

INDEPENDENT INVESTIGATION

Of Stockyards by Committee of National Association of Manufacturers.

WAS QUIET AND UNHERALDED.

Says Reports Have Been Exaggerated and Irreparable Damage Done.

Chicago, June 14.—The committee of the National Association of Manufacturers appointed to make an examination of the packing establishments at the Union stock yards will submit its report tomorrow. The committee consists of President J. W. Van Cleave, St. Louis, president of the association; Daniel M. Parry, ex-president of the National Association, Indianapolis; Elliot Dugan, Chicago, vice president.

All are practical business men and familiar with the general conditions of factory work.

They say in their report with no announcement of their intention they presented themselves before the packers and requested to be allowed to make an investigation on their own account. They were given the freedom of the plant, singly and collectively, with guides or without, as they might wish.

The work of inspection, the committee says, "was not conducted in a haphazard way, but was systematic and followed, point by point, to a final conclusion. Dr. Joseph Hughes, president of the Chicago veterinary college, accompanied the committee and the assistance of the chiefs of the government inspectors was invoked. The committee followed the government inspectors in their regular routine from start to finish and is convinced that no perfect is the organization that no careless possibly escape the watchful eye of the inspectors, and if by any carelessness on the part of a single individual an animal does escape, it is detected by some one of the three inspectors."

It was amply demonstrated that if there is doubt regarding the healthful condition of a carcass the suspect from that moment passes out of the jurisdiction of the factory employees and is placed under lock and key until it enters the rendering tank.

The committee learned from the government inspectors that 95 per cent of the business of the stockyards is in fresh meats, against which very little complaint has been entered. The principal charges being against the curing and canning departments. The committee found much to criticize in the way of sanitary conditions and arranged for a conference of the principals of all the large packing houses, which was cheerfully granted.

To those representatives the committee presented every point in which, in the opinion of the members, an improvement might be made, and the packers unanimously agreed that the suggestions should be acted upon immediately so far as practicable.

The committee, in summing up, decided that the reports which have gone out regarding the packing establishments have been greatly exaggerated and that a great injustice has been done as well as an irreparable damage to the greatest industry of the country. Also, that while the state of a trivial nature might be improved upon, the general conditions, involving sanitary, general cleanliness and a production of wholesome food are better than the average hotel kitchen or even the kitchen of a large percentage of private residences found in a large percentage of the smaller markets in the city and country.

The sanitary conditions of the workmen in the summer time, while not perfect, are all that could be expected where so many are congregated in close proximity.

"None of the factories is conducted as a show plant, but as a plain every day business, where everything possible is turned on account, like all other well conducted business enterprises."

GERMANS ARE HORRIFIED.

Berlin, June 14.—Crown Prince Frederick and his wife, Princess Victoria, the Prussian minister of agriculture, opened the agricultural fair in a suburb of Berlin today. They both made speeches extolling German farming and the results of the state in protecting the people's food by law.

Gen. Poldowski, in connection with the opening gave an interview to the local Anzeiger regarding the Chicago meat packing scandal. During the course of which he was quoted as saying:

"What was taking place at Chicago was well known in the United States, the case was filled with horror by the information. I cannot express publicly what I know and can only seek to protect our population."

Today in Chicago 20,000 cattle are slaughtered and numerous other animals are brought to the slaughterhouses already dead.

Only three veterinarians are assigned to 10,000 hogs daily. What can they see? With us, one veterinarian or inspector does not investigate more than 20 animals.

"Not long ago, a large steamer arrived at Emden, loaded with meat, all of which had to be thrown overboard. Many of the animals were sick or dead before they were slaughtered."

Efforts have also been made in Denmark and in other meat has been brought here from Russia. It is established that a ship load of animals brought from Russia to Stettin were suffering from Russian plague. A great number of the veterinarians interested with inspecting animals in Russia are incompetent."

H. O. HOUGHTON DEAD.

New York, June 14.—A special to the Times from Cambridge, Mass., says: H. O. Houghton of the publishing firm of Houghton, Mifflin & Company, died suddenly last night at his home here.

