

## LOCAL AND OTHER MATTERS.

**SABBATH MEETINGS.**—Yesterday morning the Saints assembled in the Tabernacle were addressed by Elder George Q. Cannon. In the afternoon the time was occupied by Elder Orson Pratt.

**MARRIED.**—On Tuesday, the 15th instant, at the residence of W. W. Moore, Esq., in Galesville, New York, by Rev. A. L. Hoyt, Mr. B. W. E. Jennings, of Salt Lake City, to Miss Jennie E. Newbury of the former place.—Washington county, N. Y. Journal.

**DIED.**—At Deep Creek, Utah Territory, Oct. 22nd, 1870, Phillip Vaughan, after a long illness of consumption, aged 69 years. Brother Vaughan was born at Neath Abby, Glamorganshire, Wales. Embraced the gospel in 1843, was baptized by Abel Evans. Emigrated from Mountain Ash, Glamorganshire, Wales, with the first handcart company. Staid at Florence four years, and then proceeded on his journey to Utah. He held the office of a High Priest, and died in full faith of the gospel.

**CALLER.**—Mr. S. N. Goodale, paid us a visit to-day; eight years ago, in January next, he visited this city, when it required more sacrifice of time than it now does. In his notes to eastern papers he expressed himself as favorably impressed with the bright future which then awaited this city; and spoke in kind terms of the seal with which its inhabitants adhered to their religious faith, as exhibited in the industry, honesty, and enterprise that belief infused in all who embraced it; and it would lead, he said, to a life of usefulness coupled with rewards, which honest toil will always bring. Now, after this absence, he sees a great valley more densely populated, with well cultivated and fruitful fields; a city with contented and happy people, with aspirations for future usefulness. Mr. Goodale differs from many other letter writers, reasoning from the laws of nature, a rising generation of healthy men and women must be produced, although he did not argue that to do this a plurality was necessary, simply that the physical laws are such that a mixture of different classes are useful in producing healthy offspring. He further predicted that soon after railroads should penetrate the interior portion of this country, no law from Congress would be required to regulate the religious views of the people. With a free intercourse with the outside world the marriage customs of the "Mormons" would naturally gravitate toward those of other religious denominations, (in which opinion we, of course, widely differ from Mr. Goodale.) And with this striking out their faith would become the most popular, for the reason that it leads to good works, and a life of happiness because useful.

Mr. G. is about publishing a book on the interest of sheep husbandry and desires information from those who have had experience in growing wool west of the Mississippi, as well as a description and locality of any particular valley or mountain range which may be well adapted to this pursuit, and any letter addressed to him at St. Louis, will be thankfully received, and may prove of public importance as the book will point out such localities, as well as the rearing and management of sheep.

**RETURNED.**—Officers Hyde and Hampton and Messrs. H. P. Kimball, J. Q. Knowlton, Riley Judd and Thomas Booth have got back from Elko. These gentlemen gave their evidence before the Grand Jury with regard to the captured railroad robbers; but left before the prisoners were indicted. Should they be indicted, of which there need be scarcely any doubt, the trial will commence on the first of December, when they will probably ask for a continuance as they will endeavor to prove their innocence by any means. We are indebted for the above information to officer William Hyde who requested us to mention that himself and companions had been treated with the greatest courtesy and kindness by the officers and others at Elko.

Theo. Tracy, Esq., returned to this city, from Elko, some days before the gentlemen above named.

**THAT PROCLAMATION—A CAUTION!**—The subject of the following letter, being of such importance to the people of this city, we insert it in our local column, believing that its contents will thus be perused by a larger number than otherwise:

**SALT LAKE CITY, Nov. 27, 1870.**  
Editor, *Deseret News*.—Knowing your desire for the strictest respect to and preservation of law and order in this city, I beg the indulgence of a small amount of space in your issue of to-day, in order to apprise the public of an occurrence which, in the light of recent events in this city, I think should be instantly investigated.

