He was a native of England and after joining the "Mormon" Church he emigrated to Utah in 1852. He has been a resident of Salt Lake ever since, where he is well known both for his honesty and integrity as well as for his ability as a landscape gardener and horticulturist. He and his three brothers, all of whom he survived, were all skillful gardeners and practically introduced that industry into Utah. Mr. Wagstaff's gardens and orchards in Farmers ward have been admired by hundreds of people. He played well his part in life and goes down into the grave with the love and esteem of all who knew him. He is survived by a number of children, grandchildren and great-grandchildren, but his wife died two years ago.

The funeral will be held from the Farmers ward meeting house Tuesday at 1 p. m.

## MISS SADIE GROW MARRIED.

Becomes the Life Partner of O. E. Moddy—A Quiet Wedding.

Miss Sadie Grow, a popular young lady of the Twenty-second ward, was married last night to O. E. Moddy, the engineer at St. Mark's hospital. The ceremony took place at the home of P. H. Hill, 367 north Fifth West street, in the presence of immediate friends, Rev. D. Douglas Wallace of St. Mark's hospital officiating. After the ceremony the evening was spent in merriment and the serving of refreshments.

Mr. and Mrs. Moddy will be at home after May 1st, at 627 north Second West street.

## DEATH OF LAVINIA MORRIS.

The Little Daughter of G. V. Morris Dies of Heart Disease.

A particularly sad death occurred at the home of Mr. and Mrs. G. V. Morris in the Twenty-second ward in this city on Saturday evening. The victim of the grim reaper was the little Lavinia Elizabeth, their 9-year-old daughter. She was the victim of heart disease, and despite her suffering and tender years she was always patient and kind. These qualities, together with an intelligence that was far beyond her years, made her a great favorite with her schoolmates. She was loved by all who came in contact with her, for her gentle and affectionate disposition and bright spirit. All that could be done to stay the hand of death was done, but it was in vain. Lavinia will be missed by her playmates, and her loss will leave a great void in the home and hearts of the parents. The sympathy of the community is extended to them in their grief.

The funeral will be held from the Twenty-second ward meeting house Tuesday, at 11 a. m. The remains may be viewed at the home, 824 west, Third North street, from 8:30 to 10:30 tomorrow morning.

## SERIES OF RARE RECITALS.

Miss Catherine E. Oliver Will Appear at First Congregational Church.

Miss Catherine Oliver, the famous elocutionist and Scotch impersonator, will appear at the First Congregational church in this city on Tuesday, Thursday and Friday evening.

# CHARGED WITH MAYHEM.

Ogden Young Men Held in Bonds of \$300.

(Special to the "News.")

Ogden, April 22.—Walter Irwin and Howard Post, the two young men who were concerned in the pelting of a Chinaman here with rocks on Friday, whereby the Oriental lost an eye in addition to having been badly used up, were this morning arraigned before Justice Hall on the charge of mayhem. The two defendants pleaded "not guilty," and their bonds were fixed at \$300 each. The bail in both cases was forthcoming; the preliminary hearing was set for 10 o'clock tomorrow morning.

In the police court this morning three drunks, one vagrant and two fighting individuals were assessed \$5 each. C. Martin, who was arrested for ordering a meal at a restaurant and then forgoing the formality of paying for the same, was discharged.

## RUNAWAY BOYS.

Salt Lake Youngsters Arrested in a Fruit Car.

(Special to the "News.")

Ogden, Utah, April 22.—Abraham Ogden, Robert Adamson and John Murphy, three runaway boys from Salt Lake, were arrested last night by Detective Pickering in a fruit car here. The boys were locked up for the night to be eventually sent back to Salt Lake this afternoon. Just how the lads entered the car is at present a mystery. They affirm that when they boarded the train the seals on the door of the car were broken, and they simply pushed the door open and climbed on. It is significant that when the officer found the youngsters he also found that a quantity of the fruit was missing from the car. The lads, however, deny strenuously that they had a hand in the removal of the fruit.

## JUDGE TIMMONY'S COURT.

Frank Kearn and Bud Haughton were fined \$5 each for drunkenness.

