LAST NIGHT'S NEWS

Doings of the Medical Congress at the Government Headquarters Yesterday.

A REVOLUTION THAT IS REAL AND EARNEST GOING ON IN CENTRAL AMERICA.

Hon. Thomas E. Powell Opens the Democratic Campaign in Ohio.

THE REGULAR DAILY RAILWAY DISASTER AND A NUMBER OF OTHER CASUALTIES.

Ayoub Kahn Driven Back—Funeral of the Exeter Victims, Etc.

By Telegraph to the NEWS.

The Regular Daily.

DES MOINES, Sept. 7.—The fast mail on the C. B. & Q. Railway ran into the regular passenger train, westward bound, near Alton this afternoon about 2 o'clock. The passenger was delayed by a freight and the fast mail failed to notice the signal to stop.
The list of injured was chiefly confined to the sleeper on the rear end of the passenger train

AS FOLLOWS:

Killed—Infant child of Rev. A. E. Mosher, Creston. Injured — Mrs. Mosher, head and arms badly cut, will probably die. Charles Cook, Brooklyn, N. Y., with wife and two sons en route to Nebraska, were in the sleeper. The youngest son, four years old, was fearfully scalded, probably fatally. The other members of the family are not seriously hurt. L. J. Gray, Greenfield, Iowa, was horribly cut; K. C. Fullerton, Chillicothe, Wisconsin, spine injured; Sarah Grimlinger, Cleveland, Ohio, scalded; Miss Anna Morrell, Red Oak, Iowa, face and arms scalded; James A. Bailey and wife, Michigan, both injured in the back and slightly scalded; G. Brockman and wife, Michigan, slightly scalded. The injured are cared for at the Summit House, Creston, Iowa, and are doing as well as could be expected.

CASUALTIES.

Fires, Tornado, Explosion, Etc.

BOSTON, Sept. 7.—The Maverick oil works at East Boston burned this morning. Five men lost their lives in the fire.

PATERSON, N. J., Sept. 7.—Fire started this morning in Joseph Jackson's silk mill, a part of the Grant locomotive works building, and soon communicated with every part of the buildings of the Grant works. There is

NOTHING REMAINING

but the erecting shop, foundry and a part of the new machine shop. The loss is estimated at $150,000 and 600 hands are thrown out of employment.

BOSTON, Sept. 7.—An explosion occurred this morning on board the schooner *War Eagle*, loaded with naptha, at her dock. The vessel was

COMPLETELY BURNED,

together with a bridge and Platt & Washburn's factory adjoining. A man named Henry O'Donnell was burned to death. The steward jumped overboard and was drowned. The captain and mate were very badly burned. Four longshoremen were badly burned. Loss, $42,000.

CINCINNATI, Sept. 7.—At about midnight a fire started in the stables of Wm. Heffron, proprietor of the West End Transfer Company, on McKean avenue, and spread with such rapidity that the establishment was

ENTIRELY DESTROYED.

Peter Hayes and Edward Rukstull were badly burned. Hayes cannot recover. Thirty-eight horses and twelve mules were burned to death. The loss will aggregate $25,000.

NEW YORK, Sept. 7.—Advices to the Associated Press from Saratoga, Worcester, Binghampton and Norwich, N. Y., and Haverhill, Mass., report a violent wind storm, accompanied by the heaviest rain experienced in the year. At Saratoga it ended with a fall of hailstones, some of which measured an inch and a quarter in diameter. It resulted in great destruction to crops and forests. Many houses were unroofed and barns blown down, while others were

STRUCK BY LIGHTNING

and burned. At Worcester, Amos Cornell was dashed against a barrel and killed. At Haverhill several persons were partially paralyzed by a stroke of lightning.

NEWBURG, Ont., Sept. 7.—The business portion of this place, including 13 residences and 15 business houses, was destroyed by fire to-day. Loss, $250,000. Insurance unknown.

The Rowers.

WATKINS, N. Y., Sept. 7.—The final heat between Teemer, Hamm and Bubear in the regatta on Seneca Lake was rowed this evening. Teemer led throughout and won by a length. Hamm second, Bubear third.

$300,000 Attachment.

PROVIDENCE, R. I., Sept. 7.—An attachment for $300,000 was yesterday placed upon the mills and property of the Woonsocket Rubber Company by Thomas John Shipman Green of New York, and the company's porperty in New York, Boston and this state is now under care of the sheriff. On the 6thinst., Green obtained an attschment against the property owned by the company in New York, in a suit to recover $222,280, alleged to be due on 200,000 pounds of rubber sold to the concern. The defense of the Woonsocket Company is breach of contract.

