

OUR NEIGHBORS.

IN SNAKE RIVER COUNTRY

Phenomenal Development of Southern Idaho—
Industrial and Productive Wealth.

Splendid Educational Facilities of
Rexburg and Fremont County—
Coal and Other Mining.

Special Correspondence.
Rexburg, Fremont Co., Ida., March 20.—The phenomenal growth of Idaho resources is fast becoming recognized. From many sources capital is pouring into Idaho. Branch roads off from the main line of the Oregon Shore Line railroad have been built both in the north and south part of the state during the past two or three years, and extensions and other branch lines are now being promoted and advanced. Hundreds of thousands of acres heretofore barren and covered with brush are fast being brought under cultivation and irrigation. The early settlers, who were generally land poor, are now beginning to divide their holdings into smaller holdings, selling to newcomers who are generally from Utah and acquainted with irrigation, fruit, stock and other industries. Towns along the Snake river and upon the extension thereof have doubled in population in many instances since the year 1900.

The old dirt roof log houses are fast being replaced with handsome modern and commodious homes. Rexburg, especially, has enjoyed an era of great prosperity for several years.

Quite a number of veins of splendid coal have been opened up in various places in Fremont county, and coal is rapidly becoming in use among the settlements here. Both placer and quartz mines were discovered last fall near Victor in Teton Basin and hundreds of claims have been staked. We are looking for a great boom in the basin as the snow has disappeared sufficiently so that miners can get upon the ground and begin operations. (U) has also been discovered in Teton Basin and eastern machinery has been placed upon the ground for well boring.

We have a great many sawmills in the groves of timber turning out lumber for home consumption.

Sheepmen have had a picnic here for the past few years. In Rexburg we have farmers who went into the sheep business six or eight years ago, who are now estimated to be worth \$40,000 to \$100,000. Cattlemen have done well and have been bringing splendid returns for the past three or four years. Rexburg has the benefits of the Bell telephone system. A private system is now being placed through the county from Rexburg to Jackson Hole. This line will be a great benefit as it is paying attention to procuring contracts for service from the best farmers all around the country.

A franchise for electric lights for Rexburg has just been granted to the J. E. Brady company for the placing of wires upon our streets for the lighting of the city. The workmen are now laying wiring buildings, placing poles, etc., and we are promised electric light a little better than 30 days.

FINE SCHOOL FACILITIES.

The board of education has decided to complete the Ricks academy, a structure worth not less than \$50,000, by the 1st of November next. We had 254 young men and women enrolled in our academy during the present year, which is over 100 more than we had last year.

We expect with the academy building completed to have at least 300 students. The academy has a splendid corps of five professors under Ezra Christiansen as principal.

We have also had in our district school 50 children during the past winter and many of the primary children would not attend for the want of school accommodations, notwithstanding the fact that our present district school building is a large two-story structure, with six good rooms. The trustees of the district school have procured plans and specifications for a new district school building, which will cost when completed \$20,000. Rexburg is progressing rapidly in the matter of education, and as a result of the towns in Fremont county. Now we have a school building, with modern architectural arrangements, can be seen on every side up and down the valley.

One of the largest sugar factories in the country is now being located 24 miles south of Rexburg, and the people are elated with the prospects of its success.

Power plants are being established along the falls of Snake river into which eastern capital is being drawn in abundance to assure success.

Flouring mills, cheese factories and dairies are being established in abundance, and many other manufactured industries are being projected by our well-to-do citizens. Rexburg has a prosperous knitting factory in successful operation.

The health of the people in the Snake river valley is as good as anywhere in the country and prosperity of the people in every avenue of industry and trade is evidenced by the erection on the farm and in the city of beautiful homes with pleasant surroundings.

Merchants are branching out and succeeding on every hand. A bankrupt merchant in our part of the country is unknown.

CLIFTON, IDAHO.

CHOIR LEADER HONORED.

Ward Turned Out En masse to Show Appreciation of His Labors.

Special Correspondence.
Clifton, Oneida Co., Idaho, March 20.—We have had considerable sickness during the past winter, but at this time there is very little illness among the people.

Our district schools are running with a good attendance. Our teachers, Bro. Joseph M. Anderson, principal, and Sister Chloe Howell and Carrie Larson, assistants, have done a good work. The winter and your correspondent is informed that there will be a graduation class of about 16.

We have a beautiful new schoolhouse in course of erection, which when completed will be one of the finest in the district. School buildings in the county are made of stone and brick, built of dressed stone and brick. Much credit is due our school board and property owners for undertaking this worthy work.

We have two missionaries in the field. Elder Martin Henderson, who is laboring in Germany, and Elder Vernon Howell in Kentucky. Bro. Orin Howell has received a call and will leave for the Colorado mission April 5.

Bro. George T. McDermitt, Heber from the O. S. B. Bybee have returned from the O. S. B. Bybee where they have been taking the missionary course.

CHOIR LEADER HONORED.

Our choir leader, Bro. Joseph M. Anderson, was given a very pleasant surprise last evening. That the regular practice was begun, the populace of the town began flocking in. When the house was filled Bishop Farmer came and informed Bro. Larson, that

Popular Ideas Regarding Catarrh.

It is the common belief that what is popularly known as catarrh is simply a chronic cold in the head. This is true as far as it goes, but as a matter of fact catarrh is by no means confined to the nasal passages, but extends wherever the mucous membrane extends, which means nearly every part of the body.

The mucous membrane is the inside skin of the body and is nearly as extensive as the outside skin, and any inflammation of this membrane causes an extra secretion of fluid is really catarrh.

Catarrh is, therefore, an old enemy disguised by many confusing names, for instance: Rhinitis is nasal catarrh; laryngitis and pharyngitis throat catarrh; gastritis, stomach catarrh; cystitis and nephritis, catarrh of the bladder and kidneys.

Therefore, although the location of the trouble gives it various names, in reality the sum total is catarrh and nothing else.

Do not make the mistake of thinking you have no catarrh because the head and nose appear to be clear. If there is a cough, tickling in the throat and hoarseness you have throat catarrh; there is no appetite, bad nausea, gagging and disgust for food especially in the morning, you have catarrh of the stomach.

The surest treatment for every form of catarrh is an external remedy which acts especially on the blood and mucous membranes; such a remedy is the new preparation sold everywhere by the name of Stuart's Catarrh Tablets, a medicine in pleasant tablet form containing all the best and latest specifics for catarrh.

Stuart's Catarrh Tablets contain in highly concentrated form, bloodroot, the shrub of the Boreal forest, and many other equally valuable curative elements, and no one who suffers from any form of catarrh and has seen the inefficiency of douches, sprays and powders will ever go back to them after using Stuart's Catarrh Tablets, and one who has used Stuart's Catarrh Tablets and one who has seen the inefficiency of douches, sprays and powders will ever go back to them after using Stuart's Catarrh Tablets.

Stuart's Catarrh Tablets are sold in highly concentrated form, bloodroot, the shrub of the Boreal forest, and many other equally valuable curative elements, and no one who suffers from any form of catarrh and has seen the inefficiency of douches, sprays and powders will ever go back to them after using Stuart's Catarrh Tablets.

Stuart's Catarrh Tablets are sold in highly concentrated form, bloodroot, the shrub of the Boreal forest, and many other equally valuable curative elements, and no one who suffers from any form of catarrh and has seen the inefficiency of douches, sprays and powders will ever go back to them after using Stuart's Catarrh Tablets.
