CAR MEN JUMPED FOR LIFE.
The car of gravel caught up with No. 122 just opposite the Wilson hotel. As the crash came the car crew jumped. Young Archie Cameron tried to get Mrs. Chapman to jump with him, but she was apparently paralyzed with fright. Cameron jumped and escaped without a scratch. The car pursued by the fast crossed East Temple street at an estimated speed of 25 miles an hour. Opposite the Cullen the trolley jumped the wire and crashed against the arm of a pole. The effect of the somewhat check on the speed of the runaway, however, the car took no break and the speed became hair-raising. At First West, Mrs. Chapman made her way to the footboard and clung to the grip bar as though making up her mind to jump. For a block she rode undecided. Twice the heavy gravel car bumped the passenger viciously. Just opposite the Henderson company a scorching hot rock with a terrific impact and the aged lady with a scream was thrown ten feet on to the paved street. She lay in a heap as though dead.

WITH CURRENT REVERSED.
In the meantime car No. 112 was coming up from the depot. Motorman Orson Bills saw what was coming and he, too, stopped his car and called on his passengers to jump. The who were on board did so and the next minute No. 112 was going west with current reversed. Across the railroad tracks flew the three runaway cars. The first to reach her was A. C. Topkins, who, with two of the bookkeepers, did all in their power. Then followed a young man, with a pistol, and a telephone to a doctor. After frantic minutes later in the person of Dr. Bowser, Dr. Richards, the company surgeon, followed a few minutes later. After a hasty examination, which revealed a dislocated shoulder, the lady was carried to the ambulance which had arrived and taken to the Holy Cross hospital.

OLD LADY PICKED UP.
By this time willing hands had tenderly picked up the apparently dead form of Mrs. Chapman and carried her to the office of the grocery company. The first to reach her was A. C. Topkins, who, with two of the bookkeepers, did all in their power. Then followed a young man, with a pistol, and a telephone to a doctor. After frantic minutes later in the person of Dr. Bowser, Dr. Richards, the company surgeon, followed a few minutes later. After a hasty examination, which revealed a dislocated shoulder, the lady was carried to the ambulance which had arrived and taken to the Holy Cross hospital.

THE AGED PASSENGER.
Mrs. Chapman lives with her daughter at 425 east Second South street. She was shopping early this morning and at 1:40 took the car for home. The car had reached State street when the motorman observed a runaway car coming towards them. It was a car of a train of cars filled with gravel that the construction car had hauled up a short while before. It had broken down in the middle of the street and was thundering in a cloud of dust towards the passenger. The only hope of preventing a head-on collision was to jump the passenger and beat the runaway.

A RACE FOR LIFE.
The car men warned the two passengers, one of whom was Mrs. Chapman, to jump out. But she could not. She was frightened to the point of petrification and clung like grim death to the seat. While the car men, with the runaway car bearing down on them, were trying to stop the runaway car, they were also trying to stop the runaway car. The car men were trying to stop the runaway car. The car men were trying to stop the runaway car.

THE WILD PLAT CAR.
The "wild" car was one of two that were loaded with gravel and were going up the grade eastbound on the South between Eighth and Ninth streets. The car was loaded with gravel and was going up the grade eastbound on the South between Eighth and Ninth streets.

GENERAL SMASHUP.
There were four passenger cars and a construction train involved in the crash. The construction train was in charge of J. M. Jones, an old-timer in the Utah Light & Railroad company here for three years. The first car was numbered at 122 and was carrying a load of gravel. The second car was numbered at 112 and was carrying a load of gravel. The third car was numbered at 102 and was carrying a load of gravel. The fourth car was numbered at 92 and was carrying a load of gravel.

RAW WHAT WAS COMING.
After the car broke from the over-looked East Temple street, a young man at the front of the car jumped out and attempted to jump into the car. The car was going to the right and the young man was going to the left. The car was going to the right and the young man was going to the left. The car was going to the right and the young man was going to the left.

Governor Wells, Mayor Morris and Senator Bamberger Take a Hand in the Movement, With the Result That Success Came to Those Who Have Been Working So Hard For the Project.

The store employees of Salt Lake are sure enough going to have the weekly half holiday that they have craved so long. This was made possible this morning by Z. C. M. L. coming into the agreement to close on noon each Wednesday from now until the end of August, excepting those weeks in which the Fourth of July and the Twenty-fourth occur. This restriction is to prevent a half-holiday and full holiday coming in the same week.

EIGHT BODIES BROUGHT TO SURFACE.

Divers Discover a Deep Hole in The River Partially Filled With Victims.

568 HAVE BEEN RECOVERED.

Estimated That There Are Missing From Steamer Slocum Three Hundred and Thirty.

