LOCAL AND OTHER MATTERS.

ZION'S CAMP AND MORMON BATTALION.
It has been customary, for the past few years, for a party to be held of the surviving members of Zion's Camp. It is the intention this year to join the members of the Mormon Battalion and Zion's Camp in one party, which will be held in the Social Hall, on the evening of Monday, the 10th instant. All the members of those bodies will please take notice.

THEATRE.—There was a very good attendance at the Theatre last evening to witness the performance of the "Somnambulist" and "The Muleteer of Toledo." The acting was good throughout and the audience expressed their satisfaction in repeated rounds of applause.
To-night will be presented "The Carpenter of Rouen; or, the Massacre of Saint Bartholomew," followed by the extremely laughable farce, "John Buttercup," which constitute a splendid bill. A new orchestra under the direction of Mr. E. Beezley and Captain Croxall's Brass Band will be in attendance. Mr. A. A. Needham will perform the "Grand Pot Pourri Brilliant" on the Piano.

THE PRESS AND THE COURT.—Yesterday afternoon the editors of the Salt Lake Herald, "Trinity and Unity," were arrested by the U. S. Marshal and taken before his Honor Chief Justice McKean and the Grand Jury, on an indictment for libel against Associate Justice C. M. Hawley. They were each placed under their own recognizance for \$500 to answer at their trial, and were then liberated. As there is nothing very serious in this matter at present, and the whole affair appears so trivial, we shall defer any comments until the real play comes on, if there is to be any.

THAT SHOOTING.—Some excitement was caused on East Temple street, last evening, the cause of which is as follows: O. P. Rockwell entered the bar-room at the Salt Lake House in a state of intoxication, and after abusing the bar tender, Charles Whitehead, for some time, attempted to strike him with the butt end of his black-snap whip; whereupon the bar tender threw a glass at his head, which Rockwell dodged and immediately proceeded to his horse, which was hitched outside, and took from the holster on his saddle a pistol, which he cocked and started to return to the hotel, with the evident intention of shooting Whitehead. Just before he got to the door he was stopped by a number of persons, who attempted to take the pistol from him, in doing which it was discharged, the contents passing through the coat of Mr. James Little, but doing no further damage.

O. P. Rockwell was arrested, but his case has not yet been decided.

POLICE.—Willard Flake, a boy, was arrested yesterday, for being drunk and disturbing a party, and fined \$5.

A GENTLEMAN from the East wishes to see or know where David Turner resides, an Englishman, who emigrated from the States to this Territory about ten years ago. Information can be left at this office.

YELLOW FEVER.—It has been extensively reported that Yellow fever was raging in New York City. From our late exchanges we learn that this is a mistake. The patients who were afflicted with this deadly malady, in Governors Island, have been removed to the Quarantine at the lower bay, out of danger to the great city of Gotham. On the southern and western coast of Spain the ravages of this fatal disease are said to be terrible.

HOME ENTERPRISE.—Mr. Paul Lechtenberg, of the 19th Ward, called this morning and showed us a specimen of matches manufactured by him. We see no reason why matches should be imported when they can be manufactured here, to compete favorably as to price and quality with those imported. After trying the matches of Mr. Lechtenberg we are convinced that it is not necessary to carry a coal about to cause them to ignite.

SAVORY NEWS.—The Chicago Post informs us that in Jersey City sausages have for unnumbered years been fabricated from a mixture of disintegrated dog, comminuted cat and hashed hog—all previously diseased. Some enterprising being might make his pile by exporting to Jersey City the canines which have suffered the extreme penalty of the law here. In such case we hope the authorities here will prohibit the importation of manufactured goods given in exchange for the raw material. Where do our imported sausages come from, anyhow?

"MUSIC BATH CHAIRS."—The Ogden Brass Band is in good order and has "discouraged most excellent music" in our city on several occasions during Conference. We are gratified to observe the progress made in the "divine science" in various settlements.

SPECIAL GRATIFICATION.—The Cheyenne Leader, of the 5th instant, makes a feeble attempt to fasten half the blame of the Provo outrage upon the citizens, and says, the "row was as much the creation of Mormons as anybody else." In support of this, the Leader resorts, as is usual in such cases, to sheer fiction. Is it not strange that certain party journalists will not be governed by the truth in anything touching Mormon affairs?

