The Patent Eye Cups are a scientific and philosophical discovery, and as Alex. Wyeth, M. D., and Wm. Beatley, M. D., writes, they are certainly the greatest invention of the age.

rocks and sand beds in the Rocky
Mountains. Of them I say, let
them lift up their voice and sing,
and give glory unto the Lord.
In the 42nd chapter of Isaiah and 16th verse, we read that the Saints have not traveled by chance nor wandered without a guide. But who or what am I, that I should take upon myself the right to speak of what God has wrought to establish his people in the valleys of the mountains? Permit me, sir, to say, that I have took the Sorietyres in that I have read the Scriptures in more tongues than one, and also the literature of the Church of "Latter-day Saints" with more than ordinary care, and I feel willing to show my opinion relative to what Rocky Mountains within the last twelve months. It was in the month of June, 1876, that we as a family turned our backs on the State of Illinois and held our way through the States of Iowa and Nebraska, and the Territory of Wyoming, to Salt Lake City Wyoming, to Salt Lake City.
Crossing the plains was to us a long and trying journey, and we felt thankful to God, when we found ourselves all safe in the City of the Saints and in the full enjoyment of the very kind and most generous hearitality of Elder Amos Milton hospitality of Elder Amos Milton Musser, whose excellent wife did all she could to make us feel at home and happy. We felt very much at home in the city, and thoroughly enjoyed the kindness of the Saints. We were very much surprised by the great American wonders, the "Mormon" Taberna-cle, organ and Temple. They are buildings wondered at. The "Mormens" are doing what they can to promote the prosperity of their far-famed city, and I am not surprised that strangers from all nations pay a visit, when in the city, to the great organ, the leavest organ, the le great organ, the largest but one on

the continent of America, and also to the Tabernacle, which seats twelve thousand persons at one time. The "Mormons" are a most remarkable and enterprising people. Their works praise them in the gate. They have turned sand pits into fruitful fields, and rocks from the Rocky Mountains into fine commodious stores, school-houses, good dwellings houses, factory buildings, barns, and other useful buildings, and all that within forty years! The population of Salt Lake be less than forty thousand persons, including the city of Salt Lake and that of Provo, and yet there was not a white man settled in the whole district forty years ago! To that wonderful man, President Brigham Young, and his helpers in Christ, and the patience and en-durance of the Saints, the praise, under God, must be ascribed, President Young and his aids have done far more in forty years to save the poor and degraded peas-antry of Europe than all the sects and parties in the world have done during the last three hundred years! Let an impartial man visit the Territory of Utah and look at what has been accomplished by the Church of "Latter-day Saints," and say by what other nation, government, or church, has so great a work been achieved in so short a aere. nation or kingdom on the face of a marvel of human progress as we behold in the Territory of Utah, where we have a race of people

time. I venture to assert, right that there is not another the earth which can point out such from many nations gathered into one fold under one shepherd, and united in one mind, and of one heart, living in peace and harmony, owners of the soil they cultivate, and able and willing to feed the hungry and shelter the homeless stranger in the hour of need. I may call attention to the charming and beautiful settlements which the "Mormcn" Saints can justly and legally

call their own. As a man of the people, and as one who has for very many years acted as a consulting and practising physician among the sons and daughters of toil, la-boring late and early to promote the elevation and education of the working classes in the old country, I feel that I have a just right to give my testimony in reference to the great work wrought by President Young and his devoted and excellent coadjutors. I know what the poor laborers were and had to endure in the old country, and also know now what they are in their adopted country. They were once

poor and degraded, half fed, and not half paid for their labor in the fields and ditches. Now they are well fed and better paid, better-housed, and respected.
