The Blaine Boom. CHICAGO, 25.-Mr. Blaine was driven CHICAGO, 25.—Mr. Blaine was driven to the Northwestern depot at 9.30 this morning, accompanied by his sons Walker and Emmons, together with Mr. Joseph Medili, having passed the night at the residence of the latter gentleman. A crowd numbering four thousand awaited Mr. Blaine's arrival, and was boisterously enthusiastic, so much so that it compelled him to appear on the platform of the rear coach of the special train, where he said: "It thank you very sincerely for this demonstration. It adds another to the many welcomes I have received in your city, and at no time could it be more ity, and at no time could it be more

Weicome than now."

The special train, composed of two drawing rooms, one dining and one express car, was very elaborately decorated with the American colors and benting. It drew out of the depot at 9.47 and will make its first stop of any length at Racine.

Racine, Wis., 25.—Kenosha, the first place in Wisconsin at which the train stopped, was reached soon after 11 topped, was reached soon after 11 clock. Here again Blaine left the o'clock. Here again Blaine left the train. When he appeared on the stand he was received with loud cheering. He spoke briefly, presenting the protective tariff as the great controlling issue of the campaign. "Formerly," said he, "the enemies of the protective tariff sought to excite prejudice against it upon the ground that it was for the benefit of the East; but not of the West; yet, I think that, during the 23 years that that system has existed in this country, the development of wealth has progressed in a far greater degree in the West than in the East. Just as the manufacturing industries move weatward the price of land rises.

move westward the price of land rises. It is higher in Pennsylvania than in Ohio. It is higher in Ohio than Indiaus, and in all three of these States the value of land has increased in pro portion to the growth of manufactures and the prosperity of farmers has in-creased with it." As Mr. Blaine re-tired he was again given three hearty COTTON CANVASS of all numbers—14 to 150 aches wide, for Deck, Car. Trunk and Wagon Coverings, Machine Aprons and for other purposes, constantly in store and inade to order.

Asy York, 25.—Blaine has accepted an invitation to a dinner to be given him at Delmonico's next Wednesday

Levi P. Morton, Cyrus W. Field, David Dows, Wm. Dowd and Alonzo B. Cor-Milwaukee, Wis., 25.—At Racine Junction Blaine left the train and was driven through the city, regaining the train at the regular depot, where there was a large gathering, and a stand had been erected, but Braine stepped on the back seat of a carriage and made a few brief remarks which were loudly cheered.

It was about 1:30 o'clock when the train reached the Milwaukee depot. Here Mr. Blaine and party were transferred to carriages and driven in the procession, escorted by plumed knights, to the large exposition building on the west side of the river.

Blaine said: The republican party had its birth in the northwest, and there it has always found strong support. Five great commonwealths that were formed from the old northwest territory represent to-day a great empire—an empire founded in 1787, but an empire which has had its greatest growth since 1861. The growth of that timperial section of the Union has been most rapid under a republican adminnost rapid under a republican admin most rapid under a republican admin-istration of the national government, and under the continuous influence of a protective tariff. In the past 22 years its wealth has trebled. In the next 23 years, with a protective tariff in oper-ation, its wealth will increase in even a greater ratio. I do not come here at this late day in the campaign to argue any question. I come merely to recall historic facts, and let you draw your own inferences.

and let you draw your own inferences. The protective tariff has found its steady friend in the republican party, It has found its steady foe in the democratic party. Under a protective system, agriculture, manufactures and commerce have flourished in equal degree, and the question now before the voters of Wisconsin, the question bevoters of Wisconsin, the question be-fore the voters of the nation, is wheth-er the system shall be abandoned or whether it shall be continued. Sixteen States of the South will probably vote against it. It remains to be seen hether sufficient reinforcement can be obtained from the North to hand overs the governments to the domination of a free trade South. And as the republican party had its birth in the northwest, we come to you now for rebaptism in the original faith, and for added strength to the prestige of the party. I do not original faith, and for added strength to the prestige of the party. I do not believe that Wisconsin, I do not believe that Illinois, I do not believe that Michican, I am sure that Ohio—those great component members of the northwest territory—I do not believe that any of them can ever be induced to undo the work which they began in 1854 [loud cheering]. I do not believe that the free arms and free hearts of the the great free west can ever be

of the the great free arms and free hearts of the the great free west can ever be used to turn the government of this nation over to the men who sought its destruction. In that faith I greet you; in that faith I leave you; in that faith I thank you profoundly for a reception which is proportioned to the grandeur of our empire and the warmth of your hearts.

