OGDEN, UTAH, SEPT. 15, 1904.

WILLIAM BAKER SEVERELY INJURED

Brakeman Elmer Duncan Badly Hurt by Falling from a Bridge.

OGDEN'S SCHOOL PUPILS.

Alexander Weiss Arrested at Wife's Instance—Deserted Wife Seeks Divorce—News Briefs.

William Baker, an old time resident of Ogden, met with a painful accident yesterday at his home, which will lay him up for some time. He was engaged in unloading some empty tomato boxes when he was stung by the toe against one of the boxes, which overbalanced him and he fell out of the wagon onto the boxes with considerable force, breaking two ribs and otherwise bruising and injuring him. He was picked up and taken to the hospital, where a physician called, who dressed his wounds and cared for his injuries. He rested quite well last night and it is believed will recover in a short time. Mr. Baker is over 70 years of age, and was quite feeble in body, which will work greatly against his speedy recovery.

BRAKEMAN PAINFULLY INJURED.

Elmer Duncan, brakeman on a Southern Pacific work train, near Palisade, was brought to Ogden and taken to the Ogden general hospital yesterday, suffering from a broken arm and leg. The work train was repairing the roadbed Tuesday. Duncan, being the brakeman on the train, was sent back about to arrive. He flagged the train and it is thought started back on foot to the work train, having to pass a bridge from which it is supposed he was knocked or fell to the ground, a distance of about 25 feet. He was rendered unconscious, in which condition he was found by the trainmen, who went to look for him, when he did not return. Dr. Hood of Elko, Nev., attended him at Palisade.

WIFE HAD WEISS ARRESTED.

Herman Weiss has been located at Winnemucca, Nev., and placed under arrest by officers there, at the request of the Ogden police department. Officer James P. Pender, who went to Nevada after the man, has reported that Weiss refused to come without regular papers, and these will be asked for. The arrest of Weiss is due to complaint made by his wife. He was foreman in the cigar making establishment of Max Davidson, and lately drew from the savings bank \$750 belonging to himself and a like amount belonging to his wife. He then left, taking their little girl. Mrs. Weiss says they had no domestic trouble.

OGDEN'S SCHOOL PUPILS.

The reports of attendance at the various schools of the city as furnished by Supt. William Allison show a total attendance of 4,176, distributed as follows:

High school.....	300
Washington.....	397
Pinegrove.....	438
Central.....	376
Grant.....	704
Mount Fort.....	405
Five points.....	293
Emerson.....	189
Quincy.....	200
Lewis.....	176
Total.....	4,176

DESERED BY HUSBAND.

Suit for divorce has been filed in the Second District court by Bessie M. Ward against William Ward. The parties were married at Ogden, October 27, 1895, and plaintiff alleges that Sept. 1, 1903, the defendant disregarded his marriage vows and without cause, deserted plaintiff and their eight-year-old son and has refused to provide for them. Plaintiff prays for dissolution of the bonds of matrimony, custody of minor child, and alimony.

TO FORECLOSE MORTGAGE.

James B. Horrocks has brought an action in the Second district court against E. J. Stay, to recover on a promissory note for \$150, due Sept. 15, 1904, secured by a chattel mortgage on his monumental business and stock of goods situated at 2241 Washington avenue.

WANT TO ADOPT.

Ernest T. Richardson and wife have filed a petition in the Second District court asking permission to adopt Burton F. Dismore, a minor 14 years of age, the father and child consenting.

DEATH OF MRS. E. P. BROWN.

Mrs. E. P. Brown, a well known resident of this city and mother of Eddie C. Brown the dramatist, died yesterday at her home 2555 Orchard avenue, after a lingering illness, at the age of 65 years. Mrs. Brown has resided in Ogden for many years. The funeral services will be held at the Catholic church tomorrow morning at 10 o'clock.

GAVE HIS WATCH AWAY.

Last evening a man named A. E. Haggerty of Eugene, Or., was made the victim of a bewitching confidence game, in which he lost a valuable gold time piece. Haggerty was en route to Nevada and while in front of the Halley hotel he made the acquaintance of a man who gave him the name of James Henderson. Henderson told the latter he had a watch he would like to dispose of and a deal was immediately entered into in which Henderson was to pay \$40 for the watch. He tendered \$5 in money and a \$300 draft on a Billings, Mont., bank, with instructions to the bank to pay the money to Henderson. The latter was a little doubtful of the draft whereupon Henderson took him into a saloon near by and introduced him to "James Hall," a prominent business man of Ogden, who stated that the paper was all right. With this statement the deal was closed and the watch was given to Henderson. Haggerty got \$5 and a worthless draft. The police are in hot pursuit.

