

## TWO FAST UTAH HORSES SOLD.

Hobo and Munroe S. Are Disposed Of By Their Owners.

## BELONG TO BOISE CITY MEN

Salt Lake Horses That Raced in Idaho Have Returned to This City—Outside Events.

Last evening Kangaroo, Fleet, Julia A. Polly Gar and Nigger Boy, local horses that have been racing at Boise and Blackfoot, Ida., arrived in Salt Lake. The horses had a very successful trip in Idaho, winning everything in sight.

But two of the most famous horses did not return. They are Hobo and Munroe S. These fast animals have changed owners. Wells & Stone announced on Tuesday that they would sell the animal if a suitable offer were made. Jack McCloud, a former Salt Lake horseman, but now located at Boise city, took a fancy to Hobo, and offering a good price for the animal Wells & Stone accepted and Hobo now belongs to McCloud. The animal has a record of 2:12 1/2, and can be depended upon to pay back the purchase price.

F. H. Richardson is the purchaser of Munroe S. and the price paid was \$1,000. The horse belonged to Mr. Crabtree, who purchased her last spring from Munroe Salisbury, from whom the horse was named. Messrs. Wells and Crabtree returned from Idaho last evening, and both said their trip had been most successful. Mr. Crabtree said he would shortly buy another race horse and get him in shape for next season's track events.

## RIFLE CLUB SHOOT.

Newcomb Takes Honors of the Day—His Average 70 to 100.

At the rifle club shoot yesterday afternoon Newcomb held high gun and carried off the honors of the day, his average being 70 to 100. Following is the score of the contest:

Newcomb . . . 72 80 74 75 93 82 72  
Reckon . . . 76 75 72 75 68 . . .  
Weatherston . . . 74 74 75 . . .  
O. H. Green . . . 60 . . .

## FOOTBALL GAME TODAY.

Second High School From East and West Sides Meet.

On the east side high school grounds this afternoon the second teams from the east and west side high schools will meet to settle the question of superiority in matters pertaining to football. The teams will line up as follows:

East Side.	Position.	West Side.
Crutcher	Center	Pierce
Higson	Quarterback	Rudolph
McCallister	Fullback	Busswell
Larson	Linebacker	Farnsworth
Young	Linebacker	Richardson
Harris	Linebacker	Higgins
Wright	Linebacker	Walt-Borkley
Pickering	Linebacker	Bolck
Halm	Linebacker	Manning
Richardson	Linebacker	Bintz

## EVENTS AT NEWMARKET.

His Royal Highness Attended the Races—Whitney's Horse Won.

London, Oct. 29.—The racing at Newmarket today was attended by the crown prince, who was generally drawn to witness the contest for the Cambridgehire stakes, for which the entries were more numerous than usual. King Edward was an interested spectator of the races.

William C. Whitney's Ballantyne, who was a hot favorite, won the Cambridgehire stakes. St. Maclean was second and Nabel third. Twenty-four horses ran. The Cambridgehire stakes is a handicap of 25 sovereigns, each with 500 sovereigns added for 3-year-olds and upwards, one mile and a furlong.

The betting was 9 to 4 against Ballantyne. Nibel led to the dip, where he was overtaken by Ballantyne, who won by a neck. Watts, Ballantyne's jockey, claimed apprentice weight allowance, which gave him material advantage.

R. S. Stever's famous filly Spectre, which has been scratched for the Cambridgehire stakes, was offered for sale at auction previous to the race, but was withdrawn owing to the reserve price, \$18,000 not being reached.

## Not Ready Yet.

San Francisco, Oct. 29.—John P. Marshall, secretary of the board of the Portland ball team, attended the game today as the guest of Manager Henry Harris, and the pair had a long consultation. Mr. Marshall says that his trip is purely one of business outside of the baseball line, and that the project to consolidate certain cities in the north coast California league is neither likely nor feasible at the present time, but he thought another year would find conditions ripe for a big coast league.

## FIGHT STILL ON.

No Agreement Between Western and American Ball Leagues.

New York, Oct. 29.—After another session today the national board of arbitration gave up the task for the time being of trying to settle the western baseball war. The board adjourned to meet in Chicago Nov. 15. Meantime there has been declared between the Western league and the American city league a compromise on some terms, but proposed an equal division of disputed territory. When this was refused the Western league declined to hear of a compromise on those terms, but proposed an equal division of disputed territory. When this was refused the Western league declined to hear of a compromise on those terms, but proposed an equal division of disputed territory.

## RECORDS STILL GO.

Direct Hal and Prince Direct Lower Mile Team Mark by Seconds.

