PATENTS

obtained for new inventions, or for improvements on old ones, for medical or other compounds, trade-marks and labels. Caveats, Assignments, Interferences, Appeals, Suits for Infringements, and all cases arising under the Patent Laws, promptly attended to. Inventions that have been REJECTED by the Patent Office for informality, or other cause, may still be secured by us. Being opposite the U. S. Patent Department, and attached to Patent business only, we can make preliminary examinations, and secure Patents more promptly, and with broader claims, than those who are remote from Washington.

INVENTORS should send us a model or sketch of their device; we make examinations and advise as to patentability free of charge. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED.

We refer to Hon. John Wanamaker, Postmaster General; D. M. Key, Ex-P. M. General, Washington, D. C.; Hon. John Wentworth, late M. C., Chicago; The German-American National Bank, Washington, D. C.; to officials in the U. S. Patent Office, and to Senators and Representatives in Congress, personally to our clients in every State in the Union and in Canada. Address

C. A. SNOW & CO.,

Opposite Patent Office, Washington, D. C.

SAVE YOUR HAIR

TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable tetion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

SOLD EVERYWHERE.

EASTERN.

The Vault Robbers.

NEW YORK, 18.—William Burke, *alias* Barker, *alias* Beaty, and Hanks Whalen, *alias* Henry Vreeland, arrested some days ago on suspicion of being implicated in the desecration of A. T. Stewart's tomb, and with stealing his body, were before Justice Morgan, Jefferson Market Police Court, to-day, for examination. Captain Byrnes, of the Fifteenth precinct, who made the arrest, made a long statement under oath, detailing minutely all the circumstances touching the arrest of the prisoners, and the fruitless search he made in their company for Stewart's body. Burke had made some mysterious remarks pretending to the knowledge of the deed, and implicating Whalen. Both after being arrested acted knowingly and suspiciously, telling how damned stiff and stark it was when they removed it to the wagon. They had confessed to the Witness and afterwards denied their guilt. The prisoners were remanded for formal complaint to-morrow.

Masked Burglars Sentenced.

The Fairview, N. J., masked burglars were to-day, sentenced to 10 years imprisonment.

The Fishery Award.

WASHINGTON, 18.—The Secretary of State declines, as yet, to make public the contents of the dispatch mailed by him to Minister Welch upon the receipt of Lord Salisbury's letter on the 7th instant; but it contained the assurance that the $5,500,000 award by the fisheries commission will be paid before the 23d instant, the treaty limit of time for the payment.

Supreme Court Decision.

The following decision was rendered in the Supreme Court. Edward Ivinson, appellant, vs. Charles H. Hutton; appeal from the Supreme Court of the territory of Wyoming. This was an action brought by Ivinson to compel Hutton to make the correction of an alleged error in the final settlement of their partnership accounts. This court holds that the lower court erred in deciding that the complainant had adequate remedy at law, instead of in equity, and in dismissing his complaint. Its decree is, therefore, reversed, with costs, and the cause remanded, with instruction to enter a decree affirming that of the court of original jurisdiction. Opinion by Clifford.

Railroad Land Grant Controversy.

In the long pending controversy concerning the large body of lands claimed by the Central Branch of the Union Pacific Railroad Company, and the Kansas Pacific Railroad Company, which are situated opposite the first 100 miles of the constructed road west of the Missouri River, within the overlapping twenty mile limits of the two land grants, the Secretary of the Interior decides that the lands situated within the overlapping land grant limits should be held to inure jointly to both companies. In view, however, of the questions arising under the third section of the act of July 1st, 1862, which were discussed in his decision of Dudymatt case, Secretary Schurz directs that the subject transferring the government title to these lands be reserved for further consideration. In the course of the decision Secretary Schurz rules that the patent executed March 20th, 1876, in favor of the Central Branch Company, for 73,000 acres of the disputed land, was rightly cancelled by his predecessor, because it lacked one requisite of the transfer of a title, namely, acceptance by the grantee.

The Hayden and Powell Surveys.

