MARKET DULL, PRICES LOWER.

Such Conditions Prevail on 'Change This Forencon.

at the Balance of the Stocks Show Declines -- Lower Mammoth and Star Con. Among the List.

The sum of \$6,789.25 represented the amount of coin of the realm exchanged for 16,750 shares of stocks sold during Miring exchange. The market was decidedly dull and inactive, as evidenced ters would not meet the offers except n the case of Consolidated Mercur, 300 cobson, the visitors spent several days an order for a board lot of Ingot, which was furnished him at 1 cent a share. Whe support of Lower Manmoth has relived from the pit and as a result the stock is scaling down the to-hoggan again. The stock dropped to 36 cents bid at the close of the regular call while on the open board it sold down to \$1½ cents. The bottom has fallen out of Comstock for a time; a speller finding a buyer finally on the open board at \$3 cents. Star Consolidated displayed weakness on entering the pit and came down to 26% cents bid, while California took part in the acrobatic performance and tumbled to 18 cents flat. Wabash was offered at 19%, with a single bid of 18 cents, Yankee Consolidated was offered at 19%, with a single bid of \$5 cents for it was ported.

The party had been on a tour of Arizona and California camps and Mr. Cheynoweth, who by way of introduction is a son of one of the directors of the Columbus Cou., declared that the latter was beyond any doubt the best proposition in which Michigan men are interested that they had run across in their travels.

They went home decidedly enthusiastic and with the intention of advising their investigations made no effort to conceal their delight. COL. WISWALL BERE. Man Who Determined that Values In Mercur Ores Could be Saved.

The man who determined by chemica analysis that the values contained in cessfully, is in Sait Lake. The visitor is Col. T. L. Wiswall, who, prior to hs absorption by the Scottish company, was general manager of the American Gold & Silver Recovery Co., with headquarters at Denver.

The colouci comes to Utah at this time in the interests of the Green Reduction Co. of New York, which con-

cern is in possession of chemical pro-cesses which make the cyanide pro-cess somewhat incidental to the treat-ment of gold cres and in many respects. far more satisfactory.

Col. Wiswall states that his concern

has come to this state to bond, lease purchase or operate mines on shares and to build plants for treatment of the ores therefrom. He says, also, that he is in the field for old mines and failings dumps containing ores umenable to chemical treatment. The processes employed by his con-ern, Col. Wiswall says, are unpatented, but the secret is kept among the few interested in the company. It is seldom that two mines are found where the same method of treatment will ap-ply. All such problems are worked out

in advance, and when satisfactory results are obtained, a plant is built in accordance:

It was while the colonel was connected with the American G. & S. R. Co., owner of the Dioxide-Cyanide process that Captain De Lamar adopted that method for the Golden Gate mine at Mercur, also for his De Lamar, Neva-Worth L. Wiswall, a son of the colo-

nel, will have charge of the chemical laboratories to be established in this

U. S. ORGANIZATION.

An Executive Committee to Have Supervision of Properties.

The directors of the United States Mining company have organized by the re-election of R. D. Evans, president; W. H. Coollidge, vice president, and P. W. Batenedler, secretary and treasurer. An executive committee consisting of R. D. Evans, Sidney W. Winslow, A. F. Holden, N. W. Rice and William H. Coollidge was named. The committee will have general super-vision of the company's properties. A special meeting of shareholders in an-nounced for July 6, at which time sev-eral amendments will be made, no doubt, in the by-laws of the company.

Royal Properties Being Surveyed. President A. B. Lewis of the Royal Gold and Copper company has ordered a survey of all the Royal properties

ST. LOUIS.

UTAH'S MINERAL EXHIBIT.

Director Newhouse Wants Visitors to

See Something Practical.

Gov. Wells could have made no bet

ter selection than Samuel Newhouse as a member of the Utah world's fair commission. Mr. Newhouse will have charge of the arrangement for a min-

eral exhibit from this state. He de

eral exhibit from this state. He de-clared at the meeting held in the gov-ernor's office yesterday that he had thought over a general outline for the exhibit, which would not only be the finest ever made by any state, but would re-

dect credit upon Utah and do much to advertise its mineral resources.

While Mr. Newhouse has not had time in which to crystalize his ideas re-

garding the proposed exhibit he stated that he would be able to finish details at an early date. He indicated that he was in favor of having a miniature mine built on the exposition grounds,

showing it in actual operation. He also desires to have miniature mills

smelters, tramways, etc., in full swing, thus giving visitors some idea of the

Extreme hot weather is a great tax upon the digestive power of bables; when juny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. MARKET VERY BABCOCK QUITS THE RIO GRANDE

Opened Firm but Was Followed by Assistant General Traffic Manager Resigns July 1.

CAUSED BY GOLD EXPORTS. RESIGNATION A YEAR OLD.

Made Known His Position to Mr. Hughes Last July-Plans for Retrenchment Were Hesponsible.

> Stephen H. Babcock, assistant general traific manager of the Rio Grands system here will retire from the rail road business next Tuesday and enter private life. Rumors to the effect that Mr. Babcock was contemplating such a move have agitated Rallroad row for a year past. Mr. Babcock now states that such was a fact, and he handed in his resignation to Traffic Manager Hughes II months ago, but it was not then accepted.

then accepted.

The matter was not made public until the return of Mr. Babcock from Denver last evening, when he announced that he would sever his connection with the Rio Grande at the end of the month. He stated that he end the regional public that Mr. Hughes last end of the month. He stated that he sent his resignation to Mr. Hughes last July, with instructions that it be accepted at his pleasure. No steps were taken, however, and the matter rested until the appointment of A. C. Bird as traffic director of the Gould lines. When Mr. Bird arrived in Salt Lake some two months ago on his trip of inspection the matter of reorganization of the force here was discussed with the ob-ject in view of a general retrenchment. Mr. Babcock was offered another posi-tion on the Gould system, but declined to entertain any such proposal and again intimated that his resignation was call in the hands of Mr. Hughes, Mr. Bird, however, asked him to re consider the matter. The outcome of the affair was that Mr. Babcock went to Denver a week ago and insisted that his resignation go into effect July 1.

After the first of next month the freight matters at this end of the system will be in the hands of S. V. Derrah, assistant general freight agent, and I. A. Benton, general agent of the passenger department, will have charge of passenger affairs, both of them re-

porting direct to Denver.
Stephen H. Babcock was born at Niles, Mich., Dec. 6, 1848, and entered the railroad service Oct. 5, 1865, since which time he has been consecutively, to August, 1875, clerk in local freight office, and agent Michigan Central at Jackson, Mich.; afterward he held various positions with Northern Pacific, Lenver & Rio Grande and Rio Grande Western: Aug. 1, 1890, to Jan. 1, 1892, right of way agent, Rio Grande Western Construction Co.; Jan. 1, 1892, to March 1, 1895, general freight agent Rio Grande Western: March 1, 1895, general traffic manager. With the acquisition of the Rio Grande Western by the Gould interests Mr. Babcock's jurisdiction was extended to the Denver & Rio ion was extended to the Denver & Rio Grande with the title of assistant gen-

eral traffic manager.

That the Gould system has permitand its Pabrock to leave its service
hardly coincides with the assertions repeatestly made by Mr. Gould himself and other high officials to the effect that the force at Salt Lake would be strengthened rather than be cut down to the smallest possible working limit.