Memphis, Tenn., Oct. 29.—Two world's records were reduced and another tied at today's meeting of the Memphis Trotting association track. The first special event was the attempt of Direct Hal and Prince Direct to set a mile as a team against the record of 2:05 1/2. The pair were driven by the veteran driver, and when the time

"A good present need not knock long for admittance."

—Proverb

A present will gain ready admittance without any knocking if it be of

## Gorham Silver

The task of selection, too, is rendered comparatively easy when once the decision that it shall be Gorham is reached. The almost infinite variety of articles of sterling silver bearing the Gorham trade-mark assures the suitor of the most individual taste.

All responsible keep it

2:05 1/2 was hup out the crowd gave the stars an ovation. The first quarter was paced in 2:24 1/2; the half in 1:04, and the three-quarter pole was passed in 1:34 1/2.

Onward Silver next appeared to beat his previous two-mile trotting record of 4:23 1/2, but he could only tie it.

The bay stallion Nevada was sent against 4:24 1/2, the pacing record for stallions at two miles. Dean handled his horse well and at the end a full second was clipped off the old figure.

Price Alet failed to beat the gelding pacing record of 2:04 1/2, finishing the mile in 2:05 1/2. Summary:

The Emerald, purse \$3,000, 2:05 pace, three miles, one mile, one and eight miles and half a mile—Carl Wilkes won the second and third heats in 2:20, 1:00 1/2. Dan Albert S. won the first heat in 2:04 1/2. Sir R. New Richmond and Casino also started.

Free-for-all race, purse \$1,500—Cham Shot won two straight heats from the Tabbot in 2:08 1/2, 2:09 1/2.

2:30 trot, purse \$1,000—Huh Wynne won the second and third heats in 2:18 1/2, 2:19 1/2. The Dean and La France also started.

2:11 trotting—McKinley won the second and third heats in 2:12 1/2, 2:13 1/2. Imogen won the first heat in 2:12 1/2. Frances B. and Frank also started.

Against time—Direct Hal and Prince Direct to beat 2:08 1/2, pacing (eGers). Time, 2:08 1/2, 2:09 1/2.

Onward Silver to beat 4:23 1/2, two miles trotting (Hudson). Time, 4:24 1/2, 1:04, 2:13 1/2, 2:04 1/2, 2:05 1/2, 2:06 1/2.

Nevada to beat 4:23 1/2, two miles. Time, 4:24 1/2, 1:04, 2:13 1/2, 2:04 1/2, 2:05 1/2, 2:06 1/2.

Prince Albert, to beat world's record (gelding). Time, 2:04 1/2, 2:05 1/2, 2:06 1/2.

Time, 2:05 1/2, 1:04, 2:13 1/2, 2:04 1/2, 2:05 1/2, 2:06 1/2.

## All-Americans Again.

Great Falls, Mont., Oct. 29.—The bowling tournament between the All-American bowling team and the Great Falls bowling team was concluded tonight. The visitors won all of the games played here, scoring a total of 5,757 points, while the Great Falls team scored 4,734 points. In the five games played today the All-Americans scored 588, 588, 579, 535, 546; Great Falls, 517, 491, 463, 489. The All-American trio will leave tomorrow for Butte.

## One More Record.

Cleveland, O., Oct. 29.—A world's record was broken tonight upon the Calumet alleys when the Calumets beat the 1,000 mark in each of the three games that they took from the Calumets. In the first game the Calumets rolled 1,001; in the second 1,075, while in the third they made 1,064, a total of 3,139 for the three.

## OUTSIDE EVENTS.

### CALIFORNIA HOUNDS.

Going to St. Louis to Compete in Cup Stakes.

San Francisco, Oct. 29.—More hounds are going from California this year to compete in the American Waterloo cup stakes at St. Louis Nov. 8 and 9, than ever before at the event. The class of the dogs, which includes the sensational youngster Pocatelli, Sacramento Boy, winner of the John Grace cup; Cloudburst, Charming Thought, Black Conn and several other good ones are going on from Los Angeles, and Ralph Orthwein string will be on hand for the event.

### CONN MURDER CASE.

It Remains as Much of a Mystery as Ever.

Phillipsburg, Mont., Oct. 29.—The Conn murder affair on Willow creek still remains a mystery. It does not seem now as though the facts will ever be known. Mrs. Conn, the aged mother of James Conn, died at 5 o'clock this afternoon. Mrs. Norlin, the demented old lady who is supposed to have committed the crime, was brought here, she was struck on the head and is in a very bad way. While coming to town she made a rambling statement to the effect that she had fixed them plenty, meaning the Conns. She has been mentally deranged for many years, and not much credence is placed in her statement. She killed her husband twenty years ago.

