complete silence in the all but empty courtroom EXCEPTION RESERVED.

Then Mr. Richardson of Haywood's "We desire to reserve an exception,"

he said, "The exception will be noted," de-clared Judge Wood, nodding to the clark

clared Judge Wood, nodding to the clerk of the court. "We wish to say that we are ready for tris!," interposed Mr. Darrow, also of coursel for the defense. "If there is nothing more today then, gentlemen, the defendant will be re-manded to the custody of the sheriff." The case will go on tomorrow.

QUEER ENCUSE ACCEPTED.

Immediately after the adjournment of Immediately after the adjournment of court one of the jurors of the regular panel was excused for the term. This involved a reassembling of counsel. The juror was Ben Eastman, the treas-urer of the Bolse Gun club, who stated that a state shoot was to be held in Bolse commencing tomorrow under the auspices of the club and asked to be ex-cused. cused

Mr. Clarence S. Darrow supported the Mr. Clarence S. Darrow supported the application, and as Mr. Borah had no objection, Judge Wood ordered the de-fendant again brought into court, and when Haywood had been scated, the formal excuse was offered and granted. Judge Wood announced that two or three members of the regular panel to-morrow morning would offer logal ex-cuses. The planel as it stands at pres-ent consists of 28 jurors.

FORRESTER ARRESTED.

"Geologist for Utah Fuel Company Must Answer to New Mexico.

Deputy United States Marshal L. H. Smyth yesterday arrested Robert Forrester, on a complaint sworn to in the federal court of New Mexico, charging a conspiracy to commit an offense against the government. Forrester is the geologist for the Utah Fuel company and is under bonds on an indictpany and is under points on an indice-ment returned against him by the federal grand jury in April, in con-nection with the alleged coal land frauds in southeastern Utah. The accused was taken before Com-missioner Charles Baldwin, where he field a cash bond of \$1,500 for his ap-pearance to answer to the charge in the territory of New Mexico.

V. S. PEET TO LECTURE.

· · · ·

Will Tell How Utah is Misrepresented By Ministerial Lecturers in East.

V. S. Peet will deliver a lecture in the Forest Dale meetinghouse tomor row evening on the subject of "How Utah Is Misrepresented." During the address he will exhibit duplicates of the stereopticon slides the Presbytertans have been and still are showing in the east. These pictures, thrown on the screen principally by Rev. Nutting and Fink, are "selected" inasmuch as they show a tumble-down log cabin they show a tumble-down log cabin which is described as a typical Mor-mon home, a typical Mormon school-house or any other libel that may suit the facty of the 'reverend' lecturer. Mr. Peet's lecture, to say the least, should be interesting, if not instruct-ive.

J. A. GREENEWALD APPOINTED.

ls Named as Inspector General on the Governor's Staff.

Orders have been issued from the adjutant general's office stating officially what was given in last evening's "News" relative to the resignations and request for refirement in the light battery. The orders also officially announce the appointment of J. A. Greenewald as inspector general on the governor's staff with the rank of colonel. This is considered in the guard as a just recog-nition of Col. Greenwald's services in the Utah national guard, with which he has been actively connected for nearly 10 years. He was formerly lieutenant and captain of the signal corps, and later lieutenant colonel of the First in-fantry.

HARRIS ARRESTS SEVEN.

C. C. BAILEY.

County Clerk Eldredge Nails Another Lie of the Organ Of the Crooks.

TRIBUNE'S GREAT

The story in yesterday morning's Tribung to the effect that there had been a "frame-up" in the drawing of furors for the April term of the disrict court, contains about as little fruth as Thibune articles are wont to hold. It was a wild, senseless fabrication from beginning to end. It was sought to be shown that "Honest George Sheets" and innocent Jim Donaldson we're to be made the victims of a jury composed for the most part of Mor-mons, who had been unlawfully selected to railroad Sheets and Danoldson to the state offson. It was stated that Sheets tate prison. It was stated that Sheets ad been saved from the slaughter by he ruling of Judge Armstrong, but that cor "Jim" is still at the mercy of the packable research torus

poor "Jim" is still at the mercy of the specially prepared jury. The jury drawn for the April term of court was drawn no differently in any respect from those of any other period, and the Tribune scribe knew that fact perfectly well. County Clerk Eldredge, when asked in regard to the matter to-day, made the following statement: "It is an absolute failschood that the county officials whose duty it is to draw the jurors for each term of court put themselves out in the least to be present at the drawing of jurors for the present term of court, during which it was exthe jurors for each term of court put themselves out in the least to be present at the drawing of jurors for the present term of court, during which it was ex-pected that Chief of Police Sheets would be tried. The fact is that the officials are always present in person and con-duct the drawing of the names from the jury box for each term of court. Dur-ing my four years in office. I have al-ways been present at the drawings. The county attorney, county treas-urer and county clerk act in this mat-ter under the direction of the court. The Hist of jurors is made up an-nually by a jury commission composed of two men appointed by the four judges of the district court. The com-missioners this year are Ed L. Sloan and Christopher Diehl. When they completed their list the names were placed in the jury box, which was scaled under the direction of the court. When the court ordered the jurors drawn for the present term of court the box could be no way of doing the without breaking the seal. Thus in the box could be assily detected as there would be no way of doing it without breaking the seal. Thus it will be seen that there is ab-solutely no way of tampering with the names in the box after they are in the jury commission-ors, who each year make up the jury is for one of the graphere with the names in the box acter they are i laced there by the jury commission-ors, who each year make up the jury is. Persons w2:0 are so ready and willing to make accusations of this character against public officials, are generally the ones who would do such a thing as this if they had the op-pertunity."

