THE EVENING NEWS.

Friday, - - - April, 14, 1871.

PRICE OF GOLD,

As Daily by HOOPER, ELDREDGE & Co., Bankers:

SALT LAKE CITY, April 14, 1871.

Buying at $1.00; Selling at $1.00¼.

LOCAL AND OTHER MATTERS.

THEATRICAL.—There was a pretty good house last night and the playing of "Jarno" or, "the Pride of the Fourteenth" went off with even greater *eclat* than on its first presentation, on Thursday night. The wonderfully startling incidents and effects in this drama and the vividness and activity of Mlle Ravell's personations in it have to be witnessed to obtain an idea of them.

To-night M'lle Ravel takes a benefit and a magnificent bill is provided for the occasion. One of the attractions will be the appearance of the beneficiaire in a performance on the tight-rope without the aid of a balancing pole. The Indian drama of "The Wept-of-the-Wish-ton-Wish" and the amusing farce of "The two Bonnycastles" are the pieces to be performed. In the first M'lle Ravel will enact the title role, Mr. George B. Waldron "Conanchet, the last of the Narragansets," W. H. Power "Uncas, a treacherous Mohican" and other characters by the company. Lots of fun will be created by Graham and others in the farce. Altogether it is an excellent bill which, combined with the acknowledged talent of the benefit-aire, should draw a bumper house.

TELEGRAPHIC NEWS.—The following was received by Deseret Telegraph

CEDAR CITY, April 14.

We have, this morning, received the following statement from Seth M. Blair, accompanied with a pig of iron, A No. 1, weighing about seventy pounds, which I think of sufficient interest to send full re-

H. LUNT.

IRON CITY, April 14.

Henry Lunt:—We send you a sample of iron. We are casting from seven to eight hundred pounds of that quality of iron every eight hours. Our furnace, flues, ores, etc., our Superintendent, Bishop D. B. Adams, says, work as well as any he ever saw. Our ore yields seventy-five per cent of iron and is unsurpassed in the United States for quality. We propose to erect a mill immediately and hope in a short time to be able to furnish Southern Utah with her stoves, sugar mills and all other castings. We have discovered a good quality of coal and the company hopes to convince the people of Utah that the iron business will be and is a more profitable and positive one than silver mining.

Yours truly,

SETH M. BLAIR,
Secy Utah Iron Manuf'ng Co.

We are exceedingly pleased to learn from the above dispatch that the Utah Iron Manufacturing Company continues unflagging in their efforts to make the manufacture of that valuable article a success, and wish them good speed in the work. We endorse, without ocular demonstration, the idea advanced by Mr. Blair that iron mines are intrinsically of incalculably more value than silver mines. Iron exists in almost inexhaustible quantities in many parts of the Territory, is easy of access and of a richness not surpassed in any part of the world. All that is necessary to make this resource a means of making this community wealthy is its utilization in the shape of the manufactured article.

"IMPROVEMENT OF STOCK."—For improvement of stock, see advertisement. The "Duke of Northumberland" for ever!

HANDSOME.—The improvements being made on the Salt Lake House, in the shape of an additional story, are approaching completion and give the building quite a handsome appearance.

EDUCATIONAL.—A meeting of the Chancellor, Board of Regents, Professors of the University of Deseret, and others, was held in the Council House this evening. Among those present were Presidents Brigham Young and Daniel H. Wells and Elders George Q. Cannon and Albert Carrington. The principal object of the meeting was to take into consideration the best means necessary for the promotion of education in the Territory.

Prof. Park, as Chairman of the board of inspectors, submitted a plan for the improvement and grading of the schools of this city, which contained many excellent and feasible ideas. Considerable desultory conversation took place with regard to educational matters generally. The idea of levying a suitable tax was favorably viewed.

Professors Park and Morgan, and Miss Mary Cook were appointed a committee to report what studies should constitute primary, intermediate and high school grades.

THAT $500 ORDER.—The finder of that \$500 order on Z. C. M. I. had better read the advertisement in relation to it in next column, and go and get the reward.

HEAVY ON THE CONSTITUTION.—The following is from the Omaha *Herald*:

"The opinion of Chief Justice McKean's defenders is about as heavy on the Constitution as Chief Justice McKean is on law. In the *Republican* the other day he quoted that instrument as follows:

"The Congress shall have power to pass all needful rules and regulations for the government of the Territory or other property of the United States."

"Now Chief Justice McKean's copy of the Federal Constitution may contain such a clause, and we should not be surprised if it did. His expositions of law correspond very well with that kind of a Constitution. The real instrument, however, contains nothing of the sort. The clause which the *Republican's* contributor murders is found in the third clause of Article IV, and is in these words:"

"The Congress shall have power to dispose of and make all needful rules and regulations respecting the *territory* or *other property* belonging to the United States."

"What shall be thought of a court, or of a defender of a court, who is capable of such perversions upon the supreme law of the land? If we do not argue a case that argues itself, if we leave Mr. Justice McKean without the ceremony to the judgment of intelligent men."

