

Treasury in connection with the Secretary of War, to examine into and report to Congress the amount of claims made by certain Western States and Territories for the reimbursement of expenses incurred in repelling the Indian hostilities since 1881, created quite a little excitement. The bill includes the claims of the States of California, Colorado, Nevada, Texas, Kansas, Oregon, Nebraska, and Idaho and Washington Territories. It was opposed by Cannon, of Illinois, Hiscock, of New York, and a number of southern members. The points made against the bill were, first, that it was opening the door for the claims of every State in the Union for expenses incurred in calling out their militia in cases of riot, etc., and second, that no estimate was ever given of the possible amount of money involved. After a long and bitter wrangle and exhibition of a good deal of temper, the bill was put to a vote; the result showed—ayes, 64; noes, 32, and the point of "no quorum" was raised. After a call of the House, showing that more than half the members were absent, an adjournment was had, an agreement being, however, reached first that a vote is to be taken on the measure the first thing to-morrow morning. It is doubtful if the request of two-thirds vote can be obtained for the measure to-morrow.

OMAHA, 20.—The officials of the Union Pacific, Burlington & Missouri and Atchison, Topeka & Santa Fe met at Kansas City to-day to fix the passenger and freight tariffs from the Missouri River and Colorado, to take effect July 1st, on which day the Burlington opens up for business from Chicago to Denver.

General Superintendent Clark, of the Chicago, Milwaukee & St. Paul Railroad, is in the city, and says that the Iowa extension of that road will be completed to Council Bluffs inside of ten days, and will open for freight business to the Missouri river at this point, the latter part of July, and will begin a through passenger business the latter part of August or the first of September.

CHICAGO, 20.—It is authoritatively asserted that Vanderbilt has purchased a very large interest in the stock of the Chicago, Milwaukee & St. Paul Railway, as an investment.

The amount is about the same as that which he has in the Rock Island. In connection with this there is an unauthenticated rumor that he has bought between one and two millions of the St. Paul, Minneapolis & Manitoba and that his present trip to St. Paul and Winnipeg is for the purpose of looking over the property.

DES MOINES, 20. — Mail reports from the stormy country represents the damage there by the cyclone of Saturday night as very serious. Several buildings were swept away at Kelly. All the buildings on the farms of J. A. McFarland and Wm. Templeton are obliterated. Further east all the buildings on sixteen farms were swept away. Two school houses in Nevada were demolished. The Story County farmers who lost everything, goods, furniture, stock and horses are: B. J. Everett, L. D. Tooker, B. F. Chapman, Geo. H. Emptock, L. D. Thompson, Benton Carrington and Mr. Whiting. Those who suffered considerable loss are Ira Baker, H. E. Matthews, Ed. Pierce, Wm. Matthews, Geo. A. Halley, S. J. Alderman and A. V. Morris. The school-house in Albany was carried away. All the growing crops in the track of the wind were destroyed, and cattle, horses, hogs and poultry were carried long distances and deposited dead. Mrs. L. D. Thompson's little girl was killed, and her own arm broken. G. W. Emptock had a leg broken, his wife and child were injured internally. In Boone county a number of farm houses and barns were carried off, and an eight year old boy of Christian Peterson's was killed.

The list of wounded at Malcomb were: Mr. Hack, Mr. Akers and three children; Mr. Suckloth and wife, Mr. Rogers, Mrs. Wetherbee, O. Myers and son, John Duffer's wife and child, Mr. Anders and wife, Mr. Blood, wife and three children, three of Mr. McClure's family, and three of Standeucker's family.

An impromptu mass meeting of citizens of Des Moines was held at the Opera House to-night; and over \$4,000 was reported raised to-day for the relief of Grinnell and other storm stricken vicinities in Iowa.

WASHINGTON, 21.—The Senate committee recommend the confirmation of the nominations for the Utah Commission.

DES MOINES, 21.—The reports from Story County indicate further

destruction west of Kelly. Death of Mr. Clark and daughter at Garden Prairie, Turner's house and barn destroyed and his horse carried a mile and dashed to pieces; Roberts lost his barn and three horses; Geo. Lewis' house was wrecked and he and his daughter held to a wire fence; Irving's barn and other buildings were wiped away. All accounts seem to indicate that the tornado originated in Boone County. Having been seen but little west of there, Prof. J. K. Macomber, of Agricultural College, put its commencement in the southeast corner of that county. After damaging the barn of Mr. Lewis it divided, one branch going north one and a half miles, tearing Mr. Clark's house to splinters. Half a mile further on the houses of Turner and Roberts were completely wrecked. South of Ames eight head of cattle were twisted up and torn to pieces in a wire fence. Wickham's house in this vicinity went next, then McFarland's, and half a mile further Templeton's.

The width of the funnel, McComber says, was 300 feet, tearing trenches in the ground from one to three feet deep, and fifty feet in length, in sod or hard road indiscriminately. Thought these trenches may have been plowed by wreck of houses. The south branch started at Garden Prairie, Boone County at 7.30, and was south of Ames at 7.45, at Grinnell at 8.45 and 9.15, and at Mount Pleasant at 11. Many describe the storm-cloud as like a long rope swinging back and forward, and reaching from the sky to the earth.

CLEVELAND, O., 21.—More men left the union and went to work to-day at the Cleveland rolling mill. The number of strikers resuming their places is small, but the company officers report that applications are made daily, that skilled workmen from other cities, presumably strikers, are arriving, while a few men from here have gone elsewhere seeking employment.

Hoboken, N. J., 21.—Long shoremen, 300 in number, employed at the Hamburg and Bremen docks, quit work this morning.

Buffalo, 21.—The typos connected with the newspaper departments of the daily papers generally, quit work to-day, demanding an increase in compensation from 30 and 33 cents per 1000 ems to 33 and 35 for day and night workers especially. No definite refusal to pay the increase or compromise has been made. The places of the strikers will be filled soon.

MONTREAL, 21.—Officials of the western section of the Occidental Railway, are notified that the possession of the line will be transferred to-night to the Canadian Pacific Railroad Company. Eaker, of Ottawa, will be the new manager. No change will be made in the staff of the road.

Some Things I Have Noticed.

I have noticed that when a horse gets up he gets up forward first and jerks his hind parts after him, while a cow will get her rear half up all right and draw her forward half up in place; also, when drinking, a horse will draw up water rapidly with every breath; the cow, on the contrary, will suck in one continuous draught as long as she can hold her breath.

I have noticed that sheep and goats are both butters, yet a sheep has to run a few steps backward before he can butt, while the goat has to raise himself on his hind legs to execute the same movement. One is called a buck sheep, the other a battering ram. They are the only two animals I know of whose butts ends are in front.

A squirrel can run down a tree head first. The cat and the bear must get down tail first, if left to themselves.

If your dog finds his way into your cellar and sees a nice steak, he will steal it and run out, but if your cat gets in and finds a steak, she will sit right down by it and eat what she wants, if not surprised before.

I have noticed that a leather strap buckled about the height of yourself around a young tree, in a few years will be away beyond your reach, but if nailed at the same distance will never get any higher; only the outer shells run up.

Although turkeys are much more swift of foot than geese, yet in a week's drive a flock of geese will come in ahead; for geese you can drive at night, especially moonlight nights, but when evening approaches turkeys will roost.

A man can stand on one foot in the middle of a room and pull on his shoe, while a woman must lean up against something to accomplish the same thing.

A man holds a needle in his left hand to thread it, but a woman holds it in her right.

In one thing I think everyone will agree with me: Dress a man as a woman dresses and you will freeze him to death. But I guess I won't tell all I know at once.
