their own district.

MINING, BUSINESS AND STOCKS. IMRROVEMENTS **BUSINESS ON** it.

FOR TINTIC CAMP

Sales of Past Week Amount to New Plants of Morning Glory and Ajax Ready for Business. the Sum of \$247,226.

THE EXCHANCE.

GRAND CENTRAL IS FIRMER DELEGATES NAMED TODAY.

May Day Unchanged - Ben Builer Stronger - Martha Washington Very Weak-Star Con. Active.

Stocks were quite active on the Minthe sum of \$13,760.32. The business if | during the present year if the develop the week at the morning and afternoon | ments come up to the expectations, Mr. over \$86,000.

As summer approaches the stock market is losing a little of the tone which has prevailed for some time past. Business shows a tendency to grow lighter which is to be expected. No special changes are recorded this week excepting in Century of Park Valley which has jumped to better than \$1.80. Grand Central, which was very weak on Monday, sold up to \$5.46 today. Lower Mammoth has not changed greatly, fluctuating today between \$4.00 and Ajax sold up to \$1.15% today, while Con. Mercur released 100 shares at \$3,21. Galena put on a spurt earlier at \$3.21, in the week and went to around 20 cents It has since weakened 1312 at which price it changed hands today. May Day was quoted as low as \$1 today though it closed with sales a few points higher. Sacramento went to 42 on news that a dividend had been doc'ared, but it has since sold around 39%. Silver Shield has been traded in around 5 all week. It is generally thought that machinery will have to be bought to enable the company to sink deeper. South Swansea hangs around 671/2, while Tesora was traded in today at 80. Ben Butler moved up to 12 while Joe Bow-ers continues to be active around 54. Martha Washington was very weak to-day at 4%. West Morning Glory sold day at 4%. West Morning Glory sold up to 3. Yankee Con, hangs around \$3 after selling considerably under that figure early in the week. Star Con. is steady around 49.

Highland Boy Preparing to Go Down to the Depths-Items from Bingham-Notes.

Under the direction of Thomas Weir ing Exchange today, though the vol- of this city a great deal of money is ume of business is not heavy. Over being expended in Tintic which will 38,000 shares of stock changed hands for greatly stimulate interest in the camp calls amounted to \$247,226.77, which rep- | Weir does not do things in a half-heartresented the sale of 521,167 shares of ed manner, as is evidenced by the mastock. The feature of the week was chinery just installed at the Morning the heavy trading in high priced stocks | Glory property. A new plant consisting on Thursday afternoon. The business of an 80 horse power boller, a 10 by 14 transacted during that day amounted to | bolst and a 4-drill compressor have just been put in place preparatory to being started up on Monday next. The new double compartment shaft is already down 120 feet, but Mr. Weir proposes to down 120 feet, but once, and go down to the 400 level at once, and there explore the yein. The deepest there explore the vein. working thus far in the Morning Gory is about 277 feet from the surface in the incline. This work will be pushed hereafter at the rate of about 25 feet per week and important developments are expected long before snow files again. The new compressor has been set at the ajax and everything is prac-tically ready to start up on Mondoy, though it will likely not be done before Tuesday. This will enable the company to push work on the 1,000 level, which has been progressing very slowly during the past few weeks owing to the dif-

ficulty in getting rid of powder smoke. DELEGATES CHOSEN TODAY. Governor Names 30 Delegates to the

International Mining Congress.

Governor Weils appointed this afternoon the following delegates to the International Mining congress to be held at Boise, Idaho, July 23, 24 and 25: John Dern, Thomas Kearns, Clar-ence E. Allen, Vietor M. Clement, J. E. Bamberger, W.C. Higgins, J. W. Neill, W. L. Kamberger, L. F. Talmaga, L. F. Ramberger, W.C. Higgins, J. W. Nehl, W. J. Bogue, J. E. Talmage, L. E. Camomile, Joseph T. Jenkins, William Armstrong, A. M. Cannon, Sr., C. C. Goodwin, W. G. Filer, E. A. Wall and A. H. Tarbet of Salt Lake City, C. E. A. H. Tarbet of Sail Lake City. C. E. Loose, Lafayette Holbrook and Jesse Knight of Provo; A. P. Mayberry of Bingham; W. I. Snyder and D. C. Mo-Laughlin of Park City; Fred J. Klezel, Den McGuire and E. M. Allism of Og-den; N. B. Dresser of Merour; S. C. Hazelton of Murray; L. E. Riter, Sil-ver City, and R. C. Lund of St. George.

