BONDS. Church bonds 106.00 Salt Lake City R. R. bonds 105.00½ LUMBER. Will lumber ever be cheap again? This is a question of particular importance at the present time, especially when the various elements entering into a discussion having to do with the commodity in hand is considered. On this point the Cleveland Leader observes that it is already a fair question whether or not lumber will ever be cheap, as values were rated less than one year ago. No sound judge of economic and industrial conditions can doubt that many staples will lose much of the advance made in the past ten months. It is inevitable, in the nature of things. With timber and all its products the case is different. The carkening shadow of inadequate of very expensive sup-plies lies over the trade in merchandise which comes from the forests. It will not be permanently lifted by any known agency. With population and production of all kinds fast increasing, and the country gradually filling up, the de-mand for timber and wood of all kinds will naturally increase. That means heavier drafts upon the forests, and the best possible care of our remaining sources of supply can hardly make lumber cheap and plentiful, in the old sense. There may be temporary depression in the market, but reactions from too sudden and violent advances in the price level will scarcely last long. Under such conditions it is the imperative duty of all governmental and equcational authorities to do what they can to guard against the threatened lack of timber in the United States.

smoothly. No trouble will be ex-

Referring to the water supply and its | ening out and the new pump is working | it into the cellar, and then the flies ing industrials and specialties were will keep out of it. So close the saloons, and keep them closed, ora certain number of your boys and young men are as surely doomed each year to be lured by them into a drunkard's grave and a drunkard's hell as are flies certain to be lured to their death by the open molasses barrel. Sunday schools, and young people's societies, and Y. M. C. A.'s, and churches may do all they can to draw the boys and keep away from the saloons, but it will be of little or no avail so long as the legalized saloons exist. Into them the boys will go, despite the tears and prayers of parents and the efforts of Chrictian people. How do we know? By having watched the drift of things in that direction forty years. In all those years a regular stream of boys has been going out of Christian homes, out of churches, and out of Sunday schools into the saloons, down to drunkard's graves, and that same stream is going on still, bigger and stronger than ever. Yes, Christian people, if you would save your boys and reach the masses first reach and close the saloons.

ed to 55, but has since fallen from

Mammoth strengthened from around \$2.86 to \$3.00, but closes around \$2.95. South Swansea made rapid gains this week but has fallen from \$1.25, its highest point, to \$1.22.

Yankee Con. closes the week strong, with assessment No. 1 of 1 cent hanging over it. Daisy keeps up well, May Day has improved its position. The other stocks have not materially chaanged.

The week's business was as follows: Monday, 12,800 shares for \$9,162.80. Tuesday, 43,375 shares for \$9,370.81. Vednesday, 22,100 shares for \$9,868.72. Thursday, 18,900 shares for \$9,364.49. Friday, 22,750 shares for \$9,249.90. Saturday, 14,200 shares for \$4.571.89. Total, 134,125 shares for \$51,586.68.

Business was very light on the ex-change today and prices generally showed signs of weakening with the exception of Joe Bowers, which went at 15%, and Northern Light, which sold at

Mammoth responded at \$2.96%, while Grand Central let go 100 at \$5.97. Daly-West fell to \$12.00 owing presumably to some rumors of manipulation which are going the rounds. Chloride Point fell to 15, while Daisy

held its own at 124, and Eagle and Blue Bell at \$1.45. Sacramento participated at 291/2. Sun-

beam was heard from at 54½ and South Swansea dropped 100 at \$1.22. Quotations were posted as follows:

in the south, the Panguitch Weekly Progress has the following: The water cannot be had where the

iron mines are, neither can it be had where the coal mines are. So of neces-sity the coal to run the furnace and the ore to be converted into iron must be loaded on the cars and hauled for some distance at least. The hauling of the ore and coal for a distance of forty or fifty miles by rail when it is once loaded is a matter of little consequence. Where then within that distance is the most suitable place to erect the plant? Only one place can be found, and that one is an ideal one in every respect. In the Panguitch valley, on the banks of the Sevier, is the place. Here can be found the most beautiful location. The distance from the coal and iron mines is only from forty to fifty miles. Sufficient water supply can be obtained at a nominal cost, and a plant erected with far less money than at any other place in the State. More, a thousand horse water power can be obtained for electrical purposes with very little effort. No such opportunities for the converting of the raw material into the inished product can be found anywhere else in the state,

SOLD NORTH MAMMOTH STOCK. Elock of Twenty Thousand Shares

Changed Hauds Yesterday.