Natural Gas.

TOLEDO, Ohio, Sept. 7.—To-night was devoted to a "Natural Gas Jubilee," in honor of the arrival of the new fuel in Toledo, it being piped from the Hancock and Wood County fields. Stand pipes were erected on the principal street corners, each bearing a roaring torch of flame as big as a hay stack, burning under a pressure of 300 pounds to the square inch, which makes the city as light as day. A grand open air meeting was held and the audience numbered fully 15,000 people. Mayor Hamilton presided, and ex-President R. B. Hayes was the orator of the occasion.

WASHINGTON.

The Medical Congress and Other Matters.

WASHINGTON, Sept. 7.—In reference to the published report that he intended to resign on account of strained relations between Secretary Bayard and himself, Assistant Secretary Porter said to-day that there had been

NO DISAGREEMENT

of any kind but that he had contemplated resigning for some time on account of the ill health of his wife. While he had the matter under consideration for several weeks, he had not yet, he said, come to any determination.
The acting Secretary of the Interior has requested the Attorney General to institute suit against the following parties in Montana for the unlawful fencing of public lands: George Watkins, George H. Godwin, John Baringer, Sidney Paget, Carpenter & Robertson, John N. Bean, Niobrara Cattle Company, B. B. Jessup, Columbia Land & Cattle Company, Concord Cattle Company, Green Mountain Ranching Company, Samuel Coffman, J. B. Delworth and David J. Kennelly.

MEDICAL CONGRESS.

At the opening of the medical congress, President Davis called Professor Durante, of Rome, to the chair as vice-president from Italy, to preside while his compatriot from Naples, Professor Semmola, should read the paper of the day. Professor Semmola took the ground that modern tendencies were in the direction of hypothesis and abstract theory, and urged a return to the safer and more conservative, though perhaps slower, methods of experimentation and exact ascertainment of facts. The fundamental scope of medicine, he said, was the cure of disease. The progress to-day in the art was hindered by the tendency to bacterology, which threatened to grow into a

SYSTEM OF ITSELF

instead of becoming or remaining the handmaid and auxiliary of employed medicine. Certainly the microscopic world does exist, the explorations of which brought to light myriads of enemies of mankind; but the solution of problems thus presented to the practitioner was as yet unattainable. Many theories presented for the destruction of the microbe which causes disease would, if acted upon, first kill the patient and then, doubtless, destroy the microbe. Doctors should emancipate themselves from the improved theories of the present as well as the unfounded dogmas of the past. The professor was tendered a vote of thanks for his paper.
The general session then adjourned for the day.

THE TARIFF.

Hon. W. L. Scott, of Pennsylvania, has returned from his visit to the President at Oakview and was seen by a reporter of the Associated Press. When asked whether the tariff and reduction of revenue had been discussed by the President and himself and Secretary Fairchild and Mr. Carlisle, and whether any bill had been agreed upon, he said that this subject, as well as other public matters, had been talked about, and it was the opinion of all that there ought to be a considerable reduction at the earliest possible date after the meeting of Congress, but the manner in which the reduction should be made was considered only in a general way and no details were agreed upon.

THE BONDS.

Acting Secretary Thompson to-day opened the fifth lot of proposals for the sale of four and one-half per cent bonds to the government. The tenders were all rejected as too high.

Ayoub Kahn Driven Back.

TEHERAN, Sept. 7.—Authentic information is received that Ayoub Kahn reached the frontier of Afghanistan some days ago, but was recognized and immediately driven back to Persia. He is now in Ghayn district. It is expected that he will be recaptured shortly.

A Mutiny.

MADRID, Sept. 7.—Reports of a revolution and outbreak of troops in this city arose from a row among soldiers in Montana barracks. The men were forbidden to go out before the regulation hour, and threatened violence to their officers. the mutineers have been punished.

The Plaintiff Wins.

DAVENPORT, Iowa, Sept. 7.—A *habeas corpus* case, which has excited widespread interest, entitled "J. M. Patrick vs. Camille S. McManus," was decided by Judge Brannan yesterday afternoon in favor of the plaintiff. The suit was brought by plaintiff to obtain possession of his child.

Funeral of the Victims.

EXETER, Sept. 7.—The public funeral of the victims of the Theatre Royal fire took place to-day. There were fifty-two caskets containing identified bodies and fourteen containing remains which it was impossible to identify,

A New University.