AS THE SOUTHERN PACIFIC PASSENGER NO. 4 WAS PULLING INTO THE YARDS ABOUT 10 O'CLOCK LAST NIGHT, IT COLLIDED WITH A FREIGHT TRAIN, BADLY DAMAGING TWO BOX CARS. THE PASSENGER ENGINE WAS SLIGHTLY DAMAGED AS WELL.

BADLY BURNED.

Louis Girtzell, an Italian laborer who has been employed at Carlin, Nev., was badly burned yesterday by an explosion of coal dust, his face and right side being burned almost to a crisp. He was brought to Ogden last night and is now at the hospital receiving treatment.

PROVO.

The Daily News is delivered by carrier in Provo early every evening (Sundays excepted) on the same terms as in Salt Lake—5 cents per month. All complaints, requests for changes of address and payments of accounts should be made to F. J. Dugdale, 71 West 4th North St., Provo. Advertisements and orders for church works also received.

CORNER STONE LAID

Of Sixth Ward Meeting House—Weddings—Medicines Meet—Peculiar Death.

Provo, Utah Co., Sept. 15.—A large congregation assembled on the Sixth ward meetinghouse lot yesterday afternoon on the occasion of the laying of the corner stone of the ward meetinghouse.

The ceremonies were conducted by the ward bishop, Bishop Poulton made the opening address. President Joseph H. Kenner laid the corner stone and President David John offered the dedicatory prayer. Addresses were made by Elders Reed Smoot and Hugh Clayton. There was deposited in the stone a brief history of the ward, copies of the Bible, Book of Mormon, Doctrine and Covenants, Pearl of Great Price, Latter-day Saints hymn book and a St. Louis exposition souvenir coin.

MEDICAL SOCIETY MEETING.

An interesting and well attended meeting of the Utah County Medical society was held yesterday in the county court house. Dr. Frederic Clift presented an able paper on "Raynaud's Disease," which was discussed by the members.

WEDDING PERMITS.

The following couples have taken out marriage licenses:

Alonso Rawlings, 22, of Vineyard, and Lottie Shelley, 18, of American Fork.

Elmer C. Blampied, 27, and Lenna F. Edwards, 24, both of Lehi.

PECULIAR DEATH.

Funeral services were held in the Second ward meetinghouse yesterday over the remains of Ethel Irene Atherby, the 2-year-old daughter of Mr. and Mrs. Dan Atherby of Bear river, who died Tuesday from having fallen on a piece of steel, which entered her mouth and penetrated the spinal cord.

THE REMAINS OF MRS. MAGGIE DICK OF TOOELE, WHO DIED HERE MONDAY FROM ACUTE GASTRITIS, AT THE AGE OF 29 YEARS, WERE SHIPPED TO TOOELE FOR BURIAL YESTERDAY BY UNDERTAKER BERT.

ANOTHER WATER SUIT.

Wm. Mendenhall and others have commenced suit against M. O. Packard and others to restrain defendant from interfering with plaintiff's use of certain waters of Hobbie creek, to which plaintiffs claim they are entitled.

GARDEN CITY NOTES.

Sidney LeSueur has returned from St. Louis, where he was taken on a charge of illegal use of the U. S. mails in connection with the LeSueur opal mines in Idaho. Investigation of the case completely exonerated Mr. LeSueur and he was discharged. This was fully expected by all here, who know the young man and his connection with the opal mines.

MR. AND MRS. NEWELL KNIGHT HAVE MOVED TO THE ST. LOUIS EXPOSITION.

Jacob A. Riis, the New York Journalist-reformer between whom and President Roosevelt there exists a warm friendship, will lecture here under the auspices of the Brigham Young university polysocial society, on Nov. 23.

MRS. LULU GATES WILL GIVE A CONCERT IN PROVO FOR THE BENEFIT OF THE B. Y. U. DOMESTIC SCIENCE DEPARTMENT ON SEPT. 28, BEFORE SHE RETURNS TO THE EAST TO CONTINUE HER STUDY OF MUSIC.

THIS DEPARTMENT WAS ENDOWED BY MISS GATES' GRANDMOTHER, MRS. LUCY B. YOUNG, AND AT THE TIME MISS GATES PROMISED TO CONTRIBUTE THE PROCEEDS OF ONE CONCERT ANNUALLY TO ITS SUPPORT. THIS PROMISE THE TALENTED YOUNG SINGER IS KEEPING, AND IN ORDER TO DO SO DEPARTS FROM THE ADVICE OF HER TEACHER, TO REFRAIN FROM SINGING ON HER PRESENT VACATION.