RISING BREAST

And many other painful and serious ailments, from which most mothers suffer, can be avoided by the use of "Mother's Friend." This great remedy is a God-send to women, carrying them through their most critical ordeal with safety and no pain. No woman who uses "Mother's Friend" need fear the suffering and danger incident to birth; for it robs the ordeal of its horror and insures safety to life of mother and child, and leaves her in a condition more favorable to speedy recovery. The child is also healthy, strong and good natured. Our book "Motherhood," is worth its weight in gold to every woman, and will be sent free in plain envelope by addressing application to Bradfield Regulator Co., Atlanta, Ga.

WOMEN'S NEGLECT

SUFFERING THE SURE PENALTY

Health Thus Lost Is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

Miss Kate McDonald

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, or other female weakness.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Kate McDonald of Woodbridge, N. J., writes:

Dear Mrs. Pinkham:

Restored health has meant so much to me that I cannot help from telling about it for the sake of other suffering women.

"For a long time I suffered untold agony with a female trouble and irregularities, which made me a physical wreck, and in one thought I would never see Lydia E. Pinkham's Vegetable Compound has entirely cured me, and made me well and strong, and I feel it my duty to tell other suffering women what a wonderful medicine it is."

For twenty-five years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction, and since her decease, been advising sick women free of charge. Her advice is free and always helpful. Address, Lynn, Mass.

CROW LANDS.

Registration for Drawing Begins at Sheridan, Wyo.

Sheridan, Wyo., June 14.—Registration for the second lottery drawing on the Crow Indian reservation in Montana began here at 9 o'clock today.

The registration is being conducted by W. F. Staley, an agent of the general land office, and three clerks.

At the time of opening the doors of the registration office about 200 people were in line.

No special trails bearing homeseekers have arrived yet, but reports say that several are on the way and the first large instalment of applicants is expected to arrive tomorrow.

Registration for lands upon the Crow Indian reservation began at Sheridan today promptly at 2 a. m. with a large number of people present. Commissioner General Richards of the general land office will arrive from Cheyenne today. Profiting by his experience at the Utah registration the government forces have the crowd well in hand and everything is moving along smoothly. There are not as many people present as expected for the first day.

AIRSHIP UNDER CONTROL

SAILS OVER WASHINGTON.

Washington, June 14.—An airship, under complete control, flying over Washington, was the spectacle witnessed today. Thousands turned out to see the novel sight and cheered the navigator as he skillfully directed the craft.

The ship started from a point three miles from Washington on the Virginia side. After twice circling the monument at a distance of 400 feet, it steamed for the White House, where it landed 50 yards from the south corner. Mrs. Roosevelt was at a window when the descent was made, and exhibited great interest in the strange-looking structure.

After remaining a short time the navigator ascended, carrying his ship over the newspaper offices, and then took a straight course down Pennsylvania avenue for the Capitol, where it was received by thousands of people and also by senators and representatives and the employees about the building.

The navigator finally brought his ship to the earth directly in front of the Capitol. After remaining 15 minutes the navigator again set sail and passed over the building north of the dome, and started back to Virginia.

SAUSAGE MILLS CLOSED.

New York, June 14.—On complaint of the department of health, it being alleged that they were unsanitary, two sausage factories were closed here today. Health commissioner Darrington said that the inspection will be continued and that all unsanitary places will be closed immediately.

SECV. SHAW EXPLAINS.

Chicago, June 14.—Secy. Shaw was in Chicago today en route from Davenport, Ia., to Washington.

"The reason I started in my telegram," he said, "that I had conferred with the president before going to Iowa was that a certain Washington newspaper correspondent had asked his party with stories to the effect that the president was disinterested in the public interest in my own state."

"Of course the president is not interfering, and I will not interfere in Iowa factional politics. What is more, I have not interfered in Iowa factional politics and do not intend to. I have stated in all my speeches that I am not a candidate for governor of Iowa. I have spoken for no one and I have spoken against no one."

"The fight in Iowa is getting bitter."

and in their zeal some Republicans are liable to become forgetful of Republican party principles. I have defended as best I could the old party, which I believe is yet of far greater importance than the consumption of any man's ambition."