Tom Morris, a grizzled miner from Wyoming, admitted being drunk, but called on Col. Kimball to prove that he had not been arrested for nearly two years. The evidence was good and the court discharged him.

Frank Russell was accused of allowing himself to become intoxicated. "I would like," said he, "to have your honor suspend sentence if it is in accord with justice, because I could go to work."

"Well, remarked the court, you will certainly be working unless you have the necessary \$5." Russell did not have the W. and went to jail.

W. G. Ansen was accused of assaulting a 14-year-old boy named Jed F. Woolley, Jr. He pleaded not guilty and young Woolley was placed upon the witness stand. He said that he saw Ansen's little boy spitting on his little sister, and he took after him to give him a thrashing and ran him into Ansen's yard. Then, it appears that Mrs. Ansen appeared upon the scene armed with a broom, and later, Mr. Ansen, who boxed his ears. The lad's testimony was corroborated by two other witnesses and then Ansen had his inning. He said that he was awakened from a sound sleep by a noise, and going outside saw Mrs. Ansen and the Woolley boy struggling for the possession of a broom. He said he then ran up to the boy, slapped his face and sent him home.

"Oh, I think," said Judge Timmony, "that Mr. Ansen did just what any other gentleman would have done under the circumstances. In fact I think I would have done it myself. The defendant is discharged."

## NEW PARK POLICEMAN.

Today Chief Hilton announced that he had appointed John Brown to act as Park policeman, and it is expected that the appointment will be confirmed at tomorrow night's council meeting. Mr. Brown has been in the employ of the city in the street supervisor's department for some time.

# An Honest Tired Feeling

There is an "honest tired feeling," caused by necessary toil and cured by natural rest.

But very different is "that tired feeling" from which so many complain and which may even be classed as a disease.

That tired feeling takes you to bed tired and wakes you up tired. You have no appetite, have bilious taste, dull headache, are nervous and irritable, blue, weak and discouraged.

In such conditions Hood's Sarsaparilla does a world of good.

It begins in the right place—in the blood, purifying it and imparting vitality, then its tonic effect is felt by the stomach, kidneys and liver; appetite comes back, all waste is removed naturally, headaches cease, that tired feeling departs and you feel like a new person.

This has been the experience of thousands.

It will be yours if you take

**Hood's Sarsaparilla**  
Sold by all druggists. Prepared by C. I. Hood & Co., Lowell, Mass.

# UVADA'S NEW WAY STATION

Trainloads of Supplies Go Right Through to Crestline, Nev.

SHORT LINE PUSHING ON.

Over 3,700 Feet of Main Line and 1,500 Feet of Side Track Rails Laid by Gangs Yesterday.

(Special to the "News.")

Uvada, Nev., April 22.—Uvada has seen its zenith of excitement and population, for yesterday the carpenters, bridge-builders and Jap outlaws left here for Crestline on the divide about six miles into Lincoln county, Nevada, where a long switch has been put in on the new road extending southwest of Uvada.

Captain J. C. Beye, division engineer of the Kansas district of the Union Pacific, with a complete outfit, left yesterday to look over the routes through the Meadow valley wash and across several small deserts to Ludlow or Barstow on the Santa Fe road. Other engineering parties started from here also early this morning under G. Q. Barlow, division engineer from Pocatello, Ida., who is familiar with all the country southwest, having surveyed the grade to Meadow valley wash junction, thence to California, eleven years ago.

The work on the road is being pushed westward as rapidly as possible, there being over 3,700 feet of main line and 1,500 feet of side-track rails laid yesterday, besides other work.

The bridge work is being pushed forward and four bridges, each twenty-five to forty feet long, built, showing that the Oregon Short Line railway means business.

The pile-driver was suddenly called away on Saturday to put in a bridge for the new sugar factory spur at Logan, but will return in a few days. Five more outfit cars filled with carpenters are scheduled to reach here early this morning, which will greatly assist the bridge work.

The Clark representatives are as the crows on the fence, watching the movements of their opponents to the short piece of grade now left to quarrel over.