### To Settle French Miners' Strike.

AARAS, Pas de Calais, France, Oct. 29.—At a meeting held here today representatives of fifteen coal mining companies operating in the Pas de Calais district, it was decided to write to the prefect of the department that the companies agreed to meet delegates of the striking miners next Friday, but that the companies objected to arbitration as premature and that it would indicate a lack of confidence in the success of the conference between the owners and the miners and because it might prevent the parties concerned from coming to an immediate and definite settlement.

### The Great California Liniment.

**DR. SMITH'S VITAMIN OIL**  
for Burns and Bruises.  
Nothing like it.

## UNDESIRABLE IMMIGRANTS

Make Their Way Into United States Through Canada.

## HOW IT IS ALL MANAGED.

Steamship Companies Keep Agencies And Coach Those Intending to Emigrate in Geography, Etc.

Washington, Oct. 30.—Commissioner Gen. Sargent of the immigration bureau has made public a report from Robert Watchorn, special immigration inspector, dated Paris, Aug. 22, on the emigration to the United States by way of Canada. Mr. Watchorn says that Europeans who obviously are ineligible to enter the United States for several years have been directed by agents to Canadian points with a view of effecting a surreptitious entrance into the United States across the international boundary.

Intending immigrants who by reason of some disqualification are rejected by the lines running to United States ports, are turned over to the lines running to Canada, and with a few exceptions they are accepted without question. Thousands every year thus find their way into Canada and thence to the United States.

"Every steamship agent alludes to the fact that the United States immigration laws are now being strictly enforced there and in consequence, the Canadian route is earnestly recommended as one where anyone is accepted who is capable of walking off the ship, a statement which is invariably coupled with a gratuitous lesson in North American geography designed to impress on the immigrant's mind the cheering information that Montreal is a border, simply to walk across the border is an easy matter, unattended by any inconvenience whatever, there being no inspection at said border."

"The efficient work of the immigration officials at New York and other ports of the United States not only tends to make a fairer of the commendable scrutiny exercised at the Belgian, Holland and German ports but serves to stimulate the work of the unprincipled list of European steamship passenger agents who regularly send to Canada not only those whose admission to a United States port is open to doubt, or those whose admission is known to be impossible, but also those who have been actually denied admission at a United States port and who have been duly deported therefrom according to the law."

"So important a matter has this shady immigration become in certain Italian and Swiss towns that scores of agencies exist where a normal traffic could scarcely justify the maintenance of a single agency."

In conclusion the report urges that all roads into the United States be made equally straight and narrow.

### CUBAN SUGAR INDUSTRY.

Gen. Wood Says It Is Doomed Without Reciprocity.

London, Oct. 29.—Gen. Leonard Wood, former minister to the republic of Cuba, was interviewed today on the subject of various special dispatches published here alleging the existence of serious economic and political conditions in Cuba. He said to a representative of the Associated Press:

"In view of the present crisis, the Cuban sugar industry is absolutely doomed without reciprocity with the United States. I have the strongest reason for believing and hoping that a reciprocity bill will pass during the next session of Congress."

One theory is that Conn committed suicide. That he became temporarily insane and attacked his mother with a hammer and then shot himself in the head with a Winchester rifle. The situation of the wound and the circumstances would so indicate. The bullet entered the left eye, emerged from the top of the head and entered the ceiling. It is believed that after brainning his mother he placed the rifle to his head and set the trigger off with his foot.

The officers are inclined to discredit the theory that the crime was committed by the Northern Pacific hold-up.

### Victory for Clark Democrats.

Helena, Mont., Oct. 29.—The supreme court late this afternoon decided that the regular Clark Democracy of Silver county was entitled to a place on the official ballot of the county. Mandamus proceedings were brought against Clerk and Recorder Weston, a Helms candidate, to compel them to place the nominees of the Clark people upon the official ballot instead of Helms candidates. The case has been briefly fought.

### MUST RESPECT AUTHORITIES.

German Sentenced for Reading Burlesque Poem on Emperor's Birthday.

Berlin, Oct. 29.—An odd trial for disrespect to Landthart von Maltzahn, a local poet, having the justice of the peace Mecklenburg, was ended today by the sentencing of three men for having been connected with a burlesque poem which was read at a party given by the poet on Emperor William's birthday.

The case has been a 10 months' sensation and was even discussed in the Reichstag. Herr Brand was sentenced to pay a fine of \$75 and Dr. Wenderoff was fined \$12.50. The state's attorney demanded imprisonment for Herr Brecker, who granted successfully during the reading of the poem and exclaimed "splendid," but he was acquitted.