JOHN METCALF, OF GUNNISON, A STUDENT OF THE BRIGHAM YOUNG UNIVERSITY, HAD \$6.40 AND A SILVER WATCH TAKEN FROM HIS CLOTHING IN HIS ROOM SUNDAY NIGHT, WHILE HE WAS ASLEEP.

LOGAN.

The agent of the Deseret News in Logan is R. R. R. 120 North Main St. to whom all payments of subscription should be made. Daily News 75 cents per month. Saturday and Semi-Weekly News \$2.00 per month. Complaints, changes of address, orders for advertisements and church works will be given prompt attention.

TYPHOID AT WELLSVILLE.

Mrs. Ernest C. Smith of Smithfield Suffering from Ruddy Nail Wound.

SPECIAL CORRESPONDENCE.

Logan, Cache Co., Sept. 14.—The funeral services over the remains of Gurney Smith were held in the Sixth ward meetinghouse today at 10 a. m.

Mr. Christian, born of Mendon, who had his skull fractured by being kicked by a horse in a very critical condition. His remains consigned for a short time occasionally but did not seem to be making any prominent improvement. His many friends still hope for the best.

Mrs. Ernest C. Smith of Smithfield stepped on a rusty nail Sunday and has since been suffering from a ruddy nail wound. Wellsville is also afflicted with typhoid, more than a dozen cases are reported in the town.

NEARLY FORFEITS HIS LIFE.

A runaway animal, ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklin's Arnica Salve had no trouble to cure him. Equally good for Burns, Bruises, Skin Eruptions and Piles. 25c at Z. C. M. L. Drug Store.

RICHFIELD.

SCHOOL OPENING.

Assignment of Teaching Corps—Local Railroad Improvement.

SPECIAL CORRESPONDENCE.

Richfield, Sevier Co., Sept. 14.—Richfield district school opened yesterday morning with an enrollment of 52 pupils. The assignment of teachers was as follows:

Principal and high school teacher, F. K. Seemiller; eighth grade, J. L. Quist; seventh grade, Nephi Bates; sixth grade, Jas. Bagley; fifth grade, Henry Paulsen; fourth grade, Sophia Goldbranson; third grade, Pearl Wright; second grade, Ruby Wright; first grade, Sadie Seemiller; beginners, Clay Alford; kindergarten, Carrie Aquarone, assisted by Miss Undergarner and beginners, Hazel Baker and Dot Wright.

The kindergarten opened with 60 pupils and is free for all. There will be two classes, one in the morning and one in the afternoon. Principal Seemiller reports that everything looks favorable for a very successful school year.

Section boss Charles Erickson of this city, with a force of fourteen men, will begin laying heavy steel rails in the depot yards tomorrow. They will be laid to Elsinore, seven miles south of here, as this is the principal shipping point for best crop of the south end of the county.

MYSTERIOUS CIRCUMSTANCE.

One was pale and sallow and the other was red and rosy. Whence the difference? She who is bushing with health uses Dr. King's New Life Pills to maintain it. By gently arousing the lazy organs they compel good digestion and head off constipation. Try them. Only 25c, at Z. C. M. L. Drug Store.

KAYSVILLE.

SUBURBAN GETS FRANCHISE.

For 100 Years—Opening of Eighth District Schools—Names of Teachers.

SPECIAL CORRESPONDENCE.

Kaysville, Davis Co., Sept. 14.—At the regular session of the city council held last night a franchise was granted to M. Mahler to construct an electric railway through Kaysville and on any street he may select. The franchise is granted for 100 years, and allows three years for construction.

George H. Blood and John H. Blood voted against granting the franchise.

Mr. Mahler expects to construct an electric railway from Payson to Logan and has secured a number of franchises from other cities similar to the one granted here.

SCHOOL OPENING.

The public schools in the eighth district, comprising Kaysville and Layton, opened yesterday with the following teachers: Hubert C. Burton, principal, eighth and ninth grades; Edna Edwards, sixth and seventh grades; Mattie Barnes, fourth and fifth grades; all at the academy building. Ethel Stewart, second and third grades; and Maggie Layton, beginners and first grade, at the Layton school house. John Skein, Lizzie Barton and May Gibson at the new schoolhouse at Layton; Hazel Snyder, Maudie Layton, and Maggie Layton, at the Layton school house; and George Dibble, near Frank Bones.

