In spite of the octer ton, however, the market was very feverish and price changes after the first spurt became wide and erratic. There was much doubt in the street as to whether the decision of the holders of Nothern Pacific to be easy with the shorts meant more than a temporary truce between the conflicting interests. Many securi-ties have sold at their high record figures recently on the belief that they would enjoy much benefit from one or the other of the vast consolidation schemes for which different railroad managers were working and some hesi-tation to buy was caused by fear that the hostilities developed during the Northern Pacific contest might delay indefinitely or prevent altogether the plans for extensive combinations of railroad capital under closely central-ized management.

CHEERING NEWS.

At about 10:20 the cheering news was given out that the stock exchange had officially announced the successful passing of all clearing sheets and the honoring of all checks given by exchange members yesterday. This an-nouncement effectually disposed of the rumors current yesterday that certain houses would be unable to meet their obligations on yesterday's contracts. The trading became so feverish The trading became so feverish around 10:30 that it was very hard to follow the price changes, but there was notable absence of the rush to sell which was the distinguishing characwhich was the distinguishing that teristic yesterday morning. Amalga-mated Copper held firm around 110, Southern Pacific at 47: Atchison at 70, the preferred at 93, Manhattan at 10919; Brooklyn Rapid Transit at 75 and Louisville around 96%. Steel on large transactions kept close to 42. Rock Island fell back from the opening price of 150 to 147. Continental Tobacco was strong, selling at 491/2, Pennsylvania sold at 145 and Texas and Pacific at 41. NORTHERN PACIFIC ADVANCES.

Southern Railway recovered to 29 and Canadian Pacific touched par. There was a sale of 100 shares of Northern was a sale of two shares of Northern Pacific at 151. At 10:45 the market showed a quieter gone with prices hold-ing steady. There was heavy selling of the Steel stocks said to be for Chicago account, but it seemed to be well taken and the price fluctuated from 41 to 42 for the common and from 91 to 92 for the preferred. About 11 o'clock the general list became stronger, Union Pa-

cific rising from 91% to 94 and Missouri Pacific sold up to 101. There was a further clearing of the financial atmos-phere, when it was announced that an order obtained in the supreme court by Arthur Lynburg directing of the supreme court by Arthur Linburger directing certain persons to show cause why they should not be restrained from trading in Northern Pacific would not be served, the agreement to settle at 150 having

accepted as satisfactory. The transactions on the exchange continued quiet but with a firm under-tone up to 11:30 and then the further

reassuring news was given out that J. P. Morgan & Co would renew at 6 per

cent all loans made by them yesterday. A. A. Houseman & Co. announced that they would renew also all of yesterday's loans and would lend \$1,500,000 additional at 6 per cent. At 11:45 the entire list was strong.

ORDER TO SHOW CAUSE.

Judge Gildersleeve said today that the order to show cause in the Nor.hern Pacific case was issued by him at his house last night on the application of counsel for Bernard Smith,

The plaintiff, Smith, claimed to have sold 200 shares of Northern Pacific "short" to a broker. He alleged that the broker was acting for parties who held all the stock at the time, and that the party to whom he sold the stock knew it was appossible for the plaintiff to carry out his contract to deliver it. Under these circumstances, Smith asked that the person to whom he sold the 200 shares of stock be enjoined from enforcing his claim for its delivery

The usual bond was to be given by the plaintiff to indemnify the defend-ants from loss should the injunction not be continued, was not filed and no steps to serve the preliminary injunction on the defendants were taken.

A more reassured feeling was evident on the stock exchange as the day wore on and there were no scenes of excitement.
