

BOMB THAT KILLED GOV. STEUNENBERG.

According to Orchard's Alleged Confession it Was Manufactured in Denver.

MAKING OF LEAD RECEPTACLE

Plumber Remembers It and Gives Description of Man That Tallies With That of Orchard.

Denver, Feb. 28.—According to Harry Orchard's alleged confession, it was learned today that the bomb which killed ex-Gov. Steunenberg was killed at Caldwell, Idaho, Dec. 30 last, was manufactured in Denver.

Harry Orchard, the alleged assassin of ex-Gov. Steunenberg of Idaho, it is said, confessed to having secured the lead receptacle in which the explosives were placed from Charles T. Roach, a plumber, at 1651 Court place, in this city. The shop is diagonally across the street from the furniture store of George A. Pettibone, one of the suspects now under arrest in Idaho. Mr. Roach said today that he recollected having made a lead receptacle and gave a description of the man who ordered it, which tallies with that of Orchard.

TRIED TO SHOOT GOVERNOR.

Boise, Idaho, Feb. 28.—It has been definitely decided that the investigation of the case against Moyer and his associates for the murder of former Gov. Frank Steunenberg shall begin before the grand jury at Caldwell tomorrow. It is not known whether Harry Orchard, who is said to have confessed to his part in the crime, will be taken before the jury.

In the statement made by Gov. Gooding respecting the confession made by Orchard, it was stated that the prisoner had told of two unsuccessful attempts to slay the former governor. One of these was an effort to shoot him at his home a week or so before the murder. Prior to that, a bomb was laid in the pathway taken by the governor. It was arranged with a wire stretched across the path. The intended victim, however, unconsciously stepped over the wire and never knew how close he had been to death. That was the same bomb afterward used for killing him.

The bomb was like the one laid for Judge Goodard in Denver, having a bottle of sulphuric acid and so arranged that the cork would be drawn by a pull on the wire. When the successful attempt was made a long fish-line was attached to the wire, the bomb being tied to the inside of the infernal machine.

VALENCIA DISASTER ENQUIRY CONCLUDED.

Seattle, Wash., Feb. 28.—Federal Commissioners Murray, Smith and Burwell have concluded their investigation of the Valencia disaster and today made public a portion of their report containing recommendations regarding aids to navigation needed along the Pacific coast. The members of the board say that there should be efficient lighthouses and fog signals established at various points, communication established by telephone and telegraph. The commissioners will also recommend a life saving station at Cape Flattery to be furnished with an ocean going tug and a patrol system maintained.

Another station will be recommended between Flattery and Gray's harbor. The commissioners are today making a public test of the tide life preserver. The special commission appointed by the president to investigate the Valencia wreck and recommend proper aids to navigation on the North Pacific has made public its preliminary report, a copy of its suggestions having been sent to Secy. Metcalf. The following recommendations, it was considered, should be made immediately, without waiting for the completion of the final report:

First—Changes in the equipment at Tatoosh Island such as will insure establishments of three light and fog stations of highest degree of efficiency.

Second—A lightship and fog signal station on Forty Fathom bank, at the entrance to the straits, with a light of the first order, to be taken up in connection with the Canadian government.

Fourth—A first class life saving ocean going tug or steamer, officered and manned by the most skillful life savers available, at Neah bay, with the best possible appliances of surf and life boats, equipped with wireless telegraph. In conjunction with this telegraph and telephone line skirting the coast from the station at Gray's Harbor through Tatoosh to Neah bay and then to the nearest town on Puget Sound. A line of wire to be run along the trail to be kept open for travel and marked as to location also with telegraph and telephone huts at intervals.

FOOD—NOT MEDICINE.

If all the treatments for consumption were put in book form it would make a pretty big library. But after all there has been little improvement over the old treatment of rest, fresh air, sunshine, plain, wholesome food and Scott's Emulsion. The latter supplies nourishment that cannot be secured in any other way, and after all, nourishment is what the consumptive needs first.

