

is now at Santa Barbara, is quoted as saying that President Roosevelt is responsible for the present uncertain condition in Wall street, and attributes condition in Wall street, and attributes the recent semi-panic to a "brush are which the president started." Air, Rip-ley said that because of the general anti-rairoad sentiment in the country, that the Santa Fe was prepared to in-augurate a policy of strict conservatism in the matter of the expenditures and that many contemplated improvements in the company's property would have to await more favorable conditions. Mr. Ripley is also quoted as saying that he believes it is likely that President Har-riman of the Union Pacific will retire from active railroad life within a year. Mr. Ripley is quoted in part as fol-lows:

Mr. Ripley is quoted in part as for-lows: "I can see no good to come from a meeting with President Roosevelt, such as has been proposed by J. P. Morgan, if the press dispatches on the subject are correct. The president must be held responsible for having started a brush fire that now apparently has be-come a conflagration, and while I al-ways have feil his motives to be of the best, to me it appears to be too late to stop the fire that now is pretty near-ly burned out.

the best to the that now is pretty near-lo stop the fire that now is pretty near-ly burned out. "Getting back to the subject of the apparent public hostility to railroad corporations, there is no doubt that to this feeling alone must be charged up the flurry in the New York financial district, and, while I have no desire to pose as a pessimist, so far as the Santa Fe is concerned we are prepared to draw in. The Belen cutoff is nearly completed and will be ready for all kinds of railway service in about three months, and the double-tracking of our lines between Chicago and Kansas City will not be interrupted. Other work of importance, however, must wait un-til such time as money conditions are more propisious than they appear to be at present.

more prophlous than they appear at present. "Take the Harriman organization of the Chicago & Alton, for instance. While I hold no brief for Mr. Harri-man, that matter after all was one in which the public at large had no ma-terial concern. It was a Wall street affair purely." Discussing government ownership,

affair purely." Discussing government ownership, President Ripley said: "My personal holdings in railroad securities are so very small that I can not be accused of having a material prejudice on this subject. I am how-ever, unalterably opposed to public ownership as an American who loves his country and has made a study of the matter in all its phases. I am convinced that government ownership convinced that government ownership would mean the downfall of the re-

public. "Speaking of the 18,000 odd stock-holders of the Santa Fe, I should not object to the government acquiring the system, provided it paid for the prop-erty what it is worth. The capitaliza-tion is at the rate of \$50,000 a mile and it could not be duplicated at that fig-

SAVED HER SON'S LIFE.

More people succumb each year to some form of kidney trouble than any other cause. The slightest form of kidney derangement often develops into Bright's kidney disease, diabetes or dropsy. When either of these dis-eases are suspected the sufferer should at once seek the best medical atten-tion possible. Consult only a good first-class physician, leave patent medi-cines alone.

first-class physician, leave patent medi-cines alone. There are many of the lesser symp-toms of kidney trouble which can be treated at home is stated by a well-known authority. For some of these, such as bachache, pain in the region of the kidneys, weak bladder, fre-quency, (especially at night) pain-ful scalding and other urinary trou-bles, try the following simple home remedy: Fluid Extract Dandelion one-half oufoce, Compound Kargon one ounce, Compound Syrup Sarsaparilla. half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla, three ounces. These vegetable ingredi-ents are harmless and can be obtained at any good prescription pharmacy and anyone can mix them by shaking well in a bottle. The dose for adults is a teaspoonful after each meal and again at bedtime.

There is no better general remedy known to relieve all forms of rheuma-tism either, because it acts directly upon the kidneys and blood. It cleans the cloggéd up pores in the kidneys so they can filter and strain from the blood the poisonous uric acid and waste matter which if not eliminates remain in the blood, decompose and settle about the joints and muscular tissues causing the untold suffering and deformity of rheumatism. Backache is nature's signal notify-ing the sufferer that the kidneys are not acting properly. "Take care of your kidneys," is now the physician's advice to his patients. There is no better general remedy

Business Men's and Mine Owners' Association Gives Out State-

BLAME PLACED ON THE I. W. W.

ment About Them.

Charged Not Only With Causing Trouble But Also With Creating A Reign of Terror.

