**SAN FRANCISCO, 1.**—The National Gold Bank and Trust Company did not open this morning. A crowd assembled before the opening hour, with every indication of a continuance of the rush, and the officers, as a measure of safety, refused to pay checks. The officers vouchsafe but little information, but claim that the bank can pay everybody in full, and will resume as soon as possible, intimating no date, but the bank has been considered weak since the failure of the Bank of California, paying small deposits only in full, and obtaining an extension on larger ones. No excitement is apparent at the other banks.

The funeral of Mayor Otis to-day was largely attended by citizens and public bodies.

**J. W. A. Wright**, grand lecturer of the State Grange, has been appointed by Governor Pacheco, delegate for California, to the National Railroad Convention at St. Louis, November 23.

**ROCHESTER, N. Y., 2.**—Harry Ghaul deliberately shot and killed Joseph Smith, alias Little Smith, at the saloon of Bill Williams, alias Ginger Bill, on Exchange Street, last night. There was a dispute about paying for drinks, and Ghaul was sent for to settle it. He brought a revolver with him, and as soon as he crossed the threshold he shot Smith dead, the ball going through the neck and spinal marrow. Ghaul was arrested.

**NEW YORK, 2.**—A dozen or more small failures were announced yesterday, embracing traders in nearly every line of staples, none of any amount, and the majority came to light by assignments filed in the office of the clerk of the court.

The weather, to-day, could hardly be more favorable for the polling of a large vote, and election day being a legal holiday all the banks, the several exchanges and mercantile houses are closed, giving to down town a Sunday appearance, while the closing of the liquor saloons up town supplies the Sabbath semblance to that section. Those personally concerned in the result of the election seem to be devoting themselves to securing votes, and avoiding quarrels, and in consequence, up till one o'clock, only two disturbances were reported by the police. A number of arrests for attempted illegal voting have been made, among them eight colored men, who registered from House, from Brooklyn, and other places in the State.

**C. B. Conant & Co.**, wholesale coal dealers, made a general assignment yesterday for the benefit of their creditors.

A dispatch from Scranton says that during the Halloween sports in that city, Anthony Scanlon remonstrated with Henry Kelly, both boys, for assaulting the house of the former with stones, and in the wrangle that followed Kelly fatally stabbed Scanlon.

It is understood that railroads running to the West are about to agree on a new and higher freight tariff, to go into effect on the 15th inst., on the basis of 60 cents to Chicago in fourth class freight. Several roads, yesterday, ordered their agents to make no time contracts.

The proceedings of the Third District Court of Utah, in ordering the imprisonment of Brigham Young until nine thousand five hundred dollars be paid by him to Ann Eliza Young, have been brought to the attention of the Attorney General, and will be made the subject of cabinet consideration with the view of determining the exact status of the case. The question presented is whether the arrest of Brigham Young could be made on the grounds claimed by the woman, for the reason that her marriage with Young was illegal, being contrary to the laws of the U. S., and that she cannot take advantage of her own wrong.

Twenty two female clerks have just been discharged from the patent office.

**QUEBEC, 2.**—During a gale and snow storm on Sunday, an accident occurred, by which about seventeen persons lost their lives at St. Famille, Isle of Orleans. The people were principally residents of the Island, returning from market, and were being landed from a steamer in a scow, which capsized, and all on board, with one exception, were drowned; during the same gale, John Campbell, chief officer of the steamer *Canadian*, and a laborer were drowned.

#### FOREIGN.

**LONDON, 1.**—The *Times*, this morning, has a leader, on the utterances of the *Official Gazette* of St. Petersburg, to the effect that steps must be taken by foreign cabinets to strengthen confidence, so as to enable the Porte to fulfil his promises. The *Times* says: "We presume Russia thinks that a conference of the great powers should review the treaty of Paris, and examine into the state of the Turkish Empire. If a merely verbal pressure is all she has in view it can be more safely applied by dispatches than by a conference; if she aims at a more serious intervention it must go so far in order to be effectual that it would raise the eastern question in a peculiarly formidable shape, and England is not prepared to take so immense a responsibility in the present unsettled state of Europe."

The *Times*, this morning, in its financial column, denounces the

scheme for floating 500,000 pounds sterling worth of the bonds of the Keokuk and Kansas City railway.

