Wheth-they made their ground on a fluke or they forced the ball over the line for San Francisco, Nov. 39.-At the track and field day meet of the Olympic club yesterday a world's record in putting the 12-pound shot was broken by Raiph Rose, who put it 55 feet 61/2 inches. This is one and a half inches farther than the dis tance covered by G. R. Gray of the New York Athletic club at Travis island in 1902. John H. Anderson Chas. L. Anderson For President Ebbet Next Season. For President Ebbet Next Season. New York, Nov. 30.-Brooklyn baseball fans are pleased to hear that the signed contract of Harry Lumley, the puggy right fielder of the Dodgers, is at present reposing in President Ebbet's strong box. Of course, Lumley can still figure in a trade, but if Mr. Ebbet has seriously considered the tempting offers made by the New York and Chicago clubs he would hardly have gone to the trouble of getting Lumley's signature to a con-tract first. He would have let Lumley do his figuring with his new manager. The fact that the Brooklyn slugger asked and received a subsetantial increase in salary is proof that the Brooklyn club realizes his value as a team asset and that it would be a big mistake to sell him. and only score, on straight foot-tille will be claimed by the contending schools until next ben the managers should ar-ir schedules to settle without Jas. Booth Thos. R. Bess...... A. F. Bess...... 1902. In the hop, step and jump, T. Rog-ers of the Emeraid Gaelic Athletic club covered 46 feet 24 inches, breaking the coast record by 1 foot 64 inches. brown-stone residence, and is consid-ered one of the most successful busi-ness women in the United States. Several years ago Mrs. Miller learned of a mild and simple preparation that would readily cure female diseases and plies. After curing herself and many of her friends she was besieged by so many women needing the treatment that she decided to furnish it to those who might call for it. She started with only a few dollars' capital, and the remedy, possessing true and won-derful merit, producing marvelous cures when doctors and other remedies failed the demand grew so rapidly she was several times compelled to seek larger quarters. She now occupies one of the city's largest office buildings, which she owns, and almost one hundred clerks and stenographers are required to assist in this great business More than a million women have used Mrs. Miller's Specific, and no matter where you live, she can refer you to ladies in your own locality who can and will tell any sufferer that this marvelous remedy really cures women's dis-cases. Despite the fact that Mrs. Miller's business is very extensive, she is always willing to give aid and advice to every suffering woman who writes to her. She is a generous, good woman and has decided to give away to women who have never used her medicine \$10,-000.00 worth absolutely FREE.

Every woman suffering with leucor-rhoea or whitish discharges, ulcerations, displacements or falling of the womb, profuse, scanty or painful periods, uterine or ovarian tumors or growths, also pains in the head, back and bowels, bearing-down feelings, nerand bowers, bearing-down feelings, her-vousness, creeping feelings up the spine, melancholy, desire to cry, hot fashes, weariness, or piles from any cause, should sit right down and send her name and address to Mrs. Cora B. Miller, Box 2886, Kokomo, Ind., and re-ceive by mail (free of charge in plain wrapper, a 50-cent box of her marvelous Specific; also her valuable book.

Remember, this offer will not last long, for thousands and thousands of women who are suffering will take advantage of this generous means of getting cured. So if you are alling, do not suffer another day, but send your name and address to Mrs. Miller for the book and medicine before the \$10,-000.00 worth is all gone.

By the Editor of the Town and Country Journal.

Personally I have not believed that thronic Bright's Disease is curable, and this for two distinct reasons:

First-Medical works class it as inurable and fatal. Second-Those I have known who had

t have died.

it have died. Result—I look with distrust upon all claims of alleged specifics. During my recent visit to San Fran-cisco I heard the president of the Pa-cific States Type Foundry claim that chronic Bright's Disease was now as curable as is grippe. I said I would like to believe it ike to believe it. He took me in hand. The statements

hundreds were exhibited to memany were so marvelous that they had been sworn to and sealed by notaries. I then manifested a desire to see some of the parties themselves. The one of the particle basic distances in a recoveries have been so numerous in San Francisco that we did not have to go four blocks in any one direction. In five minutes we were in the pres-ence of one of the best-known mer-

chants in the city. Has been in busi-ness on the same spot fifty-one years. He said he had had both Bright's Disease and Diabetes and had been given up, but had completely recovered. Said he knew many others who had recov-ered. Gave it as his belief that eightered. Gave it as his belief that eight-tenths of all cases were curable under the new specific. We next called on one of the big insurance men on Call-fornia street. He said his son was swollen with dropsy from Bright's Disease and his death was daily ex-pected when he was put on the treat-ment. He is now an athlete. We called on the editor of one of San Francisco's great dailies who had a physician test it out in his own (the

physician test it out in his own (the physician's) case, the latter being a hopeless diabetic. In six months he was well. The head of another large insurance company on Montgomery street was next seen-he was in bed in November last in a critical condition due to chronic Bright's Disease. He was well and in his office and also told of a friend of his who was in convulsions when put on the treatment and was now out on the street. We went to the office of an ex-Supreme Judge and also another editor, both of whom had recovered.

I declined to go further. Although there were hundreds more to see, it was useless. If human testimony from the very best people is worth anything. the books are wrong, and chronic Bright's Disease and Diabetes, even in extreme cases, are positively curable. Ethics ought not to be permitted to obscure this discovery, and in the interest of those readers of this paper whose homes may have one of these blights upon it. I now declare the facts and will see that any of them desiring it may be sent full literature. The name of the discovery should be stated. It is known as Fulton's Compound.

Many broad physicians are using the new diurctic, but in view of the terrific annual death list in the United States from Bright's Disease (nearly 60,000) the fact that medical ethics prevent them from proclaiming the discovery to the world, because the formula is the personal property of individuals, in this instance practically amounts to a public calamity.—Town and County ournal, San Jose, Cal., July number,