A block of North Mammoth treasury stock was yesterday sold to a well known mining man of this city. In all 20,000 shares were transferred, the deal being negotiated by R. G. Wilson, The amount paid is not given out but it is said to be sufficient to enable the North Mammoth company to pursue its development work for more than six months, at which time it is expected that the tunnel will be in nearly 400 feet.

NEW YORK OPTION.

Monday the Day Set for the Payment of Ten Per Cent.

The option for \$50,000 recently secured on the New York group at Park City calls for the payment of 10 per cent or \$5,000, on Monday the 18th inst., at which time if the money is not forthcoming or an extension granted it will continue in the hands of John Green. Charles McFall, Mrs. N. V. Roger and

NOTES FROM BINGHAM.

Will Tap York Vein-Work on Parnell and

Leonard-Midland Tunnel. tunnel is being run by double shifts to tap the York vcin west of the old workings. The vein has been traced by Superintendent Grow for a distance of over 600 feet westerly. It had been supposed to run more to the south, and considerable work had been

done to locate it. At the Agnes & Dana, adjoining the York north, work has been resumed after a number of years' idleness. A

Can't Stand Cold Many children can't stand cold weather. The sharp winds pierce them, and the keen air hurts them. They have cold after cold, lose flesh, and spring-time finds them thin and delicate. Scott's Emulsion will make such boys and

girls hearty and strong. The body is better nourished, and they are better protected. The blood becomes

for the needs of the future iron plant | perienced now in sending two or three cars every week.

Mineral Land Entries.

The following entries of mineral land were registered yesterday at the land office, and the purchase money paid

2655-Milan Packard and H. S. Lisanbee, of Springville, secure the placer mining claim and the old Susannah placer mining claim in Sevier county. 2656-The Silver King Mining Company purchases the Outlet claim in Uintah district, Summit county.

Application for Patent.

3008-James K. Shaw, of Salt Lake City, yesterday filed an application in the land office for a patent for the Mountain Chief, Joseph Zephyr, Mountain Chief No. 2, Mountain Chief No. 5 and Mountain Chief No. 6 mining claims situated in West Mountain and Tooele mining districts.

WORK AT THE EUTONIA.

It is Said to be Developing the Marks of a Big Producer.

The Eutonia property, in West Tintic, s said to be improving with every shift. The incilne, which was run from the twenty-foot shaft, is now down lighty-eight feet, in ore all the way. An eighteen inch streak of solid gaena is now found in the bottom of the shaft, while the ore on each side of the galena assays well. About 100 pounds of samples were recently assayed and although they were taken from vari-ous places in the shaft they showed 3814 to 54 per cent lead and 5 to 17 ounces silver. Had the galena been assayed with this carbonate ore there is no doubt that the per cent lead would have been higher. There is now every indication of a true vein and after sufficient prospecting is done, a tunnel will be run to tap the vein lower down the hill. Something like 376 sacks of ore are ready for shipment and it is estimated that there is 100 tons of ore now

on the dump which will be shipped when the roads are in better shape. Those who have lately visited the property say that there is every indication of its making a big mine in the near future.

MIDNIGHT BOWERS.

Committee Will Visist the Property to Examine it.

The annual meeting of the Midnight Bowers Mining Co., was held yesterday fternoon, at which the following genlemen were chosen directors for the ensuing year, viz: A. Hanauer, A. C. llis, L. S. Farnsworth, W. P. Lynn and W. F. Smith. They will shortly meet and elect the new officers. The directors have decided to send a committee to the claims to report upon the best methods to work the property.

MINING NOTES.

The Taylor-Brunton sampler is preparing to start a night shift.

Another assessment of one half a cent er share has been levied by the Blue Bird of Diamond.

Some fine looking samples of copper ore were recently obtained from the Columbia Copper mine at Bingham. The Joe Bowers Extension company

has levied an assessment of one cent a share, the ne to become delinquent January 8th.

