

## SHEA SAYS HE WAS OFFERED A BRIBE.

Could Have Had, He Claims, Ten Thousand Dollars for Ordering Strike of Teamsters.

## HE COULD NOT BE CORRUPTED.

He Further Declares That He Would Not Have Called Strike for a Hundred Thousand.

Chicago, June 1.—Charges of bribery against an official of the Employers' Teaming company were made today to the grand jury by President Shea of the Teamsters' union, and by Albert Young, former president of the same organization.

Young and Shea claim that they were offered \$10,000 two years ago to bring about a strike of the teamsters employed by Sears, Roebuck & Co., a rival of Montgomery Ward & Co. They said they refused the money and the strike was never called.

Shea was the first witness and his testimony covered the offering of the bribe and his statement that he would not call the strike "for \$100,000." Albert Young was then called and gave similar testimony.

After leaving the jury room Young made statements to the newspaper reporters going more into detail than those he had made before the jury. He was again subpoenaed and brought before the jury a second time. He refused to tell where the meeting had taken place or to name the men who were present when the bribe was offered, but he had been offered, Young declined to give any good reasons for refusing the information and was taken before Judge Barker, who was asked for a ruling on the matter. Assistant State Attorney Fiske informed the court of Young's refusal to answer and the court asked that the question be referred to a jury. The judge was informed that Young had admitted the presence of himself and Shea at the meeting, but declined to give the name of the business man who offered the money or of the man who acted as his agent.

"On what grounds do you decline to answer these questions?" demanded the court.

"On the ground that I might incriminate myself," replied Young.

"Do you honestly believe that by incriminating the jury that has been impaneled as well as disclosing the identity of the two men that those answers would incriminate you?" asked the court.

"Yes, I do," said Young.

The judge then asked a number of questions and finally decided that Young would not incriminate himself, and he ordered him to make answers forthwith.

Young and the members of the grand jury then returned to the jury room after the evidence had been taken. He gave the names of the men offering the money but refused, after leaving the jury room, to discuss what had taken place.

State Attorney Fiske declared that all persons connected with the inquiry had been sworn to secrecy, and that nothing of the proceedings would be revealed.

Other witnesses before the grand jury today were the proprietors of several hotels, who declared that committees from the strikers had called upon them and demanded that they force non-union men to leave. Other evidence was given by business men relating to various questions held with the labor leaders, but nothing of importance was developed.

The indications tonight are that the Team Owners' association, which has managed to keep out of the trouble so far, will soon become involved in the strike. Tomorrow morning at 10:30 o'clock a committee representing this organization will meet with a committee representing the Teamsters' union in Mayor Duane's office to discuss the proposition of the teamsters submitting the question of making deliveries to strike bound houses. The teamsters have all along been opposed to such a move by the Team Owners' association, and it is not believed that they will agree to the suggestion. The officers of the Team Owners' association stated today that they had become tired of waiting on the teamsters to come to a decision on the matter and that it made little difference what the teamsters decided to do, as the association had come to the conclusion that they would make deliveries to all firms regardless of whether they were involved in the strike or not. Should the team owners take this suggestion, the wages of the teamsters it will mean a spread of the strike.

## MULFORD MARTIN.

Young American Mysteriously Disappears from Brighton, Eng.

New York, June 2.—Details have just been received here of the mysterious disappearance recently in Brighton, England, of Mulford Martin, a wealthy young American.

The young man's mother, whose home was in New York, married some time ago Dr. Walsh of San Francisco, wishing to supervise her son's education. Mrs. Walsh accompanied him to Europe in the early part of last March. After visiting France, England, Ireland, young Martin and his mother arrived at Brighton on April 28 and took a suite of rooms at an exclusive hotel. Martin made friends among the chorus girls of a vaudeville pavilion, and early in May walked out on a pier with one of them. The girl returned to the pavilion for a short time, Martin having promised to await her on the pier. That was the last seen of him.

## WHY ONE IS SO WEAK

HOW TO OVERCOME THE LANGUOR OF THE WARM SEASON.

Winter Confinement Uses Up the Strength of the Blood and Fills the Body Full of Impurities.

Why do we feel out of sorts just when the hardships of winter are over and the outdoor world begins to be attractive? We are feverish and listless and weak, while nature all about us is astir with fresh life, and the contradictions puzzle us.

The explanation is after all not so difficult. In winter the air of the close rooms in which we spend so much of the time does not furnish enough oxygen to the lungs to burn out the foul matter in the blood. Everyone knows the uncomfortable feelings that follow the breathing of bad air and that are cured by simply opening a window for a short time. The worst effects, however, are those which are stored up and do not appear at once.

