

ANOTHER RESTAURANT.—We had the pleasure of accepting an invitation to dine at the opening of Mr. John R. Clawson's new dining room, on Saturday last. This is an addition to his "Ice Cream Saloon," situated on first south street. We were much pleased to enjoy, for a couple of hours, the company of President Kimball, Mayor Smoot, Aldermen Raleigh and Clinton, and Councilors Reese, McKean, Eldridge, Cunningham and Felt, Col. Little, City Marshal, and Robert Campbell, Esq., City Recorder, and the editor of the *Daily Telegraph*, T. B. H. Stenhouse, Esq., with whom we enjoyed a pleasant and agreeable conversation over well-cooked viands, vegetables and pastry, which were set upon the table in sumptuous profusion. The bill of fare, which we give below, reminded us of visitations we have made to commercial hotels in cities of older standing and greater pretensions than our own mountain home, and we are satisfied that if Mr. Clawson serves up such a bill of fare as that spread before our eyes, he cannot fail to secure a liberal share of public patronage. We wish him success in his enterprise.

POLICE REPORT.—Christopher Woodman, was charged before Alderman Clinton on Monday with being drunk in the street on Saturday night. Fined \$10.

Jesse Ewbanks was brought before Alderman Clinton on Thursday last, charged with insulting the wife of Joseph A. Gebow. The defendant brought witnesses to prove that the house of Gebow was generally known as a house of ill fame, and that such propositions as were made by Ewbanks were of common occurrence.

James Berry was arrested for committing an assault on Joseph Harris. When brought before Alderman Clinton it appeared that the parties were barbers, the accused had charged the other with being a butcher, whereupon Harris, who was three sheets in the wind at the time, pulled off his coat and wanted to fight Berry. Hard language was used in relation to who was the best barber. They were each fined \$10.

On Thursday the 15th inst., Hugh W. Rose and John W. Lowry, were arrested and brought before Justice Clinton on a charge of obtaining a trunk containing gentlemen's wearing apparel—under false pretences. After hearing the evidence the court discharged Lowry, and held Rose to bail for his appearance at the present term of the Probate Court, in default of finding which he was delivered into the custody of the Sheriff.

PEARS.—Br Harlow Redfield has our thanks for some goodly sized and very handsome pears. Our clerks forgot to present them until past their eating prime, thereby precluding our estimate of their comparative quality and value, which, however, we presume has been correctly determined by the "Gardeners' Club" and the Fruit Committee of our Agricultural Society.

RETURNED.—Brother Patrick Lynch, who went east for the body of Joseph Sharp, reached his home in this city, about 4 o'clock on Sunday morning, having seen the remains of br. Sharp securely encased in a zinc coffin, and deposited them in the train of which the deceased had been the Captain.

JORDAN KANYON CANAL.

To His Honor, the Judge and Select Men of G. S. L. County.

GENTLEMEN:—The undersigned committee, appointed by the Mass Meeting held in the Bowery, G. S. L. City, August 17, to make an examination and preliminary survey of a contemplated canal from Jordan to G. S. L. City, for the purpose of irrigation &c., with instructions to report to the County Court of the aforesaid county, beg leave to submit the following:

We, having secured the services of J. W. Fox, Esq., Surveyor General of this Territory, left this city on the 12th inst., and proceeded to the Point of the Mountain between G. S. L. and Utah counties, and upon examination located the head of the proposed canal near the old fish trap, some 80 rods below the head of Utah and Salt Lake canal, and entered upon the duties of the survey on the morning of the 13th. We tested the difference in level in the river from the head of the proposed canal and found it to be 9 feet; but in order to save these 9 feet there must needs be a flood of some 40 or 50 rods, the natural bank on the east side being too near perpendicular to be practicable for making a safe canal without fluming.

Having determined the point of beginning we commenced the line of canal by assuming the surface of water in Jordan, the bottom of the canal, and giving two two-hundred feet fall to the mill, we continued the canal along the bluff side, about five miles before we reach the table land.

This five miles will be the most expensive to construct as the bluff side on which it passes is in many places steep and gravelly.

From the top of bluff to Hot Springs near O. P. Rockwell's spring to the crossing of Willow Creek, near to Bankhead's, a distance of three and three-fourths miles, there will be no difficulty in the construction as the line is on level ground, and the soil easy to excavate. From Willow Creek to Dry Creek crossing some 40 rods above the State road and onward to Union Fort, there is no serious obstacle on the line of construction.

The line passes Union Fort about 160 west, and crosses Little Cottonwood, half a mile north-west of the Fort. From Little to Big Cottonwood the line to excavate is favorable, soil being rather sandy. The canal crosses Big Cottonwood about 40 rods above the upper county road, thence passing near Winslow Fair's residence, through the Holladay field, thence on the table land east of county road to Mill Creek, crossing said stream about 40 rods above said county road at Gardner's old place; thence along the bluff side and table land to Big Canyon Creek, crossing said creek a little below the nail factory dam, and running parallel with said Nail Factory race, the top of water in the canal being about the bottom of water in nail factory race.

The canal can be thrown above the nail factory dam by giving a little less fall, and thereby avoiding a contact with the factory race. From this point the line runs on the side of the bench, through the east end of the five acre lots, crossing ditch No. 1 south-west of T. O. Angell's, thence passing above the first and tenth wards, cutting through the eleventh ward near the School House to the south line of the 20th Ward, and terminating at the south-east corner of Mayor Smoot's residence. The entire distance is 32 miles, the fall in the whole line of canal 80 feet.

There are places on the line of canal where the soil is a loose gravel and sand, and perhaps will be liable to leach water at first, or until puddled by the sediment constantly accumulating and ultimately closing up such leaches. This, however, is only a matter of experiment. We find no serious obstacle on any portion of the route, in fact we find it more favorable than we anticipated. We have made some general estimate of the probable cost of a canal 3 feet deep and 16 feet wide in the bottom, and 32 miles long, including dam and necessary fluming at various points, to cost about \$280,000.

We remain as ever, your obedient servants,
WM. HICKENLOOPER,
REUBEN MILLER,
ELIJAH F. SHEETS.

INQUEST.—On Saturday last an inquest was held by Coroner Clinton on the body of one Jay Smith, who was found dead in his bed that morning. A revolver was found in his hand, with the muzzle pressed tightly against his right temple about an inch below where the ball entered. Deceased crossed the plains in Wm. Walker's freight train, arriving in this city on the 14th inst., with the intention of going to California this fall. He was in a feeble state of health some time before his arrival, and was heard to remark that he would rather die off quickly than have a lingering sickness. Levi Jackson, Martin Zyderlann and Stephen H. Gheen, composed the jury, and rendered a verdict in accordance with the above facts.

AMATEURS.—We call the attention of the ladies who wish to employ an amanuensis to aid them in their correspondence with friends at home and abroad, to the advertisement of Mrs. Pratt. We are fully satisfied that Mrs. Pratt possesses good qualifications for the services she proposes to render to those requiring such assistance.
