MINING, BUSINESS AND STOCKS

NEVADANS PUT ON WAR PAINT

Movement Inaugurated at Reno To Hunt Down Wild-Cat Mining Concerns.

A PUBLICITY COMMITTEE.

One Has Been Formed With Sam P. Davis as Chairman—What He Says.

Reno, Sept. 2.—Wildcat mining companies must be done away with. This edict has been sent forth by the Nevada publicity committee and that committee intends to immediately begin a vigorous campaign for the purpose of driving all fake mining companies from the state as soon as possible. This is to be done so that legitimate mining companies may prosper and that mining and business enterprises of merit may not be blackened by the evil doings and the robbing schemes of mining companies which exist only on paper, and which are promoted by men who would do nearly anything for money.

Sam P. Davis, chairman of the Nevada publicity committee, which intends to lead this fight against the wildcat mining companies, and all wildcatters, is at present in the city attending to affairs connected with the publicity committee, and in speaking of the attack to be made on the wildcat mining companies, and dishonest promoters backing them, said:

"The people of Nevada are against fake mining schemes as they not only drag down the fair name of the state and make capitalists hesitate to invest in Nevada's legitimate mines, but also cast a shadow of doubt on every business enterprise that may exist in the growing commonwealth.

"All mining schemes which are not honest and which are managed by men who would not stop at highway robbery to accomplish their one purpose of gaining riches, must be a thing of the past in this state and it is for the purpose of driving out such mining companies and prosecuting the men promoting them that the Nevada publicity committee has taken the matter up.

"The publicity committee will act in conjunction with the Mining & Scientific society, which is composed entirely of expert mining engineers and with the Nevada Commercial league and other bodiese of a similar nature.

"We have been promised the support of the Dunn Commercial Agency and the Bradstreet agency in this good work, and the San Francisco Stock exchange has offered to furnish part of the money in the fight. Capt. Menardi of Reno is also with us in the work and states that he will furnish all the money needed for printing expenses.

"With the aid mentioned I do not see why we should not succeed in clearing the state of Nevada of these thieving companies.

"Now the plan upon which we will make this crusade is as follows: We will, with the aid of the Nevada Mining & Scientific society, Dunn's and Bradstreet's, publish a list of all legitimate companies in the state of Nevada, together with the number of cairns owned by each company, the names of the claims and their location. We will also publish the names of the officers and directors and the amount of the capitalization.

"Mines thus listed can be regarded as legitimate mining enterprises. As to the mines not on this list the public can draw its own conclusions. We will endeavor to make the list a miners' Bradstreet.

"I have talked with many mining men in Nevada and California in regard to this and I believe that in this way we will be able to rid the state of these wildcat companies and thus interest capital to a greater extent than ever before.

"People are now afraid to invest, thinking that they may get into some bubble scheme which will later burst and leave them stranded and penniless in a field of wildcatters."

AMERICAN FLAG MINE.

Park City Property Has Become a Regular Shipper.

The American Flag property is now what may be practically called a "regular shipper," says the Park City Record. Though the local management of the property does not believe in "newspaper mining" as he is pleased to call newspaper reports of a company's doings and prospects, and consequently says nothing for publication, it is known that the Flag is improving daily and that with the opening of the drain tunnel it will be one of the "big ones." A consignment to the smelters of "high grade" has just been completed and there is plenty more where that came from. About forty men are now employed at the mine and are prospecting along with the development work. Water worries the Flag people on the lower levels but it is believed that when the drain tunnel is opened, if it ever is, this trouble will disappear entirely.

Henry Welsh, who is heavily interested in the Lost Packer property, Ibapah, returned Tuesday from an extended visit at the mine, showing in his sunburned face the effects of considerable out-door life. The Lost Packer is proving itself to be a wonderfully rich mine, the record of twelve days run at the reported smelter recently blown in being quite to the amount of $100,000. The matte has a value of about $500 per ton and comes from 55 to 60 per cent copper and from 12 to 14 per cent gold. The development of the mine is progressing nicely and an immense body of high grade copper gold ore has been opened up, besides a great body of lower grade, which is yielding such high-grade matte.