Yesterday morning, while in my house, my attention was arrested (not by a Deputy Marshal) but by the distant sound of fire-arms; and as the reports continued, I thought that one of these "Sunday drills" might be in progress; and as some of our misguided and "rebellious" fellow-citizens, through "drilling," when only for their own amusement, have been recently incarcerated by the powers that be, in a military prison at Camp Douglas, evincing a determination on their part, to suppress, if possible, all "drilling," except what they perform themselves, I hastened in the direction whence the sounds, still continuing, proceeded, and soon had my suspicions confirmed, for I came upon a squad of not less than two men who, it was evident to me, from their manœuvres and evolutions, were engaged in the proscribed amusement, although they declared they were only trying a Colt's revolver. Offenders always have an excuse! I entered into conversation with them upon the impropriety of their course in "drilling," or even having fire arms in their possession, both of which I explained to them were violations of the deceased and lamented Shaffer's proclamation. They did not seem disposed to pay attention to my expostulations, but the prospect of that "military prison," eventually cooled their ardor and they finally expressed a willingness to go to a body and ask Judge Hawley's permission to drill, and also to have and practice with fire-arms.

Feeling that I had performed the part of a Christian and a brother, in inducing, on the Sabbath day, a squad of my fellow-citizens to refrain from a course so fraught with danger to themselves, I returned home; but whether they saw the Judge or not I am not aware. If they have not, and either he or the Marshal will call at my office in the 20th Ward, I can furnish the names and residences of the offenders. This is a serious matter and I think, deserves the prompt attention and investigation of the old lady-in-chief and the members of the "Ring" in this city.

Respectfully,  
PAUL PRY.

**ODGEN ITEMS.**—The Utah Central is doing a big freight business. During the past week upwards of sixty cars have been sent to Salt Lake City, and from the 10th to the 23rd inst. 2,250,000 lbs. of freight have passed over the road, two thirds of which has been from Ogden to Salt Lake City. The C. P. R. R. Company are building a car shop at Ogden Depot, 22 by 120 feet dimensions.

Four new cases of small pox have lately occurred at Plain City, and one death from that cause.  
We learn the above from the Junction of Nov. 20th.

**MAIL MATTERS NORTH.**—A reliable correspondent, a resident of the north, now in this city, sends the following letter. The complaints and allegations it contains are worthy the attention of Colonel Wickizer, the special Mail Agent of this Territory, and we commend the matter to his consideration:

"Salt Lake Nov. 28th.  
Mr. Editor:—Having become disgusted with some of the operations in your once felicitous city, I concluded to pay a visit to the Saratoga of the west, yeelp Soda Springs. Previous to my departure I paid for and ordered the DAILY EVENING NEWS to be forwarded to me, but during a stay of six weeks I have not received one. Letters mailed there, four weeks ago, for parties in this city, have not put in an appearance here yet, and persons residing there, inform me, that they never receive their mails, especially papers, except sent round by Corinne. What's the matter and who is postmaster at Montpelier?"

## PARKER &amp; WATSON'S SERIES.

The lower numbers of the reading series are  
remarkable for the "word-building system,"  
the high order of the illustrations and the  
interesting but strictly progressive character of  
the reading lessons. The higher volumes chal-  
lenge comparison on account of their elevatory  
treasures and the noble range of selection  
from standard literature.

The series consists of a Primer and five Read-  
ers. The first is universally pronounced a  
literary gem, and by many bought to enrich  
their libraries.

## CLARK'S GRAMMAR

Will eventually supersede all others. No other  
system makes the study so pre-eminently in-  
teresting. It combines the diagram system,  
taught by Dr. Park at the University, and the  
interesting object lesson as illustrated by Miss  
Ida I. Cook at the Teachers' Association, Salt  
Lake City. It makes the study of Grammar a  
pleasure instead of a bore.

## DAVIES' MATHEMATICS

Are justly called the National Standard. They  
are used in the great National Schools at Annapolis  
and West Point, in the Public Schools of  
the National Capital, have received the quasi  
endorsement of the National Congress, and  
are sold more largely and are more popular in  
every section of the national boundary than  
any other series.