The Leader draws "special gratification" from present affairs in Utah, and among the incidents now going on here in the transition "which is to result in the supremacy of the U. S. Government," it enumerates "the collision with the soldiers at Provo, the decisions by the U. S. Judges, the rejection of a Mormon attorney and the recognition of a U. S. officer as the proper prosecuting officer." Well, if an outrage like that perpetrated at Provo, for which not even our bitterest enemies here can find the least excuse, to say nothing of the high-handed proceedings in the latter cases, is one of the means to establish U. S. supremacy, from which the Leader derives special gratification, we have not much respect for his brains, his humanity nor his loyalty. We have no doubt that there are other folks besides the Leader person who would derive "special gratification" from a raid on the entire Mormon people, but we can promise them that they won't get it.

A YOUNG BRUI.—Friend Sangle of the Museum and Menagerie led around to the sanctum this morning a fine young black bear, the latest addition to the stock of the Menagerie. The animal was captured in the west mountains and appears to be quite tame and playful; however we did not try to caress him.

"DIE MODERNWELT" (The World of Fashion) is an illustrated Magazine for Fashions and Fancy-work, published in the English language at Berlin, Prussia, and supplied to news dealers by the American and New York News Companies. S. T. Taylor, importer of Ladies' Fashions, 391 Canal street, New York, receives subscriptions for Die Modernwelt, and letters and money should be sent to him. The yearly subscription of this Magazine is \$3; single numbers are sold at 15 cents. Two numbers are issued each month. One of them contains a colored engraving of the fashions; the other a supplement. It is also published in German, and can be had in that language at the same rates. The illustrations are numerous and very fine, as also the patterns, diagrams for braid and embroidery; altogether it is a very superior magazine, and one that will have a large circulation among the votaries of fashion.

MURKY.—For several days past the atmosphere has seemed as if filled with smoke, which is probably occasioned by the large fires which are at present consuming the grass and timber in Cache and Bear Lake valleys. Some persons lately in from those localities are of the opinion that the fires are the work of Indians; whether their suspicion is well founded or not it would be well for the inhabitants of those parts to keep a sharp lookout in order to prevent, if possible, the destruction of such valuable commodities as grass and wood.

NEW EXCHANGES.—We are in receipt of the Missoula and Cedar Creek Pioneer, a new paper published at Missoula City, Montana. It is a respectable looking sheet containing a variety of news, home and foreign, and a well written leader on the soil, climate and capabilities of Montana. We suggest to the Pioneer that nonsensical extracts about Brigham Young, containing statements well known to be false, concerning the Co-operative Institution here will not add anything to the paper's character, nor gain for it any respect.
The Elly Record is another new weekly hailing from Pioche City, Nevada. We congratulate the citizens of Lincoln County on the privilege of having a lively sheet to represent their interests.
The Inland Empire, of Hamilton, Nevada, is resuscitated and appears again among the White Pines, full of energy and confidence. Nevada is getting to be quite a literary State.

Correspondence.

PROVO CITY, Oct. 5th, 1870.

Editor News:—Dear Sir.—At two o'clock p.m. to-day I enjoyed the opportunity of being present at a meeting of the Masons and workmen of the Provo Co-operative Woolen Factory, held on the walls of the building, to celebrate the completion of the rock-work.

The national flag was flying from the tower of the building. The tenders, with their barrows, wheeled up a barrel of elder and some baskets of fruit, of which all were allowed to partake, and we must say that we have never seen a body of men manifest better feelings toward each other; while all were joyful that the walls of the building were completed.

Bishop A. H. Scott addressed the meeting in relation to the progress and success of the work; after which three cheers were given for the completion of the walls.

Samuel Liddell, the chief Mason, was called upon for a speech, and expressed the pleasure he felt that the work was finished, that no accident had occurred, and that such a good feeling existed; and thanked the men for their faithfulness.

Wm. W. Allen, one of the Masons, in a short speech, stated that he was glad that the work was so far advanced, and that he had never seen workmen move with greater union, the work having never stopped one working day since it was commenced; he felt that truly the hand of God was in it.