A gain in weight, however slight, is a long step toward improvement. If there is the least thing to build on Scott's Emulsion will enable the patient to make that gain. People have gained a pound in weight from a bottle of Scott's Emulsion—it's an exception when they don't.

We have seen Scott's Emulsion take hold of a patient and bring about a change for the better inside of a week. It always helps even the most stubborn cases.

SCOTT & BOWNE, 409 Pearl Street, New York.

Fifth—Immediate installation of wireless stations already planned by the navy department.

Sixth—Question of recommendation of a new lighthouse district under consideration.

Seventh—Also under consideration recommendation of additional light-houses from Gray's harbor to Cape Flattery.

APPROPRIATION FOR ARMY.

House Spends the Day Considering Details of Its Provisions.

Washington, Feb. 28.—The details of the provisions of the army appropriation bill occupied the house of representatives throughout the day. Several pages of the measure yet remain to be considered.

Throughout, members of the appropriations committee, headed by Chairman Tawney, were in controversy with Chairman Hull and the members of the military committee. Each contest was an effort either in the direction of reducing or restricting the amounts carried in the bill. In some cases the appropriations committee was successful and in others the military committee.

Incidents of the day included an unsuccessful effort to recognize the heroism of two San Francisco firemen who lost their lives in the recent fire on the transport Meade. Mr. Kahn of California presented an amendment to pay their widows \$5,000 each, and many members approved, but a point of order was fatal to the attempt. Mr. Hull retracted his former criticism of Minister Rockwell on the question of the return of the United States' share of the boxer indemnity. Provision for more than 300 clerks employed in the staff and at army division headquarters went out of the bill on a point of order by Mr. Tawney, who developed the fact that there was no authority of law for their employment.

NEGRO CONFESSED CRIME.

Shreveport, La., Feb. 28.—After repeating the Lord's prayer with a negro preacher who visited him in his cell today, Chas. Coleman, the negro condemned to be hanged tomorrow for the murder of Margaret Lear, made a confession. He admitted shooting the girl, but denied that he criminally assaulted her. He also admitted having murdered a negro named Helton at Hinson Springs, Tex., two years ago.

Gov. Blanchard, according to advices received here, left New Orleans tonight for this city to sign the death warrant.

MIDSHIPMEN RESIGN.

Washington, Feb. 28.—Midshipmen John H. Lofland of Iowa, and Earl W. Chaffee of Michigan, two of three midshipmen dismissed from the naval academy for hazing and rebelling by special act of Congress last year, have tendered their resignations from the service. That of Lofland has been accepted and the other is awaiting action by Secy. Bonaparte.

CURZON DISAPPROVES POLICY.

London, March 1.—Lord Curzon of Kedleston, former viceroy of India, has written a long letter to the Times, expressing his strong disapproval of the decision of John Morley, secretary for India, in the matter of supremacy of military or civil authority in India. Lord Curzon contends that Mr. Morley only overruled the military party on a

small and relatively unimportant issue, and that Mr. Morley's solution is substantially the same as that of Mr. B. Morley, the former secretary for India, in protest against which Lord Curzon resigned, and that it "creates a military autocracy and irresponsibility of the military element in India which may lead to fatal results."

E. BEN ANDREWS WANTS PEOPLE TO SPELL HIS WAY.

Louisville, Ky., Feb. 28.—The subject of reformed spelling was discussed today by the department of superintendence of the National Educational Association, and upon motion of Dr. E. Benjamin Andrews of the University of Nebraska, a resolution was adopted recommending that the department of superintendence overture the National Educational Association to order that 12 phonetic words be used hereafter in all its publications. These words are: "business" for "business"; "measure" for "measure"; "pleasure" for "pleasure"; "red" for "red"; "ru" for "ru"; "trough" for "trough"; "thru" for "thru"; "tong" for "tong"; "yung" for "young."

ENGLISH NAVAL ESTIMATES.

New Government Will Continue the Policy of Economy.