### Castro's Position Unchanged.

Willemstad, Island of Curacao, Oct. 29.—The position of General Castro of Venezuela today is the same as it was after the recent indecisive battle between his forces and those of the revolutionists. He still occupies La Victoria with 5,000 men.

The revolutionists have returned to the vicinity of La Victoria in large numbers and have occupied positions near San Mateo, Villa de Cura, Cagua and Maracay. They say they are awaiting the arrival of all their forces to attack Castro. On Sunday last Castro tried to dislodge the revolutionists, without result.

### A TRIPLE MURDER.

Daughter of a Prosperous Negro Farmer Killed.

WYNN, Ark., Oct. 29.—Mary, Sophie and Minnie Gibson, aged 17, 12 and 10, respectively, daughters of Thomas Gibson, a prosperous negro farmer, were killed and one of them was the victim of a criminal assault at their home near here. A posse composed of whites and negroes is now on the track of the murderer. The murders occurred while Gibson was away. When he returned all three were dead.

The bodies of two of the girls, with

## Business Men

have confidence in the young man who has sufficient faith in himself to take out life insurance.

It bespeaks a desire to succeed, and a belief in his own power to win success. His choice of a company reflects his judgment, and successful men take this into consideration.

The assets of The Mutual Life Insurance Company of New York are over

\$352,000,000

\$569,000,000

which is more than any other life insurance company in the world has disbursed.

A young man, ambitious of success, should consider these points:

Write for "What Shall I Insure?"

THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK

ROBERT A. McCANN, President.

RULON S. WELLS, Manager, Salt Lake City, Utah.

their heads crushed, lay in the house, while that of the third girl, terribly mutilated, was found in the yard. The third victim had been subjected to the most atrocious indignities.

David Cross, an old negro, was arrested and confessed he had witnessed the killing, which he declared was committed by a negro named Johnson.

Later Cross confessed to the triple murder and outrage and was placed in jail. Late tonight a mob, composed exclusively of negroes, formed with the avowed purpose of taking the prisoner from the officers by force and hanging him. The sheriff and his deputies, beset on all sides by the infuriated mob, were obliged to flee from the scene.

Prof. Jenks Reports on Orient.

Washington, Oct. 29.—The report made by Prof. Jeremiah Jenks of Cornell university on his observations in the English and Holland possessions in the Orient was made public today by the department of commerce. Prof. Jenks said that nowhere in the dependencies of England, Holland or France in the Orient has there been granted so great a measure of self-government as the United States already has given to the Philippines.

Prof. Jenks, with respect to a currency system for the Philippines, expressed the opinion that a fixed rate of exchange with gold between the islands and the United States. This is in accord with the suggestion of the Philippine commission.

The latest chapter in the book, that on taxation and land administration, lays especial stress on the question of land tenure. Following the almost universal custom of oriental countries, it is suggested that it would be best for the government to retain the title and to lease the lands for somewhat long periods, 30 years or so, at a fixed rent, reserving the right to revise the terms of rent at the end of the period named.

### Discussed Panama Canal Matters.

Washington, Oct. 29.—Secy. Hay today had two callers who talked about canal matters. The first was Mr. Cromwell, counsel for the Panama Canal company, who is here to ascertain the latest step to be taken by the United States government, in view of Attorney Gen. Knox's opinion respecting the canal title. As this seems to depend for the time being on the issue of the negotiations with the Colombian government, no direct information could be furnished.

Later in the day came Capt. McLean, lately in command of the cruiser Albatross, called. He was presented by Capt. Cowles and gave the secretary a most interesting account of the situation on the isthmus. The secretary was particularly impressed by the tactful manner in which the naval officer had maintained friendly and even cordial personal relations with the Colombian officials, and the United States government toward the maintenance of freedom of traffic across the isthmus.

### Wreck on the Phoenix Ry.

Phoenix, Ariz., Oct. 29.—An outgunning combination train of the Maricopa & Phoenix railroad, designed to connect with the Southern Pacific at Maricopa, Ariz., was wrecked 10 miles from Phoenix tonight. The engine, tender and two cattle cars fell 60 feet through a weakened span of the bridge crossing the Salt river. An unknown Indian riding on a cattle car was killed and Frank Goodrich, fireman, fatally injured. One passenger, a coach was particularly wrecked and is hanging over the wrecked span of the bridge. There were more than a score of passengers in the four coaches and Pullman. A large number of cattle were killed.