The shaft house and gallows frame at the South Dakota property are now completed and work in the shaft is being vigorously prosecuted again, the hole being down about 60 feet at present. Jim Allen, who has charge of the work, states that everything is moving along in first class shape.

Ore Shipments—Silver King 1,958.-420. Daily West 1,981,600. Daily Judge 911,600. Little Bell 116,600. Moore Con. 85,000; total pounds 5,102,260.

NEVADA ALPINE.

O'Meara Property Near Tonopah Responding Handsomely.

W. P. O'Meara and M. J. O'Meara, principal owners of the Nevada Alpine mine, went down to Lone Mountain yesterday to inspect the workings, and returned last night well satisfied with their day's experience, says the Bonanza of Tonopah. The Nevada Alpine is the only silver lead mine in this part of the country that is being successfully worked, and has been shipping pretty regularly for the past four years.

"The mine is looking fine," said Mr. W. P. O'Meara, last night, upon his return, "and the work is going ahead in satisfactory shape. We are tunneling and drifting and shipping. The ore averages $140 a ton. It is only a short haul to the railroad now, but before the Tonopah road was put in, we used to haul the ore to Candelaria, and ship it from there at a cost of $500 a car. That was a pretty stiff charge, when you remember that the ore went between $3,000 and $4,000 to the car."

TIE SIDING COPPER.

Some Good Ore Found in District Near Laramie.

Special Correspondence.

Laramie, Wyo., Aug. 31.—A. K. Walla of Tie Siding has discovered near that place a large amount of very rich copper float, and four veins of the same rich copper ore. It is said there is enough ore in sight to make several men wealthy. Years ago LeRoy Grant, now state auditor, picked up several wagonloads of rich ore in the vicinity from which he realized several thousand dollars, but although careful search was then made, the mother veins could not be found. Walla's discovery will make him wealthy.

WYOMING OIL.

Field Near Greybull, Wyoming, Looks Like Important One.

Special Correspondence.

Greybull, Wyo., Sept. 2.—At a depth of 3,900 feet oil and gas were struck in a well being drilled in the oil fields near here. The drilling machinery was thrown into the air and great difficulty was experienced in plugging the flow. It is said there is a sufficient flow of natural gas to run the drilling machinery and furnish light and fuel for domestic purposes in the vicinity.

NEW OIL FIND.

Pinedale, Wyo., Aug. 30.—A splendid grade of lubricating oil has been discovered on the LaBarge south of here. Ranchmen use the oil in oiling their machinery, for fuel and light. The product bubbles from the ground in several places.

WILL BUILD A MILL.

Special Correspondence.

Centennial, Wyo., Aug. 30.—M. M. Green of Chicago, one of the capitalists interested in the New Rambler copper mine on Douglas creek, is authority for the statement that his company is to erect a new mill at the Rambler mine in the near future.

USE OF ZINK.

Demand for This Metal Has Increased Very Perceptibly.

Joplin, Mo., Sept. 2.—The use of zinc ore has increased at such a rapid rate that it is almost impossible to supply the demand. The Missouri-Kansas district produces more than three-fourths of America's supply, and while the production has increased steadily year by year, the price also has advanced.

In 1889 the district produced and sold $2,722,900 worth of ore. In 1906 the production amounted to more than $15,-000,000. New mines are being developed every week, and the production increased. This year it is believed the production will have a valuation of more than $18,000,000, yet it is not equal to the demand.

SPRING LAKE COMPANY.

Corporation Formed at Provo to Operate Near Payson.

Special Correspondence.