In the cold season we do not exercise so much and the skin and kidneys do not throw off the waste matter as freely. The whole system gets clogged just as a machine does when it is not cleaned with frequency. The stomach does its work feebly and gets less nourishment from the food. So there is weakness everywhere, weak organs, weak muscles, weak nerves.

When the warm weather comes, the system is forced to be overworked with poisonous matter, and too feeble to throw it off. Relief can be had only through the use of a remedy that will promptly and thoroughly purify and strengthen the blood, and the one best adapted for this purpose is the great blood tonic known as Dr. Williams' Pink Pills.

"They acted like magic in my case," said Mrs. Wilde. "I was weak and thin and could not sleep. My stomach and nerves were out of order. I can't describe how miserable I really was. I dragged through six months of feebleness, growing weaker all the time until I finally hadn't strength enough to leave my bed."

"On the glad day came, the day when I began to take Dr. Williams' Pink Pills. The made me feel strong right away. My appetite came back. I took on flesh and the color came back to my cheeks. People wondered that these pills did for me what the doctors couldn't. I took only a few boxes and then I was perfectly well. If I had not found this wonderful remedy I surely think that I must have waited to death. Believing firmly that these pills saved my life by the strength which they gave me at a critical moment, I unhesitatingly recommend them to others."

Mrs. Clara L. Wilde lives at No. 277 Parkworth avenue, Detroit, Mich. Hundreds of others unite with her in testifying that Dr. Williams' Pink Pills build up strength even when nature seems completely exhausted, and reach the obscure cause of troubles that puzzle the best physicians. When promptly used, one or two boxes will generally give the right tone to the system.

Dr. Williams' Pink Pills do not produce false strength as some alcoholic preparations do. These pills do not contain a single grain of any harmful drug. They give strength that lasts. They may be obtained at any drug store.

By told by an amateur trance medium to the effect that she had seen in a seance a man answering Martin's description, bound and held as a prisoner in a strange house, has even led to a minute search for the place described. Thus far, however, no such house has been located, and a general alarm has been sent out in Paris and through all the English cities. The missing man's guardian, who lives in New York, has received no drafts or requests for funds since April 30.

Young Martin was to have come into possession of his fortune next November.

## ARRESTED AS A SPY.

Japan is Making a Strong Case Against Capt. Bergouin.

Victoria, B. C., June 2.—Advices were received by the steamship Kanagawa that a strong case is made out by the Japanese government against Capt. Bergouin, a prominent Frenchman of Tokyo, formerly of the French legation, who with his son-in-law and a Japanese engineer in his employ has been arrested charged with being a spy in the Russian service. Copies of documents alleged to have been sent to Russian agents giving information with regard to movements of transports, warships and troops were found in his residence at Tokyo. It was stated that the transports Hittachi and Bado were intercepted and the former sunk a year ago by the Vladivostok squadron because of information furnished by Capt. Bergouin. Strong protests were made by the French government regarding his arrest, but no notice is being taken by the Japanese government, which has a strong case against the alleged spies.

## A HUGE SCANDAL.

Disposal of British Army Stores Reveals It.

London, June 2.—According to the Daily Mirror, the report of a war office committee on the improper disposal of military stores at the conclusion of the South African war, reveals a huge scandal. The report, the paper says, concerns a number of officers whose names are given and who are alleged to have worked in collusion with contractors. The latter bought stores at abnormally low prices and afterward resold them to the military authorities at enormous profits, entailing a loss to the government of \$2,000,000.

## California Land Frauds.

San Francisco, June 2.—The Examiner says today:

The story of the land frauds in Oregon will be elucidated by the discovery of an elaborate system of robbery under color of law, by which means, with the connivance of the bodies of the public domain in Modoc and other northern counties, have been brought under private ownership. In many instances this process has been worked out by means of dummy locators, and the land thus obtained has been sold to the public at a profit.

## TEACHERS CHOSEN.

List of Appointments for Next Year is Now Ready.

The list of appointments for next year's teaching force in the public schools is ready, and upon the approval of the board of education will be given out. A special meeting of the committee on teachers and school work was held last night, and the list of names was gone over. It was the intention to hold a special meeting of the board to consider these names, after the committee had reached an agreement upon them, but this was not done till such a late hour that it was decided to be impracticable. The list will probably be published within a few days.

## AN ASIATIC TUNNEL.

The tunnel shown in the cut is the only subterranean portion of the great Transcontinental railroad system, and as such it merits notice for the suggestive inscriptions which are on the arches over the entrances. On the western side are the words, "To the Pacific ocean." On the other side the legend inscribed over the entrance is, "To the Atlantic ocean." This tunnel is near the city of Harbin, which is the only inland base remaining to the Russian army. It is cut through the foot of hills on the west side of the city. At Harbin the road branches, one division going east to the sea and the other south to Port Arthur.