The night demonstration accorded in Chicago to the republican presidential and vice-presidential candidates was an affair of unusual magnitude. Along the advertised line of march were illuminations of varous sorts, brilliant lines of electric lights, Chinese lanterns, Greek fire and a pro-

spectators with their chering, combined to make a spectacle only possible in a great cosmopolitan center.

The procession began to move shortly after 8 o'clock and was somewhat more than two hours in passing. Its numbers were augmented by the presence of numerous organizations from outside the city. Blaine, amid great confusion, spoke as follows:

Chicago is great in all things, especially great in her hospitalities and in her welcomes. I desire to express my thanks and my gratitude for the magnificence and magnitude of this reception, in so far as it is intended for myself. For the ational contest, it is too late to submit arguments. Action is only in order, and as Illinois has always, with certain step, led the republican column, I feel she will do so in 1884." Blaine remained in view of this crowd for some time, responding to their cries by repeatedly bowing, but finally with-

THE CLAIMS OF CUMBEBLAND.

Paris, 25.—The Cabinent ministers this morning listened to Millot's account of his operations in Tonquid. They are entirely satisfied with his course. Millot expressed the opinion that the reports being received in regard to the present situation in Tonquin are much exaggerated. The French, he said, were strongly fortified and able to repulse any attack.

London, 25.—The Army and Navy Gazette declares that the French are unable to effect a blockade of the 1s-land. One half of Admiral Corbet's squadron is required to guard Kelung and Tamsul, and only seven vessels are, therefore, left with which to attampt the blockade.

The Chinese Government has given immense orders for munitions of war in London, Berlin and other cities. Arrangements have been made for the consignment of heavy guns and small ones. Among the purchases already made by China are 5,000,000 cartridges, which were made dusing the Franco-German war. These are now being shipped from London. Experts say the powder in these cartridges would, at this late day be unable to eject a bullet from the muzzle of a rifle.

CORRESPONDENCE. MARYSVALE MINING MATTERS.

MARYSVALR, Oct. 16th, 1884.

Since my last we have been opertunely visited by the Hon. Mr. Jennings, of California, looking after ores, and sampling the best mineral veins now being worked. However, the short time thus occupied by the Hon. expert was inadequate to learn anything particular relative to this great mineral zone. We were also visited by Mr. M. Scott, of your city, Prof. Clayton sud Prof. Holden. Mr. Scott was tooking after the Crystal Mine in new developments. We learn that they were all well pleased, and some good predictions of our future as a mining region were indulged in.

The mineral zone of the Balley range runs in a half circle from the head of Deer Creek on the northwest to the ten mile Creek on the south east, passing through the Ohio and Mount Balley mining districts. The heavy carbonate lead vein of this mineral helt is a contact following the treadings of the heavy reef of quartzite, and not a fissure on the surface. The Hermit, in obscurity, has a right to his own opinion, after about seven sears of pedestrian labor, and over a thousand assays.

Mr. D. P. Whedon made a small shipment recently from the Antelope mine and I learn intends to send a full car load the next shipment. Bullion is sending out concentrates running high. The floral decorations on the Sacramental stand in the Tabernacle, designed and constructed by George Hamlia, for the funeral services of the murdered Elders W. S. Berry and John H. Gibbs appeared so pretty and unique, that I photographed the same, and to perpetuate the memory of the above Elders, I thought that the portraits of these marters would be considered in their place enwreathed in this floral emblem. Consequently I applied to Mrs. W. S. Berry, of Kannarra, Iron County, and Mrs. J. H. Gibbs, of Paradise, Cache County, for the portraits of their husbands, which they kindly responded to by sending. The portrait of W. S. Berry that I copied from was found in his pocket at the time of his death. That of J. H. Gibbs was photographed with Elder W. H. Jones, the missionary that escaped. they are establishing their business, not on misrepresentation or decelt, but on thoroughly honorable business principles.

The quality of their clothing and furnishings is thoroughly first-class, and their reputation as neat fitters is extending far and wide; and as to their hats, it seems they display great tact in selecting them, for they are just what the public want. I happened to be in the other night just as they were opening a bill of the latest hats, and they thought that probably they had sufficient for the fall trade, but in less than half an hour they disposed so many that they had to order by express a fresh supply.