Goldfield, Nev., March 18 .- The following official statement was made today

"The Goldfield Business Men's and The happlest mother in the little Mine Owners' association desires to town of Ava. Mo., is Mrs. S. Ruppee. make an announcement of the present Mine Owners' association desires to

at Caldwell today overruled the motion made by the defense to dismiss the case. The motion was based on the long delay in the trial. Since the cases were ready for trial two terms of court have passed, one of which was in De-cember, and the defense contended that the accused were entitled to their lib-erty on the ground that two terms had passed since they were arrained. F passed since they were arraigned. F. F. Richardson for the defense made an argument based upon the theory that the statute of the United States does not act as a bar in such a case pending termination of an appeal in habcas corpus proceedings. He held it only prohibited execution of any sen-

It only prohibited execution of any sen-tence that might be imposed. In reply to an inquiry from Senator Borah that if the men had been convicted and the supreme court had thereafter decided to appeal in their favor the verdiet would have been set aside. Mr. Rich-ardsan said that was 'true. Senator Borah took the ground that the statute as construed by the supreme court pro-hibited the state court from proceeding in any manner. n any manner. Judge Wood said he was not called

Judge Wood said he was not called upon to pass upon the question whether the federal statute raised a bar to pro-ceeding while the habeas corpus pro-ceedings were pending. It was evident he said, that Judge Smith, before whom the cases began, thought so, alld it was not necessary for the court at this time to pass upon the correctness of his ruling. He added, "Independent-ly of the question as to whether or not this case could have been tried and disposed of at the December term of court (held after the decision in the habeas corpus proceedings), the re-mittitur in the case in the supreme court was not filed in the United States court until last Saturday, the feth, and there was no intimation con-

States court until last Saturday, the lefth, and there was no intimation con-veyed to this court that the proceedings on appeal had been disposed of by the supreme court of the United States un-til the affidavit of Mr. Borah for the prosecution was filed in this case on the 12th inst., and in view of the record the court is satisfied that this is the first concerting the the research could

the first, and in view of the record the court is satisfied that this is the first opportunity that the prosecution could have been reasonably required to place these defendants on trial." The afternoon session after the ren-dering of the decision of Judge Wood was taken up with the motion made by the defense last spring for a change of venue. The fact was called to the attention of the court by John E. Nu-gent, of counsel for the defense, that they had 600 affidavits on file in support of the motion. These were made by persons living in the county and all set forth that the public mind was preju-diced against the defendants. Twelve of the affidavits were by men who had collected the others. Two hours were consumed in reading extracts from pa-pers that circulate in the county, this being in support of the claim that the public mind had been influenced by newspaper publications on the clase. The argument of the motion would be made tomorrow.

made tomorrow. HOW TO REMAIN YOUNG.

time since anything from this section has appeared in your columns, and as we want you to know we are yet alive, we thought a line from would not be amiss to yourself nor readers. We are glad to say to you in the beginning, that your paper is a powerful advertising medium, for our former letter brought us numerous in-quiries concerning conditions here, all of which we have cheerfully answered, and are ready to answer as many more whenever they reach us. Since our last communication our numbers have grown from 10 to 150 souls and President Robison of the California mission has kindly considered us of sufficient importance to give us the dignity of a branch of the California mission. Himself and Elder Themp-son, president of the San Francisco conference, of which we form a part now, and Elder S. F. Grant of the San Jose conference, visited us on the 24th of February has, holding two largely attended meetings and per-fected such organization with El-der George Cole as presiding elder and Elders J. Frank Dewsnap and Charles W. Larsen, as first and second counselors, respectively, and we are now known in ecclesionstical par-iance as the Gridley branch of the San Francisco conference, in the California mission of the Church of Jesus Christ of Latter-day Saints, and you can't in-agine how proud we all feel about it, and how anxious we are to do honor to the good cause in this part of the vine-yard. No Relief society or Improve-ment associations were organized at this time, but will be added ister. We have, however, a headity start in the Sunday school work, our first attendreaders. We are glad to say to you in the beginning, that your paper is a ment associations were organized at this time, but will be added later. We have, however, a healthy start in the Sunday school work, our first attend-ance showing 25 and we feel certain this will soon be doubled. When this is done, and all our organizations corr-pleted and in good, systematic work-ing order, we trust that our little branch will be deemed worthy of a visit from some of the apostles, for we have not come out here with a view to