Prof Hayden and Major Powell have reported to the Secretary of the Interior the results of their topographical and geologic services during the past season. The former says: "The results of the season's labor, though a short one, have been, on the whole, very satisfactory. About 12,000 square miles of very difficult country is surveyed, much of it in minute detail, and a mass of observation secured for the twelfth annual report, which will make it of more general interest and value than any preceding." The Yellowstone Park and Wind River mountains formed a part of the region covered by Haydon's survey. Work under Powell has been prosecuted south and east of the Grand Canon of the Colorado River. Little irrigable but much grazing land has been discovered. He reports having collected much ethnological material and states that he nearly completed a map showing the distribution of the various Indian tribes within our present boundaries at the dates when they were first known to the Europeans.

Revenue Marine Bureau Report.

The annual report of the revenue marine bureau of the treasury department shows that of the vessels wrecked or in distress, with an aggregate of 920 persons on board, 192 have been assisted by the revenue cutters, the estimated value of property saved is about $1,700,000, and 142 persons were actually rescued from death by drowning. The expenses of the revenue marine service, ending June 30th, 1878, were $844,001. Supervising Inspector General James A. Dumont, of the steamer inspection service, in his annual report, shows that the total number of lives lost from various causes during the year ending June 30th, 1878, were: From explosions, 33; fire, 22; collisions, 31; snags, wrecks and sinking, 104; accidental drowning; 18; miscellaneous casualties, 4; total, 212. Of the total number of vessels inspected, 260 belong to the Pacific coast, with a tonnage of 108,532; 1,320 to the Atlantic coast, with a tonnage of 466,757; 889 to the western rivers, with a tonnage of 186,932; 851 to the northern lakes, with a tonnage of 180,278; and 311 to the Gulf coast, with a tonnage of 68,831. The severe discipline had decreased the fatalities, until of the 209,000,000 persons carried by United States steamers last year, only 11.10 per million were lost, showing a travel here safer than in any other country. He recommends all steamboat owners to frequently test boilers, especially after a season of inactivity.

A Friendly Visit.

The *Star*, this morning, has a local item noticing a friendly visit paid last Saturday by the Chinese Consul Seer and his associate, Young Wing, to Col. Bee, at which there was the usual tea-drinking, and the minister, who is described as an amiable old gentleman, pleasantly conversed with the company through Young Wing. Col. Bee will soon return to San Francisco to act as consul for China. He asserts that his remarks concerning the character of the California opposition to Chinese immigration were not correctly reported in the *Post* interview, and also that that paper misprinted a portion of the letter which he subsequently addressed to it, in correction of the interview, and by which he intended to show that certain particularly offensive and extravagant statements imputed to him by the *Post* reporter, were colored exaggerations of what he uttered in qualified forms of expression.

Democrats and Independents.

CHICAGO, 18. — The *Journal's* Washington special says: Democratic leaders have been assured that all representatives elected in the south as independents will go with the democratic caucuses on all political questions.

Oakey Hall an Editor.

The *Inter-Ocean's* New York special says: A. Oakey Hall this morning assumed the position of city editor of the *World*. The *Tribune* says this recalls the late Manton Marble's remark that "Oakey Hall may be a very smart man, but he can never be city editor of the *World*." Many newspaper men, to-day, were inclined to believe it a joke by Hall, but it is confirmed.

The Election Frauds.

The *Tribune's* Washington special says: Charleston private advices state that the democrats are preparing a criminal case against Judge Mackey, as the best method of meeting his charges of election frauds. This trumped up case is an old one, already fully answered in court, but it is now to be pushed and advertised as the means of weakening the force of his letter regarding the swindle by which he was defrauded out of his seat in Congress.

Ben. Hill's Senatorship.

The election of Ben. Hill as senator is likely to become the subject of investigation by the present assembly. The charge is that certain members of the last assembly were bribed in his interest. The matter is more freely talked of since Governor Colquitt's investigation, in which Hill figures as instigator, was commenced. A state senator to-day stated that he could furnish much testimony which would go far to seriously implicate Senator Hill in bargains, and unless his influence strengthens, it is likely a petition for his resignation will be circulated and he be forced to resign or his seat declared vacant.

