Preset. Fowler, of the New York, Ontario & Western road, said:

"It is not unlikely that the public may jump at the conclusion that Mr. Mitchell offered to resume operations immediately in order that the suffering public might be relieved at once. I think it worth while to call attention the fact that Mitchell offered at yesterday's conference to make an agreement 'for not less than one year, or more than five years, as may be mutually determined. Now, the point I wish to make clear right here, is this: "Mitchell cannot order an immediate resumption of work because the by-laws of the Union Mineworkers de-clare that such a proposition must first submitted to a convention of delegates. That cannot be done in less than two weeks' time. That I am told is called for by the by-laws. "The public will observe that there is a great difference between resuming work immediately and resuming work at the end of two weeks. In a word, Mitchell's proposition has a string to it. Moreover, how do the operators know that Mitchell can control his men? Did not they go back on him at Hazleton two years ago when he or-dered them not to strike? "The trouble is that there are two sides to this fight-the responsible side and the irresponsible side, The operators stand for something: the miners are in a position to draw out of any agreement their leaders may make. It is impossible to make a binding agree. ment with Mitchell." It is believed here that a resort to proceedings against the coal carrying roads on the charge of imposing unlawful carrying rates, while possible, is improbable, on acount of its impracticability to accomplish speedy results in the present emergency. In case proceedings should be instituted, either at the initiative of the ad-ministration or at the instance of the miners, the roads could protract the litigation for two or three years in carrying the case finally to the supreme

PRESIDENT SMITH'S ADDRESS.

"My beloved brethren and sisters, I test you heartily this morning in your stendance at this conference-the 73rd mi-annual Conference of the Church, believe. 1 ani pleased to see so many presented as are here this morning. pecially at I pleased to see so many (the presiding authorities of the the Apostles and the presients of stakes, and also many of the sidents of the various missions of he Church It is indeed pleasing to see te our bra aren assembled here, on rests so great a responsibility, by having been entrusted with the Molamation of the Gospel to the nathe flock of Christ in the various Stakes

During this conference we desire, as ar as the time will permit, to give an illy to as many as possible of iders who are presiding abroad, and of as presidents of the stakes of Zion, to ress themselves; and in order that may reach as many as possible, we while that the brethren who speak that have that portion of the Spirit of God that will enable them to pointedly and briefly upon those ects that may come to their minds. We have here the Apostles, the Pres-ats of the Seventies, and the Presidopric, who are practically travting Elders in the Church, visiting the Turous stakes of Zion and the various main fields, from time to time, and by are especially posted in relation the condition of the work of the Lord a the various fields that they have visand will be able to speak to us in Sation to those subjects and material satwill be most interesting and necesto the general enlightenment of by who have come to the conference. country also we have been exceeding-ly blessed. There has been an abundance of water, and in some sections our people have been visited by unprecedented rains, resulting in great floods, which have done more or less damage to the people; but this, of course, is not

to a very great extent. "We feel in our hearts that Zion is prospering and that all is well with

the people of God at large; still, we realize that there is great room for us to improve, and that the opportunities for advancement are very extensive. We hope that all the Latter-day Saints will continue their diligence and faithfulness before the Lord in the work in which they are engaged, that Zion may which they are engaged, that zion may continue to flourish in the tops of the mountains and that the purposes of God Almighty concerning His people and His work in the latter days may be consummated and fully realized. We feel that the Lord will bless His people and the earth, for their sake, in the future more abundantly than in the past. In proportion as we renew and redouble our diligence and faithfulness before the Lord in keeping His commandments and walking in all rightousness and acceptableness before Him, so will His blessings be increas-

ed upon the people, and upon all their substance, and upon the earth which they inhabit. "We congratulate you, brethren and

sisters, on your appearance here this morning, and we pray God to pour out upon you and upon all of us His Holy Spirit during this Conference, that we may have a time of rejolcing, and that may be able to act intelligently and wisely in the matters of business that may be presented before us; that we may have the spirit of union, love and devotion to the cause of Zion abid-ing in our hearts; that we may have no

feelings of dissension, but that we may be one, that we may be indeed the people of God. "It is not my purpose to prolong my

remarks this morning, but I desired to express my gratitude to my Father in heaven for all His mercies and blessings unto us. "We will say to the people that we

have no reason to complain of the diligence of the Saints, so far as we are able to judge, in keeping the law of tithing. We believe that the Latter-day Saints are observing that law as faithfully as they have ever done, and we beseech of you that you will con-tinue to do this until our hands shall be freed from all obligations, and until we shall have means in the storehouse of the Lord with which to accomplish greater works, which may be neces-sary to be done. We feel there is much

that can be done and much that ought to be done in the interests of Zion and for the benefit of the people of God. "We feel that an effort should be

made to preserve the Temples of God. those houses that have been erected for the purpose of ministering the ordi-nances of the Gospel therein for the living and the dead. We desire that these buildings shall be preserved and kept in repair and in a wholesome dition, so that the Spirit of the Lord may dwell in them and that those who minister therein may feel the presence and influence of His Spirit. We also feel that when the time shall come and our hands shall be free from the obliga. tions that now rest upon us, that other places should be prepared for the convenience of the Latter-day Saints in more distant stakes, in order that those who are living at great distances from the center may have the privilege of receiving the ordinances of the Gospel without being put to the great expense and loss of time that is necessary now in journeying from 500 to 1,000 miles in order to reach the houses of God. We

hope to see the day when we shall have temples built in every direction in the various parts of the land where they are needed for the convenience of the people: for we realize that one of the greatest responsibilities that rest upon the people of God to-day is that their hearts shall day turned unto their fathers, and be

The deceased was born in Genesee Sounty, New York, Sept. 29, 1821. He became a member of the Church Jesus Christ of Latter-day Saints 1223, and has remained faithful to the last. Elder Perry was with the Church through all the troublous times in Kirt-land, Missouri and Illinois. He lost his first family, a wife and five or six "lildren, through illness brought on by xposure in the mobbings of the Saints. He came to Utah in 1850 settling in Springville where he lived a short time. Then he moved to Provo which has since been his home. He was an honest, kindly unassuming man, and leaves a record to which his children can point with pride. A wife and four children and many grandchildren survive him. The funeral will be held from the Third ward meeting house Monday at 2

Russian Ironelad at Constantinople

Constantinople, Oct. 4 .- Exciting comment has been caused by the fact that the Grand Duke Nicholas arrived on the Russian ironciad Georgia, which, owing to the insistance of Russia, was permitted at the last moment to pass the naval forts. The warship anchored in full view of the Yildiz klosk. The censor suppressed all mention of the word "ironclad" but the Mussulman population was deeply impressed by what was regarded as another instance of Russia over-riding the clause of the Berlin treaty which closes the Bos-

phorus to foreign warships. The sultan is showing extraordinary attention to the grand duke, and is treating him on the same footing as a sovereign.