A big chunk of ore was seen today from the New Pass (Nev.,) mine which is literally alive with free gold in places.

Assays from samples taken from the praise made in the Jumbo slope of the Red Wing mine shows 41 per cent lead, 8 ounces silver with 3.6 per cent copper.

Work has been resumed by the own-ers on the Creole property at Pr. k City, under the direction of President E. W. Berry. He is now drifting on the 100 level.

J. B. Post, a Boston capitalist, has se-cured an option on 100,000 shares of

dur unununununununununu

POLICE POINTERS. monumment.

Complaints were received at Police headquarters last night of the theft of two overcoats.

The first complaint was from Leo Crismon, who resides at No. 163 east Seventh South. The other loss was reported by J. N. Giesy, who said that his coat was taken from the Presbyterian chapel last night.

Wild-eyed Schewed may not be tried for insanity for many moons. The reason is obvious. Schewed is in the city jail and will probably be compelled to remain there, for the officials are afraid of smallpox. It is quite impossible to convince people that Dr. Ray was not in jail.

FAVORITE REMEDY 91 Out of Every Hundred Us-

ing It, Are Cured. Never Such Searching Investiga. tions given a medicine before.

For Kidney, Liver, Bladder or Blood Diseases it has No Equal - Trial Bottle Free.

If you are in doubt whether you have Kidney or Bladder disease, just put some of your urine in a glass tumbler and let it stand 24 hours; if it has a sediment, or a milky cloudy appearance, if it is ropy or stringy, pale or discolored, you Kidneys or Bladder are sick. Other serious symptoms are pain in the back, frequent desire to urinate, es. pecially at night, a burning scalding pain in passing urine or when your urine stains linen.

The one sure cure for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, Chronic Constipation and the sicknesses peculiar to women is Dr. David Kennedy's Favorite Remedy. It has cured in many cases where all else failed and is sold at all drug stores for \$1.00 for a large bottle, or six bottles for \$5.00.

By a special arrangement with the manufacturers, we offer our readers the opportunity of getting a trial bottle of this valuable remedy absolutely free, which will be sent postpaid to anyone who will send their address to the Dr. which will be sent postpaid to anyone

orers than the railroad | paid to river, 3,85904,65; bulls, stage etc., 2.00@3.25. stocks dealt in on the London exchange. Hogs-Receipts, 150. Market steady to lower. Light packers, 3.75(3.80; mixed and heavy, 3.85(3.95. The extreme decline in this group reached five points.

In the general list the fall in prices was not excessive. Sales for London ac. count were on a large scale, especially as the rally lifted prices above the Lon den parity, still there was an inviting profit in selling stock here that had been bought on the slump in London. The trading at the opening was at tended by considerable excitement and, indeed, the Wall street districts showed unwonted signs of activity before the stock market opened. The news in the morning papers of Gen. Buller's reverse brought brokers and stock operators early on the ground to make preparations for the demands upon them Many did not walt for the opening of the New York exchange but cabled buy. ing orders to London, thus helping on the rally there before the trading be gan in New York. The vigorous sup-port by distribution of large buying orders through the principal portions of

the list was thus made effective and the market moved upwards almost from the opening. The recovery caused a pause in the rush to liquidate, and the market became quiet and lost all appearance of excitement.

The quiet of the market proved a short-lived effair and gave way to an active resumption of the selling moveological history of the Church from 1805 to the close of 1898. Printed in ment on the receipts of belated selling new type throughout. In any style of binding desired. Prices, \$1.25, \$1.00 a: d \$2.00. The funds derived from the sale of the book will be used for the erection of a new Latter-day Saints' Historican's college in the city. For sale orders from London. The list crumbled by degrees until the whole market succumbed to demoralization. Losses were particularly marked in New York Cen. tral, Louisville and the grangers. The industrials suffered acutely. Metropolitan dropped an extreme 9 points. Dis-appointment over the small loan con-traction shown by the bank statement, and renewed apprehension over the sit. uation in Boston, had to do with the decline. The net losses ran up all the way from 3 to 9 points in the principal active stocks, and no attempt at sup-

port was apparent except for hasty con ering by shorts in a few stocks, which caused sharp rallies. In most instances the last prices were the lowest of the week and in some cases of the year,
