A SKILFUL SCULPTOR.

A YOUNG UTAH ARTIST OF STRIKING ABILITY WILL OPEN A STUDIO.

This morning, we had the pleasure of meeting Mr. C. E. Dallin, of Springfield, Utah, whose reputation as a sculptor may now be considered national, his progress in the art during the last four years being almost phenomenal. He is now only 22 years old, and went to Boston and entered upon his studies at the age of 18. Among his principal and most notable productions are, a copy of a panther; a little girl, the mother having been murdered in terms of commendation by the leading Boston papers. It was exhibited in the Art Institute Fair in 1882. He produced the bust of a boy to order. It was favorably noticed for merit at the contemporary Art Exhibition held at the Boston Museum of Fine Arts. One of his best conspicuous specimens of artistic skill was a model of the Revere, the matter of the award of the order for the statue being known artist Mr. Dallin and the well known artist Mr. Thomas Ball, and not yet decided. He also made a statue of William W. Warren, the actor, who was delighted with it. The cowboy equestrian and Indian equestrian are said to be splendid specimens of art, and in the same line comes a Mexican lassoing a steer. The artist was greatly admired by Prof. J. J. Gargiula, a noted Italian sculptor, who, in viewing it, made the remark that there was no reason why Mr. Dallin should not become one of the foremost sculptors in America.
 Mr. Dallin once called upon Oliver Wendell Holmes and asked him to sit for a statue. The Doctor showed his appreciation, stating humorously that he did not think he could live through the ordeal. He sat once before and the production was a ghastly object, the artist dying shortly after its execution.
 During the interview Mr. Dallin made good use of his eyes, and aided by a photograph produced a life-like bust. Dr. Holmes happened to call afterwards at the art workshop with a lady friend and saw the bust of somebody he thought appeared familiar to him. He walked around it and at last exclaimed, "Why, that is the portrait of my companion. The bust was greatly admired by the friends of Dr. Holmes. Mr. Dallin purposes remaining in this city till next fall and opening a studio. He will study Western subjects, which is a new field for sculpture. He will also execute orders, and we hope his skilful brain and hands will be kept amply employed. Utah should take some pride in her young artist whose merit is beyond all question. We hope he will have plenty of patrons.

Assault and Attempt to Rob.—An assault and unsuccessful attempt at robbery was made last evening by a man named Johnson upon one J. P. Rouben, near the T. and R. G. Railway track, between the Fifth and Sixth Wards. The two men, it seems, were walking into town from the Morgan Smelter, where Rouben had been employed, when, in the course of conversation, Johnson learning that his companion had some money about him, he drew a pistol and hit Rouben over the head with it, the weapon being accidentally discharged.
 The two then grappled and fell, and Rouben was getting the best of his opponent, but through loss of blood and consequent weakness, he had to loose his hold and the would be robber escaped, without, however, taking any of the other's money with him.
 Rouben was found by some boys and Mr. F. Lewis, who took him into his house, where he was kindly cared for. He had a scalp wound which bled freely, but was not dangerously hurt. Rouben was taken care of on the D. & H. G. track, where the police are on the lookout for him.

Dangerous and Unlawful.—A gentleman living in the neighborhood of Prospect, Elmhurst, and states that as he was coming down town yesterday afternoon he came upon two men practicing at target shooting. They placed their target at the end of a fence belonging to Mr. Robert R. Anderson, and they took a path leading to the hill from the Empire Mill, from which direction people were apt to appear at any minute. "Crack!" "Crack!" went the rifle shots, peppering the target and the earth in its vicinity with leaden pellets, some of which carried down to the ladies' right hand the next moment turn the bend of the winding path where the target was fixed.
 The gentleman who witnessed the shooting, being aware of the existence of a law against such dangerous sport within the limits of the city, was on the point of speaking, but thinking he was not the proper person to take such an action, he came down to the News office and informed the editor, who now calls the attention of the municipal officers to the dangerous practice and infraction of the law which he observed. An emergency should be made of those who persist in such things, before some innocent child is "crackingly" killed.

A Good Deed.—A young man in the employ of the Dr. & R. G., who is dependent entirely upon his wages for a livelihood, lost his entire month's pay last Tuesday, while going from the bank, where he had been having checks cashed for his associates in the machine shops.
 He was greatly surprised yesterday evening by being tendered more than the amount lost, the said sum being subscribed by his friends in the shops, thus showing themselves to be charitably inclined. These gentlemen can feel assured that the kindness is duly appreciated by the young man and his family. Good deeds are never forgotten.

A MAGIC POWER.

A Secret Agent at Work.
 We were surprised the other day to learn that certain individuals in this city, who had for many years yielded to what was apparently an inevitable fate, were started from their torpid condition of semi-stupidity, into asserting their right to life, liberty and the pursuit of happiness. These individuals had been bound by an influence as powerful as it was incomprehensible. They knew not the cause, but they were victims to the result. They were enslaved, but they could not discern by what means they had been enslaved. They had long sought deliverance from their bondage, but their appeals to science and the knowledge contained in books were equally unavailing. At last, relief came. It was not through any action of the President, or of Congress, or of the new Legislature, for it was out of their power, and foreign to their knowledge, that they were suddenly and effectually released from the bondage they suffered, and placed on the equal scale of human happiness. What was their trouble? Is it what our readers will have been rendered helpless by that universal enemy, rheumatism. They had not walked or even moved without pain for years, and on the strong recommendations of friends who had been there, they tried Bismuth and other waters at once, and now they congratulate each other on the accomplishment of such a triumph. We do not know the names of the sufferers, but will wait a future time, by which they can at any time read the encroachments of their common foe. We would give them the name of the medicine, but will wait a future time.