Provo, Sept. 2.—Articles of incorporation of the Spring Lake Mining company have been filed with the county clerk. Provo is the place of general business. The capital stock is $100,-000 in shares of the par value of 10 cents each, of which 400,000 shares are treasury stock. Officers are R. E. Knowlden, president; John Roundy, vice president. These with Jacob Evans, Ed McCune and Jos. Wirthlin form the board of directors. The secretary and treasurer is Braxton Barnett. The company's property consists of 19 claims near Spring Lake, between Payson and Santaquin. A 16-foot vein has been opened up, carrying silver-gold-copper ore, running from 3 to 30 ounces of silver. The property has been examined by experienced mining men, who predict the making of a great mine. Work will begin about Sept. 10 and will be pushed as rapidly as two shifts with Burleigh drills can do it. The company expects to run a tunnel 1,500 feet; but expects to strike the vein it is now working in 500 or 600 feet, and 500 below the surface.

CONCENTRATES.

The mining exchange will open for business at the usual hour tomorrow morning.

J. L. Royer, who is actively engaged in mining in Crescent, Nevada, district, is in the city on a brief business trip.

The regular annual meeting of the West End Mining company will be held in Park City next Monday, according to a call issued by Secretary E. B. Palmer.

The developments made recently in the Eagle & Blue Bell mine in the Tintic district are of a character which leaves no boubt about it becoming one of the big producing mines of the state.

Sidney M. Bamberger, manager of the Imlay Mining company, departed for Humboldt county, Nevada, today to make an inspection of the properties of that corporation.

CHEERFULLY RECOMMENDED FOR RHEUMATISM.

O. G. Higbee, Danville, Ills. writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me.

I can cheerfully recommend it to all suffering from like affliction. 25c, 50c and $1.00. Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main St. R.

NO MEETING TONIGHT.

City Fathers May Discuss Franchise Tomorrow Evening.

There will be no meeting of the city council tonight on account of today being Labor day and a holiday. The meeting will be held tomorrow night instead. It is expected that some action will be taken on the new franchise of the Utah Light & Railway company for extensions to its system, as that matter was laid over last week for one week. The franchise has been held up for several months by the "American" members of the council and it is not likely that they can hold it up much longer.

Another matter which will probably be acted upon is the proposition of installing gas lights on the streets by the Welsbach Street Lighting company. The committee recommended the installation of 500 of the lights, but when the report was submitted last week the Utah Lighth & Railway company submitted a counter-proposition on the lighting question and succeeded in holding the matter up for one week.

Utah-Idaho Sugar Co. Dividends.

The Articles of Incorporation provide for payment of a dividend of 1¾ cents per share on the preferred stock Sept. 30th, 1907, and quarterly thereafter. The par value of the stock is $10 per share.

Dividends on preferred stock are cumulative; that is, if not paid at end of any quarter must be made up and paid to the owners of preferred stock before any dividend can be paid on common stock.

We can buy you a reasonable amount (from 1 to 1,000 shares) of this stock at about $9 per share. When money is normal in all parts of our country the opinion of men best qualified to judge is that this stock will readily sell for from $10 to $11 per share. The time to buy is when you can get the stock CHEAP. THE TIME TO BUY IS NOW.

SUIT AGAINST READING RAILWAY

Denies Government's Allegations And Discloses Some Political History.

MARK HANNA TOOK A HAND.

Said If Miners' Wages Were Not Advanced, Election of McKinley and Roosevelt Would be Endangered.

Philadelphia, Aug 31.—The Reading Company, the Philadelphia & Reading Railway company and the Philadelphia & Reading Coal & Iron company today filed their answer to the suit of the federal government to break up the alleged monopoly existing in the anthracite coal mining of this state. The answer of the three concerns, of which George F. Baer is president, makes a general denial of the government's allegation and goes into the first strike in the hard coal campaign and its relation to the presidential camaign of 1900, when McKinley was elected. It is declared that the agreements to advance the price of coal were brought about in 1900 by the violence and intimidation of striking mine workers, by the failure of the United States government and state of Pennsylvania to enforce the law and protect the coal companies, and by the importunities of the late Marcus A. Hanna, who, it is alleged, was anxious to end the strike of the miners on account of the impending presidential election.