KINGSTON.

SHOOTING AFFRAY.

Ben Reynolds Held for Deadly Assault on Jack Lee.

SPECIAL CORRESPONDENCE.

Kington, Plute Co., Sept. 12.—On Saturday last Ben Reynolds of Marysville was brought here before Justice Thomas E. King, charged with using a deadly weapon on one Jack Lee some weeks back, at which time Reynolds shot Lee, the ball entering the body just below the heart, ranging upward into the left shoulder. Reynolds was taken before Justice Gibbs of Marysville at the time and was discharged. Justice King took a different view of the matter and held Reynolds for trial before the district court. It appears the men got into a quarrel over a very small affair, when Lee struck Reynolds in the face with his hat a couple of times, and in turn Reynolds struck Lee with his fist with one hand, then used a pistol with the other hand, resulting as stated above. It is quite evident that Reynolds really did not intend to shoot Lee, but realizing that Lee was much the stronger man, he was anxious to scare Lee. As Reynolds as the pistol was discharged, Reynolds said he did not intend to shoot him.

IDAHO.

Weekly Crop Bulletin and Weather Report.

United States department of agriculture, Idaho section, climate and crop service, weather report, weekly crop bulletin, for the week ending Monday, Sept. 12, 1904:

The temperature averaged above normal over the entire state, the weather being decidedly warm for the season during the first part, but becoming cooler toward the close and culminating in light rains on the 10th and 11th over most of the state; no precipitation occurred in any part of the state and the sky was unusually clear, except that in some localities smoke prevailed due to forest fires. Some high wind was reported in eastern sections on the 9th.

CROPS.

Fruit.—All fruit crops made rapid progress toward maturity, and, as the season advances, it becomes apparent that they are yielding much better than was at first anticipated; heavy shipments of prunes and pears are being made from southwest valleys; the peach crop is exceedingly good and of good quality, but the latest varieties are ripe; in some sections a great many pear trees have died from blight and pear-scurf, which consequently lessens this crop; apples are reported to be a good crop.

Grain.—In the western part of the state, the threshing of grain is nearly completed, while the eastern section harvest is nearly completed and threshing has been commenced; the yield in the northern portion of the state is below average owing to the drought which has prevailed while in the southern section the yield is generally reported to be average or above. Corn in northern counties is reported to be hardening and some has been gathered.

Grass.—Range grass continues to dry up and in some sections the range is reported to be very poor, but is probably better than in the past; in the majority of cases it is reported to be a good average crop, most of the range is reported to be in the northern section; in the southern sections a great many fields have been plowed into fall pastures.

Stock.—Stock is generally in good condition, but in some northern sections it is reported to be somewhat poor; shipping of sheep continues active, a great many horses have also been shipped from southern sections.

Vegetables and Melons.—The melon season is about over, only a few cantaloupes being on the market; sugar beets are ripening and are an excellent crop; reports as to the potato crop vary, some sections reporting a good yield, while others report a light crop.

Do Not be Imposed Upon.

Poley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of this remedy, it has been imitated by many cheap imitations of the genuine. Ask for POLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safe for children and delicate persons. For sale by F. J. Hill Drug Co.

THE SEEDLESS APPLE—ONLY A POPULAR DELUSION.

There has been considerable inquiry about the seedless apple which has recently been brought out in a western state. During the past few years there have been several of these so-called seedless and coreless apples produced, but none of them as yet has proved of any value, as they were invariably of very poor quality. The advantage of a seedless apple is not so apparent. As a dessert fruit in its fresh form, it is pared and the core is readily cut out. When used in cooked form, the core and seeds are easily removed by convenient appliances.

We evaporate large quantities of apples at Orchard Farms. We have watched with interest the development of apples that are said to be free from seeds and core, but none such has yet been produced. While they are free from seeds, they contain the core lines and carpsels, which are quite as objectionable as the seeds. We have not dissected these fruits to ascertain the exact relationship between the stem, the torus and rudimentary buds, the evidence of which is frequently met with in the apple.

The fact that in the specimens thus far sent there are distinct core lines, is quite conclusive evidence that the fruit has started from a rudimentary flower. Evidence is not yet produced that the fruit comes in any other way. While it may be possible to produce a seedless apple, there will be no value in it over others unless the entire core formation can be obliterated. The cavity at the apex of most of these specimens of seedless apples is so large as to make as much waste as the core of other apples.