WOMEN AS NOTARIES.

Gov. Toole Revokes All Their Commissions in Montana.

Helena, Mont., June 14.—Holding that upon constitutional grounds women cannot hold notary commissions in this state, Gov. Toole today revoked all outstanding commissions held by women, seven in all, and denied as many applications.

TO REORGANIZE ARTILLERY.

Washington, June 14.—The senate committee on military affairs today ordered a favorable report on a bill to reorganize and increase the efficiency of the artillery of the army. It provides for the separation of the field from the coast artillery. The changes will require five years to effect, and will result in an increase of 28 officers and 2,700 men. The increase in men will be 1,000 coast artillery and 85 field artillery. The cost the first year is estimated at \$2,000,000 additional. The cost of additional quarters is estimated at about \$4,000,000. The bill is identical with that submitted by the secretary of war and with the bill which is now before the house committee on military affairs.

Senator Warren in his report pointed out the critical condition existing in the coast artillery, stating that it was possible to man only one-third of the guns, power plants, and other equipment, and that the others are in the hands of caretakers. He stated that in the event of war the coast artillery could be sufficiently instructed to handle this complicated mechanism.

GOV. HOCH ON EDITORS.

Indianapolis, Ind., June 14.—Gov. Edward W. Hoch of Kansas arrived here this afternoon and addressed the editors of the "A. C. Souther" and "The Tribune." Gov. Hoch paid a tribute to the country editor, saying:

"After all the influence of the country press is greater than that of the city press. There are 20,000 newspapers in the United States, one-third of these are dailies and one-third are weeklies. It must be an Abraham Lincoln said of the press in relation to the job that the Lord Almighty thinks more of the country editor than the daily newspaper, for he has made so many more of them."

WOMEN IN COUNCIL.

Paris, June 14.—Five hundred women delegates from 30 nations and colonies to represent 150,000 adherents of the international council of women met in conference today at the Hotel de Ville, the purpose of preparing the program of the peace congress, which will meet in London in July. The questions to be discussed include abolition of international arbitration, suppression of "white slave" traffic, woman suffrage, jury reform and charity organizations.

BIG DIAMOND SWINDLE.

New York, June 14.—Several Malden lace diamond merchants recently have been the victims of a \$25,000 gem swindle, according to a statement made by an attorney representing one of the victims, in the Towns police court today. The arrangement of a statement made by the attorney of Conrad A. Schickler, who had been arrested on a charge of stealing \$25,000 worth of diamonds, made a lot of diamonds to complete a large estate claim ordered by a prominent banker, and then pawned the gems.

POPE MAY LEAVE VATICAN.

Rome, June 14.—A rumor is again circulating that the pope intends to leave the Vatican and go to the papal villa at Castel Gandolfo. An Alban lake was some drive from the Vatican. The moderate section of the Catholic press seems to be preparing the ground for the change by explaining that if the pope makes up his voluntary captivity in the Vatican this would not alter the relations between the church and the world, as the change would be from the Vatican to the papal villa of Castel Gandolfo, which, like the Vatican, enjoys extraterritorial rights.

Richest English Woman Dies.

London, June 14.—Lady Mary Hamilton, only daughter of the late twelfth Duke of Hamilton and Brandon and the richest woman in Great Britain, was married today at St. George's church, Hanover Square, to the Marquis of Graham, eldest son of the Duke of Montrose. King Edward was among those present at the ceremony.

JOHN HAYS HAMMOND.

Degree of Doctor of Engineering Conferred on Him by Stevens Institute.

Jersey City, N. J., June 14.—John Hays Hammond, the eminent engineer who came into special prominence during the Jamestown raid in South Africa, in which he participated, delivered the commencement day address at Stevens Institute in Hoboken yesterday and from the institution received the honorary degree of doctor of engineering. In his address Mr. Hammond warmly defended his "brother engineers" who are working deliberately on the Panama canal problem.

"While we must be exacting," he said, "in our demand for high grade professional morality, we must not forget that it is also our duty to encourage and to sustain those who are striving to win new laurels for our profession. The unintelligent, unjust, and sometimes, indeed, dishonest criticism of the work done on the Panama canal comes to my mind in this connection. We engineers can sympathize with our brother engineers engaged upon this the greatest engineering work yet attempted by man, who despite the unfortunate demands for greater haste, insist upon a careful study of the problems presented before beginning operations, which otherwise might jeopardize the ultimate success of the canal."

NICHOLSON KANE DIES.

New York, June 14.—S. Nicholson Kane, who has been closely identified with the New York Yacht club for more than 20 years, is reported seriously ill at his residence here. During the years 1871, '85 and '89 he was the commander of the yacht club.

DECLARE FOR OPEN SHOPS.

New York, June 14.—Action was taken at a meeting yesterday by the five associations in the Building Trades Employers' association, whose members employ carpenters, which is practically a declaration of open shop. The associations are the Master Carpenters' association, the Interior Decorators and Cabinet Makers' association, the Association of Manufacturers of Metal Covered Doors and Windows, the Painters' association, and the Master League of Cement Workers.

The action followed the announcement of the result of the referendum vote of the 17,000 members of the Brotherhood of Carpenters on the question of accepting the decision of Judge Gaylor in the case of Brooklyn carpenters who are on strike against members of the Employers' association. They asked an advance from \$4 to \$4.50 a day. Justice Gaylor decided that the workers were in the wrong. The carpenters voted more than three to one against acceptance of the decision. The five trade associations of employers then decided to act at once.

Lewis Harding president of the Master Carpenters' association, said: "We carpenters would make contracts with any competent man who would work on Monday. We have no dealings with the Brotherhood of Carpenters," he said.

PLATE GLASS INSURANCE WAR.

New York, June 14.—The rate war in plate-glass insurance that has been in end, and the former manual of rates will be restored July 1. This is the result of a new compact which was formed yesterday at a meeting held at the office of the Metropolitan Casualty company. All of the companies writing plate-glass insurance were represented.

seated at the meeting. The rate war began with the collapse of the old compact in the latter part of 1902. The new organization will be known as the Plate-glass Underwriters' association, and will have the same officers as were elected at the last annual meeting of the commission compact.

REV. CHAS. SCADDING.

Not Certain Whether Will Accept P. E. Bishopric.

Chicago, June 13.—The Rev. Dr. Charles Scadding of La Grange, Ill., who was elected bishop of the Protestant Episcopal diocese of Oregon last night, was seen at his residence in La Grange early today. He said:

"I cannot say positively whether I will accept the position. I have been here for 10 years and have become greatly attached to Chicago and to my church in La Grange. In fact, I feel myself a part of this community, and I cannot go farther west and away from these associations without mature deliberation. However, the election is a great honor from my point of view."

The Rev. Dr. Scadding was born in

Toronto in 1882 and was graduated from Trinity college in that city. His first charge was St. George's, New York. Next he was rector of Trinity, Toledo, when he came to La Grange, Emmanuel church, La Grange, of which he is rector, has grown rapidly during the last 10 years.

The Rev. Mr. Scadding is chairman of the Sunday school committee of the church in the Chicago diocese.

Mr. Scadding is married, but has no children.

PRINCE GAEKWAR VISITS STOCKYARDS.

Chicago, June 13.—H. H. Sapajiro Gaeckwar, maharajah of Baroda, India, his royal secretary, Prince Britt, and his corps of attendants visited the stockyards yesterday upon the invitation of the packers.

The maharajah, through his secretary, as interpreter, said they were impressed by the wonderful methods of killing and preparing meats in the big packinghouses.

The party left last night for Colorado Springs. From there it will go to the Yellowstone park. The maharajah intends to send a number of Indian students to American universities in the fall.

For "that tired feeling" there's nothing better than a trip to Calder's.

FISHING EXCURSION

To Provo Canyon, June 17.

Fishing in Provo River is excellent. Scenery magnificent. Trout and chicken dinners at Upper Falls Resort. Trains leave Salt Lake 4:30 a. m. and 5:00 a. m. Returning leave Upper Falls and Provo at 2:30 p. m. and 7:00 p. m. Everybody invited. Fare \$1.25 Round trip.