## U. P. FILES IN KANSAS.

Sequel to the Meeting Held in Salt Lake Last Month.

Topka, Kansas, April 22.—The state charter board today had presented to it the largest charter proposition in its history when A. L. Williams, general attorney for the Union Pacific Railroad company, came in with an application to increase the capital stock of the Union Pacific one hundred million dollars. The Union Pacific's capital stock at present is \$196,000,000. The hundred million additional that is to be issued bringing the total capital stock up to \$296,000,000, is to pay for the interests bought up in the big deals that have been going on in the capital stock of the company. The interest in the Southern Pacific, giving the Union Pacific control of the Southern Pacific. The fee for filing the document was \$10.50 and is the biggest ever received by the state.

## RAISE OF \$30,000,000.

Directors of Missouri Pacific Authorized Capital Stock \$100,000,000.

New York, April 22.—The directors of the Missouri Pacific railroad at a meeting today authorized an increase of \$30,000,000 in the capital stock, making the total authorized \$100,000,000. A stockholders' meeting will be held shortly to ratify this action.

## TO STOP RATE CUTTING.

Santa Fe and Southern Pacific Make an Agreement on Traffic.

The Southern Pacific and Santa Fe have perfected an agreement whereby they will divide between them a large volume of passenger traffic to and from California, and will otherwise preserve a bone of contention and occasion spirited competition between the transcontinental line and a possible demoralization of rates. The agreement was made at a conference at Delmonico between the two companies' officials of both roads after the adjournment of the Transcontinental Passenger association. The agreement embraces, among other things, a division of the passenger traffic and a salary during the year ending June 30, 1902. It is estimated that many thousands of discharged seamen and recruits will be moved between the Atlantic coast and the Philippines during the year.

The Santa Fe has the most land grant of any of the transcontinental lines. The land grant extends from the Colorado state line and from Isleta, near Albuquerque, to Mojave. Government business over this portion of the road has been carried at 50 per cent of the tariff rate. The Santa Fe is thus forced to offer a rate considerably below the tariff, and it is agreed that this rate shall be offered in the bids asked for by the many mail and passenger officials.

The passenger officials are still considering many matters regarding the general interchange of traffic between the two companies, among the most important of which is the question of using interchangeable mileage tickets.

## Santa Fe Junksters.

San Francisco, April 22.—All the prominent district freight agents of the Santa Fe system are here on a tour of inspection and general inquiry so they may become familiar with the country and the conditions with which the Santa Fe lines have to do.

In the main party are S. W. Manning, of Boston, agent in New England; J. S. Bartle, of New York, general eastern agent; Douglas D. Allen, of Kansas City, general agent at Kansas City; General Agent Wilson, of Philadelphia; Fred H. Houghton, agent at El Paso; P. H. Manton, general agent at Chicago; George E. Rice, general agent at Pueblo, and C. H. Morehouse, general agent at Denver. A secondary and smaller party is now in Los Angeles, following over the route traversed by the advance group of freight managers.

## Geo. W. Heintz Returns.

General Passenger Agent George W. Heintz of the Rio Grande Western returned from Del Monte this morning, where he has been in attendance upon the meeting of western traffic and passenger officials. Mr. Heintz, this morning stated that beyond the adjusting of transcontinental difficulties and the cleaning up of business that had been left over from the last meeting there was little done at the meeting, which would be of interest to the general public. General Traffic Manager Habcock and General Passenger Agent D. E.

## Burley of the Oregon Short Line are

expected to return during the middle of the week.

## No Contract Let.

General Manager W. H. Bancroft and General Superintendent E. E. Calvin of the Oregon Short Line returned from Idaho this morning. When seen this morning the latter stated that no award had as yet been made in the contract for the construction work on the Blackfoot extension beyond Bliss. Bids were put in for the work by both Utah and Eastern contractors, who during last week made Salt Lake their headquarters. Additional bids will be seen in order for the construction of the Oregon Short Line extension for the coast.

## SPIKE AND RAIL.

The Oregon Short Line is widening its track south of Collinston.

Sheep shearing is now in full swing down at the Tooele corrals.

