

ers; there are others who can judge him. Some of us are too much inclined to look upon these men as enemies, when really they are our friends. Should we feel that we are better than our neighbors? Rather let us try to do them good than injury. Some of us think that our Teachers are of very little importance. I will tell you how I regard them. If the Teachers do not come to visit me as often as I think they should, I do not like it very well. When they do come, I acquaint my family with it, call them together, and then tell our visitors that we are all under their jurisdiction, ready and anxious to hear from them the words of eternal life. That is how I feel towards the Teachers, and in the same manner I respect all the Priesthood in the various positions they occupy. Shall I assume to dictate those who are above me? No, never. Will you? That is for you to say, not for me. It is well that we reflect upon these things, to pray for our brethren in the priesthood, pray that the spirit and power of their office and calling may rest upon them and that they may be led, and be able to lead others, in the paths of life.

These are some of our duties, Latter-day Saints, and these are some of my feelings on these subjects. Let us then seek to do right, and take a correct and proper course in all things; and, if all things do not work always according to our ideas and notions, never mind, leave these things in the hands of God, he will direct and overrule everything for the welfare of those who do right. "No man can harm you, if you be followers of that which is good." It is for us all to take a course that we may secure the favor and approbation of the Almighty, that we individually may be led by him, having his spirit always with us. Then if the Presidency be under the guidance of the Almighty, and God direct the Priesthood through them in all its ramifications, carrying out his will in the building up of Zion on the earth, then we shall be one with them and one with God. This is what we are after, and may God help us to carry out his purposes and designs.

In relation to the events to come, they will be developed just as fast as we are prepared for them, and I fear faster. Will God operate upon the Lamanites and fulfill his word to the Jews? Yes. Will he gather the ten tribes? Yes. Will he establish his name and kingdom in the earth? Yes. Will he overthrow the wicked nations that fight against him? Yes, and he will continue to extend his principles and power "until the kingdoms of this world shall become the kingdoms of our God and of his Christ." God will have his laws honored, and in his time his decrees must be consummated, until every tongue confess and every knee bow to him who is the Lord of all. These are things which will most assuredly be accomplished.

God has given us our little labor to perform, which is associated with these matters. Let us go forth as men, in the humility and strength of our Father, and do the work he has given us to do, seeking continually in all earnestness for his blessing to guide us, and he will direct us in the path of righteousness, and by and by we shall overcome and triumph, and with the celestial spirits who have gone before, we shall join in singing "Glory, honor, might, majesty and dominion be ascribed unto him who sits upon the throne and to the Lamb, forever." Amen.

BRUSSELS, 15.—The loss to the Union Du Credit Bank, by the defalcation of the president, is estimated at four millions of francs. The absconding president left a letter explaining his operations, and said he had intended to commit suicide.

VIENNA, 16.—Servia has signified her willingness to make reparations for the insult to the Austrian flag in the forcible detention and searching of the Austrian mail steamer.

ROME, 16.—The parliamentary commission on the revision of the penal code, unanimously voted to report in favor of abolishing the death penalty.

CONSTANTINOPLE, 16.—The Hellenic minister has communicated to the plenipotentiaries a memorandum to be submitted to the plenary conference, stating the grievances of the Greek population of Turkey. The memorandum is couched in moderate terms. The terms are friendly to the Porte. The Turkish armaments are being vigorously pressed forward. The troops are marching to the Danubian and Asiatic frontiers, and there is great activity at the arsenal.

LONDON, 17.—A Calcutta telegram to the Times says the accounts of famine received from Madras are worse than those from Bombay; large numbers of starving people are flocking into Madras. The first death from starvation was there. Much distress existed in the country districts.

The Standard's correspondent at Alexandria telegraphs that it is stated on good authority that the Khedive is dissatisfied with his American military officers, and has notified them that their contracts will not be renewed. The policy

of this step is questionable, as a renewal of the Abyssinian war is considered imminent.

A dispatch to the Herald says the Port has put in a claim for indemnity against Russia, to reimburse for the additional outlay caused by her aid to Servia, which prolonged the insurrection. Russia, on the other hand, demands that Turkey shall pay the cost of the military occupation of Bulgaria. Until the plenipotentiaries and envoys extraordinary have communicated with their governments nothing can be done, hence there will be no meeting of the preliminary conference for a few days. The Indian authorities, it is said, have telegraphed the home government that if England withdraws her support from Turkey the Mussulmans of Hindoostan will certainly become obstreperous. If this should prove true, it will be a source of no small embarrassment to the English government in the negotiations at Constantinople, and may have more influence in determining its eastern policy than all the Bulgarian meetings and party conference on the eastern question that have been held in England during the last two months.

A Vienna correspondent says the Russian General Nikitine has started for Servia to take command of the Russian troops and act as plenipotentiary. The soldiers belonging to the active army of Servia, who are estimated to number sixty-seven thousands have been ordered to rejoin their colors by the 22nd of December.

Russian journals say only eight thousand Russian volunteers remain in Servia. Nearly all South Russian telegraphs are so damaged by frost as to be useless.

ALEXANDRIA, 17.—Captain Gordon, the African explorer, embarked for Brindisi, on his way to England.

