The State Street Pharmacy

At the Corner of Seventh South and State

WAS established to satisfy a popular demand for a reliable, modern, cut rate drug store. That the rapidly increasing population of this section is an intelligently discriminating and appreciative class, is shown in the very rapid strides by which this institution has gained the front ranks of the substantial business houses of the city. The manager, Mr. Lingenfelter, is more than pleased with his investment on State street and is steadily increasing his stock, which consists of the best that money can buy, in drugs and druggists' sundries.

We Led--the others followed Result--STATE STREET.

Away back in '84, we had an idea State Street would be a good business street. We bought a lot of property between First and Second South. We're glad we did--the growth of our business has warranted it. Today we own the largest business houses on the street.
