INTEREST FROM OUR OWN AND
FOREIGN LANDS.

By Telegraph to the News
The Civil Service Reformer.

Newport, Aug. 4.—At the business meeting of the Civil Service Reform League, held last night, the following resolutions were adopted: That the Civil Service Reform League be re-elected President, and accepted the office in a few brief remarks. Reports from various associations were made. The committee on resolutions reported at great length the resolution embodying in substance the ideas set forth in Mr. Curtis's speech. Notice is taken of the violation of the President's circular by certain federal officeholders at the recent primary elections in Baltimore. The association is requested to investigate and report on the executive committee of the league, in connection with the state association, may request the President to

DISMISS OFFENDERS
If the charges are proven. Among other things the league reviews the recommendations that the application of the civil service rule be extended to the District of Columbia, the postal service, the clerical force in the Indian office, and other branches where a similar force than city clerks is required, and recommends that assistant heads of bureaus and heads of divisions should be included within the classification. That the Senate should consider nominations in open session; public officers should be required to place upon public record all appointments, removals and resignations. That the President therefore, the acts which limit the tenure of office of

INFERIOR OFFICERS
to four years should be repealed as a baseless source of intrigue and corruption. The league earnestly recom- mends to its constituent associations that associations in those states in which no civil service law has been adopted exert themselves to promote the passage of laws establishing the merit system of appointment.

Numerous Riots.
VIENNA, August 3.—The extensive strike of coal miners in Bohemia led to numerous riots. Troops have been sent to the scene. Two rioters have been arrested. The strikers on the Austrian Lloyd steamers have gone on a strike. They complain of irregular employment.

Casualties.
VIENNA, August 3.—A hurricane destroyed 200 yards of railway at Olmutz. The break will stop traffic for a fortnight.

Paris, August 3.—The heat here is intense. Six policemen were disabled yesterday by sunstroke.

MEXICO, August 3.—A serious accident occurred this morning at the ruins of the San Antonio elevator in the eastern suburbs of this city. The elevator burned July 19, and since the settlement was made with the insurance companies a large force of men has been employed in removing the damaged wreck. This morning 12 men were engaged in shoveling away the train from the south wall of the elevator behind which in the bottom of the ruins was still a great mass of wheat. Without warning

THE WALL YIELDED
to the outward pressure and the great stone structure fell over upon the men crushing them terribly and mangleing them almost beyond recognition. It was several hours before any bodies were recovered. Finally the corpses of Gus Brown, H. P. Anderson, Thomas Dempsey, R. S. Smith and John Jones were taken from the debris and another so far unidentified. A. Erickson, while still alive, was removed to his home in South Minneapolis and search is being made for the bodies of the other laborers.

MEXICO, August 3.—An explosion of dynamite occurred in Biterio, a suburb of Mexico City, killing one person and injuring thirty, besides doing much damage to property. The occupants of the house in which the explosion occurred

HAVE BEEN ARRESTED.
TORONTO, August 3.—High Constable Bissoutte of Montreal passed through here to-day en route to St. Catherine's with a warrant for the arrest of McGargie, the Chicago bomber. The warrant was issued at the instance of the police on the charge of conspiracy.

EAST SAGINAW, Mich., August 3.—A fire this afternoon started in the mill of John Gowan and three or four saw mill houses together with their contents. Loss, \$139,000; insurance, \$88,000.

ESSEX CENTRE, Ontario, August 3.—A fire broke out in a saw mill, burning a small place on the outskirts of town to town, spread and consumed every building in an area of three miles long and half a mile wide, including two dwellings. The fire has now abated, but about the wind rose again. It is believed the town would be destroyed.

The Anarchists Case.
CHICAGO, August 3.—A Peoria paper this afternoon printed the following special from Galesburg, Illinois: Justice Craig, of the Illinois Supreme Court, who is now spending a few weeks at the sea shore in Maine, is reported on good authority to have dropped the case of the anarchists. In conversation with one of our business men, remarks to the effect that the supreme court would not grant a new trial to the condemned anarchists at Chicago. It is stated the judge said that the case would be dropped, and the opinion was to be kept a secret until the opening of the September term.