visit from some of the aposites, for we have not come out here with a view to leaving Zion, but rather of bringing Zion with us and by both precept and example prove to the world that Zion is the pure in heart, wherever they dened dwell,

dwell. We have had four births and one death (an infant) among our colonists since jast writing, and the general health of the people is good. We are meeting with very kind and courteous treatment from the people here, whose opinion of us may be found in the following excerpt from Gridley Daily Globe of Feb. 23, 1997:

MORE PEOPLE FROM IDAHO. "Friday evening a party of 43 per-sons, headed by Mayor H. Dewsnup of Rexburg, Ida., arrived in Gridley to settle on colony lands. These people are a very desirable class, being sober, law abiding and industrious. They are thoroughly familiar with irrigation and the handling of land in small tracts. "They are enthusiastic on the possi-bilities of this section and cannot com-prehend why our people have neglected our opportunities so long." Steps are being taken for the erec-tion of a church building of our own very soon. A site has been selected and we are in hopes to have it adorned before long with a neat house of wor-ship. We have an occasional visit from the traveling elders and look for more frequent ones as time rolls on. The weather is beautiful and as a conse-MORE PEOPLE FROM IDAHO.

and ulcers break out on the flesh, the finger nails drop off, and the disease works down and affects the bones. It is the most contagious of all blood disorders, and many an innocent person has been inoculated with the virus and suffered all its dreadful effects through a friendly handshake, or by using the toilet articles of an infected person. Children inherit the awful taint from parents, and their

was in awful condition. Great scree would break out and nothing I put on them would do any good. My hair and eye brows fell out and I looked a "fright." My mouth was so sore I had to live on milk and water. I took Mercury a long time, but instead of improving I was steadily growing worse and my arms and hands became solid sores while my legs were so drawn I could not walk. I began S. S. S. and it helped me from the start. After taking it awhile the sores all healed, my Rheumatism was cured, and today I am a strong,

innocent lives are blighted and ruined because of this monster disease.

Strong mineral medicines like mercury and potash are often given to cure Contagious Blood Poison, but years of failure have proven that such treatment cannot cure the trouble. These medicines can only mask, or shut the disease up in the system for a while, but as soon as they are left off the old symptoms return in all their hideousness. The continued use of mercury and potash destroy the delicate lining membrane of the stomach, causing Dyspepsia, and so injuriously affect the bowels and other parts of the system that the patient is often left a complete physical wreck.

In S. S. S. nature has provided a certain, safe treatment for this disease. It is made

PURELY VEGETABLE

entirely of roots, herbs and barks of the forests and fields, of recognized blood-purifying value. S. S. S. is the real autidote for Contagious Blood Poison-the only remedy that is able to get at the root of the disease and force out every particle of the poison so that no signs are ever seen of it again. This great vegetable medicine can be used and a perfect cure made in the privacy of your home. Sufferers from this disease can be their own doctors. Our "Home Treatment"

book, which we send free to all who wish it, is a complete guide for treating the trouble; it contains instructions for the different stages of the disease and also suggestions about the local treatment that will be most helpful in effecting a cure. Our physicians will also furnish, without charge, any special medical advice you desire on the treatment of the case. S. S. S. goes down to the very bottom of the trouble, and by removing the last trace of the poison, and making the blood pure, fresh and strong, cures the disease safely and with certainty. Do not tamper with Contagious Blood Poison, and try to cure it with poisonous minerals, but get the virus out of your blood with S. S. S., the remedy that has cured thousands of cases, and that is absolutely safe for any one.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

The interests of the people living in the vicinity of the reserves will be care-fully guarded and every effort made to protect them. Homestead settlers will be given a preference in the allotment of range adjacent to their homes, and small owners will be protected in the use of such range as is needed by their stock. The ultimate result of this policy undoubledly will be to make pos-sible the establishment of the maximum number of homes and insure the up-building of the country and the pros-perity of the people. LANDS RELEASED

