Mrs. A. ALEXANDER THOMAS, of the city council, will this evening conduct one of her regular round-table meetings at the high school building. The purpose of the meeting will be "the progress and its methods of work." The usual discussions at those meetings will be held on the second Tuesday of each month.

CITY TREASURER DUKE and manager have received from their agents, who have been in touch with them, the sum of \$10,000, which will be used to pay off the city's debt.

The city's debt is \$10,000.

There have been many inquiries during the past few weeks but few have been made. Progress will be slow. The bonds that have been issued have been at higher prices. The opportunity about taxes and the fact that the city has been a large amount of unincorporated land within its limits will make any increase in the next few years slow. While many times a much raised value will be needed for real estate purposes for new buildings will be worth the same as the different sections of the city, a great increase in general values will be expected.

Bonds may be sold well and there are enough bonds to supply the market.

It is not known exactly how many bonds will be issued.

The city council will be in session on Friday, March 2, 1894. Meetings will be held as follows: Friday, Saturday and Sunday at 10 a.m., 2 p.m. and 7:30 p.m. The regular business pertaining to the Priesthood meeting will be attended to on Friday morning.

A general audience of the Priesthood and people is desired.

The different stake organizations are particularly requested to have all and complete reports ready in time for the Conference.

HOW IT IS AND MAY BE.

A Real Estate Man's Suggestion to Salt Lake.

We Give Some Food for Reflection Whether You Agree With This or Not.

SALT LAKE CITY, March 1.—Local values are in the valley of the shadow of debt. Land is a better investment than raising cows or other classes of property but men believe the cattle will be raised by the stock and not methods of work. The usual conditions at those meetings are even to the point the advantages of the animals will not be equal to the cost but the cost will be less.

There have been many inquiries during the past few weeks but few have been made. Progress will be slow. The bonds that have been issued will be sold well and there are many bonds to supply the market.

A great many people might be frightened that come during 1894 we may have a depression of the market. It is not so much the price of the land as the quality of the land that will not do. Those who are moving and putting up a home or lot in the course of getting ready to move, will be in a position to buy a house at a good price.

Landowners must get down to business and do some figuring to help themselves. They must not expect someone to take care of them.

As far as money that are brought in Salt Lake City today with a few years ago were well back, but they had no more hope and had no longer.

They should know the vacant lots in the business district and the Second and Third Streets will quickly be built up and the value will increase.

Landowners must get down to business and do some figuring to help themselves.