The Oregon Short Line special from Ogden yesterday brought in 325 people.

The home-seekers' excursions from the East to date have broken all former records.

All the eastern woolbuyers and traveling freight agents in the State are in town today.

All the big railroad systems are getting out handsome Pan-American exposition literature.

There are already a number of cardinals of wool stacked up at Black Rock awaiting buyers and shippers.

The Chicago Northwestern representative in the local baseball nine secured the first run for the Railroads in the game on Saturday.

The Short Line has received six additional Pyle electric headlights. They will be placed on the 40 class engines recently turned out of the Pocatello shops.

Traffic on the Short Line south of Salt Lake continues to be more or less demoralized on account of the heavy trainloads of construction material that are being rushed to the front.

C. O. Whittemore has left for Washington, presumably in the interest of the San Pedro, Los Angeles & Salt Lake road in connection with the appeal taken by the Oregon Short Line last week.

The Rio Grande Western last week hauled a special loaded chicken car en route to San Francisco. Incidentally there were nearly 5,000 chickens in the car, packed as close as sardines, and weighing in the neighborhood of 20,000 pounds. The birds were destined for the hotel and restaurant trade of San Francisco.

"Facts about the Lands of Utah" is the title of the latest folder issued by the passenger department of the Rio Grande Western. The publication includes 16 pages of interesting matter pertaining to the resources of Utah, and is illustrated with 15 half-tone cuts depicting crops and fruits raised in this state.

Tooele Transcript: As we said a few weeks ago that the Clark railroad would have \$300,000,000 of organized

# BIG VICTORY FOR WATERWORKS.

The United States court of appeals at St. Louis handed down a decision, on Saturday, in the famous Ogden Waterworks case, the effect of which is to practically vest the title to the Ogden Waterworks system in the old Bear River Irrigation and Ogden Waterworks company, and to affirm the decision handed down by Judge Marshall a year ago holding that the city council of Ogden did not exceed its powers in turning over the city water right to the assignors of the original company and that the company had a clear title to the property. Judge Marshall in harmony with that decision rendered judgment on two causes of action against the defendant, Ogden City, for water rentals. The first judgment was for \$11,832.32 and the second, for \$10,145.42. The affirmation of Judge Marshall's decision by the circuit court of appeals at St. Louis makes it necessary for Ogden City to pay these amounts, interest, and the costs of the action at law.

The importance of the decision is evident. If it had been against the receiver of the old Bear River Irrigation and Ogden Waterworks company, serious complications would have arisen and the present Waterworks company would have been effected. The new company is effected only in that their title to the waterworks is much clearer now than before the appellate decision was rendered.

The story of the case up to the decision rendered on Saturday last is as follows: Ogden City sued in the state courts for possession of the waterworks system. It was alleged in their complaint that the city council of Ogden exceeded its jurisdiction in turning over the water rights to the assignors of the waterworks company. Judge Hills held that the city council had not exceeded its powers in turning over the water rights to the assignors of the waterworks company. The case was then appealed to the circuit court of appeals at St. Louis. The suit was based upon the alleged ownership by the company of the Ogden waterworks system. The city answered, alleging, as it had done in the state courts, that it was the owner of the water rights, and that the city council of Ogden had exceeded its jurisdiction in turning over the water rights to the assignors of the waterworks company. However Judge Marshall rendered the decision above set forth and upon appeal the Federal court of St. Louis affirmed Judge Marshall's decision on Saturday.

## ALL BECAUSE GEORGE WAS "SO BASHFUL"

A Mysterious Young Woman Mixes Herself and County Clerk James While Making Application for a Marriage License—She Promised to Come Back.

When County Clerk James arrived at his office this morning he was accosted by a well dressed young woman, who asked if she could see him in private for a moment. The courteous clerk showed her into his private office. "May I close the door?" asked the charming young lady. The clerk began to have misgivings, but had no ready excuse to offer for leaving the door open. So he seated himself at his desk with an air of resignation and awaited developments.

"I want to get a license," opened up the fair unknown. Mr. James felt relieved. The clerk jumping at the conclusion that his visitor was a milliner, asked her where was her place of business.