BALTIMORE, Sept. 7.—An important gathering of Catholics prelates has been in session here to-day discussing plans for a new Catholic university. Washington City was selected as the choice of the majority of the archbishops and bishops in the United States for the site of the university. Plans for the building were presented and accepted and it was resolved to commence work this fall. Rev. Dr. Keane, bishop of Richmond, was elected as first rector of the university. A building committee, consisting of Archbishop Williams, Bishop Keane and Thomas Waggaman, of Washington, was appointed; a collecting committee, including all the archbishops and bishops in the United States, was also appointed. It is said that eight million dollars will be required to build and place the university on a solid basis. Of that amount $700,000 has been secured, including the $300,000 donated by Miss Caldwell.

The Green and the Red.

LONDON, Sept. 7.—Preparations are being made for monster demonstrations at Mitchellstown, Ireland, tomorrow to protest against the prosecution of O'Brien.
The liberal leaders have decided to challenge the legality of the proclamation forbidding the Ennis and other meetings.
Sir William Vernon Harcourt will move a censure against the government on Monday.
The trades congress has adopted a resolution to form a labor electoral association for the purpose of securing an increase of the labor representation in Parliament. Another resolution demands a land reform beginning with such an imposition of taxes as will eventually leave the land in the possession of the people. The congress is now debating a motion in favor of an eight hour movement. Speeches of delegates show strongly the developed tendencies toward a state of socialism.

A Genuine Revolution.

PANAMA, Sept. 7.—The *Star and Herald* says the revolutionary force under Bahons last night surprised and took possession of Port La Union, San Salvador. The garrison was betrayed by two officers. The fight between the revolutionists and the government is reported to have been severe. A thousand government troops left the capital to-day under General Amays, but it will take them two days to reach Port La Union. A general commotion is feared in San Salvador, Guatemala and Honduras.

Dead.

CHARLESTON, Sept. 7.—Ex-Governor William Aiken died to-day at Flat Rock, North Carolina, aged 81. He was Governor of South Carolina in 1844 and a Congressman from 1851 to 1857. He was the largest slave holder in the state before the war and was a successful rice planter. He consistently opposed nullification and secession, and took no part in politics after leaving Congress.

The G. A. R.

OMAHA, Sept. 7.—The Grand Army parade took place to-day. A large number of regular troops and a detachment of artillery from Fort Omaha participated. Cleveland's picture, which was strung across Farnam Street yesterday, was removed early this morning by the parties who put it up.

POLITICAL.

Opening of the Ohio Democratic Campaign—Conventions, Etc.

WORCESTER, Mass., Sept. 7.—Delegates to the state convention of the prohibition party continue to arrive in large numbers and 1,000 delegates will probably take part in the deliberations. Some debate is looked for in some of the platform planks, notably the one relating to

WOMAN SUFFRAGE.

At the prohibitionist convention 188 cities were represented by 925 delegates. W. H. Earle was nominated for governor, Dr. John Blackner for lieutenant-governor, Ames E. Hall for secretary of state, J. H. Kilborn for auditor, and Allen Coffin for attorney-general.
The platform accuses the liquor men of bribing legislatures and murdering their opponents, declares against licensing and local option, insists on the necessity of a third party, demands the repeal of all license laws, the submission of a constitutional prohibition amendment to the people, and asks the legislature to submit the question of municipal suffrage to women.

OHIO DEMOCRATS.

HAMILTON, Sept. 7.—The opening meeting of the state campaign of the democratic party was held here this evening. The first speech was made by Hon. Thomas E. Powell, candidate for governor. Mr. Powell devoted nearly one-third of his time to Governer Foraker and his administration, speaking of what was demanded of the Governor of Ohio, the third state in the Union. He said Foraker's attack upon President Cleveland in his speech of acceptance was unworthy one aspiring to such a high office, and for it he had received condemnation at the hands of private citizens, and from the public press throughout the country. He claimed also that Governor Foraker had

PUBLICLY INSULTED

the four hundred thousand democratic veterans of Ohio by referring to them in his speech as "rebel brigade," "Confederates" and "dirty democrats."
Speaking of the rebel flags, he said Governor Foraker, by his conduct at the soldier's reunion, and especially at Wheeling, had disgusted the best men of his own party. He said the people wanted a governor who would give less attention to a war that ended twenty years ago and more to the peaceful problems of the present and future. He gave facts upon which he based the claim that Cleveland's administration had done more for the soldiers than any republican administration. He said the party which had done so well with national affairs was the party to be trusted with the administration of state affairs.

POWDERLY.