the cost of more than \$20,000,000, have There was quite an exciting time at enabled the combination to cut off 12 Bingham Junction last night when hours from the time consumed by other transcontinental linse in running from Deputy Sheriffs Beckstead and Auderthe Atlantic to the Pacific coast. It on attempted to arrest John Fleming the Atlantic to the Patient his time several hours more, possibly another 12 hours, thus cutting the time between the coasts to 24 hours less than it re-quired to cross the continent 10 years and Thomas T. Moore, whom they suspected of being responsible for a number of burglaries and other crimes in that vicinity recently. The men got the drop on the two deputies and, with drawn revolvers, made them throw up their hands and relieved Deputy Sher-iff Beckstead of his gun. Deputy An-derson backed off with his hands in the tem from Ogden to the Pache coast. The greatest inconvenience experienced in traveling across the continent is the hot, flying sand of the semi-arid wastes. For years this stilling concomitant to rapid transit across the praties has been abolished on the main line of the Union Pacific the entire distance of about 1.000 miles from Omaha to Og-don by balagting dona 10 or more

in Beckstead of his gun. Deputy An-derson backed off with his hands in the air and succeeded in getting away. He then went to town and organized a posse of about 20 men, who returned with him and assisted in running the criminals down after a chase lasting over four hours. After the capture of the men they were brought to the county fail by the two deputes. Beckstead and Anderson had been watching the two men for some time and had determined to arrest them on suspicion of being implicated in the burglaries. About dusk last night they went to the camp of Fleming and Moore and without pulling their guns told them that they were wanted. The men in a flash had their guns out and covered the deputies and commanded them to throw up their hands. The or-der was complied with and Beckstead's sum was taken away from him. An-derson backed away and when he reached a safe distance broke and ran back to town. The men, after relieving Beckstead of his fun, started on the run towards the river bettem and the den towards

reached a safe distance broke and ran back to town. The men, after relieving Beckstead of his fun, started on the run towards the river bottom and the deputy kent watch of them until the posse arrived. He was then supplied with another gun and joined in the pursuit. For about five miles the chase kept up at a lively pace and frequent shots were exchanged between the robbers and the posse. Finally the men gave out and took refuge behind a steep bank where they opened fire on the posse. The members of the latter spread out and began to circle the men after which they commenced to close in, at the same time keeping up the firing. They finally made it so hot that the fellows surrendered and were disarmed and placed under arrest by the deputies. On the way to the county jall they refuse to make any statement as to their actions in the mat few days but the offleers are certain that the ren

-********************** World Wags Well AFTER BREAKFAST POSTUM

been abolished on the main like of the Union Pacific the entire distance of about 1,000 miles from Omaha to Og-den by ballasting done 10 or more years ago. The ballast to be used is known as Sherman gravel. It is a peculiar dis-integrated granite, which, so far, has been found only on Sherman hill, the highest point which the railroad reaches in crossing the continent. Scientists declare that Sherman hill once was a mountain of solid granite, which has be-come decomposed so that it has crum-bled into a gravel-like formation. The small stones are almost adamatine in their hardness and are so uniform in size as to require but little screening. It is reported to be the purpose of the united roads to continue this bal-last across the Nevada desert and all along the line of the Southern Pacific to the western coast. This will be a work of stupendous magnitude, when it is remembered that the distance is up-ward of 2,200 miles to Los Angeles and Portland, by way of San Francisco in each instance. This ballasting, it is understood, will be done as rapidly as the work of double-tracking proceeds. The understanding suggests why the Union Pacific has piled up its millions of surplus, and, as a result, travel across the continent will become de-void of all the unavoidable discomforts the trip has involved. The outlay will run into the mil-lions, but the officials are said to believe that, in view of the success which has attended the ballasting of the road be-tween Omaha and Ogden with this ma-terial, and the lessened cost of opera-tion already apparent in the double-tracking now completed along several sections of the line, together with the hetter satisfaction that will come to the tracking now complete in the ubide-tracking now complete dalong several sections of the line, together with the better satisfaction that will come to the public, the expenditure will prove pro-fitable in the end.

ON TO PIOCHE.

Laying of Steel Commenced on the New Branch Line.

Laying of Steel Commenced on the New Branch Line.
J. H. Burtner, district freight and Route, returned this morning from a trip over the line as far as Las Vegas, Nev. Mr. Burtner reports construction work on the Ploche and Callente branch of the road as being in full branch of grading is practically fulled and a force of men has started in to lay the rails. "Four miles of track have already been laid," said Mr. Burtner, and the first train to go into service on the new line was put on Saturday. The train consisted of an elie driver. The principal construction work yet to be done is the building of bridges, and when this is finished the product will be teady for use. When the road is completed it will open up all the extensive Pioche mining district, as well as the Bristol and De Lamer districts, and will no doubt prove to be one of the best paying. The train to go the service on the law will be ready for use. When the road is completed it will open up all the extensive Pioche mining district, as well as the Bristol and De Lamer districts, and will no doubt prove to be one of the best paying in the engineers have been over this portion of the road, a large force of the protection. It is proposed to construct steel truss bridges with control when the washen the velocided to a great with washouts. Several steam how als work protecting the invest with washouts. Several steam howels and old drivers and many in the wash of the avoided to a great when the recent disastrous experiments by dumping in thought will be avoided to a great when the recent disastrous experiments by dumping in thought is progressing as rapidly as posted.