MONTREAL, Que., 17.—A fire last night at Lapruri Village, near this city, destroyed the post office, telegraph office, hotel and one store. A man named St. Marie, lost his life by falling; loss \$20,000.

Ogden Junction, Dec. 12—

We understand from the secretary of the company that firing up of the furnace at the Iron Works in this city will not be resumed until next spring. We regret that such is the case, for we fondly hoped to see the blaze from their fires light up that neighborhood on many a dark night throughout this winter.

The town for the past two days has been very lively. The people from the settlements adjoining have crowded into the city, and teams loaded with produce and other articles of merchandise have lined our streets. Business is improving and business men appear more cheerful than they have done for some time past.

Ogden Junction, Dec. 13—

We regret to announce a new case of small-pox. The lady who has contracted the disease, returned only a few days ago, from Eden, Ogden Valle, where several persons were afflicted, and two or three deaths occurred.

Logan, December 11th.—Yesterday, the 10th inst., Father Moses Hayball, aged 84 years, died very suddenly at his house alone. His complaint is supposed to have been inflammation of the bowels. He had been a resident of this Territory for twenty years, and was a very good man. Also, on the same day, a man by the name of James Allen, was driving into town near the U. N. R. R. depot, when his team became unmanageable by one of them slipping his bridle, and as he got out to adjust it they ran away from him, and went tearing up the street at a fearful rate. Martha Robbins and her daughter were in the wagon and were thrown out and slightly injured; the wagon was broken all to pieces. P. C.

Bishop Layton, of Kaysville, two years ago planted a quarter section of land with lucerne, north of Kaysville, on a dry bench. It has never been artificially irrigated, and no ditch has ever been run on the land. Yet during the past season he raised from that land three hundred tons of lucerne hay and ten tons of seed. The seed was sold

at a fair price to S. W. Sears, of Salt Lake, who has had the honor of shipping the first car load of lucerne or Alfalfa seed to California, from whence we used to get all that kind of seed we used in Utah. The seed was acknowledged superior to the California growth.

Mr. Joshua Williams made 9,000 lbs. of cheese, at his factory in Weber County, in two months and twenty days, last summer, has sold it all, had orders for 30,000 lbs. and expects to make 40,000 lbs. next season. He says the Morgan County officials are permanently "fixing" the bridge at Peterson's, over the Weber river. Hoppers swarmed into that place at the close of summer, but a great quantity of fall wheat has been planted, and lots of plowing done, and nearly every hopper egg which has been examined since the frost set in, has been found to have perished.

Provo Enquirer, Dec. 13—

In the Second Judicial District Court, held at Beaver, Alonzo Colton was tried on an indictment for polygamy, and convicted.

"I enclose one dollar; your price is 25 cents, but the medicine to me is worth a dollar."

"Send me five boxes of your Pills."

"Let me have three boxes of your Pills by return mail, for Chills and Fever."

I have over 200 such testimonials as these, but want of space compels me to conclude.

For Cutaneous Disorders, and all eruptions of the skin, this Ointment is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

HOLLOWAY'S PILLS invariably cure the following diseases—

Disorder of the Kidneys.—In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the regions of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief when all other means have failed.

For Stomachs Out of Order.—No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity occasioned either by intemperance or improper diet. They reach the liver and reduce it to a healthy action; they are wonderfully efficacious in cases of spasms—in fact they never fail in curing all disorders of the liver and stomach.

HOLLOWAY'S PILLS are the best known in the world for the following diseases: Ague, Asthma, Bilious Complaints, Blisters on the Skin, Bowels, Consumption, Debility, Dropsy, Dysentery, Erysipelas, Female Irregularities, Fevers of all kinds, Fits, Gout, Headache, Indigestion, Inflammation, Jaundice, Liver Complaints, Lumbago, Piles, Rheumatism, Retention of Urine, Scrofula or King's Evil, Sore Throats, Stone and Gravel, Tic-Doloureux, Tumors, Ulcers, Worms of all kinds, Weakness from any cause, etc.

Important Caution.—None are genuine unless the signature of J. HAYDOCK, as agent for the United States, surrounds each box of Pills and Ointment. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the manufactory of Professor HOLLOWAY & Co., New York, and by all respectable druggists and dealers in medicine throughout the civilized world, in boxes at 25 cents, 50 cents and \$1 each.

There is considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each box.

The Cleveland Herald says, "Miss Ada Dyas, the actress, was walking in Fourth Avenue, New York, one day in the year 1874, when Dominick Killman, a boy eighteen years of age, snatched her pocket book and ran away, but was caught and sent to Sing Sing for five years. All the interest that attaches to this affair now springs from the fact that a large fortune has just fallen to the imprisoned Dominick, and that his sister is trying, in view of the moral purity which always comes with great riches, to have her brother pardoned. It has further been discovered

since fortune smiled on Dominick that he is a lad of unusual mental powers, as well as a young man of refinement and education, who only needs a sufficiently well-filled pocket book to adorn the social circles. He should without question be pardoned." If a criminal wants to be pardoned, he should go into the crooked whiskey business.