LANDS RELEASED.

cess to National Forests release from temporary withdrawal of 550,400 acres of land in western Mont-rose and San Miguel counties, Colora-do. A large area had been temporarily withdrawn in that region pending an examination to determine its suitabili-ty for forest purposes. As the result of an examination by a member of the forest service, the land was classified as chieffy valuable for forest, for grazing, and for agricultural purposes. The recent action of the forester will result in restoring to settlement and entry all that portion now found to be chiefly Anal portion how bound to be emergy valuable for grazing or for agriculture. On March 1 and 2 new proclamations for the Uncompanyre and Montezuma National Forests were signed by the president. The new boundaries of these national forests include that portion of the withdrawn area which was found to be chiefly valuable for forest pur-

labor differences in Goldfield. For the past three years the camp has had a series of labor troubles that have had their origin in the existence of an organization known as the Industrial Workers of the World. This body of men have not only caused these troubles, but have maintained a reign of terror in the camp so far as laboring men and business are concerned. Prominent men from other states have been warned that they could not en-

ter the camp, and when some have ventured to disobey these mandates they have been assaulted and forced to leave the district. Laboring men who have offended in any way have been beaten up and maltreated and

been beaten up and mailrealed and sent out of the district without food or shelter, "Last December a general strike was inaugurated which was settled amicably early in January. Business at once revived and a genuine boom in building and mining commenced. Within several days a general strike was inaugurated and our prosperity again was threatened. This time it was a fight between the Industrial Workers of the World and the Amer-ican Federation of Labor. The former served notice upon the miners that unless some of the agitators be dis-charaged the miners would be imme-diately turned out. The restaurant keeper who had dared to serve meals to carpenters under the ban of the Industrial Workers of the World was shot dead in cold blood in his own house. The business men and mine owners then determined that this con-dition of affairs must be ended. A mean meating was called and the Goldsent out of the district without food or

dition of affairs must be ended. A mass meeting was called and the Gold-field Business Men's and Mine Owners' association was formed.

field Business Men's and Mine Owners' association was formed. "It is not, never was, and does not propose to be a citizen's alliance, or a mine owners and operators' associa-tion of the pattern of the Cripple Creek district Mine Owners and Oper-ators' association. It is simply à union of the business men and mine owners of Goldfield to preserve the camp and preserve and protect life and property. There is to be no change in hours or wages. The settlement of wages made in January is satisfactory and oppression must cease. The Industrial Workers of the World, as the repre-sentative of lawlessness, must leave the district. That is the only issue and all that is involved. Labor unions are not to be warred against, or to be discoursered. All that is demanded is and all that is involved. Labor unloss are not to be warred against, or to be discouraged. All that is demanded is that they must be labor unloss not under the control of, or associated with, the Industrial Workers of the World. (Signed.) "EXECUTIVE COMMITTEE."

THE COSTLIEST BOOK.

One Dealing With Extinct Birds to be

Brought Out by L. W. Rothschild.

London, March 18.-The Hen. Lionel Walter Rothschild is soon to bring out one of the costllest books on record. It will be issued by the Hutchinsons. The book deals with extinct birds. The author, whose private natural bistory museum at tring park. Hertfordshile, is world fam-ous has spent about 400.000 upon the book and the Hutchingsons have spent more than K.000 for engraving blocks alone. As Mr. Rothschild wishes the work to en-dure for all time, being of the belief that the aubject will never be taken up assin-tion and practically is this. The paper of the English edition of the work will be printed. The price will be printed inter. London, March 19 .- The Hon. Lionel

To continue young in health and strength, do as Mrs. N. F. Rowan, Mc-Donough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, com-licated with such an unhealthy con-dition of the blood that my skin turned and as Gannel. Lam now practically 20 red as finnel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my hus-band's store." Guaranteed at Z. C. M. , Drug Store. Price 50c.

SECY. TAFT ADDRESSES

PHI BETA KAPPA SOCIETY.