London, Feb. 28.—The new government, having little time in which to frame a new naval budget, has practically adopted its predecessor's estimates, thus continuing the policy of economy already initiated and considered justified by the altered circumstances resulting from the Russo-Japanese war. In view of the destruction of the Russian sea power, the Anglo-French entente, the government considers it possible, without detracting from efficiency, to call a halt in the constantly increasing naval expenditure. Lord Cawdor last December foreshadowed a reduction of \$1,500,000 and thus, with the reduction of \$17,500,000 effected last year, a total of \$25,000,000 is knocked off the naval expenditure in two years. The government gives no details of the new program, but it is understood that the projected four armored vessels will be large battleships, presumably of the dreadnaught class. The naval estimates for 1906-1907 show a net total expenditure of \$159,347,500 being \$12,600,000 less than the estimates for the present fiscal year.

AIR LINE UP PIKE'S PEAK.

Colorado Springs, Colo., Feb. 28.—Announcement is made here today that the owners of Pike's Peak cog rail road are negotiating for patent rights under which they propose to construct an air line electric road up the east slope of the peak to the summit. The project contemplates the use of the inclined plane motive power on which is covered by the patents in question. This line will replace the present cog wheel road and in addition to making a line shorter than the present one will be available for use for practically the whole year.

ANNUAL STATEMENT BY EQUITABLE LIFE INS. CO.

New York, Feb. 28.—The trustees of the Equitable Life Assurance society today elected John M. Beach of the Telft-Weller Dry Goods corporation a member of the board. There were no other changes, all the officers and standing committees holding over pending the receipt of the report of the committee on bylaws.

The annual statement of the society presented to the trustees showed a reserve of \$25,000,000, including the total receipts for the year, including \$425,028 for adjustment of book values on stocks and bonds, amounted to \$9,105,319, and the total disbursements and losses to \$64,741,352, an excess of receipts over profits over disbursements and loss of \$24,343,567. The statement of assets and liabilities as of date Dec. 31, 1905, shows total assets of \$420,973,750. The total liabilities were \$352,515,506, leaving a surplus of \$68,457,190.

New business in 1905 was about \$80,000,000 less than in 1904. The outstanding life insurance on Dec. 31, 1905, was \$39,419,456 less than it was on Dec. 31, 1904. During the year 1905 the Equitable disbursed \$10,662,975 to policies. This is \$7,731,670 more than was expended upon the same account in 1904.

OLD LADY BURNED TO DEATH.

Baltimore, Feb. 28.—Mrs. Christina MacKenzie, aged 73 years, a sister of the late ex-Gov. Oden Bowie of Maryland, was burned to death this evening at her home in this city. It is supposed that her clothing was ignited by a flying spark from a match which she attempted to light. She died before medical aid could reach her.

MAJ. C. E. GILLETTE RESIGNS.

Philadelphia, Feb. 28.—Having been unable to obtain an indefinite leave of absence, Maj. Cassius E. Gillette, one of the best known engineers in the United States army, today resigned his commission and Mayor Weaver immediately appointed and swore him in as chief engineer of the bureau of filtration of the city of Philadelphia. The position pays \$17,000 a year.

Maj. Gillette has been in practical charge of the filtration bureau since last summer, when John Hay, his former chief, resigned. He had obtained a leave of absence from the war department, but was unable to get further leave.

THINGS LOOK SERIOUS IN CHINA, SAYS FUNSTON.

San Francisco, Feb. 28.—"Things are beginning to look serious in the east," said Gen. Funston in an interview, "and the action of the war department in retaining the troops already in the Philippines will, in my opinion, be justified before the end of the present uprisings. It seems probable," he continued, "that most of the forces for a business expedition must come from the United States, for there are not many more men in the Philippines at present than are necessary for the preservation of law and order among the islands."

WANT ROGERS TO ANSWER.

New York, Feb. 28.—Application for an order requiring Henry H. Rogers to answer the questions which he has refused to answer in the Missouri Standard Oil inquiry was made today to Supreme Court Justice Gildersleeve, by Henry Wollman, representing the state of Missouri. Justice Gildersleeve put the case over until next Friday, asking that Mr. Wollman at that time have ready a certified copy of the decision of the Missouri court in a case similar to this one.