Some time ago the company started to sink from No. 7 tunnel. Af-ter putting the winze down about 50 ls now installing small hoist and a large Cameron pump. It is evidently the intention of the management to prove up the ore bodies to great depths and thus add to its already large ore reserve. Regarding the sinking now in progress, Chairman E. Dudley Ryder is quoted by the Boston News Bureau as saying in a recent statement that experts believe that the ore body goes down to great depth; certainly the volume seems to

widen, though the percentage of copper may lessen slightly. Winnamuck Mill Machinery. The horse tram under construction be-

tween the Tlewaukee dump and Win-namuck mill will be completed next week, and the mill with its new ma-chinery is expected to be ready to run as soon as ore can be delivered. It will be fed at the start from Tiewaukee and Caledonia upper workings. Operations in Winnamuck mine, now

under bond and lease to the Tiewaukee people, will for the present be confined to area above water level. The crossent from Tiewaukee to tap Caledonia vein has now been driven over 600 feet and has about 100 feet farther to go. two carloads of the very high grade ore lately encountered in Tlewaukee ground is on dump and will be sent out in a day or two.-Bingham Bulletin.

Boat Service on Snake River.

A letter received at Lewiston, Ida., from Joseph, Ore., states that F. D. McCully, a banker of that place, has decided to inaugurate a boat service between Lewiston and the Snake river mining districts and has gree to Huntington, Ore., to repair the steamer Mabel for the purpose. The boat will ply between Lewiston and Pittsburg Landing, a distance of 80 miles. Mc-Cully recently made a personal examination of the river and his decision to inaugurate the service resulted.

The belief if generally expressed that the enterprise is being encouraged by the Oregon Railroad & Navigation company. There are large quantities of ore at the Great Eastern mine and at the mines of theImnaha and other districts that await shipment, and the service to be inaugurated is the result of the persistent demand of the mining men .- Boise Statesman.

MINING NOTES.

The Bullion Beck of Tintic was on the Market today with 5 cars of ore. Superintendent R. T. White of the

Highland Boy smelter, was in town today. Preparations are being made to start sork on the old Mercur tailings dump

soon after June 1st. George L. Hannah, who has been de-veloping the Yampa of Bingham is in

town for a few days recuperating. Col, Wall showed some fine looking samples of native copped from the Maxwell group today. The colonel has started to develop the Bing-ham group, on which is found an extensamples of

sion of the Yampa vein. Wm. H. Child, Stock Broker, 409 Dooly Block. Telephone 694-2.

those of any other of 'Tintic's towns have shown a disposition to seize the opportunities for investment found in

TA TTONIE - TO

Amongst the enterprising merchants of Eureka, who deserve special mention thet

HEFFERMAN THOMPSON & CO.

This progressive firm of experienced general store keepers are doing much to furnish the residents of their town with a superior article of merchandise at low prices. The members of the firm are interested in a number of good mining claims in the vicinity of Eureka JOHN ADAMS & SONS' CO.

This big lumber firm are among the doneers of Tintic and have been iden-

tified with its development from the first. Coal and lumber are the chief commodities in which they deal, but the members of the firm are interested in valuable mining claims near the celebrated Dixie in the St. George district. JAMES EUSTICE.

'Tintic's pioneer undertaker carries the most complete line of funeral goods in the district, and holds a diploma as a scientific embalmer. Mr. Eustice has established telephonic communication between his head office and a number of places in the district.

DAN MARTIN.

Besides doing an extensive liquor business Mr. Martin is vice president of the Black Warrior Mining company, which controls and operates some of the most promising properties in the district and is spending large sums in the thorough development of its mines. M. D. HOWLETT.

Eureka's popular druggist is always in the front rank of those who try to make the success of the entire district their special province and whose knowledge of existing conditions is always at the disposal of visitors desiring information.