Evaporated apples are becoming a very important part of the apple industry, with a large and increasing foreign demand for the product in this form, and if a variety of high quality could be produced that would be free from the core and seeds, it would be a great acquisition of great commercial importance. The quality, however, of any new variety of apples is what will determine its real value. The consuming public is rapidly becoming more discriminating in buying, and some of the old kinds of fine quality long neglected are coming to the front into favor. This is particularly true of the Rhode Island Greening is wanted, and these in many instances are evaporated and put up unadorned with other kinds.

The Ben Davis has a large apex and core, will yield but about 10 pounds of dried fruit. The Rhode Island is a dried fruit apple in the evaporator, while the Baldwin, Greening and many other kinds will yield close to seven pounds, the Russets nearly a pound more, and of exceeding fine quality.

I am in full sympathy with every effort to produce and bring out new and improved varieties of apples, but in problems facing us at the present time, I would advise inquiries about seedless apples not to invest money in them until the claims made for them are substantiated.—George T. Powell of Columbia County, N. Y., in Country Gentleman.

Given up to Die.

B. Spiegel, 124 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." For sale by F. J. Hill Drug Co.

HOW DANISH BUTTER IS MADE.

As we all know, Danish butter is the standard of excellence in the English markets. A letter from a Canadian commercial agent, Mr. P. B. Ball, to the Dominion Department of Agriculture and Commerce, describing the process of manufacture is taken in its manufacture is therefore of practical interest to dairymen in the United States:

Cleanliness is the first law with Danish dairymen. All utensils, and the walls and floors of glazed bricks are cleansed with water from a powerful jet of scalding water from the boilers.

It has been said that large quantities of Russian and Finnish butter are shipped from Copenhagen as Danish butter, but this is untrue. In the first place, the butter is not made in that place, there is no butter arriving in Denmark from those countries and an expert could not be deceived. It is true that many attempts have been made by unscrupulous merchants to deceive ignorant and inexperienced buyers; but it was suggested that every stick of Danish butter should have a stake bearing a mark of origin from top to bottom, and now almost every dairy uses the special "Lundmark" on the side of the casks, which is the "hall-mark" of Danish butter.

Every week a committee of merchants in Copenhagen decide the price to be paid to the dairies, after receiving the reports from the various markets in Great Britain. This price, however, is only nominal, and as much as five shillings per cwt. is paid above the quotation.

The Danes have by their industry and the English have by their taste, succeeded in placing the butter in the foremost position in the English market, and I have been endeavoring to find out the reason, and I am fortunate enough to get into communication with one of the largest importers of Danish butter in Great Britain, and I send you the main points of his conversation.

In the first place, the Danes see to it that the English housewife is able to get throughout the whole of the year to secure an article of uniform quality and

TEA

tastes good and makes one feel good besides.

Schilling's Best is the tea.

Your green returns your money if you don't think so.

DOMESTIC FLOUR

Talk doesn't make good flour, but Good Flour makes talk! If you are interested in good bread, we would be very glad to hear from you.

If you are not fully satisfied with the flour you are using, don't think that all flour is alike. Try

SMITH'S FLOUR

and you'll come again.

fresh-made every week. Denmark has a system of balancing her milk supply.

Instead of having all her cows to calve in spring, she has almost an equal number calving in autumn, which is the source of her additional supply at a period when her competitors (the summer) are not in a position to present to successfully compete. Her exports to this country are indeed almost as large in winter as at any other period of the year—a very great advantage.

The first consideration when a factory (for Danish butter in factory-made) has to be erected is to find a plentiful supply of pure water. Then a community of farmers arrange to deliver their milk daily, which is subject to surprise visits by officials appointed by the government, and any irregularity would be reported and severely dealt with. Also a dairyman can call upon an expert in his district to visit the factory and find out the source of any difficulty which prevents the production of the desired quality.

Surprise examinations are also instituted by the government, and at any moment a telegram may be received asking for a cask of milk to be forwarded for analysis, points being given for quality, texture and dryness. Yearly the sum total of points is published, and gold, silver and bronze medals are awarded for them. Each district has its agricultural show periodically.

Cured of Bright's Disease.

Geo. A. Sherman, Lisbon, Neb. Mills, Lawrence Co., N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies but failed to get any relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes day and night, and passed a brick of urine. Now I can pass a brick of urine without making water. I believe I would have died if I had not taken Foley's Kidney Cure." For sale by F. J. Hill Drug Co.

REPORT OF THE CONDITION OF THE Deseret National Bank,

At Salt Lake City, in the State of Utah, the close of business September 15th, 1904:
