DESERET EVENING NEWS: FRIDAY, MARCH 11, 1904.

"Late that day a Russian torpedo boat chaser was seen and shots were exchanged at a distance of about 3,000

"The second-class cruiser Chitose and two other smaller vessels were dis-patched at 9 a. m. on Feb. 9, toward Port Arthur to reconnoiter. They re-ported sighting five of the enemy's boats, who fired on them. The fortress did not fire, so Admiral Togo signalled: "Attack the main fleet at once." "As the Japanese fleet proceeded to-ward Port Arthur there were met com-ing out of the harbor a Japanese and a Russian merchantman, the Man-churia. The Russian vessel was cap-tured without firing a shot. "The second-class cruiser Chitose and

tured without firing a shot.

"At 11 a. m., at a distance of 10 knots from Port Arthur, one of the

Talk this over with your doctor. If he says Ayer's Cherry Pectoral is all right for your hard cough, then take it. We are willing to trust him. Dold for 60 years.

prevent the egress of the warships of the powers from the fiver. The Standard this morning publishes an article in which the writer points out the defenseless condition of the Amur river. Russia never profited from the experiences of the Boxer out-break, he says, and she has no forts or gunboats on the river. It is prob-able that when the ice disappears the Japanese will send a fleet of gunboats into the river and make themselves felt along its entire length.

FRENCH NAVAL SECRETS,

Volume Distributed in First Two Months of 1903.

About as Usual in New York; Very Quiet in New England; Northwest Is Conservative,

New York, March 11 .-- Special telegrams from correspondents of the International Mercantile agency throughout the United States show that spring trade has failen 10 or 15 per cent behind the total volume distribut-

ed in the first two months of 1903. The difference is not so great at New York but business in New England is undeniably quiet. Chicago merchants find the movement of dry goods, cloth-ing, shows and gracetics about source ing, shoes and groceries about equal to that of a year ago but at St. Louis and Louisville there are gains this year over last. Minneapolis and St.

One of the chief problems now confronting the czar's government is that of rapid bridge building on the Russian railroad across Manchuria. The ironwork must be shipped in from long distances. Then great piles of ties or other timbers are built up in the manner shown in the accompanying cut. On these timbers the iron portions of the bridge are placed and bolted.

GATEWAY OF KOREAN EMPER- victorious in the present war be true Korea's emperor will have very little OR'S NEW PALACE.

Under western influences even Korea is making some advancement, as is shown by the accompanying picture of the great gateway to the emperor's new palace in Seoul. The roofs of the structure are distinctively Korean in form if not in material, but the walls and style of architecture are slightly modernized. Most of the Korean houses have roofs made of rice straw and walls of mud. The emperor only ventures from his palace about once or twice a year, and these occasions are made show days in Seoul. If the Rus-

sian reports of the ultimate intentions use for this costly if unimpressive ediof Japan in the event of her being fice.

RUSSIAN CAVALRY AT VLADIVOSTOK.

There is no medicino so valuable for restoring strength to the threat and lung as VINOL. It is the grandest lung medicine known. This we guarantee,

enemy's scout boats was sighted and two shots rent after it. It returned to

the harbor. "Then the Japanese fleet formed in fighting line and approached the har-bor. We saw the Russian men-of-war trying to get back under shelter of the fort guns. The Mikasa fired first and then raised the attacking flag, the enemy answered, and the engagement be-my answered, and the engagement be-chame general. Th Russian shells fell short but the fire from the fortress damaged the fleet slightly. "Our men behaved spiendidly. They

showed no excitement but great en-thusiasm in their work at the guns. We vished to continue the fire but the shells from the shore batteries were be coming glarmingly close and we feared the torpedo boats, so the signal was given to retire.

'Our casualties in this first attack on Port Arthur were: Killed, two offi-cers, three non-commissioned officers, one man; seriously wounded, two offlcers, one non-commissioned officer: four midshipmen, and 18 men; slightly wounded, four officers, five non-com-missioned officers, and 25 men."

SITUATION ON THE YALU.

London, March 11 .- Neither the official nor the independent dispatches published this morning add much knowledge to the program of the war. Speculation regarding the military sit-uation on the Yalu river is most keen, but no news of a reliable character has been received.

The Nagasaki correspondent of the Daily Express asserts that 200,000 troops have been shipped from Japan, and that a portion of the Second army corps is now on the way to Korea.

The correspondent of the Daily Chronicle at Tokio, evidently referring the same movements, cables the transportation to northern Korea of three divisions of Japanese troops has been completed, and that these men are beginning to advance, while ten divisions of the Second army corps have already been mobilized.

As an illustration of the curiously contradictory character of reports from the far east received here, a corres-pondent of the Daily Chronicle at Kinchau mentions Fung Wang Chang (which is about 45 miles northwest of Antung, in Manchuria) as one of the

Non-Commissioned Officer Charged With Attempting to Sell Them Paris, March 11 .- In spite of the offi-

cial reticence and denials from the Japanese legation here, it is affirmed that a non-commissioned officer named Martin, who was employed in the ministry of mavine and who is now under arrest, attempted to sell French naval secrets to a naval attache at the Japanese legation.

The discovery of this alleged attempt came as a result of the accidental opening of a letter addressed to the noncommissioned officer by a naval captain of the same name. This letter was from an intermediary, but it indicated the principals in the affair. It is alleged that several women are implicated, and that one of them has confessed. It appears now that only one document is missing from the ministry of marine, but it is possible that Martin photo-grophed and replaced others. It is not likely that the information alleged to have been stolen got beyond the intermediary, and it is said that th

Japanese naval attache who is supposed to have been in indirect communication with Martin salled for home on board one of the cruisers which Japan pur-chased fram Argentine.

Prince Itchijo, who succeeded the Japanese naval attache who returned home, has informed the Petit Journal that Martin wrote him four days after his arrival in Paris proposing a meet ing to communicate important busi-ness. The prince was indisposed and in reply wrote and asked Martin to state the nature of his business. Mar. in answered that he was unable to tell his business in a letter, and fixed an-other time and place for a meeting. This appointment the prince kept, but Martin by that time had been arrested and therefore did not appear. It is stated that documents accessible to Martin, related to the possibility of

oint naval action on the part of France and Russia.

MURDER AND ROBBERY.

A New York Diamond Dealer is Found Dead in His Chair.

(which is about 45 miles northwest of Antung, in Manchuria) as one of the several points of Russian concentra-tion, while other correspondents have reported that the Japanese have cap-tured Fung Wang Chang. Other cor-respondents report that the Russians have mined all points where it is pos-sible to cross the Yalu river. The Shanghai correspondent of the Daly Telegraph says that the Japanese, after Port Arthur is neutralized, prob-ably will move two armies to the north simultaneously, one from the southern part of the Lioatung peninsula and the other from the Yalu river. The Russians are now moving north-ward in Korea, this correspondent con-

explain that the northwest is conservative, and that business Paul very is about 10 per cent less than in March, 1903, while at Philadelphia the falling off in metals and some other lines is as much as 20 per cent. Pittsburg has felt a like decline, but, says recent large purchases point to the long wait-ed turn in the tide.

Special inquiry as to winter wheat shows that east of the Mississippi ex-cept in Ohlo, recent weather condi-

tions have been favorable. Recent weather conditions have favored steel trade, and a revival of the building industry which, as shown by the international mercantile agency's canvass of the situation at 10 of the larger cities of the country points to a decreased volume this year as to value, owing largely to higher costs of labor and raw materials.

Larger New York City contractors expect the total will about equal that of last year. At Philadelphia an increase is expected of from 15 per cent to 20 per cent and, judging from the character of new projects at Chicago the year will rival 1903. Out of the burned district Baltimore's building will not vary materially. St. Paul and Minneapolis each report a probable de-crease of about 10 per cent. Philadelphia and Chicago each report

a tendency toward a decrease in in-dustrial wages. Leading metal and agricultural prices incline higher.

Pueblo Blast Furnace Blown In.

Pueblo Colo., March 11.—Blast furnace "C" at the Minnequa Steel Works has been blown in. This is the first blast furnace to be put into operation since the shutting down of the works last Novem-ber, although the auxiliary plants have been gradually put into commission for the past two months.

Used Name Without Authority.

New York, March 11.—Having learned, he says, that the promoters of "A Grand War Concert and Entertainment in ald of the Red Cross Society of Japan" aro using his name to raise subscriptions, Mr. 8. Uchida, Japanese consul general, has announced that such use of his name was not only without permission, but was against his declafed wishes. "We appreciate fully," said Mr. Uchida, "any subscription sent to us, but we do not ask for it."

IT IS NOW DISTILLED.