BUSINESS NOTES

The week has been one of almost continued excitement in local stocks, but nearly all the activity has been confined to one, Utah Sugar. The purchase of the Bear River canal and land systems, the decision to issue half a million dollars new stock and the chance of "getting in" on the new stock at \$10.00 per share, all combined to make a harvest for the brokers, who have not been slow to take advantage of it. The stock, which had stood at \$17.00 for the past few weeks, jumped to \$17.50 on the announcement of the Bear River purchase, and after the meeting of the board on Wednesday, when the decision was reached to enlarge the capital, it went up by successive advances until bt reached \$18.15, the highest point at which actual transactions took place. It is stated on reliable authority, that \$18.25 had been offered for a block this morning, and refused. A large number of transfers have taken place during the week, though they have been limited almost exclusively to holders of the stock "evening up" their possessions, or in other words selling off the odd shares to be ready to pay cash for the new allotment.

Manager Cutler was interviewed by a representative of the News today regarding the terms on which the call for the new stock would be made. He said that while this point would have to be, Piles are not only most painful, but also very dangerous, as the inflamed nodules are very apt to take on ma-lignant action and cancer of the rec-for October 1st and \$250,000 for Cother 1st and \$2 for October 1st, and this he thought would be the plan. Asked regarding dividends, he said there would be no change in the present rate of 12 per cent per annum, and the new stock would of course participate in dividends as soon as it was issued. The acquirement of the Bear River property would not affect the dividends, because the revenue from it was practically paying for the outlay today, and the future possibili-ties, from the sales of land and the water rentals were very large. Regarding the outlook of the beet crop for the coming season, he said that never in all the experience of the company had it been so promising. Thin ning had now already begun in many districts, and this was a week earlier than usual. The beets, with hardly exception, were in beautiful shape, and he could not see what could intervene to prevent this being the banner year in the company's history.

property belonging to him, also that on April 24th, he committed an act of bank-ruptcy in transferring a portion of his property to the Salt Lake Candy company.

Thomas Weir, the mining man, has acquired the ownership of 750 acres of land along the lake shore for a consideration of \$5,000. The property is sit-unted west of West Point and takes in what was known as the Lake City property, upon which a small townsite was at one time laid out. He intends to hold onto the property and will not say for

what purpose he expects to use it. T. R. Cutler and C. A. Granger leave for Colorado today where they will com-plete the organization of the Greeley Sugar company and file the articles of incorporation. The gentlemen carry with them \$50,000 in certified checks, which is the 10 per cent of the capital of the new company necessary to be paid up before the articles can be filed under the Colorado laws. The remaining 90 per cent will be called for in gradual installments beginning next winter.

Prior to his departure to Colorado, Mr. C. A. Granger, who is in charge of the erection of the sugar factory at Logan, said to a representative of the "News" that the beet fields in Cache county looked very promising and he thought there would be a crop of at least 2,500 acres realized. He said that the iron and steel for the factory had been greatly delayed, but there was little doubt of the new plant being ready for operation by October 1st.

The well known firm of Taylor Bros. has decided on re-entering an active campaign in real estate. In the days of the old boom few firms did a greater business or established a higher reputation than Taylor Bros. They are one of the few concerns that survived the ollapse that followed the boom and their well known reliability will, no doubt, bring them a fair share of real estate patronage now that they are again actively in that field.

The ore and bullion receipts by the banks during the past week amounted to \$273,964, distributed as follows: R. Jones and Co.....\$179,800 McCornick and Co..... Commercial National Bank 68,600 18,10 Utah Com. and Savings Bank ... 7,464 Today's receipts amounted to \$18,800,

of which \$8,700 was reported by McCornick and company and \$10,100 by T. R. Jones and company.

President Frank Knox, of the Na-tional Bank of the Republic, returned from the East this morning accom-panied by Proprietor Gus Holmes, of the Knutsford. When Interviewed to-day Mr, Knox said: "Mr. Holmes and day Mr. Knox said: "Mr. Holmes and day Mr. Knox said: Mr. Holmes and I had a most enjoyable and successful trip. We had some business matters to attend to in the East and visited Kansas City, Chicago, New York and other places, Mr. Holmes purchased the furnishings for his new Los Angeles hotel and we attended to some other matters. "Is it true that you and Mr. Knox made over \$100,000 in stocks?"

well in hand and the improving trend I can't say anything about that,' said Mr. Knox, and he laughed. "We had a most successful trip but that is

really all I want to say." In answer to questions regarding the new Federal building, Mr. Knox said: "I understand that solve of the money appropriated by the hast Congress will be sent out here very soon. I did not go to Washington so I cannot say exactly what will be done regarding the erection of the new Federal building. 1 think work will be commenced just as soon as the money comes."