General denials are made of the conspiracy charges in the answer of the Reading company and that of the railway company. The answer of the coal and iron company takes up the strike of 1900 and says that "substantially all the workmen in the anthracite regions abandoned their work under the force and effect of the violence, turbulence and intimidation and the employes and workmen of this defendant and others in the same neighborhood were induced or compelled by like violence, turbulence and intimidation to abandon their employment."

The answer goes on to say that "shortly afterwards it was represented in substance to the officials of this defendant and the representatives of other mining companies by one Marcus A. Hanna, acting as chairman of the Republican national committee in the then pending political campaign, for the election of candidates for president and vice-president of the United States, that if the said strike should not be speedily settled by an advance in the wages of the workmen in and about the mines in the entire anthracite region of Ohio, Indiana, and Illinois, and that the election of Mr. McKinley and Mr. Roosevelt would be thereby endangered.

"That Mr. Hanna represented to the company that he was authorized to settle the strike through President Mitchell, if the operators would agree to give their workmen a 10 per cent increase in wages. It is set forth that the company did agree to advance the wages of its mine and colliery workmen 10 per cent and the other principal mine owners, who had been in conference with Mr. Hanna, had agreed to the same concession."

It was stated that "thereafter conferences were held between the officials or representatives of the principal mine operators, who had theretofore offered the said advance in wages and the representatives of the principal mine operators, this defendant was obliged to agree with certain operators, severally, with whom it had pre-existing contracts and for the purchase of coal and who were severally the tenants and lessees of the defendants to enter into new contracts with such as should desire to do so, increasing the prices to be paid for the coal to be produced by them respectively and to be sold and delivered to the defendant."

Continuing, the answer avows that all the conferences between the operators and the contractors which resulted therefrom were wholly brought about, compelled and forced upon this defendant by the turbulence, violence and intimidation aforesaid by the failure of the United States and that the commonwealth of Pennsylvania to enforce the laws and protect the workmen in the peaceful and lawful prosecution of their work, and by the importunities of the said Hanna in the supposed exigencies of the pending political campaign whereby this defendant was obliged most unwillingly to buy its peace and the price and protection of its workmen by an advance in wages and which said conferences were in no way in the least whatever induced by the motive or alleged unlawful result so indefinitely alleged and set forth in the plaintiff's allegations."

GRACE VAUGHN, ACTRESS, COMMITS SUICIDE.

New York, Aug. 31.—Mrs. Grace I. Bothner, life of Augustus Bothner, a theatrical manager, committed suicide today at her home in West Forty-sixth street, by shooting. She had been in ill health for some time and up to last night was a patient at Muldoon's sanitarium, near White Plains. Mrs. Bothner left the sanitarium yesterday and appeared unexpectedly at her home last evening. She said she could not bear the thought of remaining longer in a sanitarium. Early today, in the absence of her husband and nurse, she got possession of a revolver and sent a bullet into her head. Mrs. Bothner was 25 years old.

Before her marriage she was Grace Vaughn, an actress who was widely known. She sang with many opera companies and in 1903 she married Andrew Jennings of Cleveland. They did not live long together, and Jennings placed her in a retreat in Cleveland. A few months after her release she was placed in an asylum at Elgin, Ill., from which she was later discharged as cured. Mrs. Bothner's last engagement was with George Ade's "Just Out of College."

BLACK HAND CONDEMNS BP. BURGESS TO DEATH.

New York, Sept. 1.—Bishop Frederick Burgess, Episcopal bishop of Long Island, and his entire family have been condemned to death by the Black Hand.

Warning of the fate threatening the bishop was sent to him in a typical Black Hand letter, which announced that the new house at Garden City is to be blown up with a bomb.

Just why Bishop Burgess is threatened is not made plain in the letter. No demand has been made upon him for money, and there is no inkling of the grievance of the authors of the letter.