WHAT'S THE MATTER? Who's to blame?—A gentleman residing at E. T. [illegible], a subscriber to the EVENING NEWS, called in a day or two since, and stated that he had received only about two copies during the last two weeks. Now there's something wrong in this, it looks very much like pilfering somewhere. The papers are mailed regularly every evening, and we have not the least doubt in the world that they are forwarded from the post office in this city, to their destination; but by some mischance they do not reach it. If the party who appropriates them wants to keep posted with regard to public events at home and abroad, and is so poor that he can not afford to pay for a paper, if he will make his circumstances known we will, just for the sake of trying to make him an honest member of the community, furnish him a copy gratis. Anything to stop stealing.—it is so paltry and discreditable!

STORMING SOUTH.—Bro. Silas S. Smith, of Paragoonah, who arrived in this city last evening from the South, reports a heavy snow storm in that direction. The weather was very rough and the roads were muddy between Beaver and Santaquin, which considerably retarded his progress in traveling. A little damp was very much needed to help the crops along, so the farmers are rejoicing. North of Santaquin it was fine and dry.

A. G. MILLER.—There is a dispatch for you at the Western Union Telegraph office. Call and get it.

Special Notices.

LOST.

Order No. 671, on Z. C. M. Institution, for $500, has been lost. Whoever has found it, and will leave it with D. McKenzie, at Prest. B. Young's Office, will confer a favor on the loser, and be suitably rewarded. d123 tf

WANTED.—A few men, to cut and skids timber. Apply to J. J. Thayn, 1st Ward. d121 tf

SUMMONSES.—We are now prepared to supply Justices of the Peace with Blank forms of summonses. Other Blank forms also for sale at this Office. d58,s104&w-1tf

FACTS WORTH KNOWING.—During a recent trial or comparison of ordinary Baking Powders in New York, with DOOLEY'S YEAST POWDER, it was shown conclusively that better results were attained with from one-half to two-thirds the quantity of the latter, than with any other in market. The secret of the success lies in the care with which DOOLEY'S YEAST POWDER is prepared, and its entire freedom from substances that are injurious to the system.

We challenge comparison at any and all times. The verdict of the consumer is always in our favor. For sale by all Grocers. d121 3 eod w11 1

If you have a discharge from the nose, offensive or otherwise, stopping up of the nose, at times giving nasal twang to voice, partial loss of the sense of smell, taste or hearing, feel dull and stupid, have pain or pressure in the head, take cold easily, you may rest assured that you have Catarrh. Thousands annually, without manifesting half of the above symptoms, terminate in Consumption, or Insanity, and end in the grave. R. V. Pierce, M. D., of Buffalo, N. Y., is the proprietor of Dr. Sage's Catarrh Remedy—a perfect specific for Catarrh; which he sends to any address, post paid, for sixty cents. Sold by most druggists everywhere. d121-3eod w11-1

A FEW MORE WORDS!

Having obtained the Agency of the CELEBRATED

SMITH'S AMERICAN ORGANS,

WE desire to inform the public that by the judgment of all competent musicians, these instruments are unsurpassed by any ever manufactured. We are aware of the arrogant tone assumed by certain agents, but we know that any disinterested person who examines the American Organ will smile at the efforts to depreciate them.

The Smith Company has made and sold 35,000 instruments. They make none under $125, leaving to others the business of putting forth the little fifty dollar organs; and they consume more black walnut lumber, the indispensable casing of the best instruments, than any house in America. Their annual production of organs is not exceeded by any establishment whatever. And this business they have built up by the faithful labors of twenty years, without drumming for testimonials, and without making baseless claims to honors on either side of the water. It is the perfection of workmanship, the excellence of materials, the smooth and solid tone, the prompt touch, and the facility for expression that give to **The American Organ** its deserved rank. But there is

A VERY EASY WAY

To determine the truth of our claims as well as of others. Let those who are fond of music come and hear for themselves. We pledge our credit upon the statement that we can sell a better instrument for the price than can be had in Utah. We are willing that our instruments should be subjected to the most severe tests, and if they will not stand upon their own merits they must fall.

We refer by permission to Professors Orson Pratt, jun. and A. Farnt.

PEOPLE'S VERDICT

Over Half a Million sold and in use!

4,000 made and sold per week

SINGER'S

New Improved Silent

FAMILY SEWING MACHINES

ARE

The Best in the World,

Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable.

THE SINGER

NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.

It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Corded, Tucking, Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator*, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*

The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which is liable to break and to miss the stitch.

In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines drive their Shuttles, in a race, thus causing great wear, and *requiring oil* soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The **SINGER** is the

Oldest Practical Sewing Machine,

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the *Very Latest Invention and Improvements*. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those *who utterly fail on other Machines.*

SINGER'S

New Manufacturing Machines

Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are applicable to *all kinds of heavy and light manufacturing in Cloths, Leather, etc.*, and run in the most perfect and reliable manner without trouble to the operator.

HAVE ARRIVED!

A Full Assortment of those

Beautiful and Unrivaled MACHINES.

(The numbers on which show a manufacture of between **Five and Six Hundred Thousand.**) Consisting of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who can not pay all down, we will sell on

EASY MONTHLY INSTALMENTS

So that all may possess one of these *Blessings.*

For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.

We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.

We having been so fortunate as to secure the

General Central Agency,

For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.

We Guarantee every Machine we sell to give entire satisfaction.

THE SINGER

BUTTON-HOLE MACHINE

Is the only Practical one in the World.

OTHER SEWING MACHINES REPAIRED on Reasonable Terms.