Bishop Scott expressed the good feelings of Superintendent A. O. Smoot, for the faithful labor performed, and the success of the work, after which A. F. Macdonald and L. John Nuttall addressed the workmen briefly.

Heartly cheers were offered for Brigham Young, the projector of the building, A. O. Smoot, superintendent, Bp. Scott, his assistant and others who have aided in its erection.

There have been some ten masons and thirty tenders engaged on the walls, and the mortar for the entire building has been carried by boys from twelve to fourteen years of age.

The building is 145 feet in length, 65 feet in width and 45 feet in height. The walls are of lime stone and two and a half feet thick. The tower is 20 feet square and 57 feet in height.

There are two other buildings in progress, and connected with the establishment, is an excellent flouring mill doing good business.

DR. GOSS

Is the famous INDIAN HERB DOCTOR and acts as consulting Physician, prescribing Herb Remedies in those cases that require Medication in addition to the ANIMAL MAGNETIC TREATMENT OF DR. ROBERTS.

OGDEN, UTAH, Sep. 15th 1870
I hereby certify that my daughter has been terribly afflicted with Epilepsy for five months and a half—could have been cured by the HUNDRED FALLING FITS WEEK. All medication failed to relieve her until I brought her to Dr. ROBERTS & GOSS, at Ogden, September 7th, 1870. She had a great number of fits the day I took her to Dr. R. & G.; and had a fit when I carried her into their office. She has been under Magnetic Treatment one week, and has not had a single spasm or fit in that time; in fact, I believe her to be wonderfully improved in health.

GOING AWAY.

On Sunday next the celebrated and world-renowned Dr. R. B. Roberts, who is now stopping at the National Exchange Hotel, will leave for Virginia City, and those desiring his services should call on him before that time. During his stay in this country he has performed some of the most wonderful cures we have ever heard of. For the cure of every kind of disease he cannot be excelled. He heals the sick by animal magnetism and the Swedish movement cure. No physician ever came to the State so highly recommended as Dr. R. B. Roberts. All ye who are afflicted, call on him.—Daily Transcript, Nevada City, California, July 1st, 1870.

A MOST WONDERFUL CURE.

GRASS VALLEY, June 23d, 1870.
This certifies that I have been for fifteen years an invalid and great sufferer from a combination of most distressing diseases, viz: dyspepsia, spinal disease, prostatic uteri, and for the past eight months I have been paralyzed in the left half of my body (hemiplegia). No tongue could tell what I have suffered during the last three years of my life. I have been treated by eminent physicians—by their advice have changed climate. I have also tried the celebrated "Mineral Springs"—but all seemed of little or no avail, and I had given up all hope of being anything but a miserable sufferer for the remainder of my days.
Dr. Roberts commenced treating me by Animal Magnetism and the Swedish Movement Cure on the 6th of June, and with three treatments I felt like a new creature—the paralysis was removed. I have now been under his treatment fifteen days, and have improved daily. Nearly all my difficulties have entirely disappeared, and the remaining ones have been so far relieved that I now feel that time and care are all that is necessary to restore me to perfect health.
I have been acquainted with Dr. Roberts sixteen years. I have always regarded him as one of the most reliable of men. I was the recipient of his healing power about sixteen years ago, when he cured me of a severe case of paralysis. He has since cured me of many other ailments, and I have no doubt that he will cure me of the remaining ones. I have no doubt that he will cure me of the remaining ones. I have no doubt that he will cure me of the remaining ones.

A WONDERFUL CASE.

What can the "Old Folger's" Bigot, Skeptic and Idiot say to refuse the following Wonderful Fact?
My little daughter, aged ten years, has been paralyzed in her right arm and hand, and has been so for six months. She can now use her arm and hand well, which has been useless from infancy! I reside at No. 47 E. Street.

REVOLUTION IN MEDICINE!

THERE is no disease but Walker's Vinegar Bitters will cure. Their great success in healing all ailments is proving to the world that Doctors are the greatest humbugs of the age. Mr. Walker challenges the medical fraternity to show him a disease for which his BITTERS are not a cure, and if it can be done he stands ready to donate FIVE HUNDRED DOLLARS to any benevolent Institution in the United States to be named by the person who will prove that the above assertion is not true.