"On Main street below Eleventh South," was the answer.

"Then, you're outside of the city limits?" queried the clerk.

"Oh, dear, yes," replied the fair unknown. "What is the value of the stock you carry?" was the next interrogation. The young lady looked perplexed.

"Does it exceed \$500?" "Oh, dear, no," said Miss Blank with a look of astonishment on her face. "Are you willing to make affidavit to that?"

"Certainly," looking still more at sea. "Then the license will cost you \$6.25 a quarter. Are you ready to pay the first installment now?" said the clerk reaching over for his receipt book.

"Why, no," said the young lady looking still more puzzled. "Wouldn't one payment cover the whole thing? I didn't know 'we' had to pay every quarter."

"You certainly do, and if you have omitted to do so in the past you will have to pay the whole thing. I am assuming the most judicial air. In the past?" said the young woman with a look in which wonder and indignation strove for mastery. "Why, I've never been married before. At this point everything seemed to

## BUSINESS AND REALTY.

Margaret B. Harvey has transferred by warranty deed to Joseph C. Mather 5 by 3 rods at Fourth South and West Temple streets, part of lot 1, block 50, plat A, for a consideration of \$5,000.

A controlling interest in the Elgin

## STUART'S DYSPEPSIA TABLETS

Give Perfect Digestion, Sound Sleep, Strong Nerves.

A Popular Remedy for Dyspepsia Which Has Made Many Remarkable Cures.

The spring of the year is the time for blood purifiers. It is the season when we think we must dose ourselves with sarsaparilla, bitters and the endless list of so-called blood purifiers and nerve tonics.

As a matter of fact, there is but one possible way in which to purify the blood and that is, through the stomach and bowels.

Pure blood results from wholesome food thoroughly digested. Impure blood results from poor digestion and assimilation. When the stomach refuses to work properly the food remains too long a time, fermenting, forming gases, shown by sour, bitter taste in the mouth, bloating, belching, flatulence, and distress and discomfort generally. Poor blood, weak nerves, sleeplessness, and a general don't care feeling can always be traced to imperfect digestion.

This is the reason why Stuart's Dyspepsia Tablets are superior to all other spring medicines and blood purifiers. They give perfect digestion, the food does not lie in the stomach for hours. They give a vigorous appetite, sound sleep, strong nerves, and wholesome food well digested makes pure blood, and in no other way can the blood be purified. The idea that a medicine, in itself, will purify the blood when the stomach and bowels are out of order is nonsense. Stuart's Dyspepsia Tablets are used by thousands in preference to "bitters," "after dinner pills" and "blood purifiers" because they remove the cause of the impure blood, and you do not have to take them forever to get results. Dyspepsia is an obstinate disease to cure and remedy must be designed especially for it and nothing else. Cure-alls will not cure dyspepsia.

Stuart's Dyspepsia Tablets are not claimed to cure everything or anything except dyspepsia and stomach troubles, and for that it stands alone among patent medicines. Anyone suffering from any trouble with the stomach, or who finds these tablets will give immediate relief and a permanent cure.

Stuart's Dyspepsia Tablets are prepared by the F. A. Stuart Co., of Marshall, Mich., and sold by druggists everywhere. They are not a habit-forming drug, and require no change of habits, is required, they digest the food.

capital to fight, and they are fighting with all their might; but the Angels and the Saints, and the whole company of Pomona militia are on the side of Clark, and may the Lord have mercy on the \$200,000,000 now if the Standard oil trust don't help them out—they control the sea and the land and all the coasts of the world, and they will have their golden pad until the battered maid seeks shelter in a hole and groans. Wo! Wo! to the merchants and the habitants thereof when the railroad gets control of the highways of commerce in this glorious land of liberty.

A meeting of the shareholders of the Alberta Land & Stock company has just been held for the purpose of electing officers and outlining the company's plans for the coming season. The officers are: S. W. Woolley, of Grantsville, president; E. P. Ellison, of Layton, vice president; with Bishop George Romney of this city acting as secretary and treasurer. The other directors are: William J. Robinson, of Grantsville, Ezra Shomaker, of Madison, and M. W. Taylor, of this city. The company owns 32,000 acres of land in Alberta, which it proposes to stock with 2,000 head of cattle, which are already contracted for in eastern Canada at \$20 per head, delivered at Lethbridge, Alberta.