### Killed His Wife and Self.

Topeka, Kas., Oct. 29.—C. W. Hooper today shot and killed his wife and then killed himself. Both were dead when found. The woman clutched a divorce decree which awarded her the custody of their four children. The shooting occurred in the hallway above the house. The couple had just emerged from a lawyer's office when Hooper fired three

### Jim Dumps Said: "Doctor, I'm worn out; I need a rest without a doubt, And yet I can't afford the time."

Said Doc: "A nickel and a dime Will stock you up again with vim. Eat 'Force.' He did. He's 'Sunny Jim.'"

## Judge Clancy Arrested.

Butte, Mont., Oct. 29.—William Clancy, judge of department 2 of the Second judicial district of the state of Montana, was arrested this afternoon by Constable Gleason of Justice O'Connor's court on the charge of criminal libel preferred by D. J. Hennessy, P. A. O'Farrell, editor of the Revelle, P. Augustus Heinz's campaign sheet, was also arrested.

The action is the result of affidavit appearing in the paper above the signature of Judge Clancy in which it was alleged that he (Clancy) had been of a bribe four years ago by Hennessy to influence his decision in some litigation then pending between the late Marcus Daly and the Heinz interests.

Judge Clancy was released on his recognizance but O'Farrell was held in bonds of \$1,000, which was furnished.

## FARM AND GARDEN NOTES.

There is no occupation that furnishes the peace of mind and the thrift and frugality that is found in the country home.

Where possible to obtain it, it will pay to give the orchard and alfalfa field a thorough soaking this autumn before the hard freezing begins. If the ground is well moistened to the depth of 15 or 20 feet no harm will follow, and the fields will need much less irrigating water next season, and will insure a partial crop if no water is available in the growing season.

As there are always many little but useful things to be done about the house, which the women cannot do easily, and as this work usually falls to the men, here is a good plan to pursue. Let the wife write in a memorandum book everything that should be done, such as repairing articles, making chicken coops, working in the garden and flower bed, etc. When the husband has some spare time he may take the book and do the things that will best occupy his spare time. Instead of trying him, the change of occupation will rest him. In this way many things may be accomplished at odd moments that would otherwise go undone, and the time will not be missed.

Few farmers can afford to keep two wagons who very frequently could make use of a low down wagon for farm hauling. To reduce the height of the wagon for farm work remove the hind wheels and put the front wheels on behind. Now measure height of rear bolster from floor or ground and procure smaller wheels for front axle of such height as will support front bolster on a level with rear bolster. Put on old but long legs wheels. For front at least they are cheaper, strength considered. Thus at the cost of a pair of low front wheels you have a serviceable combination farm wagon.

A cheap and excellent barbed wire stretcher can be made by taking a hard piece of oak or other wood 2 1/2 x 3 1/2 inches, 5 feet long. Bore hole near end of one end of bar and insert a bolt with a nut. Cut a V-shaped notch in end of piece; put wire in notch behind bar and stretch against tree or post and tighten and nail. It beats a lever or windlass two to 10.

Farm implements should never be left out in the rains and winter storms. If the farmer cannot furnish shelter for the implements he had better leave them at town in the hands of the dealer. Take, for instance, the binder. It is only used two or three weeks during the entire year, and the rest of the time it is either standing out in the weather or in the shed. When it is left out, the effects of the weather injure it a great deal more than a few days of use in cutting the wheat and oats. Two or three years of such treatment and the machine will need repairs, and in a few years more it will go for old iron. The same binder, if well housed when not in use, will last many years and do good work.

Many irrigators have a theory that cold water should not be used for irrigating small plants. Fred Crawford at the Wisconsin experiment station, has tested this matter carefully, using ice water and water at over 75 degrees. He finds that the growth of ordinary field and garden crops is not affected by the temperature of any water ordinarily available. He concludes that no harm can result from using irrigating water directly from the coldest springs or wells.

If you are intending to force vegetables in the spring have your hotbed made ready before winter sets in, as the theory that the hotbed should be made in the first of March too much frost is in the ground to dig the pits that are to be filled with manure for heating. It is well to have it well covered with boards to keep snow out, although this can be easily thrown out.

A very good use for useless or worthless fruit and forest trees scattered around one's grounds is to set grapevines near to them to run up the tree and limbs. They are both ornamental and useful.

Ethel, aged five, was learning to sew, and one day, after vainly trying to make the preliminary preparations with a needle and thread, she asked, "Mamma, don't you cut the box of the needle an eye?" "Yes, dear," was the reply. "Well," continued the little miss, "I believe this old needle's cross-eyed."