Beyond admitting that a threatening letter had been received, Bishop Burgess declined to discuss the affair. He would not divulge the contents of the letter, saying it was a private matter, in which the public is not interested. That he is greatly worried by the threat made against him and his family, is known, however, to his friends.

Just what action the bishop has taken to prevent the threat being carried into execution is not known. In the last few days, however, according to a report, a special patrol of policemen has been assigned to watch the Bee House and the nearby cathedral, as it is feared it too may be blown up.

Considerable mystery surrounds the whole case. The letter is said to have been mailed from Brooklyn and arrived several mornings past.

Bishop Burgess has had numerous church worries in the last few months, but it is not believed the threats grew out of any of the church troubles in which he has figured.

DOUBLE TRAGEDY STARTLES CITY

Commercial Street Denizens Still Talking of Shocking Crime.

THE UNDERWORLD HABITUES.

Deed Was Done in Midday and in Center of Busy Street—Both Leave Families.

Salt Lake is still talking of the double tragedy which startled it Saturday afternoon. That portion of the city known as the tenderloin has not yet regained its composure for the double tragedy was carried out right under its eyes. William Gray chased Georgia Burton, whose real name was Harris, a demi monde, out in the street and there shot her to the ground. He then turned the gun into his own face. The revolver barked three times. As Bray caught the fleeing woman he put his left arm around her. As she lay in his arm pleading for her life he sent two bullets into her face. As she sank to the ground he stood over her and sent a third bullet into her brain. Then gazing at the writhing girl for a second he shot himself, just as bystanders reached him and wrenched the gun from his hands.

GIRL'S AWFUL DEATH.

Bray fell to the street and was dead in a second. His body was dragged into the alley running out of Commercial street into State. The girl was still struggling when witnesses of the affair reached her so a call was sent in for the patrol. She was taken to the emergency hospital and Dr. C. M. Benedict and Dr. S. G. Paul were summoned. Both responded in a few minutes and both saw at a glance that nothing could be done to save the girl's life. She presented a terrible sight. She wore the finery of the underworld and it made the ugly holes in her face all the more horrible. Blood gushed from a hole in the left side of her head near her ear; from a hole over her left eye; a wound near her mouth and a hole in her neck. A bullet had come out through her neck, making four wounds. Her living at all with three bullets through her brain caused wonder. She was conscious up until a few minutes before the end. Her suffering was intense. She twisted and struggled, moaning and beating her breast in agony. She tried to talk.

She died at 2:17 o'clock. The shooting occurred on the hour.

All this was told in Saturday afternoon's "News." A few new developments have been uncovered since.

HAD PLANNED DEED.

The causes leading up to the murder and suicide are vague, as vague and shadowy as the underworld itself. Bray is married and a wife and child live at Boulder, Colo. In the dead man's personal effects was found the following letter:

Mrs. William Gray, Boulder, Colo.

Mr. Dear Jose—You will find enclosed the only money I have on earth forgive me for this awful deed I have done as I am crazy and don't know what I am doing. Good by my sweet heart and give my little Sal all the advantages you can I should have been insured but I was not I am scrry for this good by my dear good by I will dy, yours WILL.

P. S.—Don't publish this in the newspaper please don't for the old time sake."

It is believed this letter was written some time Friday. It shows that his deeds were premeditated. Bray was probably not crazy, although he had been drinking heavily. If the truth were known it would undoubtedly be found to be the same old story of an illicit love, dissipation, jealousy and other things of the night life.

WROTE ANOTHER LETTER.

Bray, evidently had had no doubt about the success of his horrible plans as he had written the following letter to G. Harris, the girl's father, living at Lima, Le Grande county, Ind.:

"August 31st.

"Dear Sir: Your daughter has been killed by me. She got me from my wife and baby and then turned me down, so she won't turn any other man down. You have thought she was married to a man named Burton, but she has been sporting. You can prove this by writing to Ploche or Ely, Nevada, or here in Salt Lake. She has a $7,000 house in Ely, her property and Frank Welshon's. I suppose you will think I am crazy, but from what Georgie has told me about you, you know what it is. I remain,

"Sincerely yours,
"WILLIAM BRAY."