PHI BETA KAPPA SOCIETY. New Haven, Conn., March 15.-The Yale chapter of the Phi Beta Kappa held its annual diuner tonight, at which Seey. Wm. H. Taft, a member of the chapter, was a gnost. The interesting incident of the evening related to the introduction of Seey. Taft. Prof. Tracy Peck address-ed himself to Seey. Tait and said in Latin that while he had been accorded high honors, there were still higher hon-ors to come, and if the volce of the peo-le called him to the highest office in the lamp be must accept it as the will of the people. A little later Prof. William Lyon Phelps, the toastmaster. In pre-senting Seey. Taft to respond to the 'toast of high stand in college life,' intro-duced him as 'the ext president of the United States,'' saying that while Xr. Taft might be thred of being nominated because those who did the nominating were not delegates to the next convention the PH Beta Kappa could not let the bad been nominated in Latin, which nomi-nation had been translated into English spater Cannor had told him at the Grid-met of the heart which did him at the Grid-met of the heart which did him at the Grid-met of the wait. "Toung man, you have ambilions, but don't you know that you can't be nom-nation had been translated him the Grid-mated by saints." The secretary said that Kappa did not cause any bees to buzz.

WHY CONSOLS ARE LOWER.

WHY CONSOLS ARE LOWFR. London, March 18. - The chancellor of the exchequer, Mr. Asjuth, replying in the house of commons today to questions about the decline of the government's credit, replied that many of the causes contributing to the lower prices of con-sols were intertistional in operation and independent of government control. He in-stanced in particular the increased de-mand for money due to the exceptional commercial and industrial activity at home and abroad and aslo to the neces-sity for replacing the capital destroyed as the result of the San Francisco earth-quake and other disasters.

SOMETHING WILL HAPPEN.

London, March 19.-John Milne, the seismologist, says that the world, which normally steadily experiences carthquakes has been strangely and ominously quies-cent for the last fortnight, which suggests that something is threatening. *****************

A STATE OF A STATE OF

frequent ones as time rolls on. The weather is beautiful and as a conse quence these are busy days with the colonists, building houses, barns, etc. with the

binning orchards and gardens, sugar beets and alfalfa. Strawberries were ripe here on the 25th of February, and the early vegetables such as lettuce, radishes, cauliflower, celery, etc., have been on the market for weeks.

market for weeks. The first crop of alfalfa will soon be ready to cut and the wheat is 2½ to 3 feet high. The fields are covered with beautiful green grass, dotted through-

beautiful green gloss, doired integra-out with the famous California poppy-the state flower. Altogether we feel that we are in a goodly land, choice above many others and we are grateful to our Creator for exemiting us to come here and enloy

goodly land, choice above many others and we are grateful to our Creator for permitting us to come here and enjoy it and for His manifold blessings and tender care of us since our arrival. Some of us are coming to conference at Salt Lake in April next, and then we will be glad to meet you and tell you more about ourselves and our new home if you care to hear it. We don't want to weary you now, nor yet take up too great a portion of your valua-ble columns. In conclusion permit us to say we are all well and happy and if any of your readers have the blues come to Cali-fornia and drive them away with its bright, cherry sumbine. Since my inst letter i have moved to Biggs, Buite Co., just three miles north of Gridley and a letter addressed to me there will always he cheerfully an-swered. Or one addressed to H. Devenup at Gridley, will receive the same attention. Respectfully your brother.

Respectfully your brother, C. L. FRENCH,

TRUCKEE RIVER REACHES HIGHEST MARK IN HISTORY.

Reno, Nev. March 18.—The Truckee fiver has reached the highest mark in its history. Since Saturday morning there have bee, heavy rains in the mountains and ordges all along the line of the river have gone out. West-bound trains have been heid at this place, and, according to information from the railread, it may be several days before any train will be able to get through. Numerous washouts have occurred in the mountains. Reno is in danger of a flood. The water is now nearly at the top of the main bridge across the city, and all bisements along the river front are under five feet of water. One man is reported to have been drowned. Two others, who have their home on an island in the river in the center of town are in gave danger, as the water has overflowed the island and there is no means by which the men can be taken of.

means by which the men can be taken off. The dam at Floriston, Cal., has been plown up, and all the power plants of the Truckee River Electric company and the Beno Power & Light company are under wafer. If the water rises above the main bridge in this city there will be a ceneral flood which will put most of the business section of the city under water. The situation is extremely grave, and the only hope of relief is that the heavy rains in the mountains will cease before the extreme danger point has been reached.