GOLD IN THE TREASURY.

Washington, Feb. 28.—For the first time since May 1, 1904, when the government made its payment of \$50,000,000 for the Panama canal property and \$4,650,000 was loaned to the Louisiana Purchase Exposition company, the daily statement issued today shows for the fiscal year a surplus of receipts over expenditures. The surplus today amounts to \$1,102,903. This is regarded

NATURE'S WARNING:

Salt Lake City People Must Recognize and Heed.

Kidney Pills come quietly—mysteriously. But nature always warns you through the urine.

Notice the kidney secretions. See if the color is unhealthy. If there are settlements and sediment. If passages too frequent, scanty, painful.

It's time then to use Doan's Kidney Pills.

To ward off Bright's disease or diabetes.

Doan's have done great work in Salt Lake City.

James M. Morris, Miner, of 41 South Sixth West, says: "I followed railroad for months and if the constant jarring of the train, the stopping, twisting and turning involved in such an occupation was not, the primary cause of kidney trouble it certainly aggravated it when the attacks occurred. Later I had considerable annoyance from the dull disagreeable aching in my back, was unable to complete a day's work. I have been so uncomfortable in any position that to rest was out of the question and very often my rest was disturbed."

I knew from the action and condition of the kidney secretions that those organs required attention. I read advertisements about Doan's Kidney Pills and went to P. J. Hille Drug Co's store for a box. I took a dose or two and had helped I never would have continued the treatment, and if the treatment had not been satisfactory I could not be induced under consideration to publicly endorse the remedy."

For sale by all dealers. Price to each, 50 cents. Doan's Kidney Pills, 50 cents a box. For the United States, Foster-Milburn, New York City.

Remember the name—Doan's—and take no other.

by the treasury officials as a remarkably fine showing, especially in view of the fact that the expenditures since July 1 last, on account of public works, exceeds those for the corresponding period last year by nearly \$12,000,000. A very large part of this sum was paid out for Panama canal construction.

BILL TO PROHIBIT FREE DISCUSSION.

Albany, Feb. 28.—A bill to prohibit in this state even advocacy of the suggestion that persons suffering from an incurable mental or physical ailment be put to death was introduced in the assembly branch of the legislature today.

A BRAVE ENGINEER.

Butte, Mont., Feb. 28.—A light engine crashed into a passenger train on the heavy grade west of this city today and that a large number of lives were not lost is due to the heroism of Engineer Barker of the light engine, who, when he realized he was rapidly running down the passenger, stuck to his job. Barker remained with his engine until he saw a collision was inevitable when he and his fireman leaped for their lives, escaping with nothing more than a bruise. The engine was practically demolished and the coach wrecked. Thomas Conroy, a trainman, becoming confused in the snowstorm was run down and killed.

HEAVY SNOW IN MONTANA.

Butte, Mont., Feb. 28.—Butte and the state generally was visited last night and today by one of the fiercest snowstorms of the season, the fall ranging from 12 to 20 inches in depth. Eastern Montana points report a heavy fall, but if the weather does not get extremely cold no losses of stock are expected. The temperature is falling tonight as the result of the wind.

ARE YOU ENGAGED?

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years, my life suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." Z. C. M. L. druggists, 112-114 South main St., sells and guarantees them, at 50c a bottle.

OGDEN AND RETURN, \$1.00

Via D. & R. G., Sunday, March 4th.

Leave Salt Lake, regular train, 19:25 a. m. Special train, 2:30 p. m. Regular leave Ogden 8:00 a. m. Free lecture at Ogden on "Christian Science" by the Honorable Clarence A. Buskirk. Everybody invited.

COLONIST RATE

Daily, Feb. 14th to April 6th.

Via O. S. L. and U. P. Lines, to Mexico City and many other points. Rates \$44.00. See agents for further particulars.
