SESSION OF THE CITY COUNCIL

Another Payment on Waterworks Ordered—Contract for Office Building Awarded.

SENTENCED FOR BURGLARY.

Testimonial Benefit at the Grand for J. L. Herrick—State School Recital—Wedding Bells.

Ogden, Dec. 15.—At the session of the city council held last evening only a number of routine matters were acted upon. The ordering of a payment of \$25,000 to the waterworks company and the acceptance of a number of resignations was the principal matters to engage the attention of the council.

A resolution was passed ordering the payment to the Ogden Waterworks company the sum of \$25,000 on the purchase of the system. This payment makes the sum of \$75,000 that the city has paid upon the contract price for the purchase of the system.

The special waterworks committee

recommended that the bid of C. F. Dinmore of \$2,815 for the building of a waterworks office and shop which will be used by the city after the first of the year when it acquires the system, be accepted. A contract was submitted, to be signed by Mr. Dinmore and the mayor.

The resignation of John Hutchens as detective was submitted to the council by the chief of police with the recommendation that it be accepted as Mr. Hutchens had been made captain of deputy sheriff of Weber county. The resignation was accepted but no appointment of a successor was made.

T. J. Paine, chief of the fire department, reported that E. E. Barton, captain of station No. 2, had resigned, and Capt. N. J. Hutton of station No. 1 had been transferred to No. 2 and H. Wardleigh had been made captain of No. 1, and William Phillips has been appointed to a place on the department of station No. 1 to fill the vacancy caused by the promotion of Wardleigh. The action of the fire chief was approved.

The clerk of the municipal court reported the receipt of \$3,287.54 in fines and forfeitures, and the same had been deposited with the treasurer.

Payrolls amounting to \$884.83, and claims amounting to \$2,821.81 were allowed and the auditor ordered to draw warrants for the same. The lengthy session of the council were enlivened by the bringing up of the dog question in which all members of the council participated and after an hour's discussion, into which was added a great deal of merriment and humor, no action was taken. The question at issue was the apparent neglect of duty of the dog catcher. The unusual number of dogs on the streets at all hours of the day and night upon which no license had been paid was the cause of the discussion.

Special Correspondence.
 Mt. Pleasant, Dec. 11.—Oscar Barton is very ill at his home with a severe attack of pneumonia.

On Wednesday evening the regular meeting of the county medical society was held in the club rooms. The president's address was read by Vice President C. E. West of Salina. The following officers were elected: President, Dr. C. E. West of Salina; vice president, Dr. C. Linebaugh of Moroni; secretary and treasurer, Dr. Margaret Freece of Salina; censor for three years, Dr. Albert Bjornson of Gunnison.

Mrs. Shepard, of Salt Lake, gave a talk on temperance on Saturday afternoon, at the home of Mrs. F. C. Jensen. A big rabbit hunt is booked for Mt. Pleasant on the 17th inst. There is a friendly contest between the local gun club and a team from Springville; 15 men on a side.

The city council of Mt. Pleasant met on the 7th inst. A petition signed by a number of citizens asking that gambling on pool games be abolished was presented. Mayor Madsen expressed himself as being opposed to betting on pool games, and would do all in his power to stop the same, but there is no city ordinance to prohibit it. The council favors the suppression of this vice, and on motion, the mayor was instructed to appoint a committee of three including himself to meet with the city attorney and draft an ordinance against this form of gambling.

Action was also taken towards bettering the water system. For some time the people have not been satisfied with the quality of the water used in the system. Some time ago, at some springs were bought at a foot of the mountains. The plan now is to pipe the water to the town. It is a settled fact there is a sufficient amount of water to supply the city for years to come.

SALINA.

IMPROVEMENT BONDS VOTED.

Sixteen Thousand Dollars for High School, \$8,800 for Waterworks.

Special Correspondence.
 Salina, Sevier Co., Dec. 12.—Salina people are earnest in the move for progress. In addition to voting bonds for waterworks they recently voted \$16,000 bonds for a high school building, the vote being 119 for bonds and 16 against.

Salina has been noted for its bad water but soon this will be changed, as a fine spring of splendid water has been discovered up Lost creek, within seven miles of town. Thirty years ago this spring was accidentally discovered by an old citizen, George Bird, and although within sight of the roadway had never been discovered by others. When the recent agitation for water began the old gentleman remembered the spring hidden under a deep bank covered with bushes. He took the marshal to the place a few days ago and it is estimated the spring will supply water for double the present population of Salina. The people by a vote of 102 to 13, decided on \$8,800 waterworks bonds, the limit. If more money is needed it will be raised by other means. A good system is now assured. The winter so far is very mild with

On Thursday, December 3, the Burlingame machines were operated over 126 miles of the telegraph company's wire. The tests were made over a regular commercial telegraph wire from San Francisco. These tests were experimental and proved conclusively that my invention will operate over one wire on any regular telegraph circuit.