Southern railway common and Erie common. There were some further gains after 11 o'clock. Atchison rose Zion's Savings Bank & Trust Company was preparing this afternoon to let the contracts for the erection of a two story brick building, 50x100 feet, such a one as it erected last year for the New York Paper company, at the

hundred. The imported article sells at from \$1.35 to \$1.37½. As to hay, last year's Utah crop has As to hay, last year's Otan crop has been entirely consumed except in a very few cases, where owners have held for extra high figures. For weeks past the Salt Lake market has been supplied by the Orègon and Idaho crop. Both of Liver STOCK. Cattle--Receipts, 1,800. Nominally stendy. ARE FAVORABLE.

New York, May 17 .- R. G. Dun &

Co.'s review of trade tomorrow will

say: Crop reports continue in the

main favorable, and an eased money

market tends to encourage business en-

terprises which looked aghast at the

collapse of stock speculation. The

calmer tone in securities is welcomed

As against the favorable departments

referred to there is but one adverse

factor, and the labor disturbances in

several quarters are not considered

likely to be a long drawback and

promise not to very generally affect

the trades involved. Less urgency for

early delivery of iron and steel pro-

ducts was reported at manufacturing

centers. With mills assured of activity

beyond the middle of the year and

some uncertainty regarding the labor

organizations' attitude on the wage

schedule, there is a disposition to let

new engagements wait as long as pos-

Unusual activity is seen in agricul-

the greatest weekly capacity ever re-

Forwardings of boots and shoes from Boston for the last two weeks reached the exceptional total of 207,307 cases, or

Boston for the last two weeks reached the exceptional total of 207,307 cases, of 48 per cent more than in the corre-sponding weeks of 1900, and since Jan 1 shipments exceed last year by 12,147 cases, while the increase over all pre-vious years was much more. Both wheat and corn continue to sell at more than 10 cents a bushel above the price at this date last year, and the fluctuations in speculative options are much wider. Contracts in May corn have been closed at phenomenal prices; owing to clever manipulation at Chi-cago, next crop's options are sustained beyond the prices warranted by en-couraging crop reports. More forcing inquiry for corn increased Atlantic ex-ports for the week to 2,458,681 bushels, against only 1,211,243 in the previous week, but the movement is still far be-low the figures of a year ago. What goes out in greater volume than a year ago, hut our shipments are compar-ations using.

ago, but our shipments are compar-atively light. Failures for the week numbered 177 in the United States, against 177 last year, and 19 in Canada, against 20 last year.

THE WEEK AT BINGHAM.

Silver Shield Application Denied-

Copper Boy Starts Up. In its weekly review of Bingham the Bulletin says: Ben Butler is showing four feet of solid galena at top of raise from west drift. M. C. Fox will soon ship several carloads of ore from the old Story mine, adjoining the Utah, and is preparing to build new bins.

It is reported that the application of the Silver Shield management for permission to drive a deep tunnel through United States company ground has been denied, necessitating additional hoisting and pumping capacity. As a result of the Markham guich washout the Ben Butler dump is overrun with ore. As a force is working on the county road, and Manager Jacobs

is mending the Butler connection, hauling can be resumed shortly. Teachenor & Co.'s lease of Red Wing ground expires June 1st and the com-pany declines to extend it. Meantime the leasers have eighty tons of car-bonate ore on dump and will make no false motions in adding to the pile 11 has been quite a bonanza for them. When their time is up it will be worked on company account, and we under-stand the company also intends to push

work in main tunnel this summer. A mill for the Columbia group is still under consideration, and it may be built this season. By a number of runs at Rogers and Dewey mills it has been demonstrated that 80 per cent of Columbia mineral can be saved by water concentration-12 in 1 giving best results. Copper Boy company has let a control to C. A. Holder & Co. for driving upper Great Chief tunnel 100 feet, and work was fairly begun last Monday. Next Monday a grading gang will begin on site for electric plant at mouth of the long tunnel.