Arrest of an Embezzler.

PHILADELPHIA, 18.—George W. Huntsinger, who was arrested on Saturday, on a capias based on an affidavit charging him with having, as President of a Philadelphia coal company, used $80,000 of the funds of the company in his own business, was to-day, committed to jail, having been unable to find bail in the amount of $100,000. Huntsinger says he courts investigation, and that he left the coal company in August, 1877, when everything was turned over to his successor.

Requisition Warrants for "Mollie Maguires."

HARRISBURG, 18.—In accordance with the opinion of the attorney general, Governor Hartranft decided, to-day, to issue warrants for the execution, on the 18th of December next, of the notorious "Mollie Maguire," John Kehoe, who was convicted of the murder of F. S. Langdon in Schuylkill County in 1862. Warrants will also be issued for the execution, on the same day, of Martin Bargen, Schuylkill County, Charles Sharpe and James O'Donnell, Carbon County, and Alexander Sayre of Philadelphia.

A Riot—Fatal Shooting.

MOUNT STERLING, Ky., 18.—A riot took place here, to-day, in which from 20 to 30 shots were fired, two men instantly killed and three wounded. Two of the rioters, George and William Howard were wounded, one dangerously. John Thompson, a clerk and disinterested party, was shot and instantly killed by a shot fired through the window of a store in which he was employed. Three of the rioters are arrested. The Sheriff and posse are on the trail of the rest.

FOREIGN.

GERMANY.

Assassination Plot.

BERLIN, 18.—The belief is current that a plot exists for the assassination of all the sovereigns. It is stated that the Prussian judges, when examining Nobeling's case, were led to believe in the existence of a central organization for this purpose. Investigations are still going on.

The Samoan Islands.

The official *Gazette* contradicts the report which appeared in the Paris *Estafette* last week, that the German government had decided to occupy the whole of the Samoan Archipelago. The *Gazette* declares that Germany does not contemplate acquiring or founding colonies beyond the Atlantic. The dispute in regard to the Samoan Islands will naturally be settled by treaty, which will secure to Germany and other States interested the privileges granted to the most favored nation.

ITALY.

Arrest of Internationalists.

NAPLES, 18.—Several letters from members of the International Society have been found at Passano's abode, and more Internationalists have consequently been arrested. The king had, previous to the attempt on his life, received two letters intimating that it would be made.

A Contemptible Act.

During the passage of a procession in honor of King Humbert's escape, a bomb was thrown among a corps of veterans and exploded. Two men were killed and several slightly wounded.

SPAIN.

Religious Toleration.

MADRID, 18.—At a meeting of the old moderano party, it was agreed to accept the principle of religious toleration. A resolution was also passed approving the conventions between the Captain-General and the insurgent leaders in the Island of Cuba for the conclusion of peace.

CENTRAL AMERICA.

Fatal Mob Riots.

PANAMA, 7.—Advices from Chili state that serious riots, resulting in the killing and wounding of 80 people, occurred in Santiago. The mounted police and cavalry were called out and made several charges before the mob dispersed. The trouble originated in an attempt to lay violent hands upon the writer of certain articles in relation to the boundary question, in which he took the ground favorable to the Argentine republics.

Schooner Capsized—Drowned.

While the schooner *Little Minnie* was on her way from Gobea to Colon, with her crew and passengers, seven persons, she capsized, and all on board were drowned except one colored man.

Ship Ashore.

The captain of the *Warrior* reports, while passing through Boca Hulvos, near Trinidad, he saw the ship *Pandora*, of Liverpool, ashore, and in two hours he saved 240 couples from her, the remainder had been landed previously. The *Pandora* was on her way from Trinidad to Calcutta, loaded with coolies, whose term of service had expired.

The Meigg's Estate.

PERU.—Two cabinet ministers have resigned during the week, the principal of whom was the minister of finances. He was accused of secretly leaving the representatives of Henry Meigg's estate $900,000 in nitrate certificates, upon which he allowed an issue of $500,000 in billetes, which amount had previously been retired from circulation in order to be burned, their method of getting rid of retired notes. The minister's explanation to congress was unsatisfactory, and he tendered his resignation which up to the latest dates, had not been accepted.