New York, June 18.—A diver who today renewed the search for victims of the steamer General Slocum disaster found a deep hole in the bed of the river practically filled with bodies. Within an hour after the search was begun eight bodies had been brought to the surface and when he was forced to abandon work for a time because of the swift current, he stated that between 20 and 30 bodies still remained in the hole.

The diver was searching along the river bottom and had reached a point near the foot of the sloping lawn on North Brother Island where the bodies of the first victims of the tragedy were laid last Wednesday, when he found several bodies lying together. At first the diver supposed there were no more than half a dozen in the pile, but upon removing several he found a great hole in the river bed. He says that no less than 20 more bodies will be found when the tide again turns and permits a resumption of work. This number, he says, may be greatly exceeded. One of the bodies taken from the water today was that of a woman, wrapped or entangled in a large American flag.

After the lapse of three days since the disaster, the most carefully collected data show that 568 bodies have been recovered. The bodies were taken from the water today was that of a woman, wrapped or entangled in a large American flag.

FAIRBANKS FOR VICE PRESIDENT.

Will Not Ask for it and on Call of States Indiana Will Not Name Him.

SAID CONGRESSMAN HEMENWAY

American Derby Interfered With Politics in Republican National Committee.

Chicago, June 18.—Politics, even though it did concern a national convention, was in second place today when the great majority of the delegates who were in the city, and particularly with the men who came into the city this morning. The greater number of them had just two questions to the hotel clerks. They were: "Where can I check my grip?" and the other was "How do I get out to the Derby?"

The rooms of the national committee were practically deserted save for a few clerks who were there to attend to necessary work, but the members of the committee were conspicuous by their absence. Senator Fairbanks, one of the first to put in an appearance and remained but a short time, saying as he left out: "I don't know whether they knew it before I told them, but they know it today and I think it would be somewhat difficult to obtain a quorum if we had any business to transact."

Congressman A. Hemenway of Indiana made the most specific statement today that has yet been made regarding the desire of Senator Fairbanks for the vice presidency. "He will take the position," said Congressman Hemenway, "but he will not ask for it, nor will he express a desire for it. He does not think that there should be a scramble for the office, and he will only say that he will accept it if he has been selected for it."

more than one ballot would be necessary to nominate him whoever he might be.
The Philippine delegates were jubilant when told that there was an excellent chance of their being seated as delegates. They were strongly of the opinion that their hands held a good right on the floor of the convention as had the men from Hawaii, and were decidedly pleased when informed that the national committee held the same view.

HAWAIIAN DELEGATION.
George R. Carter, chairman of the delegation from Hawaii, said: "There are some things that the people of the Hawaiian Islands would like to obtain in the way of special legislation but they are hardly matters to bring before a national convention and I do not think that we have any special plank to offer to me as though the plank would be about the same as that adopted by the Philadelphia convention. Conditions have not changed materially in the last four years, and what applied then would be as good at the present time as far as I can see." During the day but few delegates put in an appearance and the situation with one was the situation of all. All of them were for Roosevelt, none of them were exactly what he wanted for vice president, and nobody had a new plank for the platform.

HITT'S CAMPAIGN.
It was expected that headquarters would be opened today at the Stratford hotel by Congressman Hitt of Illinois, who is candidate for vice president. Owing, however, to the fact that Mr. Hitt is in Washington, it was set out to do is generally believed. The friends of Gov. Yates claim that he has a clear working majority of 14 votes and that he will without question defeat Senator Culver for the chairmanship.

A few members of the Iowa delegation put in an appearance during the day. The prominent men of their state will not be here until Monday, when Senator Allison and Gov. Cummins are expected.
DELEGATES ARRIVING.
It is not expected that the great number of delegates will be here Monday morning. The majority of the rooms at the hotels have been engaged with this understanding. The number of visitors who have come in advance of the convention proper, is smaller than at any national convention for a long time. The hotel keepers ascribe this condition to the settled condition in the convention program which promises excitement only in the matter of the choice of a vice president, and not a great deal of it in that direction.

AMBASSADOR PORTER.

Decorated With Grand Cross of Legion of Honor.

Paris, June 18.—President Loubet has conferred upon the American ambassador, Gen. Porter, the Grand Cross of the Legion of Honor, which is the highest grade of that historic order. It is an honor rarely bestowed even on chiefs of state and ambassadors, and it is the first time it has ever been conferred on a representative of America. The Grand Cross is the highest of distinction from a foreign country, even of Congress, that action in the matter will wait the authorization of that body.

The American ambassador called at the American embassy today and personally presented him with the superb insignia of the Grand Cross. It consists of a wide, silk band, worn across the breast, having an enameled gold cross at the hip, with an elaborate silver star to be worn on the right breast. Mr. Delcasse accompanied the presentation by an earnest expression of the high personal esteem which M. Loubet and himself felt toward the American republic.

