"We haven't time for that. We would have to go down to the dynamo office and get them to turn off all the city lights and then make connections. \$17 an acre for 160 acres, adobe house, adobe granery and bars; two flowing wells; 7 miles from Main Street; very cheap; adjoins R. R. track. It would take too long and it would burn out every switch board on the \$37 an acre; 16 miles south; water right circuit. But I can give you all the cell currents we have here, and that will

paralize any rough from Zama and perhaps kill him. Anyhow; you could get his gun before he recovered. When you're ready call the office. Ground your current and I'll send it along on the big wire.

"Seems to take a lot of teleghaphing to stop a train," said the desperado

uneasily. "'t does. You see the train is be-hind time and they don't want to stop her. I told them there was a special that would pass her here. They want to know all the particulars. Now I'll have to more about a bit. I must cut of the miore about a bit. I must cut