The directors of the George Q. Cannon association held a meeting in the office of President Lorenzo Snow this afternoon. John Q. Cannon was elected president, to succeed his father, and Frank J. Cannon, elected vice president. Radcliff Cannon is secretary and Angus J. Cannon is treasurer.

All of the property of the late President Cannon has been transferred to the association with the exception of a small amount that has been reserved for the education of the younger children and the maintaining of the Cannon homes. The interests of the association are so diversified that committees will be appointed to look after different branches of the work.

President Cannon has his property should remain with his family as far as possible that every member thereof might work for each other's interests, and the association is so constituted that such will be the case.

Withelmus T. De Groot and wife of South Cottonwood today conveyed to Mary B. Freeze for a consideration of \$2,500 ten acres of land in section 19, township 2 south, range 1 east, Salt Lake meridian.

Sheep shearing will begin in earnest next month. The price of wool has anything but a promising outlook. The present indications are that it cents a pound will be a top notch figure.

All protests in objection to the curbing and paving of Third South street between State and West Temple streets in paying district No. 6 must be presented at the office of the city recorder not later than tomorrow night at which time the city council is to consider the subject. The estimated cost of the work is \$35,550, or \$14 per front or linear foot.

## TO CURE A COLD IN ONE DAY

Take Laxative Bromo-Quinine Tablets. 3c.

## PERSONALS.

J. E. and J. B. Cosgriff have gone to Fort Steel and Rawlins on a business trip. They will be away for a week.

A telegram was received yesterday announcing that Clarence M. and Lewis Cannon, who have been on missions to Germany, have reached Boston en route home. Lewis Cannon is a son of the late George Q. Cannon.

Evanston News Register: Jake Hemple came up from Salt Lake on Tuesday, leaving the same evening for Spring Valley. Jake has purchased a \$5,000 residence in Salt Lake, where he will make his future home. He has been appointed a deputy sheriff for Salt Lake county, under Sheriff Naylor.

Evanston News Register: Newell Beaman of Salt Lake was in Evanston Wednesday on legal business. His health has improved greatly from his late attack of sickness.

Evanston Press: Max M. Well of Salt Lake was in Evanston this week. Frank W. Jennings of Salt Lake was in Evanston a few days this week. Sam Woolf of Salt Lake was registered at the Pacific Tuesday.

Jesse Knight and wife of Provo are guests at the Gullen.

Philo P. Clark and wife of Eureka are arrivals at the Mantion.

H. F. Savage of Denver is a guest at the Knutsford.

C. P. Evans of Park City, Daniel Owen of Mt. Pleasant and C. L. Gochmair of Clear Creek are staying at the White House.

## CAN'T BE BEAT

If it comes from us. Today it is.

### Dinner Sets.

The question is, not whether you can afford to buy, but whether you can afford not to buy. Just note the following:

We have just received a car of Dinner Sets and offer the following bargains:

- A nice 45 piece set in three colors, filled in flower decorations for \$5.60
- A very fine 100 piece set in different colors for \$8.50

## H. DINWOODIE FURNITURE CO.

E. Hill, president; J. A. Hobbs, vice president; C. H. Wikson, secretary and treasurer. Some extensive improvements are contemplated.

James Rae, the well known Salt Lake horseman, received a telegram this afternoon from Madison, Wisconsin, announcing that six magnificent thoroughbred stallions will be shipped to him from that place tonight. They comprise the beautiful Clydesdales, which stood well to the front in the big equine display at Chicago; two French Percherons, recently imported direct from France; one three-year-old Suffolk, and one English Hackney, both winners at the Madison Square horse show. Mr. Rae declares that the entire shipment is first class and that Utah horsemen will be surprised at their excellence.

Checks in payment of the Ogden Sugar company's dividend were in evidence in the city today. The company made ten per cent on a capitalization of \$8,000,000, which makes the distribution
