

A VERY CLOSE CALL FOR LIFE.

N. A. Naylor, of Studebaker Bros., Meets With Frightful Accident.

JAW BR KENIT PLACES

Was Unloading a Dray when a Spring Wagon Fell on Him—Was Thought to Be Dead.

N. A. Naylor, shipping clerk, employed at Studebaker Bros., met with an accident this morning in which he had a marvelous escape from death. As it was he was very seriously injured. He was engaged in unloading one of the large drays, when a spring wagon fell upon him, violently forcing him down between the wagon and a heavy crate. The driver, who witnessed the accident, thought that Naylor was surely killed. He had to remain in the painful position in which he was pinned for several minutes before he could be extracted. When he was released, it was discovered that his jaw was broken in two places, and that the left side of his face was badly cut. Blood flowed in streams from his wounds and he presented a ghastly sight and it was thought that he would live but a short time.

Dr. J. S. Richards was summoned, and so the Holy Cross ambulance, and he was conveyed to the hospital. The doctor dressed his wounds and made him as comfortable as possible. Although he suffered great pain, there are now no fears entertained as to his recovery.

The doctor says that it is a most remarkable thing that he was not killed.

DUBOIS ON TOP AT POCATELLO.

Democratic Convention Reconsiders Action of Yesterday.

WILL NAME A SENATOR.

Dubois Scores a Great Victory and There is Little Doubt But He Will Be the Nominee.

[SPECIAL TO THE "NEWS."] Pocatello, Ida., July 20.—The Democratic State convention this morning reconsidered the vote by which it last night voted against the nomination of a senator. The vote on reconsideration was 125 to 120. A substitute for the original substitute was then adopted by a vote of 122 to 113. This instructs the conference committee to consider the senatorship one of the offices to be apportioned, but does not make any declaration on the subject of nomination.

This result is a complete victory for Dubois, and there seems little doubt that he will eventually be nominated for senator.

At yesterday's session the Democratic convention decided to not nominate a senator in convention, thus defeating the wishes of the Dubois people. This was done only through a combination of the Steinbergs and Hawley forces. This created trouble and it was said that the silver Republicans and Populists would control the Democrats with an ultimatum which will demand the recognition of their choice for United States senator or an acceptance of the alternative of the nomination of a separate ticket by the Silver Republicans and Populists. This conference committee was appointed by the Populists.

At Large—D. H. Andrews of Ada, and H. F. Samuels of Shoshone. First District—M. J. David, Shoshone. Second District—W. M. Morgan, of Latah. Third District—M. H. Jacobs, of Ada. Fourth District—W. B. Ballantine, of Blaine. Fifth District—L. J. Maurer, of Fremont.

The Silver Republicans also effected their permanent organization. J. J. Bennett, of Idaho county, was made chairman, with J. L. Niday, of Ada, as secretary. A conference committee of eighteen was selected, and the convention recessed, subject to the call of the chairman.

A sub-conference committee to do the actual work, is made up of C. J. Bassett, of Blaine; J. C. Chubb, of Kootenai; George Lage, of Nez Perce; G. C. Patton, of Bear Lake; F. E. Fogg, of Idaho; M. R. Cahoon, of Fremont; and C. E. Arney, of Bannock.

A working sub-committee of the Democrats is made up of J. W. Reid, of Nez Perce; C. H. Harvey, of Blaine; Frank Martin, of Ada; J. C. Brady, of Kootenai; R. P. Chittin, of Elmore; J. J. Puise, of Idaho; Phil Everett, of Fremont.

[SPECIAL TO THE "NEWS."] Richfield, Utah, July 20.—After riding all night, R. Taylor arrived here at 7:30 o'clock this morning in quest of a doctor for Hyrum Jamison, who yesterday, at Loa, accidentally shot himself with a shotgun in the lower part of the abdomen. The unfortunate man was at the time of the accident engaged in cutting hay, having with him on the mower his gun for the purpose of shooting rabbits and in attempting to lift the gun by the barrel, the hammer was pulled back and the gun accidentally discharged, taking effect in his bowels and perforating the intestines badly. Dr. Blackburn put the bowels back in place and sewed up the wounds. It seems that there is but little hope that Mr. Jamison will recover. The unfortunate man is twenty-eight years of age and but recently married.