Bishop Potter stood in the rear of the group. Near him, looking on calmiy, stood two newsboys. The prelate heard one of the newsboys say: "Hey, Jimmy, dis meetin' uv all dese parsons, wat's it fur?"

The other boy replied: "Oh, dey gits togedder wunst a year ike this to exchange sermons.'

OLD GREEK JOKES.

Recently a Wichita man was in Ver-mont and took a drive along the hill-sides. Finally he came to a place where an old man was laboriously hoeing a small patch of corn. "Why don't you come to Kansas," he said to the old man, "where we put 160 acres into one cornfield with less work than you put on this little patch?" "Well, I dunno," said the old man. "Tve got mortgages in the house yon-der on four or five sections of your Kan-sas farms, an' I guess it is about all the Kansas land I need."-Kansas City Journal. Prof. Charles Zueblin of the University of Chicago lectured recently in Phil-adelphia on "Ruskin and the Ethics of Wealth." After his lecture Prof. Zueblin talked about education. "Greek," he said, "can be made very interesting to boys and girls. I know an instructor who puts his pupils to translating the Astela of Hierocles

dinary reciprocating engines has been contracted for at Belfast. It is to be run on the Allan line, between England and Canada, and will have a gross tonas soon as they can construe. "Hierocles, you know, was a Greek joker, and his jokes still ring true. Most of them are about schoolmasters. and Canada, and will have a gross ton-nage of 12,000 tons and a contract speed of 17 knots. Although this speed is small compared with that of many of the great transatiantic liners, it will be geater than that of any of the ships of the Allan line. The traffic between England and Canada does not warrant the events of a factor who has the One concerns a schoolmaster who boards a ferry on horseback, and, when the people ask him why he does so, he replies that he is in a hurry, and wants to get across the river faster. "Another of the schoolmasters of Hierocles is on a ship when a great the expense of a faster ship, but the new vessel will be interesting as the first of her kind.-Youth's Companion. storm arises. The people, in fear of shipwreck, proceed to lash themselves to spars, to oars, and to other heavy

and buoyant objects. But the school-master lashes himself to an anchor. "A third schoolmaster wants to see what he looks like when he is asleep. Accordingly he stands before a mirror and shuts his eyes."

THE FIRST SHALL BE LAST.

The late Frederic R. Coudert, the lawyer and wit, was a graduate of the class of 1850 of Columbia. An aged Columbia man the other day described with a pensive smile, a skating expedition that in his college days he had made with Coudert.

"I noticed when we set out," he said, "that my friend's skates were new, but I thought nothing of that. I was undangerous germs it is necessary to ap-ply Newbro's Herpleide. der the impression that he could skate

"This impression, though, was soon effect. corrected. Coudert no sconer got his skates on than his legs flew up, and he came down on the lee hard. I hurried to help him to his feet; but he wouldn't Co., General Agents. corrected. Coudert no sooner got his skates on than his legs flew up, and he

Dotilitated - All Tired Out.

It is not natural to feel continually tired. We guarantee VINOL will bring life, strength and vigor to the debilitated, run-down system.

To Gain Flesh - To Get Strong. We know VINOL will make flesh faster than any preparation containing greue. We can prove that VINOL quickly creates strength.

Gid People – Weak People Need a strengthening and invigorating rebuilder. VINOL is of exceptional value in such cases. VINOL positively rejuvenates old folks. Money back to those not satisfied. inghilling an wes

Nervousness - Irritability, LAL

Diseased nerves are due to overwork, insufficient nourishment or slow breaking down of general health. VINCL actually rebuilds the entire body and heals ragged nerves.

.... Palo Women -- Palo Children.

Pale, haggard faces show that the blood is poor and thin, also indicate im-perfect digestion. VINOL will correct such troubles as surely as the sun shines.

Nursing Mothero -- Weak Mothers.

You know the life and future development of the child depend upon proper nourishment. VINOL helps nature change food into body material. VINOL costs nothing unless it benefits.

THIS WARRANT IS PRINTED ON EVERY VINOL PACHACE.

We mean exactly what we say in this Warrantwithout reservation or equivocation. We know VINOL is the best tonic preparation and general rebuilder of health known to medicine. We bank our reputation and fortune on its being wholesome, delicious and most efficacious, and on the fact that no other maker can produce anything like VINOL The statement that any other medicine is the same as VINOL is false. Don't take our word for ittry it yourself at our expense --- if it does not help you we stand the loss - it costs you nothing.
