DESERET EVENING NEWS, SALT LAKE CITY. NOTICE. PROBATE COURT.

BY TELEGRAPH. Last Night's Dispatches. EASTERN. NEW ORLEANS, 10.—In response to the proclamation of Nicholls, to-day is celebrated as Thanksgiving. Service is held in all the churches, and a general holiday is observed. Flags are displayed throughout the city, and to-night the principal buildings are illuminated. The visiting companies from Mobile were entertained at the St. Charles and City Hotels. The Grand Reception Ball given them at the St. Patrick's Hall, to-night, was largely attended. The Polish Legion, consisting of the 1st and 2nd regiments, has been ordered to leave the city for the front. The Governor General at Warsaw has issued the greatest vigilance to prevent the Russian forces from joining the legion. All military operations of the state of siege in Poland, enforced since the insurrection of 1863, will be revoked. The Berlin special states that the Russian forces are in the neighborhood of the leading Polish politicians, at a secret meeting at Leuburg, resolved on the establishment of a recruiting bureau all over Poland, with the hope of raising an army of 80,000. Six thousand have left already for Turkey. The national committee has appointed Count Rzesinski as delegate to Constantinople. The news of the rising of the tribes in the Caucasus is important, and seems to indicate serious trouble for the Russians, because the tribes which have risen are in the immediate neighborhood of the high road from Tiflis to Vladikavkaz, which is the only means of communication between Russia and Trans-Caucasia. The Bulgarian Bagusa special says that a delay in the Turkish attack on the Montenegrin positions is explained by the great want of supplies, ravages of typhus fever, scurvy, and other diseases. The Turkish army is now in Mostar alone. The same epidemics rage in the camp at Scutari. The carrying out of the militia, which includes all male Bosnians and Herzegovinians Mohammedans from fifteen to sixty years of age, meets with stubborn opposition in the rural districts. The wrecked steamer. LONDON, 10.—The Dakota parted at noon to-day, and is sinking. The crew narrowly escaped last night, with the exception of the cook. The War Debate. During the debate in the House of Commons, Gladstone's address on the disarmament of Turkey, by force of arms, and an alliance with Russia for that purpose, Conservatives cried "No," and Liberals cheered. Mr. Gladstone said he was happy to think that it would not be so easy to drift into war at the close of the present debate as it might have been previously. It could not embarrass a government which had already made declarations of a similar purport. Foster's speech was a criticism of Earl Derby's reply, the whole tendency of which was dangerous. The conservative speeches preceding Foster's were principally characterized by a strong anti-Russian tone. Chaplin declared that Russia, to a great extent, was responsible for the Bulgarian war, which occurred last year in Bulgaria, and said that care should be taken to prevent Russia from setting her foot in Constantinople, or interfering with the rights of Bulgaria. It was necessary to sweep the Mediterranean to secure that object. Sir Robert Peel, citing the case of Poland, ridiculed the conjunction of the nations of Russia, civil or religious liberty. He hoped government would not budge an inch from the position they had taken. He didn't fear war, but hoped it would be averted under the able management of the government. Eastern War News. This morning 300 Cossacks crossed the Danube in boats from Galatz to Ghico, and encountered a numerous force of Bulgarian troops. A smart engagement followed, which was unfinished at noon. State of siege will not be proclaimed at Pera. Moukhtar Pasha is at Barder, sixty miles from Erzurum, and the Russian center is awaiting near Kar, and supporting the advance of the two wings from Bayazid and Ardor. The Turkish gunboats bombarded the harbor of Constantine, and the Russians replied. It is reported that they silenced the gunboats and ignited Turkuks on the opposite bank of the Danube. A Vienna correspondent reports that the Turkish bombardment of Ibrail on Wednesday destroyed some large granaries. The ships are closed and the town deserted. A special from Constantinople says that the Russian fleet has extended the time for neutral vessels to leave Russian ports in the Sea of Azov to May 24th. A Vienna dispatch says it is announced that 1000 Cossacks are in arms in the southern provinces of Russia. A telegram from Odessa reports that the Russians have been unable to force the Boghaz-Bass, and are waiting for reinforcements. The London Standard reports that a British expeditionary force of the army service corps was ordered yesterday. This unusual event is taken as an indication that the corps is to be in readiness for special service. Horses have also been inspected and assigned to that the best may at any time be selected for particular duty if required. The War Office has ordered various regiments to train their regimental transport in the same manner as when preparing for autumn maneuvers. A Berlin dispatch says the German president Prince Charles of Romania with 2,000 horses and 38,000 rifles. The Russian government has declared the state of siege in the Caucasus in a state of siege in consequence of the Muscovite uprising. A St. Petersburg correspondent says the approaching mobilization of the Russian army is a result of the late dictated by the increasing jealousy of England. A Berlin correspondent says the idea of neutralizing the Euxine seems to have given rise to an exchange of opinions among the powers. A Bucharest dispatch says the Turkish fire killed three and wounded eight of the inhabitants of Omitzita, and a number of the inhabitants of Ibrail were wounded. Bashi Bazarouk crossed the Danube at Kirovdouk. Rumanian privateers armed with guns and axes, drove them back, killing two. The latest advices from Otteniza assert that two Turkish gunboats were destroyed by the Rumanian fire. A dispatch from the Russian telegraph agency says according to Russian papers, Safvet Pasha has offered to grant autonomy to Bulgaria, and cede to Russia a portion of Armenia, but these rumors are regarded here in London as designed to force the powers to abandon their neutrality. BRITISH AMERICA. Week and Loss of Life. HALIFAX, 10.—The schooner Codewalker, from Halifax for Barrington, capsized last night off Sable. The captain and two men landed in a dory at Barrington. The rest of the crew, thirteen in number, were drowned. A REMARKABLE INVENTION.—Another invention pertaining to electricity, quite as wonderful as the telephone, though, perhaps, less calculated to attract popular notice, has recently been secured by patent in the United States to a Swedish inventor, by Louis Bagger & Co., Patent Attorneys at Washington. The apparatus is an automatic railway signal, which enables the station officials to know the precise position of any train at any time; it gives sound signals to the engineer, and at the station before the train enters, thus enabling switches to be cleared and arranged in time to prevent collision. If two trains approach each other, whether running in the same or opposite directions, the engineers of both the trains receive signals in time to prevent collision, and the station people at the same time automatically informed of the position of both trains. Any train may be stopped at certain points of the road where "contacts" are arranged, the telegraphic communication with the stations at both ends of the route, and two trains may in the same manner telegraph to each other. A complete record is automatically kept at each station of the position of each train and of the exact time it enters or leaves the station. Stop signals may be sent at any time from the stations to any train while moving. The apparatus may be arranged to send stop or danger signals to trains approaching swinging bridges which are not properly locked and fastened. When this invention shall have been generally introduced, railroad accidents will be almost impossible. MINING STOCKS. San Francisco, May 11. German 9 1/2, 7 1/2; C. & C. 4 1/2, 4 1/4; Mexican 5 1/2, 5 1/4; Bullion, 10 1/2; Imp. 4 1/2, 4; Con. 2 1/2, 2 1/4; Union, 2 1/2; Cal., 2 1/2, 2 1/4; S. Nev., 2 1/2.