WOMAN WELL KNOWN.

The woman was well known in Salt Lake's dizzy district. She was a leader among her companions. Some time ago she left this city, going to Nevada. On the 15th of last month she appeared in Salt Lake in company with Bray. As Mr. and Mrs. Bray the pair registered at the Orpheum hotel. Five days later the woman left Bray and going back to her old haunts opened a place at 44 Commercial. The man remained at the hotel and the room was still held by him up to the day of the shooting. The girl wrote a note to her pretended husband which shows she realized her affection for the man should have no place "because his place was not here." The note follows:

"Dear Billie, I am not coming home, for the way you are acting always drunk. You know how you acted tonight, saying you was going to whip me so it is best we should part now before you hurt me. I am going to Ogden to stay until you go, for I am not going to be killed by you, and besides your place is not here.

"GEORGIE."

The friendship which brought both to a horrible fate began in Ploche, where both were interested in a dance hall venture. An infatuation sprung up. Bray was jealous, drank heavily, and as his drinking increased his jealousy became correspondingly greater. It all ended with the shooting in midday and in the center of a crowded street in the heart of a busy city.

The circumstances and facts of the double tragedy were so patent that Judge Bishop, acting as coroner for Dana T. Smith, decided no inquest was necessary. After viewing the bodies and hearing the stories of eye-witnesses Judge Bishop wrote letters covering the affair in detail. O'Donnel & Company, undertakers, have charge of the bodies and are expecting to hear from relatives today as to what shall be done with them.

PRINCE WELHELM HAS A BUSY SUNDAY.

New York, Sept. 1.—Prince Wilhelm of Sweden put in his customary busy day in New York. In spite of the fact that it was Sunday he attended religious services on board the Swedish cruiser Fylgia, entertained a small party of friends at luncheon on board the ship, was almost mobbed by the crowd when he came ashore, motored through Central park and this evening gave a small dinner at the Hotel Astor.

The Flygia will sail for Boston tomorrow afternoon unless the machinery is defective. Today was reception day aboard the cruiser, and, following the custom established when the Duke of Abruzzi, Italian, visited New York, it seemed as if every visitor wanted to carry away a souvenir. Glasses, dishes, sailors' caps and officers sword scabbards, in fact, practically everything lying around loose was taken. One enthusiastic hunter even carried away the breech-block latch of the big gun in the forward barbette. It is estimated that 10,000 people visited the cruiser yesterday and today, and while the chief engineer believes his engines ar still intact, the weight of articles taken by relic hunters was almost great enough to make a change in the registered displacement of the ship.

DRUDE'S INSTRUCTIONS.

Paris, Aug. 31.—The French government today telegraphed instructions to Gen. Drude authorizing him to pursue a relentless campaign in the Casa Blanca region and specifically permitting him to make a two-days march into the interior. The government's idea is to grant Gen. Drude enough freedom to bring the inviting situation to a decisive finish. The war department will send two balloons to Casa Blanca.

VILE SONGS.

They Cause King Edward to Leave a German Theater.

London, Aug. 31.—A dispatch from Marienbad reports that the sequel of King Edward's displeasure at a theatrical performance there Thursday evening, when he left the theater in disgust because of the vileness of some of the songs, has been seen in the police court.

The manager of the theater and a woman singer were brought to court and the singer was fined for having given an objectionable song which was not on the program. The manager escaped, as it was shown he was ignorant of the singer's intention to sing such a song.

Accidents will happen, but the best-regulated families keep Dr. Thomas' Eclectric Oil for such emergencies. It subdues the pain and heals the hurts.

BANKING HOURS

Are not long enough for a great many men to transact their business. That's the reason we keep our safety deposit box department open till 6 p. m. Most of those who use them daily at a cost of less than a cent a day come in between three and six o'clock, our boxes are so convenient for men making afternoon stock deliveries. Private booths and writing rooms for customers.