JUSTICE MAGDER.
Of the state supreme court, who is in Chicago, was shown the above dispatch and said: "This is a matter on which I cannot be interviewed. I know nothing of Justice Craig's utterances, but from what I know of him I should be strongly inclined to doubt his having made such a statement."

Criminal Cases.
CINCINNATI, August 3.—Miss Josie Holmes, late exchange clerk of the Fidelity Bank, who has been in jail in default of \$6,000 bail on the charge of assisting and abetting L. E. Harper in committing offenses against the bank, was released to-day released on a personal recognizance on the recommendation of District Attorney Burnett. It

is understood Miss Holmes has agreed to give the government the advantage of her knowledge of the inside working of the

FIDELITY BANK.
St. Louis, August 3.—A special from London, Ontario, says: Rev. Wm. Thomas About West, who is wanted in St. Louis for the murder of Susie Beck, was seen in this city last Thursday. He hurriedly visited his brother Peter West, who has two of the murderer's children in his care. London detectives are much charged, as they had taken no interest in the affair till too late.

New York, August 3.—Col. Lafayette Deming, aged 50, was shot and slightly wounded this afternoon by Mrs. Ellen Harvey, professional nurse, 25 years old. The colonel was passing the door of the hotel where he was staying, when he was shot by her but said her husband and herself tried to blackmail him out of \$20,000.

POLITICAL ROW.
LOUISVILLE, August 3.—The riot reported in a special dispatch from Chester, Kentucky, saying that six men had been killed, proved to have been exaggerated. The riot occurred over a negro vote and shooting was done. A. J. Hacker was killed and two others seriously wounded. Further trouble may grow out of the matter as the friends of both sides are angry and going armed.

St. Francis, August 3.—Mico Pannello, a Greek, confined in the county jail in this city, this morning was shot by a constable, George H. Marshall, who was awaiting trial on the charge of grand larceny. The weapon used was a

POCKET KNIFE.
and it is supposed the Greek first made the attack on Marshall while the latter was asleep. A struggle followed and Marshall was stabbed in a dozen places. The guards were aroused, but Pannello refused them admittance to the cell and held them at bay with the knife for two hours. He was then shot in the hip by a deputy sheriff, when he was overpowered and the knife taken from him.

Absurd Claims.
LEXINGTON, Ky., August 3.—A private dispatch from W. O. Bradley today says: "An elected governor of Kentucky has been elected by the vote of the republicans conceded the election of Buckley by a small majority. Reports from all counties within telegraphic communication show that the democratic loss as compared with the vote of four years ago in nearly 50 counties has been fully \$2,000. The counties to be lost are nearly all republican. Counting them as seceded and basing an estimate on the best available figures, General Buckley's majority will not be less than \$2,000."

COMMERCIAL GAZETTE'S LOUISVILLE SPECIAL RECEIVED
AT MIDNIGHT,
says: News from 73 counties shows a loss of \$2,000. The republican candidate for governor, and that the remaining counties which are more republican, will probably elect him if the proportion of gain holds out. Fox (probationist) says that the republican loss is 8,000 majority for Buckley. Only an official count can remove the present uncertainty.

LOUISVILLE, August 4, 1 a. m.—The Courier-Journal has unofficial returns from 73 counties. The republican shows a loss from Cleveland's majority of \$2,000. If the ratio of gain and loss continues, the net democratic loss will be 12,500, leaving Buckley a majority over Bradley of 21,000.

Philadelphia, August 4.—Delegates to the seventh general convention of the Catholic Total Abstinence Union met to-day. Reports were presented from all the divisions. The secretary of the general assembly shows a membership of 50,925. A cablegram was sent to the Pope asking his blessing on the work of the union. Several addresses were made.

Booming Alexander.
VIENNA, August 3.—The Austrian mint has received orders to make 60,000 silver and bronze war medals bearing the effigy of Prince Alexander, for distribution to the Bulgarian army.