[SPECIAL TO THE "NEWS."] Officers Fire Three Shots After Fleeing Men Yesterday Afternoon. People living in the vicinity of Eighth South and State streets were startled yesterday afternoon upon hearing the reports of three shots fired in rapid succession. The shots were fired by Deputy Sheriff W. H. Goldman after John C. Wilkinson of 45 east Third South street, and Frank Parker of Aberdeen, who were fleeing from him and Deputy Dwyer. The men were reported to have stolen 200 pounds of wool last Tuesday evening from C. L. Miller and W. D. Parks at Murray. The same night a quantity of scrap iron was stolen at Sandy. The thefts were reported to Sheriff Howells yesterday and Dwyer and Goldman went out to work on the case. Dwyer located the wool at the Utah Junk company's place, where it had been disposed of for 5 cents a pound. A description of the man was obtained and the officers started out a still hunt. As the officers approached the junk store Wilkinson and Parker, who had a load of scrap iron which they were trying to dispose of to the junk dealer, took to their heels, when Deputy Goldman pulled his gun and fired three shots after the fleeing men. Wilkinson threw up his hands and surrendered, but Parker continued, and made good his escape. He is still at large. Wilkinson was locked up in the county jail and the load of scrap iron is in charge of the sheriff.

offers a first, second and third prize of \$50, \$30 and \$20 for the best decorated purple window on Elks' purple day at Seattle, Thursday, August 9th. A hundred dollars will also be awarded as a special prize for the best inside or outside decoration.

The Rio Grande Railroad company, with a capital stock of \$2,000,000, incorporated last Tuesday by E. T. Jeffery, J. W. Gilluly, J. F. Valle, C. W. Waller, J. H. Andrews, George Coppel, C. C. Beaman and H. T. Wilson as directors, and will at once begin laying track in Southern Colorado. Six lines are contemplated, and the roads when completed will be run in connection with the Denver & Rio Grande.

There is coming into prominence on account of the activity displayed there in railroading and mining. That State has some very enterprising citizens who do not hesitate at the expenditure of thousands of dollars upon enterprises which will benefit the "Belt of the Mountains." And then, they are not entirely unselfish—they know every dollar will all come back to them, bringing several acquired acquaintances.

A record-breaking run was made on Tuesday morning by freight train No. 19, in charge of Conductor Flumy. The engine was the 1114, says the Cheyenne Tribune, with Engineer Urick up. The train consisted of twenty-five loads, aggregating 805 tons in weight, and was hauled from Sidney by Cheyenne a distance of 100 miles, in three hours and fifty-three minutes. The schedule time for the run is five hours and fifty-five minutes, a gain of two hours and two minutes in the single run.

Meers, Raperoff, Calvin and Eccles of the Cheyenne River, who have returned from their trip of inspection of the Utah & Pacific and country south of that line's southern terminus. Some of them tell of the prospects of Pioche and the country about there generally. Of course, the feeling capacity of any area is always considered in new railroad construction. Pioche at present is a back number, but put the old camp within easy reach of a railroad and both the mining camp and the steel high way will feel the beneficial results. That Los Angeles extension will be built—and no one need acquire many gray hairs between, the time of this proposition and the actual opening of the line over the route that will bring Salt Lake a couple of hundred miles nearer the Pacific ocean.

Speaking of the movement of 400 "Mormons" from Utah to the Big Horn Basin of Wyoming, a railroad man from the East who is much of an observer, in recent interviews said: "The Mormons who are migrating to Wyoming are not poor people. There is not a member of the new colony who has less than \$1,000, and many are worth much more. They represent the best class of Mormons. They are well educated, and have great colonizers. Frugal, of exemplary habits and good morals, they will, I feel sure, convert the Big Horn Basin into one of the garden spots of America. They have 200 scrapers at Fort Belknap, and are on their way to the great irrigation ditch. This will be thirty miles long, twenty-five feet wide at the top, fifteen feet wide at the bottom, with a depth of five feet. When finished it will irrigate 20,000 acres of land. It will cost about \$40,000. Although their present contract with Wyoming includes only 20,000 acres of land, it is their desire to obtain a great deal more. On the north bank of the Shoshone is a vast table-land, about 100,000 acres. They hope to irrigate and develop this land, too. The Burlington railroad is now building an extension into the Big Horn Basin from Toluen, Mont., and this will greatly assist the colonists in developing their holdings."