New Incorporations.

The Four-Metals Mining company today filed articles of incorporation with the county clerk, with a capital stock of \$250,000 in \$1 shares. The company will develop mines in the Dugway min-ing district, of Tooele county. The di-rectors are George L. Moats, president; Frank M. Colweil, vice president; John Goodlatt Jr. recentary and treasurer Goodlett, Jr., secretary and treasurer, and Tandy F. Moats, John Goodlett, Sr., and George Sherrard. The Madsen Gold Mining and Milling

company today filed an amendment to its articles of incorporation increasing ts capital stock from 200,000 to 500,000 shares.

Returns from Marysvale.

J. D. Wood of the Daly West and other Utah mines, returned last night from the Maryavale country after making an inspection of the Copper Belt property Mr located 8 miles from Marysvale. Wood pronounces it a very good prospect. The management is now sinkng on the yein, and at the depth of 400 feet some very good ore is being en-countered. Bunches of ore were also ncountered on the 300 level, IN the showing in the bottom of the shaft is much better than it was at the 300 level.

Contract for Tunnel Work.

Special Correspondence. Provo, Utah Co., May 18 .- The Provo Mining company made a contract, yes-terday, with John Leetham to drive 100 feet on the tunnel in the company's

mine on Mineral hill, Tintle. Otto M. Nielson et al have located the Hot Stuff mining claim in American Fork canyon, about two miles northerly from the Dutchman mine. .

Hoist to Facilitate Sinking.

Superintendent R. H. Channing of the Highland Boy came in from Bingham today to confer with Agent Poland, who says that everything is moving along very smoothly at the bonanza. The management intends to pay a great deal of atiention to the lower

lignant action and cancer of the rectum is produced. They should be cured. TABLER'S BUCKEYE PILE OINTMENT will cure the most obstinate cases. Price, 50 cents in bottles, Tubes, 75 cents. Z. C. M. I.

PROSPEROUS TINTIC.

Review of Conditions in the Great Mining District.

Some of the Men Whose Abilityand Enterprise Have Made Eureka What it Is.

Special Correspondence. Eureka, May 15 .- The most prosper-

ous as well as the most promising of Utah's great mining districts is the Tintic, situated in Juab county, less than one hundred miles from Salt Lake City.

It was in 1869 that a few inexperienced prospectors reached the shores of Utah lake and decided to try their fortunes in the Gquirrh range; after weeks of hard work they struck the first in-

dications of pay ore and gave to the world what is now the great Tintic mining district with its richly developed mines and its numberless excellent pros-Tintic has produced since operations

Tintic has produced since operations of any magnitude commenced, the enormous sum of \$40,000,000, and at pres-ent her condition as a great wealth producer is ahead of any year of her ex-istence. The mines of Tintic are dry; there are no pumps used in any of the large mines that exist in the limestone magnitude of distribution of the distribution. measures of the district, and at a depth of over 1,700 feet the lower workings of the Mammoth, are as dry and cool as at a depth of fifty feet from the surface.

As a locality for the mineralogist and As a locality for the mineralogist and the geologist there is no camp more in-teresting than Tintic. In the ar-senates, silicates and carbonates there are a greater number of minerals of the rare order than in any one district on the American continent one district on the American continent During the past decade a great amount of devlopment work has been done in the district, but it is owing

to the persistent efforts of such men as Jesse Knight and C. E. Loose, of Provo, that the great adventages of the Tintle district have been made known to the world. To

MR. JESSE KNIGHT

belongs to the credit of opening up the riches of the Uncle Sam and Humbug mines. For part of the latter property Mr. Knight recently received \$250,000. Mr. After bringing several hundred thous-and dollars from the Uncle Sam Mr. Knight has bonded it for nearly \$500,000. and all indications are that the bond will be taken up.

MR. ED LOOSE

is best known in connection with the Grand Central, one of the newest bo-nanzas in Tintic district. To him belongs much of the credit of opening up the big mine which, after producing nearly \$1,000,000 from one stope on the 700 feature level 700 foot level, is now bonded to east-ern capitalists for \$2,000,000.