Another Challenge.
PARIS, August 3.—Garnier, an actor in Mme. Bernhardt's traveling company, has challenged M. Rochefort to fight a duel for publishing a derogatory article referring to incidents that occurred while the company was at Rio de Janeiro. If Rochefort refuses to give satisfaction, Garnier will proceed against him for libel.

The Inventors.
SAN FRANCISCO, August 3.—Senator Stanford's examination before the Pacific Railway Commission was resumed to-day. When asked about certain bills introduced by San Joaquin County and other stockholders against the Central Pacific, Stanford said they were "a bunch of fools" and that he thought they had better settle where they were building other roads.

SOME BENEFIT
From the contract made with the Contract and Finance Company for the construction of various roads, but said he thought they were "a bunch of fools" and that he thought they had better settle where they were building other roads.

A Darling Experiment.
Some years ago Prof. Mason, of New Haven, Conn., was the lecturer on physiology and toxicology at that college, and it was his custom to illustrate his lectures with experiments upon the lower animals. On one occasion, while telling the students the effects of various poisons, he remarked that he had never known a man who was accustomed to use poisoned arrows to kill their game with. The professor was known as a humorist, and it could be taken into the stomach, he said, without injury; but if a single drop of the stuff should be injected into the stomach of a dog, which seemed to cause the animal no inconvenience. Then he injected a drop more into the veins of a pigeon. The bird died instantly.

THE FOLLOWING DAY
one of the students asked what would be the effect if one of them should eat the bird. Mason replied that he did not know. The boy who was helping him, now the United States assistant district attorney, volunteered the information that no person eating the pigeon would have a good meal, and that that was the only result likely to follow. He said that he spoke from experience, as he had eaten that identical bird. The professor was astonished, his hair fairly stood on end as he remarked: "Well, my boy, you have far more faith in my experiments than I have. I have never known a man who has eaten the bird under any consideration."—Washington Cor. Indianapolis Journal.

WRAPPING PAPER
For sale at the DESERET NEWS Office.

rebate at the rate of 2 per cent per annum on the amounts prepaid. Notice is also given that proposals for the sale to the government of United States 4 per cent bonds of 1892, acts of July 14, 1850, and January 20, 1870, to be applied to the sinking fund, will be received and opened at the office of the Secretary of the Treasury at Washington on Monday, August 7, 1887, and each Wednesday thereafter until further notice.

SECRETARY FAIRCHILD
said this afternoon in explanation of his action that he did it simply because he needed it. He said that the fund could be done under the circumstances. The purchase of the bonds, he said, for the purpose of the sinking fund and the anticipation of interest for the purpose of getting rid of the surplus in the fund, amounted to \$2,319,761. The sinking fund requirements will amount to about \$20,000 in addition to \$2,000,000 of three per cent bonds already applied to that fund. The surplus, said Fairchild, can be put out only through the co-operation of the bondholders, and if they do not accept the terms of the proposition made then it would seem they are not in very great need of money.

GENERAL ROSECRANS
recently received from Charles Whitehead, chairman of the committee on resolutions of the National Veterans' Association at Des Moines, Iowa, copies of his resolutions, adopted by that association repudiating the utterances of certain members of the Grand Army of the Republic in connection with the proposed visit of the President to St. Louis while the Grand Army encampment is in progress there, commencing on Friday, August 5, and the President's veto of the pension bill, and condemning the efforts of those who seek by the rebuff of the President to rekindle the flames of sectional hate as unmanly, unpatriotic and unbecoming to the members of the Grand Army.

PENSION OFFICE.
General Rosecrans was requested to deliver copies of these resolutions to the President and General Black. Today he called on the President, and in presenting the resolutions expressed his belief that they are in "accord with the views of the vast majority of the G. A. R. as to the loyal respect to the President and the propriety of denouncing him for want he believes to be his official duty. He also thought the sentiment commended in replying said: "Without reading the resolutions presented by you in such a disrespectful manner, I am inclined to say that judging from the tenor of your remarks the action of