The Grand Cross of the Legion of Honor. These consist, first, of the chevalier; second, officer; third, commander; fourth, grand officer; and fifth, grand cross. The latter is the grade worn by M. Loubet and has been conferred only a few times in recent years. That the American ambassador should have been singled out for this notable honor is considered to be a personal tribute to him and another evidence of the cordial sentiments of the French government toward America.

Banquet in Honor of Americans.

Lisbon, June 18.—Minister of Foreign Affairs Lima and Marine Minister Gouveia gave a farewell banquet last night in honor of the American fleet. The banquet was attended by Admiral Parker and his staff, the captains of the American vessels, American Minister Bryan and the Portuguese admirals and captains.
The fleet will sail today for Gibraltar enroute for Athens.

A GREAT BATTLE IS EXPECTED SOON.

Gen. Kuropatkin Assembling His Forces at Hai Cheng in Anticipation of One.

FOR RELIEF OF PORT ARTHUR.

Russians Were Allowed to Select Their Own Battleground and Were Defeated.

OUTGENERATED BY THE JAPANESE

Stakeberg's March South Was for Purpose Creating a Diversion—He Is Now Marching North.

Gen. Kuropatkin's Headquarters in the Field (via Pusan), June 18.—Gen. Kuropatkin is assembling forces at Hai Cheng. A great battle is expected within a month.
The Russians again in their attempt to relieve Port Arthur, were permitted to select their own battle ground and again greatly misjudged the Japanese numbers and the disposition of their forces, and again were outgeneraled.

A CONCERNED MOVEMENT.

St. Petersburg, June 18, 1:40 p. m.—It transpires that the simultaneous raid of the Vladivostok squadron and Gen. Stakeberg's march southward were the direct outcome of a plan agreed upon by Viceroy Alexieff and Gen. Kuropatkin at Mukden immediately after the battle of Kin Chou, to relieve the tension at Port Arthur. The authorities apparently are satisfied with the results of Stakeberg's mission, he having compelled the dispatch north of detachments of the third Japanese army, commanded by Gen. Notsu, delaying the siege at that extent, while at sea the raid of the Russian squadron has rendered the further transport of troops from the Japanese main land impossible.

The admiralty has no direct news from the Vladivostok squadron and has not intimated what its further mission is. The papers are all rejoicing at its exploits, the Novoe Vremya describing the raid as a marvel of dash and pluck.

The war office has received important news regarding Gen. Kuropatkin and the reason why he is at Su Yen with three divisions of about 30,000 men and with the reserves. But the dispatches, dated yesterday, do not mention his advance. It is believed Kuropatkin really contemplated combined operations to cut off and pocket Stakeberg, but that he delayed from a repulse, requires the approval of Congress, that action in the matter will wait the authorization of that body.

The Russian Minister Delcasse called at the American embassy today and personally presented him with the superb insignia of the Grand Cross. It consists of a wide, silk band, worn across the breast, having an enameled gold cross at the hip, with an elaborate silver star to be worn on the right breast. Mr. Delcasse accompanied the presentation by an earnest expression of the high personal esteem which M. Loubet and himself felt toward the American republic.

RUSSIAN LOSSES.

St. Petersburg, June 18, 1:42 p. m.—About 1,100 men, wounded at the battle of Vafangow, including 55 officers, have reached Liao Yang. The total Russian losses are about 2,000 men.

Gen. Stakeberg's force is marching north, the railroad being unable to transport more than a few thousand men.
Special dispatches say the Russians at Vafangow had 43 battalions against 44 Japanese battalions. The Japanese had superior artillery, having more than 200 guns.

SECRETARY SHAW.

Well Satisfied With Prospect of Fair's Financial Success.

St. Louis, June 18.—Leslie M. Shaw, secretary of the treasury, visited the world's fair today and expressed upon President Francis of the exposition. The representatives of the press, Sec. Shaw stated that the much exploited tale told in regard to advertising the world's fair was not sent by him with any idea of criticizing or reflecting upon the methods of the exposition office. He expressed satisfaction at the prospect for the financial success of the world's fair, as indicated by the amount of the first payment made on government loan, and said that the payment was larger than he had expected.

Survivors of the Hitachi.

Nagasaki, June 18.—Thirty more survivors from the transport Hitachi have arrived at Hakata, 70 miles from here, and it is probable that more survivors have reached the adjacent islands. The authorities are reluctant about the extent of the losses.
The governor of Nagasaki has officially thanked the British consul here for the service rendered by the British steamer Dunbar, rescuing survivors of the Hitachi.