DETROIT, Sept. 7.—John Devlin, United States consul at Windsor, and a prominent knight of labor, recently wrote General Master Workman Powderly, calling attention to the criticisms which have been so freely made upon his policy as official head of the order, and asking certain questions concerning the same. In reply Powderly declares he is a socialist. He says he owes allegiance to the Knights of Labor only; that he has done a man's part in promoting the order's interests; that he has battled against allowing it to become the tail to any kite. He believes in excluding all foreigners brought to this country under contract to take the places of American workmen. This country could support a thousand million human beings, but they must not all come at once.

LABOR CONVENTION.

WILLIAMSPORT, Sept. 7.—The state convention of the union labor and greenback party was held here to-day. The platform of the union labor party, adopted at Cincinnati in February last, was unanimously adopted. Charles S. Keyser was nominated for the supreme court and Judge H. B. Bunker for state treasurer.
PHILADELPHIA, Sept. 7.—The *Times* to-morrow will say:
"General Master Workman Powderly yesterday issued a very important circular to the order every where, "outlining the new policy" which he recommends should be enacted into a law of the order at the next

GENERAL ASSEMBLY.

The new plan is to give to each trade the right to organize a national trade assembly, each national trade to have exclusive control of affairs of its trade, so long as the constitution of the general assembly is not violated. The new local assembly to enter upon no strike until all the assemblies in the national trade assembly have voted on the question and have, by a three-fourths vote, agreed to render assistance. No assistance from the general order to be given until the case is presented to the general executive board and, by them, submitted to the order at large. In case no assistance from the

GENERAL ORDER

is required the general executive is not to interfere. State, territorial, and provincial assemblies to be formed in every state, territory and province in the jurisdiction of the order. In this circular Powderly also advocates the general benefit association to be taken up in the entire order.

Railway Mail Service.

DETROIT, Sept. 7.—The railway mail service representatives concluded their business session to-day. Officers were elected as follows: President, W. B. McKee, Rahway, N. J.; secretary and treasurer, S. K. Burghman, Cramp Point, Ills., and vice presidents from each division. New Orleans was designated as the next place of meeting.

The Lost Children.

JERSEY CITY, N. J., Sept. 7.—Chief Murphy received a dispatch to-day from Chief Crowley, of San Francisco, who states that there is no Locust Valley in the copper mining section of Sonoma Valley, as described by Mrs. Ford, who has lost her three children. There is a Locust Glen, but no man named Bates, who Mrs. Ford declared was mine superintendent, could be found at that place. The Pullman Palace Car Company informed the chief that the berth claimed to have been occupied by the woman was unoccupied.

The New Cruiser.

SAN FRANCISCO, Sept. 7.—Rapid progress is being made on the new steel cruiser, *Charleston*, at the shipyard of the Union Iron Works, and there seems no longer any doubt that she will be completed at the specified time. Her keel has been laid in the main ship slip, and a part of the frame work of her sides is up. The steel plates are arriving daily from Pittsburg. The engines are nearly built.
Though the Cramp Company at Philadelphia has the advantage in the way of proximity to steel works and coal mines, the *Charleston* is further advanced in construction than the *Baltimore*.

The Switchmen Strike.

CHICAGO, Sept. 7.—A meeting of switchmen was held this morning in Packington. Union men were present from 24 roads. A committee was appointed to wait upon the officers of the Chicago, Burlington & Quincy road this afternoon, and demand that the two crews discharged on Monday be reinstated; also to demand of the Lake Shore that they employ no more non-union men in the stock yard. Several Union switchmen have been employed there since the strike and the action of the men to-day virtually resurrects the old trouble. It was unanimously resolved that if both requests were not granted, a strike would be declared this evening. If this is done every road in the city will be involved.

CRITICAL ANALYSIS.
UNIVERSITY OF DESERET,
Salt Lake City, June 8th, 1887.
By carefully examining DeLand's Chemical Baking Powder with the microscope and with chemical reagents, I find that it is free from **Alum, Starch, Flour, Bone Ash, Ammonia and White Earth**; and that it consists essentially of Cream of Tartar and Bi-carbonate of Soda.
The Baking Powder examined I purchased at Barnes & Davis, in this city.
J. T. KINGSBURY, Chemist.
MANUFACTURERS, CHEMISTS, GOVERNMENTS, PRINCIPALITIES OR POWERS
are unable to disprove the Statement on every can of DeLand's Chemical Baking Powder **"Made of Pure Grape Cream Tartar and Bi-Carb. Soda only.** No filling whatever."
☞ CAUTION—Use one fourth less of this Baking Powder, and one half less shortening with all recipes than with other Brands. d