A FATAL DUEL.

Asumelon, Paraguay, March 19.--Former Deputy Manuel Talavara, was fatally wounded in a duel yesterday with Liout Grosput Torres. Pistols were used, the ex-deputy failing at the first shot.

All Stockmen Will be Allowed Ac-

This Year Gratis.

NO GRAZING FEES

ON THE RESERVES

Interests of People Living in Vicinity Will be Carefully Guarded and They Will be Protected.

Special Correspondence

Washington, D. C., March 15 .- In the national forests which have been created since March 1, all stockmen who

have regularly used the ranges within their limits will be allowed to graze all of their stock during the present year without payment of grazing fees. If it is found that these ranges are being injured by overgrazing, the number of stock allowed will be reduced grad-

ually until the damage is stopped. The co-operation of the stockmen is carnestly solicited in the adjustment of earnestly solicited in the adjustment of all range matters and every offort will be made to regulate grazing in a way which will scoure a better and more permanent use of the ranges. Where there is controversy, meetings will be held and an effort made to adjust the differences by mutual agreement. The periods during which grazing is allowed will be fixed to meet the local needs so far as possible, and the divis-ion of the range between cattle and sheep will be governed both by its past use and by its adaptability for grazing the kind of stock to be allowed upon it. WASHINGTON LANDS.

The forest service has just received notice that, in accordance with the recommendation of the forester, 372,000 acres of land in Stevens county, Washacres of land in Stevens county, Wash-ington, have been released from tempo-nary withdrawal. This land lies be-inween the Pend d'Oreille river on the east and the Colville and Columbia riv-ers on the west. It is principally un-surveyed and mountainous. The area was originally withdrawn pending ex-amination to determine the suitability for an addition to the Priest River National forest. Its release was recom-mended by the forester because of nu-merous protests by settlers against its reservation, and because the protection of the watersheds was not necessary in order to conserve any streams used for irrigation purposes. The report of the examiner shows that it is chiefly a brushland area, much burned over, though a small proportion is timbered.

New York, MRTch 18.—The Hamburg line announces that after July 15 the largest steamers of the line will sail from. New York on Saturday's instead of Thursdays as heretofore, and their other steamers on Thursdays instead of Satur-days.

HAVE YOU A COUGH?

A dose of Ballard's Horehound Syrup will relieve it. Have you a cold? Try it for whooping cough, for asthma, for consumption, for brotchills. Mrs. Jos McGrath, 27 E. 1st Street, Hutchinson, Kans., writes: "I have used Ballard's Horehound Syrup in my family for five years, and find it the most palstable med-icine I ever used." Sold by Z. C. M. I. Drug Dept., it2 and 114 South Main St. B

Burlesque in Eighteenth Ward-Frilay and Saturday evenings. March 22 and 22, "A Shakespeare Water-Cure," a burlesque comedy, not written by Shakespeare, will be presented in the Eighteenth ward hall, under the aus-pices of the Mutual Improvement as-sociations of the ward. Following is the program;

Because Vinol is a real Cod Liver Preparation and does not contain a single disagreeable or harmful ingredient and is not a secret formula.

Because Vinol contains all the medicinal elements - the soothing, healing, strengthening and flesh creative properties of Cod Liver Oil-but without oil or grease.

Because everything in Vinol, - except the tonic iron and a fine old wine, - is actually extracted from fresh cods' livers and their oil.

Because Vinol is deliciously palatable and agreeable under all conditions. Everybody likes it.

Because Vinol tones up the system, strengthens every organ, nerve, muscle and fibre of the whole body and thus overcomes weakness by thoroughly cradicating the cause of disease.

That's Why Vinol is altogether different and better than any other remedy for Coughs, Colds, Bronchitis, and all Throat, Lung and Wasting Diseases.

That's Why Vinol Restores Health and Strength to Delicate Children, Feeble Old People, Weak and Sickly Persons, Nursing Mothers, and Convalescents.