The chief town of the district is Eureka, a city of 4,000 inhabitants: it is well built, well conducted and cleanit has a good school system, and excellent fire department and is well po-liced. The Oregon Short Line and Rio Grand Western railroads both enter the own and have separate depots. The trip up the mountain over either road is something long to be remembered by the traveler to the mountain metropo-

The big part that Eureka and her enterprises have played in the develop-

During the week Broker E. L. Burton bought from the Payson City school dis-trict \$10,000 5 per cent bonds, paying slightly in excess of par.

The Co-op Wagon and Machine com-pany has filed an amendment to its articles of incorporation with the county clerk. The amendment provides for an increase of \$200,000 in the capitaliza. tion of the company and the issuance of 2,060 additional shares. The company will then be capitalized at \$500,000, with 5,000 \$100 par value shares.

Frank A. Druchl and James S. Franken are now the sole owners of the Smith Drug company of this city, James T. Clasby, the capitalist, having sold his half interest in the company to them.

The deal was consummated late yesterday afternoon and the consideration involved will not be made public. It is stated that there will be no change in the name or policy of the company, Mr. Drucht will manage the Second South street store and Mr. Franken will continue at the Third South street store, as formerly. The only change of importance at present is that Walter F. Druchl will be secretary and treasurer of the company in place of Wm, M. Armstrong, who retires.

A. C. Ellis, Jr., has sold his property at 745 east First South, to Mrs. Fred Simon for a consideration of \$5,100. The property is a lot 391/x165 feet and a seven room modern brick house. The The deal was consummated by A. Richter.

A petition was filed in the Federal court late yesterday afternoon by three creditors of Andrew J. Edgar, a grocer doing business at 143 west Second South, asking that he be adjudged an involuntary bankrupt. The petitioners are Kahn Brothers, the Anderson-Tay. lor company, and the C. J. Crabtree Produce company, whose claims are \$716.02. On motion of the above named creditors Referee Baldwin appointed John Montgomery Jr. receiver of the business of Mr. Edgar, and United States Marshal Glen Miller took possesvery smoothly at the bonanza. The management intends to pay a great deal of attantion to the lower levels of the mine during the present in the lower levels of the mine during the present in the lower is that Eureka business men more than is olvent and that he has been concealing

corner of Second South and First West, to be occupied by John P. Paulson, a Salt Lake and Denver business man engaged in the manufacture of office fixtures. The structure is to be com-pleted by July 1st, and will adjoin the building, on the east, occupied by the New York Paper company, The archi-tect is J. A. Headlund.

This week's clearings amounted to \$3,439,499,25 or \$1,544 982.19 more that the clearings for the corresponding weak of last year. Today's clearings amounted to \$404.869.56 as against \$262,170.11 for the corresponding day of last year.

Architect Newhausen stated today that the plans for the new All Hallows building, to cost \$300,000, are nearly completed and the foundations will be laid this fall. He is also working on four modern residences to be erected for James Hogle on South Temple and Fourth East Streets. They will cost about \$18,000.

GRAIN AND HAY.

The steady home demand combined with outside calls for wheat has pretty nearly cleaned up the market in both Utah and Idaho. Good roads and the period of semi-laxity that comes "between seasons" has assisted materially in getting the product on to the mar-ket. Good white wheat is bringing 59 to 60 cents per bushel, and red 56 to 57. It was thought that Utah was pretty It was thought that that was pretty well cleaned out two months abo, but these top notch prices, said a lending dealer today, "have caused a large number of well-to-do farmers, such as every agricultural country has, to open up their bins when a rate five or cents above normal prevails. In a tion to that the Relief Societies, w le or ten In addi-Cash-Wheat-No. 3 Fed, 191910, No. 3, red, 72% @74%; No. 2 hard winner, 13% @74%; No. 3, do., 72% @73%; No. 1 north-ern spring, 73% @74%; No. 2 do., 73% @ 74%; No. 3 spring, 70@73%; Corn-No. 2, 47@48; No. 3, 43@44, Oats-No. 2, 30; No. 3, 29%.

tion to that the Relief Societies, which store a great deal of wheat in Utah, have taken advantage of increased prices to unload a large quantity which they will be able to replace after har-vest, at prices considerably lower than they have just sold for. This not on-ly gives them a good cash margin, but a new supply of wheat as well." There is an active demand for Utah oats which brings \$1.37½ to \$1.40 per