New Coffee Plantation.

Large plantations of coffee are being made near Chinandega, on the Pacific side. Nearly 1,000,000 trees are now planted.

Volcanic Eruptions.

Advices from Salvador state that the volcanoes of Izalco and Santa Anna are in a state of tremendous activity. On the latter, four or five distinct openings emit fire, smoke and ashes in volumes, supposed to be apertures in the old crater of the old volcano which has been silent for some years. For miles around ashes are falling, and the air is filled with smoke, darkening the day and making the scene gloomy and terrifying. The inhabitants in the neighboring villages are terribly alarmed.

APPLICATION for PATENT.

NOTICE No. 403.

UNITED STATES LAND OFFICE,
Salt Lake City, Utah,
November 16th, 1878.

NOTICE is hereby given, that Eber Case, whose postoffice address is Salt Lake City, Utah, has this day made application for a United States patent for 1,500 linear feet of the Monster lode and mining claim, with surface ground 600 feet in width, bearing silver and other metals, situated in Big Cottonwood Mining District, Salt Lake County, Utah Territory, designated on the official plat filed and posted in this office as Lot No. 100, and with magnetic variation at 18 deg. 10 min. east, bounded as follows: commencing at post No. 1 of the claim, thence south 44 deg., west 1,500 feet to post No. 2 of the claim, thence north 46 deg., west 600 feet to post No. 3 of the claim, thence north 44 deg. east 1,500 feet to post No. 4 of the claim, thence south 46 deg. east 250 feet to a point in the northeast end line of the claim, from which United States Mineral Monument No. 1 bears south 78°05 west, 6,420 feet distant; thence from said point south 46 deg., east 350 feet to said post No. 1, the place of commencement, containing an area of 20 66-100 acres.

This claim is of record in the office of the Recorder of said district at Argenta, Utah. The nearest know locations are the Monster No. 2, Independent and Utah Chief.

Any and all persons claiming adversely any portion of said Monster Mining Claim, are hereby directed to file their adverse claim thereto, with the Register of this office, during the sixty days' period of publication hereof, or they will be barred by virtue of the provisions of the Statute, in such case made and provided. I direct that this notice be published in the DESERET EVENING NEWS.

JOHN B. NEIL, Register.

APPLICATION for PATENT.

NOTICE NO. 404.

UNITED STATES LAND OFFICE,
Salt Lake City, Utah,
November 16th, 1878.

NOTICE IS HEREBY GIVEN, that Eber Case, whose post office address is Salt Lake City, Utah, has this day made application for a United States patent for 1,500 linear feet of the Monster No. 2 lode and mining claim with surface ground 600 feet in width, bearing silver and other metals, situated in Big Cottonwood Mining District, Salt Lake County, Utah Territory, designated on the official plat, filed and posted in this office as lot No. 101, and with magnetic variation at 18 deg. 10 min. east, as follows: commencing at post No. 1 of the claim, thence south 44 deg., west 1,500 feet to post No. 2 of the claim, thence north 46 deg. west 300 feet, to a point in the southwest end line of the claim, from which United States mineral monument No. 1 bears south 78 deg. 05 min. west 6620 feet distant; thence from said point north 46 deg. west 300 feet to post No. 3 of the claim, thence north 44 deg. east 1,500 feet to post No. 4 of the claim, thence south 46 deg. east 600 feet to said post No. 1, the place of beginning, containing an area of 20 66-100 acres. This claim is of record in the office of the recorder of said district at Argenta, Utah.

The nearest known locations are the Monster, Independent and Utah Chief.

Any and all persons claiming adversely any portion of said monster No. 2 Mining claim are hereby directed to file their adverse claim thereto, with the Register of this office, during the sixty days' period of publication hereof, or they will be barred by virtue of the provisions of the statute in such case made and provided.

I direct that this notice be published in the DESERET EVENING NEWS.