The *Mark Lane Express*, in its review of the corn trade for the week, says the weather has been more moderate, but there is little chance for field labor in England yet. Samples are in good condition, but the cautiousness of millers has kept the prices at previous rates. At Paris flour was a franc cheaper, while wheat was unchanged. In the provinces wheat is sixpence to a shilling higher. In Belgium, Holland, Germany, Dantzic and Vienna prices were firm, and in the latter market rather dearer. At Odessa there has been scarcely any business because of the pretensions of holders.

**ATHENS, 1.**—Lycurgus, the archbishop of the Syrian Greek Church, is dead.

**PARIS, 1.**—The iron-clad *Magenta*, which took fire at Toulon the day before yesterday, is a total wreck. The explosion set fire to the *Victorine* and *Eclairer*, but the flames were promptly extinguished. A few persons were slightly wounded by the explosion.

**LONDON, 2.**—A factory in Preston was destroyed by fire yesterday, and two hundred operatives thrown out of employment.

Lloyd's representatives examined the eight sailors belonging to the crew of the ship *John Pascal*, burned at sea, and were satisfied as to the general truth of their depositions, and told them they would no longer be detained.

There has been another heavy withdrawal of bullion from the Bank of England to-day.

The King and Queen of Denmark, and their daughter, the Princess Thyra, accompanied by Prince John of Schleswig Holstein Sanderburg Glücksburg, arrived in England to-day; the royal party were met at Dover by the Princess of Wales, and escorted to London. The distinguished visitors will remain till the beginning of December.

Notwithstanding the regular Michaelmas term has been abolished, Lord Cairns, the Lord Chancellor, extended the customary reception to the judges at his mansion to-day.

The steamship *Faraday* has grappled and buoyed the direct U. S. cable.

**LIVERPOOL, 2.**—Daca, Paleologo & Sons have suspended; their liabilities are stated to be half a million of dollars.

**ROME, 2.**—The trial is proceeding in this city, of Giuseppe Luciani, Michele Aronati, Luigi Marelli, Cornelis Farina, Pio Frezza and Salvatore Scarpetti, charged with being concerned in the murder of Raffaele Sonzogno, editor and joint proprietor of the ultra democratic journal *La Capitale*; the assassination created a great sensation at the time, and was by many attributed to the clerical party. This excitement has by no means died out, as may be seen by the fact that the post office sequesters all foreign newspapers containing the trial proceedings. The trial has apparently developed the fact that the murder was committed by Frezza, though the evidence is believed to be insufficient to convict Luciana, who, at one time, was thought to be the real instigator of the crime.

The German and Italian missions here have been raised to embassies.

A Visit to Provo Factory.

SALT LAKE CITY,

Oct. 29th, 1875.

Editor Deseret News:

In going through the Provo factory building I noticed many great improvements since I was there a year ago, and it is very strange to me that our merchants and the public will allow 1,500 pieces of cloth to stay on the store shelves—cloth that would do credit to any eastern factories. The new patent dryer, I notice, will save much labor, dry quickly, and save rotting of cloth.

It is a known fact that the most of the cloth that comes from the east is rotten before it leaves the manufactory, in consequence of so much dressing and being wet so long. At Provo I saw the best dressed piece of cloth I have seen in Utah. The company employ from one to two hundred hands, and I noticed thousands of pieces of cloth in process of manufacture.

The shareholders have reason to be proud of the way in which the business is conducted. The yard was full of wagons waiting to get served with their winter blankets and cloths. In the counting house I saw a thousand different pieces of cloth. If this cloth was sent to a foreign market without the name of Utah on the furrow, it would be considered as coming from the best

manufactory in the country. The water in Provo is well adapted to the manufacturing of the best superfine cloth, and we have reason to be proud of this splendid factory, and the beautiful white blankets and superior cloth turned out.

A YOUNG American girl, six feet high, had just received the Pope's blessing at a reception, and, as she arose from her knees, Pope Plus began to smile at her height and made her kneel again. "Miss," he said, "I shall have to give you a blessing and a halt." And he went on, smiling at his joke.

On Haur of North Adams, sings of Mary and her little lamb:

Was gal name Moll had lam,  
Pleas all samee white as suo,
