New Tuberculosis Serium.

Chicago, Dec. 3 .- The Tribune says a new serum, which, it is claimed, will show the presence of tuberculosis long before it would be possible by the mi-croscope, the X-ray or other methods now in use, has been invented by Dr. A. R. Jenkins of this city. He does not A. A. senking of this city. He does not claim to have discovered a new cure, but that the use of serum aids com-petent physicians to detect the pres-ence of the disease in its earliest stages, and in time to effect a cure by good san-itation and plenty of outdoor exercise. It shows whether or not a case is true consumption, no matter how early or light the attacks.

Sixty cars will be required to transport it to its destination in the East. It is the great-est sale of wool ever made in the West,

Increasing Power of Steam.

Berlin, Dec. 3 .- Prof. Josse of Berlin Increasing the power of steam engineering. He conducts steam generated in an ordinary boller into a cool-ing tank and then treats it with suling tank and then treats it with sul-phuric acid, increasing its power from one-third to one-half. A factory at Charlottenburg has been using the in-vition for three months and has ob-tained 56 per cent above the indicated horse-power of its engines.

An Ohio Man's View.

Washington, Dec. 3 .- The opening week of the session in the House promises to be crowded with stirring events. Usually no actual business is transacted until after the holiday recess. This year it will be different. At the very threshold of the session wil come the contest over the admission of B. H. Roberts of Utah, and later in the week the House will plunge into an important and possibly a protracted debate on the financial bill which was prepared by the Republican leaders last

spring at Atlantic City. In the Roberts case the Republican leaders have adopted a plan of pro-cedure which is designed to prevent Roberts from taking the oath of office until after the charges in connection with his alleged polygamous prac-tices have been investigated by a spe-cial committee. Mr. Taylor of Onio will make the objection to the administering of the oath to Mr. Roberts to-morrow, and will offer a resolution to refer his case to a special committe

There is considerable scattered objection to this method of procedure on the ground that the refusal of the House to permit a Representative-elect bearing credentials to be sworn in upon unproved charges would create a bad precedent and might result in chaos at some future time when political feel-ing ran high. But there are several ing ran high. But there are several precedents for this course in the case of members charged with disloyalty af-ter the war, and these will be used in support of the procedure.

Every member of the House has been bombarded with petitions in the Rob-erts case and there uudonbtedly will be a large majority, without regard to be a large majority, without regard to party lines, in support of the plan out-lined by the Republican leaders. Ow-ing to the time which will be consumed in the Roberts case tomorrow, the drawing of seats, which usually re-quires several hours, probably will be restreaded unit? Tuesday postponed until Tuesday. The announcement of Vice President Hobart's death wil be made before the Roberts case is disposed of, and the House will adjourn out of respect to his memory. The drawing of seats and the reading of the President's message will occur Tuesday. Tuesday night the Republicans will caucus on the financial bill. It is the intention of the Republican leaders to make this a caucus measure, and pass

Wednesday. The first week in the Senate will doubtless be marked by considerable lethargy as usual. On Monday the new senators will be sworn in, but beyond this nothing will be done. The receipt of the President's message will be post-

poned for a day, out of respect to the memory of the late Vice President. Tuesday little will be done beyond the receipt of the message, immediately after which, according to the present program, an adjournment will be had to give the Republican senators an opportunity to hold a caucus over the reorganization of the committees. There is unusual inter-est in Mr. Quay's case, and both his friends and opposing cenators are

McConnellsville, O., Dec. 3,-Hon. John H. Abbitt, who represented this district in the Ohio senate for years as a Republican, is home after spending a year in Utah, as a member of the Ute Indian commission. Ex-Senator Abbott says:

"I am in favor of giving Congress-man Roberts his seat, because I know him to be morally a pure man. Roberts was a member of the Constitutional Convention in Utah which prohibited polygamy in the future. He was one of polygamy in the future. He was one of the most active advocates of the aboli-tion of polygamy. He did not believe, however, it would be right for men who had been led by a wrong religion to take unto themselves wives to cast them all off save one when polygamy was abolished. He believed that those who had more than one wife should care for them as before, and sustain them in the relations of matrimony into which they had entered.
