

### Direct Trade With Manufacturers For Utah, Montana, Wyoming, Nevada and Idaho.

The well known house of D. M. Osborne & Co., Manufacturers of Mowers, Reapers and Self-binding Harvesters, needs no introduction from us at this time, for they have for some years been selling their wares in all parts of the Territory through their general and local agents, etc. Recently, however, an important change has been made in their mode of conducting the business, and it is a change which must commend itself to our country merchants and the farmers. This change is no less than the establishment of a *Branch House*, located either at Salt Lake or Ogden, supplied with every variety of machines made by that Company, in sufficient quantity for the wants of the trade, large stocks of extra parts, a sufficient force of competent office men and travelers, together with every appurtenance and facility for pushing their business and giving to the farmer as near direct trade as is possible. By this move one of the largest manufacturing houses of the world is brought to our doors face to face with its patrons. Prices will be somewhat reduced, and certainly all interested parties are benefitted. The company must have representation in every farming district, and those who have heretofore satisfactorily represented or handled their machines, will in all probability have the preference. Mr. M. Ayers, of the San Francisco branch recently visited Utah and will return again in about 60 days, when all arrangements will be completed. In the meantime parties desiring to communicate with the company for agencies, or on other business, can address D. M. Osborne & Co., Box 294 Salt Lake City, Utah. d s w 2t

The cause of this indescribable wretchedness is a morbid condition of the digestive, assimilating and discharging organs. Tonic, invigorate and regulate these viscera with

Tarrant's Effervescent Seltzer Aperient

And the languor, depression, and nervous debility, which are inevitable results of indigestion, biliousness and an irregular habit of body will cease.
